Minutes of the General

ELEVENTH ANNUAL REPORT

(Seventy-Ninth of the Organization)

ON

HOME MISSIONS

OF THE

PRESBYTERIAN CHURCH.

In laying our Annual Report before the General Assembly, the Board finds great occasion for gratitude to Almighty God for so much success and encouragement in our work as have been furnished in the records of the year. No members or officers of the Board have died during the past year, though one of the Secretaries, the Rev. Cyrus Dickson, D. D., by recommendation of the last General Assembly, has been excused from service on account of ill health. But we regret to say that an unusually large number of missionaries have been called away by death:

One of our warmest friends and our most generous contributor west of the Mississippi, Mr. T. M. Sinclair, of Cedar Rapids, Iowa, has been suddenly cut off, in the prime of life, by accidental

death. Others who have been identified with our work have also closed their earthly labors, and we can only pray that men may be raised up to take their places.

The rapid extension of the railway system has made accessible every desirable section of the Great West. Into that line of Territories extending from Dakota, on the north, to the Gulf of Mexico, on the south, a region nearly fourteen times as large as the state of New York, the immigrants are flocking by tens and hundreds of thousands.

All the mining regions of the Rocky Mountain system are also brought near, while new railroads north and south are opening new routes to the Pacific, and bringing all that is desirable there within easy reach of immigration.

Thus opening Utah, New Mexico and Arizona, we have in like manner also been brought into close contact with most of the Indian Reservations; and under the guidance of the Holy Spirit all the new information thus gained has been used to give new interest to the solution of the "Indian problem" and the "Mormon problem" and to draw attention to the inhabitants of New Mexico, the oldest settled portion of the United States.

New missions and schools have been established among all these exceptional people which furnish great encouragement to the Church. A summary of such labors is furnished under the head of "Woman's Work." The entire Department of Schools is supported by the contributions from the women and the Sabbath Schools of the Church; and what they have accomplished during the year will be found in other parts of this Report.

Other denominations are also entering heartily into the work of schools. The Episcopalians are enlarging their work over all the west and giving special attention to schools in New Mexico, Arizona and Utah. The Congregationalists have organized a new society with the sole purpose of establishing and sustaining Christian schools, mainly among the people just spoken of.

The attention of the members our Board was called to the same subject, who, taking a large view of education saw, as never before, the great difficulty of obtaining in sufficient numbers men who had been educated in eastern institutions, and the urgent necessity that institutions of learning should be established for the adequate supply of missionaries for the west, and a memorial has been prepared to be laid before the General Assembly at this time. Meanwhile the whole school work of the year has been so prosperous that on every hand there is a demand for many new schools and for enlarged accommodations in the older schools.

It is not a new thing for this Board to eall for more men for frontier work; but in view of such faets as have been named we desire to call the attention of the Assembly to the growing demand for more such laborers. The last year we obtained all the good men we could from the graduating classes in all our theological seminaries, but the supply was not equal to the demand, and we were constrained to send out, at heavy cost, many men with families, who on that account cannot as easily adapt themselves to frontier work. But obtaining men from all available sources, we have been unable to acquire the requisite number. This year the difficulty is not diminished. The railways are still extending—the people are still flocking into the newest portions of the west. The missionaries on the ground are constantly appealing for helpers and yet it is impossible to find the men we need.

Our financial condition seems to intimate what is the Divine will and the will of the Church on that subject. The Treasurer's report shows that nearly \$15,000 more has been raised the past year than any previous year in our history. Is not such a result proof conclusive that the Lord and his people are urging us to press forward and occupy all the waste places of the land? We therefore call on the Assembly to consider carefully the necessity for an increased supply of missionaries for the new states and territories—not as an exigency or a temporary but as a permanent necessity—for if this country is to be won for Christ, if we as a Church are to keep pace with the increase of population and its rapid flow in the vast and unoccupied spaces of our country, we must plan not for a single year but for decades—we must plan for an increasing demand for men till the population is equalized from sea to sea.

We desire to call the special attention of the Assembly to the "Present Outlook" of the work presented, being largely in the language of missionaries of experience who know whereof they

affirm. It shows what wonderful opportunities are now furnished us for home missionary work.

THE PRESENT OUTLOOK.

The world has scarcely ever witnessed such an overflow of people into the great open spaces "beyond" as during the last year along our western frontier. The great territories, taken as a whole, have much more than doubled their population during the last decade. The increase of population in such States as Texas, Kansas, Nebraska and Colorado, and such Territories as Dakota, Utah, Montana and Washington—is a matter of surprise to all.

We should be glad if we could give any adequate idea of the growth of population in the wide expanded west, for nothing could more emphasize the demands for home missionary work. During the last decade the immigration to the extreme west has surpassed everything that has transpired before. Minnesota has increased its population 76 per cent.; Montana, 89 per cent.; Kansas, 267 per cent., and Arizona, 330 per cent. Many of these immigrants are young men, with their wives and little children, from the older States. A great many of them are whole families from the overcrowded population of the Old World. They come even now as never before, and we have only seen the beginning of what is to be. The stern necessity is laid upon them and they must come. It is estimated by an intelligent and observing statistician that not less than 1,300,000 immigrants have made their homes west of the Mississippi during the past year. In other words,

Kansas has increased her population by 631,000, and Texas by 780,000, and Dakotah Territory by 120,000—and the most of it in the last two years. Nebraska has nearly quadrupled her population, Oregon has doubled hers, and Colorado has increased almost five fold.

Last year five hundred and eighty-six thousand foreigners came to our shores to find permanent homes. This number, if they have gone to the frontier, would make 2,300 congregations of 250 each, which is much larger than an average frontier congregation. Or, if they have stopped in our great cities, they have pushed out or

taken the place of others who have gone to the front. All these congregations need missionaries, churches, Sabbath schools.

An examination of our railway system will help explain it all. More than 7,000 miles of railway were built last year. In only one year of our history has that distance been surpassed. notice the States and Territories where they have been builtmore than 5,700 west of the Mississippi, 724 in Dakota, 653 in Texas, 540 in New Mexico, and other Western States and Territories in like proportion. Railroads are in process of rapid construction down the valley of the Rio Grande to the line of old Mexico, westward by the thirty-fifth parallel through northern Arizona and southern California to the Pacific, and southwest to Guaymas in old Mexico; meanwhile the southern Pacific stretches across southern California, Arizona and New Mexico and hastens to connect itself, in Texas, with all the East at an early date; thus joining Texas on the Gulf with California on the Pacific, and bringing Texas, New Mexico, Arizona and southern California together a compact territory embracing almost 600,000 square miles.

Dakota, Montana, Idaho and Washington Territories, and Oregon, will all soon be in striking distance of the great centres of population at the east, and they constitute a district of country 551,000 square miles in extent, and easily reached by the Northern Pacific Railroad. These new railroads show where the people are going. And where they go there the missionaries must go to save them.

We desire to set before you as far as our space will allow, in the language of missionaries of experience, who know whereof they affirm, the wonderful opportunities that are thus presented for home missionary work. Now is the time to make the desert blossom as the rose, to redeem wide wastes for the kingdom of the Redeemer. By what is said below you will see that more men are called for in Dakota and Montana, Nebraska and Kansas, Texas and New Mexico, Colorado, Utah, California and Oregon. Shall such glorious opportunities be thrown away? Shall not the past suffice for the day of small things? The people in the new sections, in the sparse settlements, in the wilderness, among the mountains, in the mining towns, need to be looked after now. Their children need Sabbath

schools now. The Church has money enough and men enough to fill the broad land with the institutions of the Gospel if she will only awake.

The writers show what has been accomplished in the past as an encouragement to undertake the larger work of the future.

WISCONSIN.

Rev. J. W. Sanderson says:

We have organized fourteen churches dnirng the year just about to close, and we have added fourteen additional laborers, though three of them were theological students, and are not permanently located with us. But we have twelve or fourteen vacancies—all worthy and responsive to the faithful ministry of the Word. Besides, we need for new points at least ten more for the spring campaign. We need then at least a score of men, earnest, apt, and consecrated. Our hopes are centred in the coming classes of our seminaries, and in the firm belief that the need we feel *He* feels infinitely, and will prepare a full supply.

This extreme winter that has been so disastrous out on the plains and in the open wheat country of Minnesota and Dakota will turn emigration into the wood country of our upper State. This is the assured conviction of many, and the movements of our railroad corporations prove the same. Therefore, we must be ready to meet them.

You ask for data relative to the railroad extension and immigration now marking this vast region. Concerning the first, it may seem to you that railroad extension and all the stir thereabout come of good times and of money seeking new investments; and yet if it were not for the vast movements of people pouring in and filling up these prairies and wildernesses, etc., capitalists would be slow to build; but they are building across and up and down this commonwealth as never before. Wisconsin was never so crisscrossed. A new railroad to St. Paul was officially opened on Monday last, whereby a third line may bring in, carry across, and quicken prosperity, open up an outlet for lumber, and with the exchange will come life and activity unbounded. Our State has more wealth with more poor immigrants, more great corporations by contrast with its sturdy yet poor masses, than any in the West.

As I have often said, one-half of this Synod, that is, the half of 90,000 square miles, is all mission ground, such as you have anywhere farther West, with this exception: the people are not ancient natives, but yesterday's arrivals; so that before they become too deeply intrenched in stranger ways,

we can fetch to them this gospel, and no matter who they are, they take to it, if we can send them a preacher whom they can understand.

There has been built within the past year by the various companies 600 miles of railroads within the State and upper Michigan, and the work is further progressing. Please, therefore, bear in mind in apportioning men and means for Christ's work in this Synod that though we have many vacancies and hence dire need, yet there is abundant ground for rejoicing and proud thanksgiving. Our beloved church is moving forward at a better rate of speed, strength and prestige. "Aggressive" they call us, and the same does not shame us. The churches are fast awakening to the needs of this work, and have formally yet firmly promised to do in some sense worthy the cause and the great Head over all.

TEXAS.

Rev. Henry S. Little says:

Our prospects are very fine. The Presbytery of Austin has gained in church members this year thirteen per cent., or an average of 115 per preacher. North Texas has gained thirty per cent., or nineteen per preacher. Trinity has gained forty-one per cent., or sixteen per preacher. That is a fraction less than sixteen per preacher throughout the Synod. There are four important besides two minor railroads being built through western Texas. Last year, because so dry, tested Texas as a cotton State. A fair crop was raised, and those who were ready to return to their former homes are now arranging to multiply their lands. Land agents are very active, setting a good example to the Church of Christ in exploring and locating. This year the crops are very fair, and many will locate here in consequence. I am very certainly within bounds if I ask for twenty men this spring and early summer, and this is all the more probable because of the fraternal relations between the two Synods of Texas.

Reasons for expecting immigration.

- 1. Six new railroads, three of them through lines.
- 2. Texas a cotton State.
- 3. Crops very good this year.
- 4. It is a poor man's State. Cattle weather the winter with only two weeks feeding. Little expense in houses, clothing, wood. Nights always cool, and climate delightful.
 - 5. A very fine sheep country, and this interest rapidly developing.

Reasons for urging Presbyterian preachers to come to Texas.

- 1. Presbyterians are comparatively weak here. There are 90,000 Baptists, 70,000 Methodists, 20,000 Cumberlands, 20,000 Campbellites, and only a fraction over 7,000 Presbyterians in both of the Synods of Texas.
- 2. Presbyterianism has greatly prospered of late in the State. Our Synod has gained sixteen preachers or about nineteen per cent. the past year. The other Synod has gained ten per cent.
- 3. Presbyterian preachers, because generally educated, and because engaged in no other calling, meet with special favor. The name Presbyterian is everywhere respected.

MINNESOTA AND NORTHERN DAKOTA.

Rev. D. C. Lyon says:

- lst. It is a *large field*, extending from Lake Superior westward to Montana 650 miles, and north and south 400 miles.
- 2d. Never in my western life, a period of one-third of a century, have I seen the tide of immigration passing westward, as during the last half of the past decade. Long trains of cars on our six railroads running west are filled with home seekers in the new north-west, during the entire moving season.
- 3d. The class of the incoming population, especially in Dakota, strongly invites the aid of the Presbyterian Church. Among them is a very large sprinkling of those educated in the Presbyterian faith, and who therefore naturally seek a home in our church. Can we deny it to them?
- 4th. Our fields vary with the amount of labor already bestowed thereon. Some of our vacancies have had organizations for years, though all are comparatively needy. Some have church buildings; others are houseless.
- 5th. You ask "how many men do you want for the spring campaign?" I reply, more I fear than you can find of the right stamp; men who will be willing to dig down and lay foundations, and work on the rising structure until the capstone shall be placed, and then cry "grace unto it." If you can turn to us ten good men of this sort we shall be thankful, and proportionately for more, up to fifteen.

Rev. C. B. Stevens, of Fargo, Dakota, says:

"The Presbytery of Red River is in territory just about as large as the State of Minnesota. It comprises all of Dakota north of 46° latitude and eight counties of Minnesota lying most nearly contiguous on the east. This Presbytery was organized October 31st, 1879, with seven ministers and ten churches. It now has eighteen churches and fifteen ministerial supplies. The

rapidity with which immigrants flocked to this region during this past year is beyond that of all previous years; but the coming season promises to surpass the last. Pembina County, with an area twice as large as the State of Rhode Island, is claimed to have now a population of 10,000, of which three-fourths are Canadians—and in large proportion Presbyterians. We have yet to put there our first Presbyterian clergyman, and our work needs enough to preach the Gospel to a scattered Presbyterian population of 5,000; that number will be vastly increased within three months. Grand Forks County is about one-fourth part larger than Pembina County, has an equal population of similar description, and must receive a like flood of settlers in the spring; and there we have one ordained minister and one licentiate. From 50,000 to 75,000 people, it would not be extravagant to expect, will settle within the bounds of Red River Presbytery during this year of grace 1881. You are alive to this great movement. But the church—we wish it to awake to the fact that, within the limits of the Red River Presbytery, is one of the grandest opportunities ever given the Presbyterian Church to do a work worthy of her mission. This will be a Presbyterian region, if the opportunity is seized to make it such. The admixture of the Scotch and John Knox element is in larger proportion than in any other portion of the United States. Are we to let slip from our hands the work the Master solemnly charges us to do for Him? That question our church must answer promptly or He will give the work to other churches, so as to divide, cripple and embarrass us, with weak missionary churches, for years to come, while prompt, efficient action would give us, in union, a strength that would raise our churches very soon into self-support."

"More miles of railroad have been built in Dakota during this past year than in any other State or Territory; and pretty surely a greater number of miles will be built during the year to come. Such a land needs, for such a population, instinct with such enterprise, the choicest professional ability that can be enlisted. This ability is needed to lay foundations; to give form and character to a great commonwealth ready to spring into existence. Ready ability, executive ability, consecrated talents are needed, and must be furnished by the church, as she is true to our country and Master. Will our seminaries give us such men? Men of some experience might be more desirable, but such a land and population would soon train good native ability, well educated in our schools, to a professional aptitude and power not so quickly gained in the staid communities, and uninspiring work of other parts of our land. Young men! successful pastors, still young and comparatively unincumbered, that think to change your fields of labor, please

consider the claims of North Dakota upon the attention of a consecrated ambition, before seeking or accepting positions that scores are selfishly anxious and scrambling to secure.

IOWA AND SOUTHERN DAKOTA.

Rev. A. K. Baird says:

I give you only a recapitulation for fifteen months ending Jan. 1st, 1881: Twenty-one vacant churches have been arranged into fifteen self-supporting charges, and supplied with ministers: thirteen of the fifteen being new men in our bounds.

Forty-three vacant churches have been arranged into twenty-six mission charges, and supplied with ministers, and nineteen of the twenty-six are new men in our bounds. Thus sixty-four vacant churches have been supplied by forty-one ministers, and thirty-two of the forty-one are new men. But in the same time we have lost to the active work nineteen ministers, leaving a net gain of thirteen men. Twenty churches, supplyable, are now vacant, and it will take at least twelve men to man them fully.

In the same time twenty-three churches have been organized; thirteen in Ft. Dodge Presbytery (ten of them in Dakota Ter.), two in Des Moines Presbytery, five in Council Bluffs Presbytery, and three in Waterloo Presbytery. Aggregate membership, 450; average, 20. All these churches are supplied with regular preaching except three, and one of them will be supplied soon; three of them have built houses of worship, and three more are building; one has built a parsonage.

In the same time uineteen houses of worship have been built, at an aggregate cost of \$53,100, an average of \$2,800. Sixteen of the nineteen are Home Mission churches; uine have houses of worship well under way, at an estimated aggregate cost of \$37,900, average of \$4,200, and eight of the nine are Home Mission churches, all without debt. Such has been the work for the past fifteen months. Of the fifty churches organized in our bounds in the last four years, all are alive save one—all supplied except four, temporarily vacant; fourteen have secured houses of worship, and all out of debt. There is not so much organizing to die in the West, as some seem to believe!

The above items must serve for the retrospect. A word about the outlook. There is much I could write, but really have not time. Take S. E. Dakota: as I drove over its beautiful but lonely and endless prairies in the spring of '78, little did 1 dream that in less than two years the unpeopled

desert would become an inhabited country—less than 100 miles of railroad then, to little if any less than 1,000 now; the two little churches increased

to thirty-two or three (N. & S.) Immigration was very great last year; guesses range from thirty to fifty thousand. But no matter about figures; this *I know*, that hundreds of miles of healthful and fertile country are being literally transformed. Six lines of railroad are marching abreast across the beautiful plain toward the mountains beyond, and thousands of families are going with them, and trying to get ahead of them, in search of homes and fortune. And the great majority of the immigrants are our own people—our kin, our children, and they demand the ordinances, and the civilizing and saving influences of the gospel from us. Shall these be denied?

Iowa has taken a new start. There were immense improvement and growth last year, and without doubt next year will far exceed the past both in Dakota and Iowa. I have not at hand the figures for 1880, but in land sold and miles of railroad constructed, and manufacturing establishments opened, and in farms improved, and towns built, and crops raised, and money made, the like has never been seen in Iowa. The railroads are pushing from the south and north as well as from the east, and the great trunk lines are running out feeders in every direction-protecting their territory they call it-and many new spurs are planned for 1881, and some of them graded. Each main railroad lies across the State like a giant tree with wide spreading limbs. The whole State is fast becoming a perfect network of iron. Even north-west Iowa, that has been scourged so severely with grasshoppers, and so retarded in its development, is fast marching to the van. Before another decade I believe that region will be the garden of the State. It is now extremely difficult to get twenty miles from a railroad in Iowa. It is possible only in a few favored (?) spots. And no doubt in two years it will be just as difficult to find such a secluded place in Dakota, from Minnesota to the Missouri, and from Yankton to Pembina. Already the main east and west roads are beginning to plait their network of steel-sending out feeders north and

Truly a dispensation of Providence is committed to us; and characteristic of the age, the work of a generation is upon us, demanding that it be done in a year. If the country would only open up gradually, and the people go in by degrees, in the good old fashioned way, we might trudge along and do our work fairly well. But when the country will all open up at once, and people move in in a body, and from the British Possessions to the Gulf overturn things and fling the frontier 100 miles out into the wilderness annually, what are we to do? Just such is the problem before us. It will not do to say "there are people and farms and mills and towns away on for 100 miles or two yet, but the church and the Sunday school and the

minister have only got thus far, things rush so we cannot keep up." God help us overtake our work. And may His children all through the land have their eyes opened to see clearly the true state of the case.

Are God's people equal to God's opportunity? It is too bad that Christians, ministers, missionaries, and laymen alike, should only be half awake in such a day as this! Woe unto us if we preach not the gospel to our own children in our own land. You want to know about the outlook. It is bright enough, but bristling with demands for hard work and big with responsibility. My field is prosperous from centre to circumference. There is not a drowned or dried up section in it, and if the stream of 1880 well-nigh overwhelmed us, how shall we stand before the flood of 1881; as far as man can see the immigration, the development of next year will far exceed that of last. There is a lull now. You do not need to-day to stand up on west-bound trains. Railroaders, miners and farmers are busy now counting the degrees below zero. they are only resting-recruiting their strength and maturing their plans. The railroads are piling up material at the termini of their lines. Already the intending settler is looking over his moving wagon, and building castles in the air, in the family circle round the winter fire. All will be ready for the race as soon as the blizzards of 1881 blow over, and trains and prairie schooners thicker and faster than ever will set out towards the setting sun. And the question of questions burning down into the hearts of those that see the grandeur and momentousness and decisiveness of present providences is: Will the church come up to the greatness and glory of the work? Will she pray the God who guides the tide of immigration, and loves the families that are to occupy His land, to put it into the hearts of true and qualified ministers of Jesus Christ to consecrate themselves to this work? And will she quickly and cheerfully draw from the abundance of her treasures whatever may be needed thoroughly to equip such a band as never before went out to save the people and glorify the Lord? And will she continue to pray for them and sustain them as never before? And will the right men dedicate themselves to this work? If some one would only answer these questions how it would simplify things. But I must stop.

KANSAS.

Rev. Timothy Hill, D. D., writes:

"During the year 1880, a drouth of great severity prevailed over all the Western portion of the State, and consequently all along the frontier settlements there was a rapid decline in population caused by the departure of people returning to the older settled regions. The frontier churches were greatly weakened, and in a few instances are likely to pass away for a time at least. The Eastern and Central portions of the State were prosperous, and the indications at the present time are that there will be a return of prosperity to the frontier this coming season.

During the year 1880 there were twenty-one new churches organized with an average of fourteen members each.

There are now twenty-six churches and groups of churches arranged for pastoral charge vacant in the State. Some ten or twelve of these churches are in correspondence with ministers for a supply, and some other men are seeking fields of labor in the State, so that we need some twelve more men for a full complement. With returning prosperity on the exterior frontier there will be an additional demand for men.

Comparing the statistics of 1880 with those of 1879, we find an increase of nineteen ministers, twenty-five churches, and two hundred and six members. If we go further back in our examination and take the minutes of 1870, we find there were seventy-three ministers, eighty-nine churches, and 2,762 members. In 1880 there were one hundred and seventy-four ministers, two hundred and seventy-four churches, 11,259 members; a gain of ten ministers, eighteen and one-half churches, and eight hundred and fifty members each year for ten years. In 1870 the population of Kansas was 359,349, and we had then one member of the church to every one hundred and thirty persons. In 1880 the population was 996,000 (I have not the exact figures before me), giving us one member to every eighty-eight persons. The outlook for the future is good, the prospects for growth are fair. In all these figures the statistics of the Indian Territory which are a part of the Synod of Kansas are not included."

MISSOURI.

"I will venture a few things in regard to our work in Missouri. There are some thirty counties in this State in which we have no church, and over twenty in which neither we nor the Southern Presbytery have any. One can go from the Mississippi to the Indian Territory across the State and not strike a Presbyterian church. To this should be added the State of Arkansas, where we have nothing, but where some three or four churches ought to be organized at once,—beginning at Eureka Springs, where there are 10,000 or more people and no church, a new town in the mountains and woods. It is apparent that Missouri is likely to change for the better. I think there are many indications of that, and I shall be greatly disappointed if the openings for us are not greatly increased in a short time. To me it is clear that

we ought to take hold of Missouri with a strong hand, and push our work more than ever before."

Rev. J. J. Marks, D. D., says:

We have in our Presbytery twenty-five counties, nearly one third of the State. We have thirty-eight churches. To supply them we have but eight ministers. To keep living twenty of these churches is as much as eight men can do. In the meantime a great tide of immigration has set in and thus South West Missouri is becoming all that Kansas was last year. Four new railroads are now in progress in our field. New towns are springing up. New mineral and coal discoveries are exciting interest and drawing in a tide of families. We receive messages every few days to go to one of these new towns and organize a church. But we have no one to go. I know that a missionary could visit and nourish these churches, and look after the sheep coming into the wilderness. But as it is we have no man to send, and the tide leaves us.

MICHIGAN.

Rev. T. D. MARSH writes:

"Ten churches have been organized in this Synod since April last. Thirteen new missionaries have been introduced to mission fields. Four new missionaries are imperatively needed at once for vacant and suffering churches. Besides these we could readily place two or three others at once on important new work. And besides these it is apparent that in the spring there will be other new fields opened, and needing to be occupied.

As to immigration, Northern Michigan is filling up. Population increased 440,000 in the last decade, mostly in the northern half. As many more will come in during the next ten years. Not long ago Brother Kelland of Cass City, organized a church of twelve members at Brookfield, Huron Co., no one of whom had been there two years! In a year's time there will be two railroads to Mackinaw, and a railroad running from there to Marquette and Duluth. We must push Home Missions in Michigan."

INDIANA.

The veteran Missionary of this State, Rev. H. Little, D. D., whose brief letters are always full of suggestive facts, writes as follows:

1st. Five churches have been organized during the year 1880.

2d. Twenty-five ministers have come into the State, about half of them to self-sustaining churches, and the other half to feeble ones, or groups of churches. Still almost as many have left us and gone to other States. We

need at least twenty-six men for the spring campaign. So sadly frequent is the change of ministers, that for some years we supply about seventy-five churches in the State annually. Our interior and eastern Synods send more members west than they receive. For instance, our two Synods in three years have received 7,279 members, and yet have 560 less in number than we had three years ago. When our feeble churches have preaching they have many additions, but some of the richer members emigrate, so that a successful Home Missionary often sees, at the end of five years, he has not as many members, or as much money to support him, as he had five years before. Look at the Minutes of the General Assembly and you can see something like this in the States east of the Mississippi river. Others, not Christians, come into the places these emigrants have left, and multitudes of Christians and even ministers seem to feel as if they were in no way responsible for such outsiders. If the churches would contribute so much that I could say to men, full up to the average of ability, "Come into any of our groups of two, three or four churches, and we promise you permanently at least \$700 salary; "-what results I could show you in our two Synods in these coming years. Ought not Christians who send ministers to Africa and China, to send good strong men to these feeble churches, east of the Mississippi river, with quite as much hope that these outsiders may come to Christ, as the heathen in those heathen countries, and are not their souls worth as much in every way? Does not this statement of facts show, that the often repeated statement, that feeble churches in Pennsylvania, Ohio or Indiana ought not to be assisted but about three years, is a question with two sides to it. At least, in all our calls for money the call should be londer, because so much is still needed in the older States.

SOUTHERN ILLINOIS OR "EGYPT PROPER."

Dr. C. S. Armstrong says:

I give the results of ten months of labor, beginning when I was myself almost an entire stranger to the field and the work.

This Territory embraces the forty-four southern counties of Illinois, known these many years as "Egypt proper." We have now in the three presbyteries constituting the Synod, one hundred and fifty-seven church organizations. Of these, fifteen or more have known scarcely more than a nominal existence. Some of them perhaps (?) should not have been named churches.

Remember, too, that many of these churches were born among people who are very slow to grow vigorous institutions—in Egypt. But this condition is now rapidly changing. New railroads and new towns and lines of traffic

are all revolutionizing the former things, infusing new blood and a new life. It is the first page of a new chapter.

On the 1st of May last one of these three presbyteries had twenty-five unsupplied churches. Fifteen other vacancies have since occurred. Twenty-seven have been supplied, leaving fourteen unoccupied churches at this date. Among these are a few, perhaps four, which have no life and perhaps no ground to live, trying some years to die. At least four others are strong churches, seldom vacant in their history, and soon to be supplied. There remain six vacancies, which will be supplied by three men as soon as negotiations now pending can be consummated. The twenty-seven churches supplied have been arranged as follows: seven single self-sustaining charges; five self sustaining circuits; one single mission charge, and five missionary circuits. Of the seventeen churches marked vacant in the minutes of 1880 thirteen are now supplied.

The presbytery thus detailed had vacancies in excess of either of the others, but the work of supplying has been in like proportion to the vacancies. On the whole field fifty vacancies have been supplied, and nineteen new men introduced to the presbyteries.

The map of our Egypt is rapidly changing. Enterprise, railroad building, new stations, markets, villages, coal fields, &c., are changing some of our hitherto feeble churches into important positions. Probably no territory of like extent, prospects and possibilities can be found to-day east of the Mississippi. Exact figures I think would fully justify this claim. A vigorous campaign of exploration and occupancy is planned for the early spring and summer. We hope to combine and group so as fairly to use our force, and then to add to that force ten new men, to take our now neglected churches long reported vacant, and with their surroundings erect a few vital charges, and then enter a few unoccupied points and possess as God may give us favor.

It is our hope, if not at the spring, yet by the autumn meetings of presbyteries, to erase from our minutes all the vacancies on the list.

Besides this work of exploration and supply, I have given nearly five of these ten months to continuous effort, devoting from one to three weeks to a place. So lifting up some needy field, or aiding a pastor in harvesting where he has been sowing.

All this time I have been oppressed with the feeling, "Oh, that I were three or five men," and as I glance backward over the ten months, I doubt if there is a week when, had I been five instead of one, I might not have been fully and profitably occupied.

NEBRASKA.

Rev. Geo. L. Little says:

"The results of our year's work in Nebraska may be summed up as follows: Twenty-two churches organized with an aggregate membership of 330, or an average of fifteen to each church; fifteen new ministers introduced and located; eight new houses of worship completed at a cost of \$16,500; five more in process of erection; 767 members added, about one half on profession of faith, and our work pushed out into new regions, covering ten (10) may counties in each of which churches have been organized, or the way prepared for organization at an early day.

The outlook for the coming year is most inspiring and hopeful. Four hundred miles of railroad were built during the present year along which vigorous towns have been springing up, many of which we have not yet been able to reach. These railroad extensions will continue during the coming year, creating new towns and opening for us new and inviting fields of labor. The stream of immigration, partly checked by the extreme drought of last summer, will begin to pour in afresh with the coming spring, and large areas of our fertile prairies will be turned over by the plow. We are caring for our farming population, and some of our most promising churches are located in farming communities. We will need for the coming year at least a dozen new ministers. In fact, the only limit to our work is the want of suitable men to push it forward. Give us energetic, self-denying and judicious men. Men who can adapt themselves to our Western ways and get hold of our wide-awake and progressive Western people, and we can "lengthen our cords and strengthen our stakes" indefinitely. Give us missionaries and we can go up and possess this goodly land for Christ.

COLORADO.

Rev. Sheldon Jackson, D. D., writes:

"The growth of population in Colorado during the past year has been unprecedented. Two years ago the population was estimated at 100,000. Last June the census gave us about 195,000, and now we have over 200,000 and still they come. While the increase, for instance, of Kansas in population during ten years has been 267 per cent., Colorado has gained 489 per cent.

The popular vote for 1880 showed an increase of 26,000 over that of 1879. During the past year over 1,000 new houses were erected in Denver, and there are not lodging places sufficient for the multitudes that are pressing in. These figures only give you a faint idea of our wondrous

growth in population, and imperfectly indicates the task that is upon us of supplying the incoming multitude with the Gospel. Churches and missions were organized the past year at Salida, San Rafael, Irwin, Walsenburg, Gunnison, West Denver, Castle Rock, and Sagauche. These could have as easily been quadrupled in number, if there had been any reasonable prospect of being able to supply them with ministers.

The ten new ministers that we were able to secure last year were all but one sent to existing vacancies, and this spring we need twelve more ministers to take charge of existing churches, and five for new fields, making seventeen additional ministers that are now urgently needed in Colorado and Wyoming.

WYOMING.

Wyoming also is growing rapidly, having doubled its population during the last decade.

Three new railways are expecting to enter the Territory during this year. Farms in Northern Wyoming are rapidly being taken up, and new counties being organized. Eastern capitalists are opening up two petroleum oil belts.

They are also preparing to erect glass works and utilize the extensive soda lakes of this region. New developments are also being made in the mines, and on every hand new and extensive improvements.

NEW MEXICO.

New Mexico, with the advent of the Atchison, Topeka, and Santa Fe Railroad traversing the entire Territory from north to south, the Atlantic and Pacific crossing from east to west in the north, and the Southern Pacific from west to east in the south, with the Denver and Rio Grande Railroad also penetrating from the north, and with trans-continental trains and travel daily passing through, is waking up to a new era!

The revolutionizing of the old population and the push of the incoming tide, throws weighty responsibilities on the church. During the past year nine new missions were organized, and a Pueblo boarding school started.

We need seven additional ministers for New Mexico, so that my field of the Wyoming, Colorado and New Mexico must have this spring NINETEEN more ministers. We cannot do with less and keep pace with our wonderful growth.

THE WORK IN UTAH, IDAHO AND MONTANA.

Rev. D. J. McMillan says:

When I reached this populous valley, March 3, 1875, I found myself 120 miles from any Christian—not one professing Christian among the 17,000

who lived and moved and had their being in this valley. The entire non-Mormon element had come out from the Mormon church and were avowed enemies of all religion. There was little in common with them and myself except antipathy to Mormonism. They were, however, anxious that some provision might be made for the education of their children. This was the single thread by which I might hope to draw them. This thread I seized with a firm grasp. They gave \$535, and I pledged \$1,000 toward a building at that time unfinished, and the title and the property at once vested in me. I published appeals for help, as none of our Boards at that time could help us build or buy, then went east at my own expense, and personally applied for aid. But my appeals elicited such replies as these: From an elder in St. Joseph: "I've seen enough of these Mormon hordes; there's not a soul among them worth saving. I'll not give a dime toward your enterprise."

A minister in Illinois said: "I believe firmly that the Mormons are all reprobate, and I would advise you to abandon your wild scheme, or you may perish with them."

Said another elder who was a bank president: "Sir, no amount of credentials could commend to my favor the advocate of any such undertaking. Those who have endorsed you have belittled themselves." With these words Dives shut his door in my face and left me standing on his steps in the rain.

Another wealthy elder, preferring bullets and bombshells as Mormon civilizers to the gospel, said: "I'd rather help equip an army to annihilate them," and he turned me penniless away.

But I thank God for giving me more faith in Himself than in men. With 150 children of Mormon parentage under our instruction at that time, and a congregation attending regularly the preaching of the Word, I knew that the effort could not die fruitless. The money came not apparently as the result of special appeals, but in answer to prayer. Whence most of it came I know not to this day. Dr. H. R. Wilson, of the Board of Church Erection, whose heart was in thorough sympathy with the effort, received and forwarded \$500 from some private source, which with \$500 from various other sources, known and unknown, paid for the house.

Spurned by many of the household of faith, despised and cursed by Mormon priests and apostles, I was impelled by the promises of God and drawn by the prospect of 17,000 souls, without another voice to declare a Saviour's love to them. Oh! those days seem now to be but strange visions of the past. Out of those trying and perilous days, and through the then

dark and portentous future, God has surely led us. 500 children and youth have passed under our instruction and influence, and now call us blessed. The circle of young people has been revolutionized. A church whose roll contains forty-two names—thirty-five of whom remain—has grown up. Three other churches in as many neighboring towns are part of the immediate results. An average of one convert per month, or sixty-eight in the five years and eight months, I have welcomed from the Mormon ranks to the communion of our own beloved church. The establishment and maintenance of twenty schools in purely Mormon communities, in an unbroken line of 400 miles from north to south, with 1,500 children of Mormon parentage thus brought under gospel influences, and the distribution of hundreds of copies of the Word of God where before it was unknown, are part of the visible fruits. And now a score of towns who have caught a gleam of gospel light, and felt its warmth and promise of potency as a cure for their ills, are pleading for our help. Behold what God hath wrought! Five years ago when they asked me to sing, my heart said: "How shall I sing the Lord's songs in a strange land?" But now our hymns of praise are cheering the firesides of innumerable homes. They are hummed by the busy housewife and toiling mother. Fragments of the refrains are whistled along the streets, and are caught up by the plodding plowman. They echo among the mountain forests, and are sung along the desert roads. All Utah reverberates with songs of redeeming grace. God grant that the words they sing may become the sentiments of their hearts. Who shall say that the time and money and effort have been misspent!

In turning my attention to the work at large exclusively, I find it hard to sever the ties that bind me to this united and loving little church that clings so closely to the only pastor they have ever known. But I rejoice that my successor will find an exemplification of that beauty which is seen where brethren dwell together in unity. Not a dollar of debt to face. No root of bitterness to disturb. I trust that a new era of prosperity will dawn upon them when I shall have gone away with the smell of the battle upon my garments.

FROM SALT LAKE CITY.

"The outlook for the future both in this city and in the Territory, from every standpoint, is simply grand. The wonderful progress here in every direction certainly justifies the Board in the special attention it is giving to the extension of the Mission work in Utah. Not only from its peculiar location on the great central highway across the continent, but from the superiority of the climate and the wonderful wealth of its resources. I am more

and more impressed with the idea that Utah is going to be one of the most important of all the western States. Bishop Wiley, of the Methodist church, whose official duties last summer led him to pass through nearly all the Territories and the newer States, said, after his trip, that Utah, in point of location, climate and resources, is the "gem of them all."

Our school is going on grandly—so grandly that we are already puzzled again to know what to do with the scholars, the new rooms below being filled up. God's blessing is certainly following that enterprise in a wonderful way. The new boarding department is also a financial success. That is, each month shows a small balance on the right side thus far.

So, taking the work here in this city, the spiritual activity and progress of the church, the continued growth of the school, the success of the boarding department, and the grand outlook for the future, there is the most ample ground for praise to God who hath been our help and shield."

Another writes:

"Work is assuming grand proportions in this Territory. God is placing a wide door before us. The Methodists are planning to build a \$20,000 three story brick boarding house. The Congregationalists have just received \$25,000 for their school. The Episcopalians open a boarding department next fall. I rejoice in all this that is work for all, and the more earnestly the work is pushed from all evangelical points the sooner will Utah be redeemed. We must not, we dare not falter now. God has blessed us in the past. We must go forward and trust Him in the future. The students are coming to us from Nevada, Idaho, Montana and Wyoming, although we have not advertised at all. We are now full. What shall we do? To stop is to go back."

MONTANA is getting ready for a mighty stride forward. In order to maintain our position we must put in at least *four* good men for the spring campaign.

Then we must put two more men in Idaho. Then if we get seven more for Utah, there are thirteen men to be found.

I think I shall go East as early in April as possible, so as to get hold of the young men at the Seminaries before they mature other plans.

CALIFORNIA.

Rev. Thomas Fraser says:

You ask the number of churches organized and missionaries received within our bounds during the year 1880. Churches organized, five; ministers received as Home Missionaries, thirteen. Several have taken H. M.

fields for greater usefulness. Two are Theological students not through with their studies and not on the Board. One came to us from the Congregational Church. Five or six are new men, three of them not yet commissioned, but at work.

We have gained a little during the year, but have suffered from the want of men. I have kept our little churches alive, and have discouraged new organizations. If men do not come on during the winter we shall need a large force in the spring—just how many is hard to say. The prospect is favorable for quite an increase of population and prosperity generally. The rains this month are all that could be wished. The fruit business is more profitable than ever before. Mining is not so profitable, but that is always uncertain.

The N. P. R. R. is advancing from both ends, and may be completed within three years.

The S. P. R. is pushing rapidly for a port on the gulf, probably Galveston. These roads will afford great facilities for settling the whole coast, one bringing in population at the south and the other at the north, just where we most need settlers. This will give great impulse to settlement in all our fields. Confidence is now assured. We may look for great prosperity. Our little churches will live, and many of them will begin to grow.

We have had in San Francisco and vicinity a wonderful revival. The membership of many of our churches will probably be doubled this year. Two hundred and twenty joined our church in Oakland yesterday. There is reason to believe the revival will spread throughout our field, at least in the cities. I have never seen so deep and general an interest in religion as now since my arrival in California. It is most charming. Our whole work will feel the good effect of it.

We shall need for the supply of churches now vacant, and for which I see no provision, at least ten men. Some of these vacancies may be supplied by men in other fields, but these again will be vacant. It is a good time for our young men to come this way. The people are hungry for the word. They don't want sensational preaching, but simple Bible truth, as Mr. Moody gives it. California is sick of sham work in the pulpit. Wherever I go it is the Gospel which is in demand.

OREGON.

Rev. R. W. Hill says:

Within the brief limits to which I shall confine myself, it will be hard to fitly set forth the needs of the great State of Oregon. From north to south and west to east there are fields ripening for harvest—but alas! "the

laborers are few." Fifty-three miles north is to be found the first ministerial neighbor. No church, or preaching station (regularly supplied) in that direction. Twenty-eight miles south to another neighbor. None east or west. Our State has 170,000 people, but our church can only claim about 2,000, or one communicant out of every eighty-five inhabitants.

The reason for this numerical weakness of the Presbyterian church is patent. We live so far from the sources of ministerial supply, and are able to offer only such work as requires patience, self-denial, perseverence, and sanctified common sense to an unusual degree, that the men are all persuaded to locate before Oregon is reached. When there are so many fields in the east or middle west vacant, and eager to secure the graduates of our seminaries, it is not to be wondered at that the cry from distant Oregon is unheeded. Then too, the very scarcity of men has prevented the work of thorough exploration. Each minister in Oregon is at a loss how to work so as to answer the many calls and preach even occasionally to the eager people, so as to use his strength and time to the best advantage. As the people outside of the churches can only be seen occasionally, the facts required by the Board are hard to obtain, and are not as full as they should be. But even the gleanings of hasty work are of interest, showing the disposition of the people, and the possibilities of organization and successful work were men on hand to undertake it.

At Zena, Polk Co., eleven miles from Salem, lives one of the representative men. He owns a church, which has fallen to him for debt. He and his wife are anxious to have regular services. To have a minister who can visit the people, and gather them into a church. The community is favorable to Presbyterianism, and this one family will give \$100 per year toward a missionary's support.

At Independence, about twenty miles from Zena, there are twelve Presbyterians. The town is a busy, thriving place, having both rail and river facilities. There is one church there, although two denominations occupy it, giving to 1,000 people services twice per month. If a good man would occupy these fields together, Polk County would not long remain destitute of a Presbyterian church.

The necessity seems to exist here for a revival of circuit riding, and the assignment of several churches or stations to one minister. In that way these weak places would be nursed into a vigorous life, and only by such a course do I see any hope of occupying the land.

Silverton, seven hundred inhabitants, a fast, lawless, almost Godless town, is now a railroad town. There is no church in the town. The C. P.'s are

numerous in the neighborhood, but have no organization. The place will prove a hard place for any minister who may be sent to it, but a good, energetic man would do good. Taken in connection with Woodburn, it will afford scope for work. Woodburn is the point where two competing railroads cross, and is also growing rapidly. We have eight members there, and there is prospect of success to whomsoever may be sent.

The strategical points ought to be occupied without delay, even though the Board have to bear the whole burden of expense. If eight (8) men were judiciously planted they could hold a very large Territory, especially if they would itinerate from station to station, giving each station at least one week's faithful pastoral work in each month. To have stated preaching but no pastoral work will prove useless, but with faithful visitation will win the whole country.

THE EASTERN STATES.

SYNOD OF ALBANY.

"The outlook in the Synod of Albany, State of New York, among the vacant and feeble churches is encouraging. The old established churches in the rural districts suffer from removals. Many of the enterprising young men go to the cities or the frontier, and there is constant depletion by deaths and removals.

"The population that takes possession of the old homestead is frequently foreigners. But these old churches have run down more by lack of Presbyterial control and fostering care than by anything else. An expression of sympathy from Presbytery and Synod by a living agent visiting and preaching arouses and encourages. Advice is readily received, and active efforts renewed. The "Four days meetings" and pastoral visits from house to house, which have been kept up have been greatly blessed. The spiritual condition of the weak churches in this Synod is now far more promising than one year ago.

"If the churches in the East were better cared for, there would be many more devoted Christian young men to go West who would be workers when reaching there instead of subjects for conversion; and the foreign population settling on the old farms would be brought into the churches to take the place of the old families dying out or removing. In the last fourteen months, since this work began, six churches have been supplied with pastors, and four with stated supplies. Eight congregations have been visited from house to house, and others partially; one hundred and eighty-two sermons preached;

the Lord's Supper administered eleven times; twenty-one persons received into membership; nine baptized, and seven funerals attended.

"Over \$5,500 have been raised to wipe out the debts of an important church which is thereby saved. It is not time yet to estimate the harvest outlook of these things."

SYNOD OF NEW JERSEY.

"The Synod of New Jersey is co-extensive with the State, and is second to only one other Synod (Philadelphia), in the number of churches and members. With a population, increasing more rapidly than in any of the older States, the Synod has frequent opportunities for church extension, and with the pine lands and sea coast it has a great field for Home Missions.

"The two Presbyteries of Monmouth and West Jersey cover more than one-half the State, or more than the combined territory of the northern six Presbyteries of the same Synod. In the early part of this century (until 1820), there were only twelve Presbyterian churches in the Southern half of New Jersey. Now there are eighty-two. Nearly one-third of these churches are aided by the Board of Home Missions, or are grouped together to sustain the gospel. Although the growth of some has been slow, many which were aid receiving are now independent. Since the Re-union, the progress has been more rapid, and the Synod has maintained a Superintendent to provide for the vacant churches and destitute places, and to save the infant churches from extinction.

"We forecast the future only by a review of the past. We presage the prospect by the retrospect.

"Railroads have penetrated the pine lands in every direction to reach the seashore, and out of the wilderness have arisen the large and flourishing settlements of Vineland, Hammonton and Egg Harbour City, proving that the light soil, nearer to good markets is well adapted to the profitable cultivation of fruits, vegetables, all manner of vines and some heavier crops.

"Amazing is the development of the sea coast, now accessible by various railroads. Almost every month some new seaside resort or railroad extension is announced. Lands once valueless now command exorbitant prices until a thousand dollars is esteemed a small price for an acre of beach sand, or even for a building lot. The assessed valuation of real estate in Asbury Park rises from fifteen thousand dollars to one million.

"In the report of the Ocean Grove Association for 1879, it was estimated that three hundred thousand persons came to the Grove by rail during the preceding season. While three rival railroads to Atlantic City have poured upon its shore many thousand persons in a single day, the permanent popu-

lation of Atlantic City has increased from thirty persons to six thousand. Its Presbyterian Church, which some would have abandoned, is now self-sustaining. Surely it is our duty to erect spiritual light houses along the coast, and to endeavor by the gospel life-boat to save them that are ready to perish.

"From the villages of South Jersey, enterprising young men have gone to the great cities, as well as to the prairies and the mines of the extreme West, and alas! some maidens have gone to the harems of Mormonism! while at home, the church contends with Spiritualism, Universalism, Intemperance, Sabbath Desecration and Worldliness. We must cry to those who are more highly favored "come over and help us." When the Synod of New Jersey shall have held its next meeting in Asbury Park, it may better appreciate the work which it has undertaken, its prospect, and the need of redoubled efforts."

WOMAN'S WORK.

THE DEPARTMENT OF SCHOOLS.

In the progress of our work, when our missionaries found themselves face to face with Indians on their reservations, the Mormons of Utah, the Mexicans in South Colorado, New Mexico and Arizona, the necessity for Christian Schools as a means of evangelization became conspicuously apparent. The matter was brought before the General Assembly, which virtually said:

"This work among the Mormons, the Mexicans and Indians is exceptional. The women, as a whole, have never taken any marked share in Home Missions, except in the preparation of "Boxes" to add to the comfort of Home Missionary families. Let our women then assume the work, to them so strikingly appropriate, and support the mission schools called for. Let the Board of Home Missions go on to establish these schools so far as the women supply the means."

The Board of Home Missions accepted the trust. The women already at work were inspirited to fresh effort. By recommendation of the General Assembly, twenty-seven of the Synods have appointed Synodical Committees of women to stimulate and superintend the work for Home Missions, of the women, each within its own limits.

These Synodical Committees as a whole are organically conjoined in the Woman's Executive Committee of Home Missions, which was organized in answer to a general demand for woman's work exclusively for Home Missions.

"The Ladies' Board of Missions" of New York, "The Woman's Home and Foreign Missionary Society of Brooklyn," N. Y., and the "Woman's Presbyterian Board of Missions for the South-west," while organized for Home and Foreign work, are cordially cooperating with us.

Since the women of the church began this work, it has gained in interest beyond all precedent. The Government, the people at large, and especially the churches are turning their attention to Schools for the Indians, and churches are regarded as necessary to fit them for citizenship.

So of the Mormons. All the people are growing indignant at the monstrous thing that sets itself up as the church of God in Utah.

The railroads penetrating and crossing New Mexico open all its towns to new forms of business, and its valleys to the occupation of Northern men. A new era is dawning. The people must fall into line, and keep step with the advancing civilization of the country. Schools are essential to their enlightenment and evangelization.

All this work everywhere may be greatly enlarged. A rising interest is felt in the church regarding it. By the blessing of God this training of the young will make itself felt in the early future to the sapping of the foundations of superstition, ignorance and false religion, and to the up-building of the cause and kingdom of our Redeemer.

These mission schools, although committed as above stated to hands so new to the work, have been manifestly owned of the Master, whose guidance and blessing in it should be acknowledged to the glory of His Holy name. They are nearly all so grouped that each school house is also a preaching station, and connected with them is also a Sabbath school.

The teachers in the government boarding schools are paid by the government, but we put in their names to show the entire civilizing and evangelizing force among all the tribes in which we are expending any labor.

AMONG THE INDIANS.

ALASKA.

Stickeen Tribe, Fort Wrangel:—Church building; church organization of about 40 members. The McFarland Industrial Home for Girls, day and Sabbath schools. Missionary laborers—Rev. S. Hall Young and wife, Mrs. A. R. McFarland, Miss Maggie J. Dunbar, Miss Tillie Kinnon (native interpreter), Rev. W. H. R. Corlies and wife. The last two are volunteer missionaries.

Sitka Tribe, Sitka:—Boarding school for boys, day and Sabbath schools. Rev. G. W. Lyons and wife, Mrs. Alonzo E. Austin and Miss Olinda Austin teachers.

Chilcat tribe, Chilcat:—Rev. Eugene S. Willard and wife (on the way to the field), Mrs. Sarah Dickinson (native assistant.)

WASHINGTON TERRITORY.

Rev. M. G. Mann and wife, missionaries to the Puyallup, Nisqually, Squaxin and Chehalis tribes of Indians.

Puyallup:—Church building recently dedicated; church organization of 230 members, and a government boarding school of 60 pupils. Teachers—Prof. Thos. R. Wilson, William A. Wilson and Georgia F. Thompson.

Nisqually:—A new church building and an organization of 25 members. Chehalis:—A new government boarding school of 30 pupils. Teachers—Prof. G. W. Bell, C. W. Littlejohn, M. E. Hartsuck and wife, and Miss M. G. Henry.

MICHIGAN.

Ojibway and Ottawa Indians:—Two Sabbath schools; two church organizations, with a membership of 48. Rev. A. Barnard, missionary.

NEBRASKA.

Poncus:—Rev. George Williams, missionary. Arrangements are in progress for a school among Standing Bear's people.

UTAII.

Ute tribe, Umtah Valley:—A boarding school. Rev. Robert McCullock and wife, Miss E. C. Ayers.

ARIZONA.

Pima, Maricopa and Papago Agency:—A government, day, and boarding school; Rev. Charles H. Cook and wife, missionaries; J. L. Armstrong and wife, teachers. There are 20 children in the boarding department and 75 in day school. A new school building is in process of erection.

Apache Indians San Carlos Agency:—A government boarding school. New buildings to accommodate 150 children. Teachers—Arthur B. Ross and wife. Additional teachers, Miss E. J. V. Stewart and Mrs. S. S. Chandler, just appointed.

Moqui, Pueblo Agency:—Boarding school; Rev. C. A. Taylor and wife. Additional teachers, Mr. and Mrs. Wm. E. Taylor just appointed.

NEW MEXICO.

Navajo Agency, Fort Defiance:—Boarding school; Mr. and Mrs. J. D. Perkins. Additional teachers to be appointed. New buildings in process of erection.

Zuni, Pueblo:—Rev. T. F. Ealy and wife, Miss Jennie Hammaker.

Laguna, Peublo:—Church organization. Sabbath and two day schools; Rev. John Menaul and wife, Miss Mary Perry.

Jemez, Pueblo:—Church organization. Sabbath and day schools; Rev. J. M. Shields and wife, Miss M. Harris.

Albuquerque, Pueblo:—Boarding school of 50 pupils; Prof. J. S. Shearer, Miss Lora B. Shields, Miss H. N. Phillips, Miss Salome Verbeek, and Miss Mary Auld. This school is made up of pupils from the various Indian Pueblos who are there given Christian education and a Christian home.

INDIAN TERRITORY.

Cherokee Nation, Pleasant Hill:—Church Organization: nineteen members recently added; Rev. W. C. Haworth.

Talequah and Park Hill:—Two church organizations; Rev. Willis Weaver and wife.

Wealaka:--Rev. Thomas W. Perryman (native).

Creek Nation. Muscogee:—Rev. S. A. Stoddard and wife.

Choctaw Nation, Atoka: - Rev. Alexander Reed.

Nez Perces, Oukland:—Church organization of 95 members. Missionary government boarding school; Silas R. Moon, Lizzie Spence and Carrie Goddard, teachers.

AMONG THE MORMONS.

We have missions extending from the southern part of Idaho on the north nearly to the Arizona line on the south. The whole evangelical force consists of thirteen missionaries, twenty-four schools, and thirty-eight teachers. About 1500 children are under instruction, all but about three hundred of them from Mormon families.

But the work requires six more missionaries and eleven more teachers. And a school implies a school building and chapel combined, for school and preaching services, and the necessary appliances for both. It is almost useless to provide a teacher without proper facilities for his work.

Malad, Idaho:—Day and Sabbath school. Rev. E. P. Welsh, missionary; Miss M. E. Welsh and Miss C. A. Farrand, teachers.

Logon, Franklin and Smithfield:—One church organization; two chapels; three day and Sabbath schools. Rev. C. M. Parks, missionary. Mrs. Parks, Mrs. Shirley, teachers of Logan; Mr. J. W. Martin and Miss Anna Noble at Franklin, and Miss Nellie Bartlett, at Smithfield.

Brigham City:—One church organized, and one church edifice; one day and Sabbath school. Rev. S. L. Gillespie, missionary. Miss E. F. Gillespie, teacher.

Ogden:—Church organization and church building; day and Sabbath schools. Rev. J. F. Knowles, missionary. Mrs. G. W. Gallagher, Miss M. A. Scovell and Miss Flora Campbell, teachers.

Salt Lake City:—Church organization; church edifice; day and Sabbath schools; "SaltLake Collegiate Institute." Rev. R. G. McNiece, missionary. Prof. J. M. Coyner, Mrs. Coyner, Miss S. J. Irwin and Miss M. E. Moore, teachers.

American Fork and Pleasant Grove:—Church organization and two chapels; two day and Sabbath schools. Rev. T. F. Day, missionary. Miss A. A. Kingsbury, Miss L. B. Work, Miss C. A. Brown and Henry Bird, teachers.

Springville and Payson:—Church organization and chapel; two day and Sabbath schools. Rev. George W. Leonard, Missionary. Miss M. Voris, Miss E. Munger and Miss Amelia Woodruff, teachers.

SUSTENTATION

The Department of Sustentation has been prosecuted with vigor during the year. The income was almost twice as much as the year before. Though we have begged churches applying for aid to accept it from this department, on the conditions made by the Assembly, the balance remaining in the treasury at the end of the year is greater than at the end of the previous year. And yet the cause seems to be in a healthy condition. More new men are aided by it than at any other time since it was transferred to our Board. There is room for more, and we again invite the Presbyteries and Churches to avail themselves of its liberal offers.

GENERAL SUMMARY.

We have endeavored to condense into a convenient summary the leading facts of the past year's work. If the number of additions to the churches on profession of their faith is smaller than usual, it is important to remember that the year has been marked by no wide-spread revivals, and it is not surprising that the feeble churches should have suffered with the stronger ones. But it shows, at least, the number of missionaries, and in tabulated form, something of what they have accomplished.

THE YEAR'S WORK.

There have been 1217 men in commission during the last year, laboring in the following States and Territories, viz.:

APPENDIX.

REPORT OF THE STANDING COMMITTEE ON HOME MISSIONS.

The Standing Committee on Home Missions have submitted the following report:

After examining with care the Annual Report of the Board of Home Missions, we respectfully call the carnest attention of the General Assembly to the following facts and recommendations:

- I. No such report from our Home Mission work was ever made to the Presbyterian Church as that which is presented to this General Assembly. In at least three important features it is unexampled; 1. A larger amount of money has been contributed than ever before; 2. A larger door of opportunity has been opened, and is swinging wider every day; 3. There has obtained a remarkable reversal of the ordinary law of the Board's demand. Heretofore the plea has been specially for money. Now the imminent, crying need is men. So immense is the enlarging field, so peculiar and pressing are the conditions of our best success, that it is not easy to find suitable men for whose support to employ the money of the Church. When we shall find them, raised up of God to meet this ringing call, then a more full and principled generosity than even the past remarkable year has showed will be required of our people to maintain them and prepare for larger Christian armament and conquest.
- II. The financial exhibit for the past year is very gratifying. We state it with warm congratulations and devout thanksgiving. The Board reports the sum of \$345,911 as received from all sources for their current work. Of this, \$38,461 came from the Women's Home Mission Societies, and \$40,000 was given distinctively for school work. The receipts of the Sustentation department for the year have been \$29,334, while with the balance of \$23,458 reported in 1880, left in their hands \$52,792 for Sustentation, making a grand total with the Home Mission receipts of \$398,703.

The disbursements on account of Home Missions have been \$333,380, and on account of Sustentation, \$27,059, making a total expenditure of \$360,440—wiping out, moreover, the small debt of last year of \$4,582. The account shows a balance in favor of Home Missions of \$7,947, and in favor of Sustentation of \$35,733.

III. There have been in commission during the year 1,217 missionaries, laboring in 39 States and Territorics. They have organized 224 Sabbath-schools, and have 105,524 Sabbath-school scholars under their care. They report the organization of 156 churches, and that 9,694 members were added to their churches,—4,715 by letter, and 4,979 on confession of faith.

Twelve of our missionaries, an unusually large number, have been taken from their work by death during the year.

IV. The Churches need to remember that only a very small proportion of their gifts are needed or expended for current expenses of the Home work. Permanent funds have been placed in the hands of the Board, whose income pays the major portion of its expenses. So that only 2½ per cent, of the contributions of the Churches are thus used,

and from every dollar given more than 96½ cents goes direct to the laborer in the field. This is rare administration, certainly—cheap in eash, but grandly rich and valuable in efficiency.

V. Schools and Women's work. In reference to the education work connected with Home Missions—supporting teachers and schools among the Romanists in New Mexico, among the Indians and the Mormons—the notable aid furnished to the Board by the various Women's Home Mission Societies, must be thankfully acknowledged. There are four of these bodies—auxiliary to the Board. Engaging the consecrated benevolence, time and energy of a multitude of our most devoted and able Presbyterian women. Their plans of work are simple and effective.

The "Woman's Executive Committee of Home Missions" is the largest, although the most recently organized of these, and specially addresses itself to Educational work on Home Mission territory. In 27 of the Synods, Committees of women, aggregating 272, have already been appointed, and ratified by the Synods, for local furtherance of the work. The "Executive Committee" is formed of two members from each Synodical Committee, so that the interest and the control are largely distributed through the Church. Their ingenious method of raising money by distribution of 15,000 "Mite-boxes," has been eminently successful, especially in sparsely settled neighborhoods. They have increased their receipts towards support of Mission schools, \$27,793. Besides which, boxes of clothing have been contributed to the amount of nearly \$17,000. They report the need of at least \$30,000 the coming year, to hold the work already begun, and do anything effective towards its enlargement. And as much more, to undertake the new chapels and schools which are proposed, and seem essential. The claim is not at all extreme. Special gifts from our people for chapels and school houses are needed, and worthy of prompt and peculiar emphasis before the Church.

The other three societies are engaged in double work for both Home and Foreign Missions,—yet all work together in aid of the Board on the Home field, with entire cordiality and admirable unity of effort.

The "Ladies' Board of Missions of New York" has been doing efficient work among the children of Papists in New Mexico, where they have ten schools,—four in Utah, some with excellent chapels, which they have provided; one in Colorado, two in Alaska, and four teachers among the poor whites of North Carolina. Their contributions to the funds of the Board for this work the past year was \$9,942.47.

The "Woman's Home and Foreign Missionary Society of Synod of Long Island," and the "Women's Presbyterian Board of Missions for the South-west," are both cooperating in smaller amounts, in aid for schools and teachers.

Supported by these inestimable agencies, we have now 72 teachers in commission, against 39 reported to the last Assembly. They are distributed in Alaska, Arizona, New Mexico, Idaho, Utah and Southern Colorado. Such prosperity has attended them, that new schools are called for on every hand, and must be provided, together with increased accommodations in the older schools.

Your Committee believe it scarcely possible for the Assembly to over-estimate the importance of this work of schools and teachers among the exceptional populations already mentioned. We would have the Assembly warmly commend the zeal of our women, and urge them to even a nobler liberality.

Indians.—Public sentiment in our land is fast uniting and spreading in the direction of educating Indian children, as likely to settle the Indian question in the surest way

before the next generation. The Indians are pressed from both sides now with the gospel. Three years ago, only two tribes were under our instructions—now we have access to thirty. Among the Nez Perces, unmitigated heathen, the general government, realizing its failure in secular education, has encouraged our work by co-operation in erecting buildings for the use of the schools, and Indians themselves are asking for Presbyterian teachers.

In New Mexico.—Here, where Romanism has existed in its most degrading forms for two centuries, Papists are sending for Presbyterian instruction. The impressive fact should be remembered that these alien populations among us, are all citizens, and as such we are responsible for them. Those Mexicans in New Mexico, Arizona and Southern Colorado, without an exception scarcely, bigoted Romanists, speaking a foreign language. 130,000 of them are American citizens. They have a right to the ballot box. Yet they cannot even read the ballot which the priest puts into their hands. So ingrained is their tremendous ignorance and superstition that scarcely an impression can be made, except by undermining through education. Their intense desire to educate their children is the hopeful element in their case, as in that of many others. So our Home Mission Board has gone to school-teaching among such people, in addition to what gospel preaching was open to them. The work must be one of patience and laying of foundations. But it will be felt.

In Utah.—So among the Mormons in Utah, twice as large as Ohio. In the past few years the work of our Board in that benighted territory has immensely advanced. There exists one of the most prosperous, promising missions in our land. Our schools unsettle the faith of the children in Mormonism—and many adults are found to confront the alienation of their property, as the price of their Christian confession. These schools develop into churches as a rule. They are an entering wedge to split parental opposition through the children.

VI. The present situation, and the prospects for the future are full of thrilling interest and grave responsibility. Increased impulse has been given lately to a vast movement of population, which heretofore has been the unexampled wonder of the world. In many Western States and Territories the growth this past year has been unprecedented, and in all of them surprising. Oregon and Wyoming have doubled their population within a few years, but their distance from Eastern cities has made the supply of proper men more difficult in mission labor. Kansas has added more than 600,000. Texas threequarters of a million, Dakotah 120,000, Nebraska has increased four-fold and Colorado nearly five-fold in the last ten years. To supply a portion of this vast increase, and to fill the vacated places Eastward, nearly 600,000 foreigners have landed permanently on our shores during the past year. Capitalists have appreciated the situation-realized the vast visible increase of population. They have built more miles of railway, three-fourths of them west of the Mississippi, than in any year but one, of our country's history. In the very newest portions of our land, such as Dakotah, Texas, New Mexico, Arizona, Washington, this movement is largely felt. States that a generation ago were on the utmost frontiers are now being grid-ironed with railways and swarming with people. Within two years unpeopled deserts have become populous. It is difficult to get more than a few hours ride from a railway in States which twenty-five years ago were an unbroken wilderness.

Yet with every stride of industrial and material advance the peril presses of an intense, absorbing materialism. That peril cannot possibly be driven and kept off except by preparing the Lord's way through our favored land by Home Mission labor, making the rough places smooth, not merely by the culture of our husbandry and the grading of our railroads, but by the leavening influence of gospel grace.

Here and there peculiar opportunities burst upon us, as in Northern Dakotah, where an immense influx of the Scotch Presbyterian element from Canada is now taking place, and where prompt, energetic action would save the whole region for the Presbyterian Church.

VII. With reference to the work of our Board within the limits of Texas and the South-west, we recommend a similar policy to that adopted by the last General Assembly, and the wisdom of which has abundantly appeared, namely, a vigorous prosecution of the work in that immense field, with no interference in the work of the Southern Church, and the utmost comity and conciliation. We deem it a duty to follow up our own Northern people, who constitute the immigrants almost entirely. It is a critical stage of the work there. So far as your Committee can learn, no clashing is likely to occur, and some of the wisest and best brethren in the Southern Church applaud the entrance of an efficient agency to this great demand, which they could never begin to satisfy.

VIII. Your Committee would urgently remind the Assembly of the pressing need of vigorous, energetic, devoted, unincumbered ministers to supply the lack of men in the rapidly enlarging field. We learn from the letters of experienced and judicious missionaries upon the ground, as incorporated in the Board's report that no less than 150 suitable men are called for to compass the immediate requirement. Any large part of these the Board finds itself unable to provide. We recommend that the Assembly urge its Presbyteries to keep this great need in view, to press it upon their candidates, and endeavor to secure their young, or specially fitted ministers, for this spreading work on the frontier.

IX. The stir and romance of Home Mission work are largely connected with gospel labor in the newer portions of our land. But a more quiet, yet often an equally important work, is prosecuted in the older States, where as yet the larger portion of the missionaries are aided as pastors of churches too weak to stand alone. The heart must be kept soundly beating, that the extremities may act vigorously. Instances face us in the report of the Board, as in New Jersey and Southern Illinois, where territories almost deserted and considered well nigh hopcless, have sprung up into population and capacity of self-support. Still your Committee believe that many more weak churches in the older States could be roused to self-support by the Presbyteries to which they belong, or grouped for missionary labor, or aided by stronger churches in their vicinity, so that funds and men could be released to supply more pressing claims. Only twenty churches attaining self-support in all the land for the last year, as reported by the Board, is too meagre a record for the necessities of evangelization among us The Presbyteries should also, by inquiry, visitation, pressure of every kind, in realization of their obligations under our Presbyterian polity, rouse to duty the large number of non-contributing churches and churches unnecessarily dependent within our bounds,

X. Your Committee have discovered the immense practical advantage which appears to the work by the employment of competent men as superintendents of missions to inaugurate advance, especially on the frontier, in co-operation with Synods and Presbyteries within the bounds of their jurisdiction. We recommend accordingly that the Board cover the ground as effectively as may in their judgment be practicable with the labors of these supervisory missionaries.

XI. Considering the claims of this work enlarging daily, and in the hope that the

men so imperatively called for will be provided in the providence of God, your committee recommend that the Churches of the Assembly be expected to raise no less than \$45,000 for the Board during the coming year.

We deeply regret that our esteemed Secretary, the Rev. Dr. Dickson, is still in enteebled health. We recommend that the Assembly extend to him its most cordial Christian sympathy, and hope for his speedy recuperation.

XII. A memorial from the Board has been referred to your Committee, explaining the urgent need that institutions of learning under our ecclesiastical control should be established in the Far West for the adequate supply of missionaries, and seeking the appointment of a Permanent Committee of the Assembly to systematize plans for the establishment and encouragement of such institutions.

Pending the discussion of this whole question as coming before the Assembly in another form, your Committee reserve their report upon this memorial to a period later in the session.

XIII. The term of service of the following members of the Board expires with this Assembly:

Ministers, Jonathan F. Stearns and Wilson Phraner; Elders, Rob't Lenox Kennedy, John Taylor Johnston, John E. Parsons. We recommend that they be re-appointed. All of which is respectfully submitted.

CHAS. S. POMEROY, Chairman,

WOMAN'S EXECUTIVE COMMITTEE OF HOME MISSIONS

OF THE PRESBYTERIAN CHURCH.

23 Centre Street, NEW YORK, March 31st, 1881.

Report to the Board of Home Missions for year ending March 31st, 1881.

GENTLEMEN :--

It is impossible to give in a brief report any right idea of the work which comes to us from the hands of the Master, in ever increasing volume.

Yet, while endeavoring to take it up, we are distinctly admonished that our help indeed is in God alone. Two of the largest contributors to our treasury, friends, to our view, most difficult to spare, Mrs. James Stokes, of New York City, and Thos. M. Sinclair, of Iowa, have been called to higher service above. But our God remains. He who has raised up helpers in this mission work in the past, will still care for it in the very best way in the future.

The Lord has indeed blest us more and more during the past year. Twenty seven of the Synods have now appointed committees of women to superintend, each within its own bounds, the work for Home Missions of the women of our churches. The women in one or two Synods additional are taking steps in advance of such action hoped for next October,

There are now 278 members of Synodical Committees. Two members of each Synodical Committee, together with the necessary local officers, constitute the Woman's Executive Committee of Home Missions, whose Report is now respectfully presented to the Board of Home Missions. Thus, having Vice-Presidents also scattered through eleven States or sixteen Synods, the women of our church are bound together in this cause, not alone by loving co-operation with each other in work for Christ, but are greatly strengthened in this Home Mission work by their direct appointment to it by the Synods of our church.

The Woman's Board of Missions of the South-west connected its Home Department with the Woman's Executive Committee by its own vote; which has been ratified by the by the subsequent action last Fall of the Synods of Missouri and Kansas. The work of that Board has not been disturbed. Experience has proved the advantages of such unity of effort, all cause of friction being thus removed.

The Lord is blessing us also by the larger amount of money given toward the establishment and support of the Mission schools. Contributions have been received from every Synod.

We are blessed also in the increased number of subscriptions to the "organ" of our work, "Presbyterian Home Missions." Through the kindness of the editor, Rev. Sheldon Jackson, D. D., a copy of it is sent to every minister whose name appears on the minutes of the General Assembly, to the members of Synodical Committees, and to the teachers in our mission schools.

Special attention has been given during this past year to a systematic distribution of information as to the work of Home Missions. May not the increased receipts of the Board of Home Missions be due in part to this effort?

More than 15,000 mite boxes have been sent from our office, and have proved of excellent service, especially in scattered neighborhoods, and "gathering up" everywhere for this great cause "the fragments that remain."

We earnestly recommend that more public meetings in the interest of Home Missions be held in our Synods, to be addressed by Synodical and Home Missionaries and others. The good effect of such meetings where secured has been manifest

We are blessed also in the success of the mission work under our eare. (Here follows statement showing the number and position of schools now established, in which teachers are employed, as follows:—In Alaska, 5; Arizona, 5; New Mexico, 11; Idaho, 2; Utah, 27; South Colorado, 2; making 52 in all.)

The Lord again owns and blesses this Home Mission work by bringing to us new places, and opportunities for its enlargement as fast as money may be promised for the purpose.

In order to keep up another year the work commenced, and render it more effective, we need \$30,000.

In order to undertake the new chapels and schools proposed, we could use \$30,000 more, making \$60,000 in all.

All which is respectfully submitted.

The Ladies Board of Missions of the Presbyterian Church, Auxiliary to the Board of Home Missions, New York,

Would respectfully present the following brief summary of its work in the past year, from April, 1880, to April, 1881.

We acknowledge with much gratitude to Him who ruleth over all, the marked success and progress that have characterized the work of the past year, although changes are continually occurring, some work closing up and other work opening unexpectedly. This year, owing to the establishment of a public school at Las Vegas, one school was discontinued; but the Mexicans are now pleading earnestly for this mission school, and arrangements are being made for its re-opening in September. The school at Santa Fé has also passed to the charge of the pastor of the church, Rev. Mr McGaughey, thus establishing more decidedly its character as a Presbyterian mission school under the wing of our own Board. A new church is to be built, for which we have given the ground from the property owned by our Board at Santa Fé. Socorro and Mesilla have come under our care this year, and a school established at both places, and contributious given for buildings. At Socorro a pretty little church has been secured, a parsonage built, a communion service sent, and at both points the work is being blessed largely. Miss Perse was commissioned as teacher for El Ranche, and opened a school in March with most gratifying prospects. The school at El Rito continues to grow under Nokee San-DOVAL, who teaches the Bible faithfully, making it the very text book of the school. Another school has also been opened in the Agua Negra Valley under Mr. J. Whitlock's care, each one an increasing influence for the spread of the Gospel. Our teacher at Zuni, Mrs. Ealy, is also doing what she can by precept and teaching. We have sent some help as in previous years to Laguna, thus supporting and aiding 9 schools and 9 teachers in New Mexico.

We have sent two new teachers to Utah; Miss Campbell to Ogden, and Miss Galbraith to Manti, paying expenses to their fields of labor. Our Auxiliary Society at Buffalo is contributing \$2,000 to the claurch at Manti, the larger part of which has been paid in. We have purchased the building at Richfield to which Miss Olmstead was transferred, and is successfully building up a school. And we have continued our contributions for scholarships and teacher in Salt Lake Institute, and also other help on the building. Miss Grimstead has been sent out to the school at San Luis, Col., with expenses paid. Our house at Fort Wrangell, under the care of our devoted missionary, Mrs. McFarland, is the centre of a great work in Alaska. The seeds of Divine Truth have been sown in young hearts, and many have professed their love to Christ. A communion service and an organ, and several boxes of goods and clothing and contributions for furnishing have also been sent out to this "our Home" which we have built and cared for. But we have not stopped here; some of our Auxiliaries contributing also to Sitka in salary and other donations.

The Woman's Home and Foreign Missionary Society of the Synod of Long Island

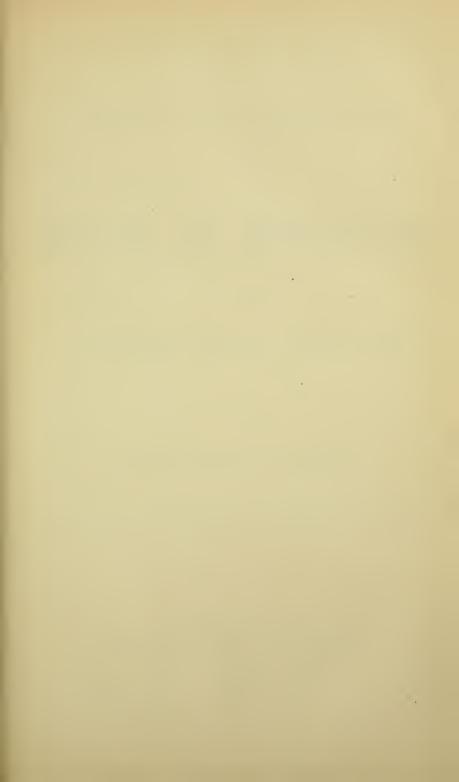

Report expenditures for Home Missions during the past year, \$1,190, viz: for school at Manti, \$100. Donation to Brigham City, \$150. Teacher at Brigham City, \$300. Teacher at Ephraim, \$450. Donation to Ephraim, \$30. Scholarships in Utah, \$60. Organ for church in Ogden, \$100.

For the school in Brigham City we have sent two wall maps—one of Palestine and one of the United States, also reading matter, which has been very acceptable. We have engaged to furnish a bell for the church—have received \$25 towards the purchase.

The school (occupying the building which we purchased more than a year since), is said by the teacher to have been "doing nobly" during the past winter, having an enrollment of 36 names, which is considered a great step forward when there is so much opposition to be encountered. The teachers are very earnest and devoted, and believe in glorious results from their efforts, the Holy Spirit helping and blessing them.

At Ephraim there is a most noble woman in charge of the school. She has been the object of base slander by the Mormons; but she meets all her trials with great heroism, resolved to stand bravely in her lot and fight the battles of the Lord; expresses a willingness to appropriate all she can spare of her salary to aid in the erection of a school-building, willing, she says, "to sacrifice everything rather than surrender the Lord's cause to the adversary." To the children of this school we have sent Bibles as the most acceptable gifts to them, and a Bible commentary to a young Dane, a convert who is striving to fit himself to assist in the work.

The school in Mt. Pleasant is prospering. We have every assurance that the Gospel is spreading, and then these poor people who have long sat in darkness will ere long see the "day break," and infidelity and immorality flee away at the brightness of its coming.

SIXTY-SECOND ANNUAL REPORT.

With gratitude to God for life preserved, and for enlarged success in its work, the Board of Education presents to the General Assembly of 1881 its sixty-second report.

In accordance with the recommendation of the last General Assembly, the Board, early in September, voted to equalize the scholarships for students at college and in the Theological Seminary, putting them for the year current at \$100 each, and to make those for the preparatory course \$75 each. These were ordered payable in three instalments during the months of October, January, and April. This arrangement has been punctually carried out except in cases where the Professors have failed to make reports, or the Presbyterial committees, to send in their recommendations in season. Such delinquencies were few; but they ought to have been fewer. Great inconvenience is occasioned by them.

It is the deliberate conviction of the Board, that the scholarships ought to be raised to the maximum amounts allowed by the Assembly, which were deemed the minimum sufficient for the students' needs. At the present rate they do not obviate the necessity either of more special efforts for self-support than are consistent with the successful prosecution of study, or of contracting such debts as may hinder the availability of the candidate for mission service to which he may be inclined, by compelling him to seek for more remunerative positions nearer home, which may enable him to cancel his obligations. Such undesirable results occur more generally with those students who begin their course late in life, and are therefore anxious to get into their work as early as possible. It is said that this is one reason why our Home and Foreign Mission Boards are not as successful as they would desire in enlisting our graduates for missionaries. burden of a debt is not calculated to dispose a licentiate to listen favorably to the claims of the far West, or of the distant heathen, especially when "louder calls," which promise speedy relief, come from places nearer home. Before the Church can think of obligating her candidates to mission service on the score of aid rendered them for their education, she should enlarge her bestowments. The sum of \$100 per year is too small a mortgage to hold them with. At the same time, let it be borne in mind that no increase can be made in the scholarships unless there be an increase in the contributions sufficient to warrant it. The Board must not be allowed to run in debt

Of these, 57 are colored students; 26 are Germans; 2 Bulgarians; 1, a Hindoo, the son of one of our oldest native pastors in N. India, and now under care of the Presbytery of New Brunswick; two are Chinese; and 1, a Welshman. The Welsh, as a body, have voted to withdraw from their arrangement with us, and to take care of their own students hereafter.

Of scholarships discontinued, 3 were no longer needed; 2 were for unsatisfactory progress in study.

The graduates from the Seminaries under care of the Board this year are distributed as follows: Princeton, 14; Lane, 11; Union, 8; Western, 7; Auburn, 4; Northwestern, 4; Biddle University, 3; Lincoln University, 3; San Francisco, 3; Newark German Theological School, 2; Blackburn University, Carlinville, Ill., 1; Dubuque German Theological School, 1; Howard University, 1. THE STANDING AND SUPERVISION OF STUDENTS.

The Board has been strict to inquire into all eases of questionable worth when indicated in the Professors' Reports. Three or four marked below medium in scholarship have been continued on the recommendation of their faculties, because just finishing their course. A like number of others, of a similar grade, have been continued. because specially meritorious in other respects; and three, just starting in their course, have been put on trial as having been poorly fitted, but giving indications of improvement. It is evident that some Presbyteries are not careful enough to ascertain whether the candidates they recommend are sufficiently well qualified to enter college and maintain a creditable standing there. Instead of examining into the matter for their own satisfaction, they leave the question of fitness to be determined by the institution which their candidates propose to enter. This will hardly do. It must be remembered that attainments which may just suffice to admit a student into college will not suffice to lift him up to the standard required by the rules of the Board; and this insufficiency may expose him to the mortification of being dropped after having been received under the Board's care, or of being put back in his course. The General Assembly was but meeting a public demand when it required of all candidates aided by the Board at least a medium grade of scholarship; and this will be exacted in all cases except for strong reasons. It is a fact that ought to be well known and considered, that all the Seminaries are united in raising the standard of scholarship and increasing the stringency of their examinations. It is not so easy now as it once was to obtain a diploma from them; and the preparation for entering them should be advanced in proportion.

In view of this fact, it becomes important to emphasize, for the benefit of the Presbyteries, another requirement which the Board is enjoined to make of its candidates. It is, that they shall have passed through a collegiate course, or its equivalent, before entering the Theological Seminary. Such preparation is absolutely necessary to the successful prosecution of theological studies and the needful profiting by the theological lectures. Without it, it will be impossible for the student to keep step with his class, and "purchase to himself a good degree" at the end. The outcome is apt to be discreditable alike to the Church and to the Board and to the students.

Still another point requires to be brought into more general notice. It is a part of the Secretary's summer work to prepare abstracts of the Professors' Reports that have been received through the year, and to send them to the chairmen of the Presbyterial Education Committees, that they may ascertain the standing of the students whom they have recommended. These Reports ought to receive careful attention, and be reviewed at each fall meeting of the Presbyteries, as a part of that supervision which they are expected to exercise over their candidates. Evidence occasionally reaches the office, that these Reports are not noticed, and that the care needful for this important department of our Church work is not taken. Sad evils arise in consequence. There is no duty devolving upon the Presbyteries which calls for such earnest, thoughtful consideration as that of supplying the churches with well qualified and faithful ministers. The honor and the prosperity of God's kingdom depend upon its proper discharge. This, therefore, is not the place for exercising that charity which believeth all things and hopeth all things. It opens too broad a door into our pulpits, and renders the Presbyteries liable to "become partakers in other men's sins." If for ordinary believers the gate into the Church be strait and the way narrow, what ought the avenue to be which conducts ministers into their high office, attended as it is with the most momentous responsibilities?

CONTRIBUTIONS.

The Board congratulates both the Church and itself that it is now virtually out of debt. The balance of \$9500 remaining against it at the close of our last fiscal year, together with the obligations of the year just closed, have been met and discharged from our year's receipts, with the exception of about \$1500. This deficit, however, is more than offset by a legacy that is only awaiting the execution of a few legal technicalities before being paid into the Treasury.

The number of churches contributing is larger by 156 than it was last year. One foreign mission church in Pekin, China, deserves special mention for having sent us \$60, a sum which ought to provoke to jealousy some of our large city congregations which have forwarded us little or nothing. An offering of \$100 came from a poor widow, taken out of a scanty pension which she had just obtained on the score of a son lost in battle, and which she sent as a token of

gratitude for what the Board had done for the education of another son, who is now an active pastor in one of our Western churches. Her former pastor writes: "This comes nearer to the breaking of the alabaster than anything I have known in my experience." An unknown friend sent us \$1000 in answer to an appeal seen in the Record. A pastor settled on a good salary cancelled his obligations to the Board by refunding \$666, the whole sum he had received for his education. Another minister sends us \$450, accompanied with "the hope and prayer that it may truly help some young brother into the ministry of our Lord and Master, from which I have been laid aside for 3 years with lung disease." Fifty more comes from a foreign missionary, who writes:—

"I wish to give some little proof of my appreciation of what the Board of Education did for me, and also to show my interest in the cause represented by your Board. It was only for one year—1876 to 1877—that I received aid; but it was a great help in my extremity, as I should either have been obliged to borrow or to have stopped my studies for a time. I enclose an order for fifty dollars, payable to your treasurer, which he will please place to my credit as 'refunded.' I hope my contributions will not stop when my 'refunding' stops. May God bless you in your work; and may 'the Lord of the harvest send forth more laborers.'"

Yours sincerely,

Such contributions are cheering tokens of the good which the Board is accomplishing, and invest its cause with a sacredness which should commend it to the respectful and affectionate regard of every lover of the Gospel. May God guard it from every rude touch.

Yet there is another side to this favorable view. Out of 5489 churches 3086 have sent us in no contributions! A large number of these are without pastors or stated supplies, and are, therefore, just the ones who ought to feel the need of aiding the Board in its endeavors to supply their lack. Their excuse, however, may be that there were none to stir them up to duty. But what shall be said of the rest that, having pastors, are yet so neglectful of their obligations to aid in increasing the number of those whose work it is to build up and extend the Kingdom of their Redeemer? Is there any good reason to justify such neglect?

SUPPLY OF MINISTERS.

The much mooted question as to the sufficiency of supply for the ministry derives some data for its solution from the following statistics:—

From all our Theological Seminaries of every kind there graduated this year 141 candidates; Union furnishes 35; Princeton, 30; Western, 24; Auburn, 17; Lane, 13; Northwestern, 6; San Francisco, 3; German School, at Bloomfield, 2; German School, at Dubuque, 1; Lincoln, 5; Biddle, 3; Howard, 1; Blackburn, 1. That all of these will prove available in their calling can hardly be expected. A number must be deducted as belonging to other denominations, or likely to be called to churches not of our body, or to engage in teaching or editing. These may be put at 15, to say the least. As an offset to these, it is fair to expect that some from other Seminaries may join us. A few will probably be licensed who have not been educated at our institutions. How many, it were hard to tell. Such is the supply for this year. It would be counting large to say 140 in all. With these there are vacancies to be filled occasioned by death; these average 85 per year. There are losses by dismissal to be made up for, averaging 24 per year. New churches also are to be supplied. Our net gain last year was 74; this year, it promises to be more. On the list of churches in the Minutes of the General Assembly last year, 990 were marked vacant. Of these, 331 report a membership of over 50. A large number of them are among the most important churches in our land. The secretaries of the Foreign Mission Board tell us they need 10 new men to be sent out at once; but these cannot be obtained. The secretaries of the Home Mission Board tell us they could commission and support 150 more men than they can find qualified and willing to go. The work among the Freedmen also promises large expansion, requiring a great re-enforcement of ministers. Such are the facts which present themselves to the view of the Board.

That there are, on the other hand, quite a number of ministers unemployed, who are ready and willing to serve in the Gospel, must also be admitted. To speak of these is beyond the province of the Board. Yet it must be said that their position has its effect upon the further development of the ministry, and deserves the serious attention of the General Assembly and of the Presbyteries. But, aside

from all considerations arising from this number, it must be seen that the facts, as above given, call for earnest deliberation and vigorous action. Something must be done to increase the annual supply of ministers, and to render our candidates more able and willing to serve in all the fields which are now inviting Christian effort. The call is loud for more and abler men. Will the Church heed it?

Mr. F. B. Reeves having sent in his resignation, the Board unanimously elected Mr. Franklin G. Baker to supply his place.

Those whose term of service expires this year are-

Ministers — Thos. J. Shepherd, D.D.; Benjamin L. Agnew, D.D.; James M. Crowell, D.D.

Laymen—Professor F. W. Hastings; H. W. Pitkin; Franklin G. Baker.

All which is Respectfully Submitted.

FORM OF A DEVISE OR BEQUEST.

All that the Board deems it important to furnish is its corporate name, viz.: The Board of Education of the Presbyterian Church in the United States of America.

The State laws differ so much that no one form will answer in all the States.
The following form may be used in some of the States:
"I give and devise to The Board of Education of the Presbyterian Church in the United States of America, the sum of————dollars to and for the uses of the said Board of Education, and, under its direction, to be applied to assist candidates for the ministry." (If real estate or other property be given, let it be particularly described.)

Letters and communications for the BOARD OF EDUCATION, relating to the general concerns of the Board, to candidates for the ministry, reports, appropriations, etc., are to be addressed to the Corresponding Secretary, (Rev. D. W. Poor, D.D.), No. 1334 Chestnut Street, Philadelphia.

Remittances of money should be sent to the Treasurer, Mr. E. G. Woodward, same address.

APPENDIX.

ACTION OF THE GENERAL ASSEMBLY.

The Standing Committee of the Assembly on Education consisted of the following persons:—

Ministers.

EDWARD P. HUMPHREY, D.D., LL.D., WILLIAM M. BLACKBURN, D.D., WILLIAM G. MARCH, D.D., AUGUSTUS W. COWLES, D.D., EDWIN S. WRIGHT, D.D., LEONARD E. RICHARDS, EDSALL FERRIER, O. H. PERRY DEVO.

Elders.

ALEX. MILNE,
AMOS C. WOOD,
JAMES M. JOHNSON,
SAMUEL LODOR,
STEPHEN BROWN,
PHILIP R. FISHER,
AUGUSTIN H. HOTCHKIN,

The Committee presented, on May 26, through the Chairman, Rev. Dr. Humphrey, the following report, which, after discussion, was accepted:—

- 1. Grateful mention should be made of the pecuniary solvency of the Board. During the year it has defrayed all its incidental expenses; it has contributed the sum of \$41,570 to the support of its candidates for the ministry, and it has provided for the payment in full of our old debt of \$9500. The Board is now out of debt.
- 2. The number of churches contributing to the funds of the Board has increased by 150. Fifty dollars have come from the Foreign Mission Church of Pekin, China; \$100 from the pension of a widow, from the loss of her son in the army, and \$1165 from three ministers, who had, while preparing for the ministry, received aid from the Board. Let these acts of holy self-sacrifice be seriously considered by the 2400 congregations which have sent nothing to the Board during the year.
- 3. Four hundred and thirty-one candidates have been aided since the last report. Of these, 57 are, we are glad to say, colored students, and 26 are of German birth. Of the 141 recent graduates from our Theological Seminaries, sixty-two, approaching one-half of all, were aided by this Board.
- 4. It is the deliberate opinion of the Board that the assistance granted to its candidates should be raised from \$75 to \$100 each for students in the preparatory course, and from \$100 to \$150 each for those in college and in the Theological Seminary. 'Your Committee ask this General Assembly to approve this measure so soon as the funds of this Board shall warrant it—not before. The Board should adhere to its purpose not to run into debt.
- 5. Your Committee believe the Lord has graciously removed the time wherein the number of candidates needing the aid of the Board exceeded its funds. We deem it timely for the Assembly to declare that this Church will henceforth aid all the young

men of suitable and consecrated gifts who may look to us for aid on their way to the ministry. May the Lord give us grace to press forward in this work, in the conviction that the Church will not suffer any of its sons, called of God to preach the Gospel, to be turned away from his high calling by the want of money.

V. This duty is enforced by our prospects for the immediate future. It is said above that the number of recent graduates from all our Theological Seminaries is 1211. This supply of ministers is liable to certain deductions and additions. When these are taken into consideration, the Board estimates our supply for the year at 140. But the vacancies occasioned by death average 85; the dismissals average 241. Seventy-five newly-organized congregations, seven hundred and seventy old congregations, of which 331 number more than 50 members each, call loudly for the ministry of the Word. The Board of Foreign Missions need ten men, and the Board of Home Missions 150; the Freedmen at home, the unevangelized abroad, make the call. Our only answer to these calls is 150 ministers, all told.

Your Committee recommends, therefore, that the General Assembly give further emphasis to the fact that one of the first necessities of the Church is in obtaining a supply of well-qualified, consecrated, and faithful ministers, who shall be adapted to the work of our time, and more willing "to serve in all the fields which are now inviting Christian effort."

VI. In reference to this supervision of candidates, it is important to remember that Theological Seminaries are intended to educate students, and not to determine their qualifications for this sacred office. The duties and responsibilities of Presbyterians are not to be transferred to educational institutions. Your Committee recommend, first, that the Rules of the Board of Education in reference to the supervision of candidates under its care, by Presbyteries, be carefully followed. And, secondly, that Presbyteries give much careful attention to the official reports of the theological faculties and of the Secretary of the Board, concerning the standing of candidates under their care, and endeavor to secure a high grade of scholarship and personal piety.

The members of the Board whose term of service has expired are Thomas J. Shepherd, Benjamin L. Agnew, and James M. Crowell, ministers; F. W. Hastings, II. W. Pitkin, Franklin G. Baker, ruling elders. We recommend their reappointment.

All of which is respectfully submitted by the Standing Committee.

EDWARD P. HUMPHREY, Chairman.

RULES OF THE BOARD OF EDUCATION

-RELATING TO-

CANDIDATES FOR THE MINISTRY.

I.—Dependence of the Board of Education upon the Presbyteries of the Church.

- I. The Board of Education shall receive and aid candidates for the ministry of the Gospel only upon the recommendation of a Presbytery of the Church; and the Presbytery is responsible for their examination, subsequent care, and the designation of the annual amount of aid to be granted to them, within the limits set by the General Assembly.
- 2. The Board will in each case look especially to the Education Committee of the Presbytery for filling out and forwarding the form of recommendation required for the reception of a candidate, and also for the pastoral care of the same until his entrance upon his official duties.
- 3. As a general rule, the Board will receive any young man of whose examination and recommendation in conformity with its requirements proper notification has been given; but it shall be at liberty to refuse new candidates beyond its ability to support them.

II .-- RECEPTION OF CANDIDATE.

- 1. The encouragement of a young man to enter the Gospel ministry is a matter of serious concern both to himself and to the Church; and it should be given only by those who have proper knowledge of his mental and moral character, accompanied with much counsel and prayer, and directed by a single desire for the glory of God. Every candidate should join that Presbytery to which he would most naturally belong; and he should be introduced to it either by his pastor or by some member of the Education Committee after such acquaintance as will warrant his taking the responsibility of so doing.
- 2. The Presbytery, in examining students with a view to their recommendation for aid, must embrace such points as are indicated by the following questions, to which definite answers, by the direction of the Assembly, will invariably be required by the Board: What is the candidate's name? Age? Residence? Is the Presbytery satisfied as to his experimental piety? As to his motives for seeking the ministry? As to his talents? As to his health? As to his promise of practical efficiency? Is he free from expensive and injurious habits? What is the lowest amount of pecuniary aid required to supplement his really necessary expenses till the end of the present collegiate year? Of what congregation is he a member? How long has he been in the communion of the Church? What is his stage of study? Where studying? Has he been

recommended to Presbytery by his church session? Can he recite the Westminster Assembly's Shorter Catechism? Give the name of a responsible person (usually a member of the faculty of the institution, or his pastor) through whom the scholarship can be sent.

3. No candidate shall be received by the Board who has not been a member of the Presbyterian Church, or of some closely related body, for at least one year; who has not been recommended to the Presbytery by the session of the church of which he is a member; and who is not sufficiently advanced in study to enter college, except in extraordinary cases.

III. —Scholarships.

- I. The annual scholarships to candidates shall be the same in amount for theological and collegiate students, and not exceed \$150; for those in the preparatory course, the amount shall not exceed \$100.
- 2. These scholarships shall be paid to a student only on the reception of particular and satisfactory reports from his professors, embracing the following points: Christian Character? Scholarship? Rhetorical Ability? Punctuality? Economy?
- 3. The Board may increase or diminish, in a general ratio, the scholarship in case of unusual surplus or deficiency in funds.
- 4. No payment shall be made in advance. Each payment shall be acknowledged by a receipt signed by the candidate, or by the person authorized by him to receive it. And this receipt shall contain a pledge to return the amount given, with interest, in case he of his own accord turn aside from his ministerial calling.
- 5. In order to suit the period when the students most need assistance, and when the reports from professors can be most satisfactorily made, the reports shall ordinarily be made on the first days of October, January, and April. The payments of a student whose recommendation is made at any time between those days may be expected to commence at the date of it.
- 6. The Board will in no case be responsible for the debts of students; but it is expected of them that the scholarship shall be first applied to the payment of tuition and boarding.
- 7. The payments to candidates shall cease regularly at the close of the collegiate year, or earlier when the time for which they were recommended by the Presbytery has expired, and these shall not be made in cases of prolonged ill-health which may unfit them for the work of the ministry; or when they are manifestly improvident, or contract debts without reasonable prospects of payment; or when they marry; or when they receive assistance from any other educational board or society; or when, from private circumstances, they cease to need aid.
- 8. The sums of money appropriated by the Board shall be refunded to it, with interest, in case a student fail to enter on or continue in the work of the ministry (unless it appears that he is providentially prevented), or if he ceases to adhere to the standards of the Presbyterian Church; or if he changes his place of study contrary to the directions of the Presbytery, or continue to prosecute his studies at an institution not approved by it or by the Board, or if he withdraws his connection from the Church of which this Board is the organ, without furnishing a satisfactory reason.
- 9. A scholarship afforded by the Presbyterian Church, through the Board of Education, is not to be given or regarded as a loan, to be refunded by those who comply with these rules and regularly enter the ministry, but as her cheerful contribution to facilitate

and expedite their preparation for it; and they are only obligated by it to a warmer interest in her efforts for the advancement of the Redeemer's kingdom, and especially to the use of the means necessary to instruct and stimulate her members in the duty of multiplying and sending forth preachers of the Gospel of salvation to all the world.

IV .- CARE OF CANDIDATES.

- r. Candidates are required, except in extraordinary cases, and then only with the explicit permission of their Presbyteries, to pursue a thorough course of study, preparatory to that of theology, in institutions that sympathize with the doctrinal teaching of the Presbyterian Church; and, when prepared, to pursue a three years' course of theological studies in some seminary connected with the same Church; and no work of preaching is to be allowed to interfere with the diligent and faithful prosecution of their prescribed studies until their close.
- 2. The Board can rely only upon the Education Committee of each Presbytery for the regular care of its own Candidates, which should include the constant exercise of a parental oversight over them in spiritual things, and the bestowment of the counsel they need as to their mode of preparation, their places of study, their trials, and the occupation of their time, while not engaged in study, in employments which will tend to qualify them for effective usefulness as pastors or evangelists.
- 3. The Board shall assist the Presbytery, in its care of candidates, by furnishing annually to the Education Committee a summary of information from the professors' reports as to the standing of each student; and the Corresponding Secretary shall exercise a general supervisory care over them, also visit and address them, when practicable, at the institutions where they are, in regard to their duties and the claims of the office which they have in view.
- 4. The recommendation of each candidate must be annually renewed by his Presbytery, if possible at the spring meeting, in connection with one from the session of the church of which he is a member, and a specification must be made of the amount needed by him; and until the notification of these points has been received, a student will not be considered as upon the roll for the year.
- 5. Recommendations, or renewals of them, made by an Education Committee in the interim of the sessions of a Presbytery, shall be received as sufficient, provided its action is reported to the Presbytery at its next session, and not countermanded to the Board.
- 6. If, at any time, there be discovered in a student such defect in capacity, diligence, and especially in piety, as would render his introduction into the ministry a doubtful measure, it shall be the sacred duty of the Board to communicate without delay the information received to the Education Committee of his Presbytery; and if, on careful inquiry on the part of the Presbytery, no satisfactory explanation of the defect can be obtained, or if no response be received by the Board from the Presbytery or from its Committee on Education, within the current quarter, it shall be the duty of the Board to withdraw its aid altogether.
- 7. Special care should be exercised by the Presbytery in the examination of students who are about to enter upon the theological course, according to the instructions of the Form of Government (Chap. XIV. Sec. III.); and this examination should be conducted by the Presbytery, and be entirely satisfactory as to the "real piety" of the students, and "the motives which have influenced them to desire the sacred office," before they are allowed to take this final step towards assuming its great responsibilities.

8. The annual reports and occasional publications of this Board, with the Monthly Record and a copy of the Confession of Faith, shall be sent gratis to all students under its care who request them.

V .- PARTICULAR DUTIES OF CANDIDATES.

- I. Inasmuch as the great aim of the Church, in the establishment of the Board of Education, is the increase of holy and faithful preachers of the Gospel, the young brethren who look to this work are earnestly and affectionately reminded that all intellectual acquisitions are of little value without the cultivation of piety, and that they are expected and required to pay special attention to the practical duties of religion, such as reading the Scriptures; secret prayer and meditation; occasional acts of special consecration of themselves to Christ and to His service, as their Redeemer and as the Lord of all; attendance at regular meetings on the Sabbath and during the week; endeavors to promote the salvation of others; and the exhibition at all times of a pious and consistent example.
- 2. Inasmuch as the scholarships granted by the Board will necessarily fall short of a full support of the students, it will be expected that they and their friends will make all proper exertions to supply whatever may be wanting.
- 3. When a student shall find it necessary to relinquish study for a time, in order to increase his means for support, by teaching or otherwise, he shall first obtain the consent of the Education Committee of the Presbytery, or of the Board; and if, when given, he shall not be absent from study more than three months, his scholarship will be continued; but if longer, it will be discontinued, or continued in part, according to circumstances.
- 4. It shall be the duty of each candidate connected with the Board to report himself, soon after the meeting of the General Assembly, to the Education Committee of his Presbytery, as to his progress, wants, and prospects; and when any of the requisitions of the Board which affect him may not be carried out by teachers or others, it becomes his duty to see that they are attended to, that delays and losses to himself may be prevented.
- 5. The reception of a scholarship by a student shall be considered as expressing a promise to comply with all the rules and regulations of the Board.

Forty-Fourth Annual Report

OF THE

BOARD OF FOREIGN MISSIONS

OF THE

PRESBYTERIAN CHURCH

IN THE

UNITED STATES OF AMERICA

PRESENTED TO THE GENERAL ASSEMBLY, MAY, 1881.

NEW YORK:
MISSION HOUSE, 23 CENTRE STREET.
1881.

E. O. Jenkins, Printer and Stereotyfer, 20 North William Street, N. Y.

FORTY-FOURTH ANNUAL REPORT.

THE Board of Foreign Missions presents to the General Assembly the report of the work under its care for the year ending April 30, 1881, and also the minutes of its meetings, in the manuscript volume. for the same period.

Finances.

The accounts of the Treasurer will be found at the end of this Report. It will there be seen that the receipts of the Board from all sources from April 30, 1880, to April 30, 1881, including the balance from last year, were \$590,680.49. Its expenditures in the same time were \$581,515.19. Balance in the mission treasury, April 30, 1881, \$9,165.30.

It is thus evident that the last financial year has been one of marked prosperity. The thanks of the Church should be given to God for the grace given to his people as shown by their liberal support of his cause. It is gratifying to acknowledge some large donations from the friends of missions, and several bequests from departed friends; while the women of the Church, in their various associations, have nobly sustained their interest in this cause. The Board also regards with grateful feeling the gifts of the children in many families and of many Sabbath-schools. If some solicitude must still be felt as to the financial income of the Board, it must be ascribed chiefly to the slight decrease of the regular collections made in the churches, which are always the main support of our Church Boards, and coupled with this, indeed as mainly explaining it, the apprehension that far too many of our Christian people do not yet contribute to the advancement of missions as the Lord has prospered them. growth in this grace, as there is reason to believe; and as the fields abroad are still open, and the harvest is still calling for laborers, the Board can not but indulge the hope that there will be a steady and large increase in the means placed at its disposal for the conversion of the world. The narratives given in the pages that relate to the work of each mission will be regarded as reasons of thanksgiving, and also as calls to greater faith, prayer, and liberal giving in behalf of this cause of our Lord and Saviour Jesus Christ.

The Board acknowledges with thanks gifts to the missions from the Board of Publication, the American Bible Society, and the American Tract Society. These gifts were of considerable pecuniary value, but having been expended by the donors directly in the publications, printed or given, they are not included in the Treasurer's report. Nor are the moneys included which were paid by the Creek and Seminole Councils toward the expense of boarding-schools in those tribes, and by the United States Government toward the expense of the Chippewa and Omaha boarding-schools. These moneys are accounted for with vouchers through the official agents of the Government and the two tribes in the Indian Territory. The only expenditures for Indian work shown in the Treasurer's report are such as have been supplied from the general funds of the Board.

Publications.

Of the *Annual Report*, 4,800 copies were published. Of the *Foreign Missionary*, 17,250 copies are now circulated. The *Record* still contains some pages for the Board. Its circulation will be reported by the Board of Publication.

MISSIONS AMONG THE INDIANS.

Seneca Mission.

Upper Cattaraugus: Cattaraugus Reservation, Western New York; mission begun, 1811; transferred to the board, 1870; missionary laborers—Mrs. Asher Wright, Rev. Morton F. Trippe and his wife; one native assistant. Lower Cattaraugus: on the same Reservation; missionary laborers—Rev. Zachariah L. Jimeson; ** Rev. H. Silverheels; one native helper. Sub-Stations: on Tonawanda and Tuscarora Reserves, Western New York; missionary laborers—two native helpers.

ALLEGHANY: Alleghany Reservation, Western New York and Pennsylvania; missionary laborers—Rev. William Hall and his wife; Rev. D. Jimeson and Rev. Benjamin A. Blinkey: one native licentiate preacher.

Lake Superior Chippewa Mission.

ODANAH: on Bad River Reservation, in the north-western part of Wisconsin, the Reservation fronting on Lake Superior; transferred to the Board, 1.70; missionary work resumed, 1841; missionary laborers—Rev. Isaac Baird and his wife; Rev. Henry Blatchford; Miss Susie Dougherty, Miss Marion MacLarry, teachers; one native teacher. OUTSTATION: on Lac Court d'Orielles Reservation; one native licentiate preacher and teacher.

Omaha Mission.

BLACKBIRD Hills, Nebraska; on the Missouri River, about 70 miles above Omaha City; mission begun, 1846; missionary laborers—Rev. William Hamilton and Mr. Homer W. Partch and their wives; Miss Mary Jennings, Miss Margaret C. Fetter, and A.iss Millie Bryant, teachers. For Iowas and Sacs, in Kansas, Rev. Samuel M. Irvin, temporarily.

Dakota Mission.

Yankton Agency, Dakota Territory: On the Missouri River, 60 miles above Yankton; station occupied, 1869; missionary laborers—Rev. John P. Williamson and his wife; Miss Nancy Hunter, teacher; Rev. Henry T. Selwyn; three native helpers.

POPLAR CREEK, Montana: on the Missouri River, 70 miles above Fort Buford; station occupied, 1880; missionary laborers—Rev. George Wood, Jr., and his wife; Miss Jennie B. Dickson, Miss Charlotte C. McCreight, teachers; one native helper.

Creek Mission.

Tullahassee: in the Creek District, Indian Territory; station occupied in 1849; suspended in 1861, and re-occupied in 1866; missionary laborers—Rev. William S. Robertson and his wife; Mrs. Ann A. Craig, and Miss Lilian Green, teachers.

EUFAULA: in the Creek District; Rev. Robert C. McGee. North Fork, near Enfaula; one native licentiate preacher.

Wealaka: in the Creek District; Rev. Robert M. Loughridge and his wife; Rev. Thomas W. Perryman.

Seminole Mission.

Wewoka: in the Seminole District, Indian Territory: mission begun, 1849; suspended, 1861; resumed, 1867; missionary laborers – Rev. J. Ross Ramsay and his wife; Miss Adaline Ramsay; Rev. Cowe Karjo, and four other native helpers.

Nez Perces Mission.

LAPWAI; Rev. George L. Deffenbaugh; three native licentiate preachers.

Kamia: Miss Sue L. McBeth, Miss Kate C. McBeth, teachers; Rev. Robert Williams; two native licentiate preachers.

The Indian work of the Board has been marked by some changes, and for the most part by satisfactory progress. The Rev. William P.

^{*} Names in italics denote natives of the tribes.

Barker and his wife, for some years in the Seneca mission, were led to resign their connection with the Board in the autumn on account of Mr. Barker's health. The kind regards and sympathy of their friends attend their withdrawal from this service. The Rev. Samuel M. Irvin felt constrained to resign the charge of the Omaha boarding-school, as the ill health of Mrs. Irvin did not permit her to engage in its duties. Mr. Irvin then accepted a temporary commission to visit and preach among the Iowas and Sacs, a remnant of the tribes for whom he had formerly labored as a missionary. About two hundred souls are still in north-eastern Kansas, but the number is lessening by removals to the Indian Territory. It is desirable that those who may remain in Kansas should be taken under the care of neighboring churches.

In the list of teachers as reported last year, Miss Ramsay has been transferred to Bogota, S. A.; Miss Baldwin and Miss McCay resigned for needed rest, with the warm regards of all who are acquainted with them; Miss Aungie, Miss Estill, and Miss La Flesche withdrew on their marriage. The new teachers appointed were Miss McCreight, Miss Hunter, Miss Fetter, Miss Bryant, Miss Adaline Ramsay, Miss Green, Miss Hall, Miss Cole, and Miss Richards. The last three returned to their friends after the fire at Tullahassee, with the kind regards and sympathy of their fellow-laborers. The stations occupied by the others are mentioned in the list already reported. Besides these laborers, the Rev. Messrs. Robert M. Loughridge, Morton W. Trippe, and Thomas W. Perryman, Mr. Homer W. Partch, and Mrs. Loughridge, Mrs. Trippe, and Mrs. Partch appear on the list of new missionaries, having been appointed during the last year. Mr. and Mrs. Loughridge spent many years formerly among the Creeks as missionaries, and their return is warmly welcomed. Mr. Trippe leaves a pleasant field of labor in Western New York to enter on work for the Senecas. as pastor of the principal church, and to give a part of his time to the other churches, with the cordial approval of the Presbytery, and with encouraging prospects of useful work in a wide field. It is encouraging that two native ministers of the Gospel and three native licentiate preachers have been added to the list of laborers. Other natives as candidates for the ministry are referred to in the reports of four of

The arrangements for Mr. Trippe's labors in this mission were made under the direction of a Committee of the Presbytery of Buffalo, and were approved by the Presbytery. Its action was in harmony with the Board's minute, as printed in the Annual Report of 1878, page 11, which is as follows:

"In reference to circumstances somewhat distinctive in the case of the Seneca mission, as well as in reference to the general superintendence of Christian work within their bounds, which our Church recognizes as appertaining to the Presbyteries, the Board decided to embody in a minute the policy it has always virtually pursued wherever practicable. It therefore agreed, 'That correspondence be opened with the Presbytery of Buffalo, within whose bounds most of the work of the Seneca mission is situated, with the view of placing such work more fully under the supervision of the Presbytery, or of its Standing Committee, the Board to reserve, however, all appropriations of funds for the support of the mission, to be granted according to the state of its treasury, and upon estimates prepared by the mission as heretofore, but hereafter to receive also the approval of the Presbytery, or its Committee."

The same Report of 1878, pages 89 and 90, contains the views of the Board on the Superintendence of Missions to the Indians.

Marked evidence of the divine blessing on these missions has been shown by the additions to their churches of over one hundred new communicants, as reported in the following table:

These returns include the statistics of the Spokan church, which was re-organized at Deep Creek, sixteen miles from Spokan Falls, on the 12th of June, by the Rev. G. L. Deffenbaugh, with eighty-nine members, formerly communicants. To these, three were added afterward on examination. This church, and the two Nez Percé churches, are under the efficient charge of Mr. Deffenbaugh. He is aided by the native minister and licentiate preachers; and these native brethren may be expected to take a larger part gradually in the instruction both of the church members and of those who as yet are unevangelized.

In the educational work of these missions, the signal discouragement was the burning of the Creek school building at Tullahassee on the 26th of December. Through the favor of Providence no lives were lost, though teachers, scholars, and attendants made a family of over one hundred persons. The property belonged to the Creek

Council. Some of the scholars were sent to Carlisle, Penn., at the expense of the Government; about twenty are still under instruction at Tullahassee in temporary buildings; the others returned to their The Council has decided to re-establish the school as soon as practicable, recognizing its past record as one for which the Creeks

have reason to be highly grateful.

The attendance of scholars in the Chippewa boarding-school at Odanah has declined, owing to the removals of some families, who took their children with them, and the desire of others to obtain wages for their boys in the public works now in progress. This school will probably be discontinued, unless scholars can be obtained from other Chippewa reservations which does not seem probable. The question of the best place, whether in the various tribes, or abroad. as at Carlisle and Hampton, or as at Cornwall, fifty years ago, for the boarding-school education of Indian children, is one of much interest. The distant schools possess certain advantages of separating the scholars from unfavorable influences, and giving them a more complete education in some respects. The schools in the tribes, costing less, seem better adapted to elevate the condition of the parents at the same time, and to prepare the children for their future life, and for supporting themselves in connection with their own families.

The Seminole boarding-school has an increased attendance of scholars, and a largely increased interest in the tribe, consequent upon its excellent management by Mr. Ramsay and his wife and daughter. The Omaha school for a time was not encouraging, but latterly it seems to be well attended and doing well. The Nez Percé school. at Kamia, for men, especially as a means of training candidates for missionary service, and taught by Miss S. L. McBeth, and the not less interesting school at the same place for women, taught by Miss K. C. McBeth, have both been the means of doing great good to the Nez The school taught at Poplar Creek by Miss Dickson and Miss McCraight has made a good beginning, in the midst of some of the "wildest" Indians of the north-west. The schools at Yankton Agency and vicinity are still well conducted and of good promise.

No returns are given of education among the Senecas, excepting of the industrial school of Mrs. Asher Wright, which is exerting a good influence, relieving want, and giving opportunities of Christian instruction. The other Seneca schools are a part of the Common School system of the State of New York. It need here only be stated generally in closing these brief notices of the schools, that the Creek and Seminole Councils, for their boarding-schools, and the United States Government for the Omaha and Chippewa schools, defray a large part of their expense. The moneys so paid are not brought into the receipts of the Board, being accounted for with vouchers to the councils and to the government by their official agents. The Board reports only the payments on account of these schools, which have been made from its general funds as supplied by the

churches.

The statistics of these schools are here tabulated:

The plans of the Board during the last year contemplated the commencement of missionary work among two tribes, one of which was taken out of its charge; the other was the Winnebagoes, an interesting, partially civilized tribe adjoining the Omahas. In the case of the latter, various causes led to some delay; but measures are now authorized for building a dwelling-house for the missionary. The Rev. William Hamilton's useful labors for the Omahas will be continued; and a new missionary, it is hoped, will be obtained for the Winne-

bagoes.

To the translation of the New Testament into the Creek language, for the use of adults never likely to learn English, Mrs. Robertson has continued to give a part of her time, and some of the books translated have been printed and are much prized. Mr. Loughridge is also giving some attention to preparing a vocabulary or dictionary of Creek words, and hopes to translate the Psalms. It will not, probably, be considered expedient to translate the whole Bible into a language spoken by so few people, most of whom must learn to use English; but the New Testament, the book of Psalms, the book of Genesis, and of Exodus, Chapters i. to xx., might well be translated, for the benefit of those who will never learn any language but their native tongue.

In general, the foregoing accounts of Indian work show that careful and steady efforts have been made in various ways for the spiritual enlightenment of the tribes amongst whom these missions are conducted. It is a cause of thanksgiving that the blessing of God has so evidently rested upon these labors. To some of the churches the additions of new members have been quite encouraging. But greater progress should be earnestly sought for. Several tribes are yet unreached by missionaries of any Church, and some already in part supplied need reinforcement. The Board lays much stress on the training of native ministers and teachers, and is thankful that some native converts have been received as ministers and licentiate preachers, while others are coming forward, as it is hoped, for similar services;

but earnest white men are still called for, especially ministers, and but few seem to feel that this call is one addressed to themselves. It is less difficult to obtain the services of well-qualified ladies as teachers. Recognizing the critical condition of many Indian tribes, who must soon become settled and industrious, or else pass into a condition of almost hopeless vagrancy, the Board would gladly be enabled to extend its work for their Christian civilization, and especially for their conversion to Christ—the true means of any valuable progress in civilized life. The past history of the missions of the Board abundantly attests the wisdom and the good results of its plans and labors for the welfare of the Indians.

The Indian agencies for which the Board made nominations are now but four: the Pueblos and Moqui Pueblos, in New Mexico and Arizona Territories; Uintah Valley, in Utah Territory, and Nez Percé, in Idaho Territory, occupied respectively by Messrs. Thomas,

Sullivan, Critchlow, and Warner,

Southern Mexico.

This mission, which in other years has been so greatly prospered, has during the past year met with serious loss in its missionary force. In October Rev. M. N. Hutchinson was dismissed from the mission, and soon after Rev. I. H. Polhemus was transferred from Zacatecas to take his place. The mission has been cheered as well as saddened, and especially by the stability and zeal of the native ministry.

Exact statistical reports have not been received, owing to the changes occurring in the personnel of the mission. The reports, so

far as received, show a total church membership of 3,175. The num-

ber received during the year is not given.

During the autumn the Board sent a commission, consisting of one of the Secretaries and the Treasurer, to visit this field. By a previous arrangement they were met in the City of Mexico by all but one of the ordained native preachers. With these men, together with the missionaries, they held for some days a series of conferences, during which all the interests of the mission were thoroughly discussed. The commissioners were impressed with the high character of the young men who have been trained up within the last eight or ten years as preachers of the Gospel. In Christian spirit and general qualification these men showed themselves worthy of commendation considering their antecedents.

In theological training they are of course inferior to the average ministry of our home presbyteries, but not inferior in judgment or nice discrimination, or the candor and Christian spirit with which they discuss the most difficult and trying questions. Most of the evenings during the conference, as well as the intervening Sabbath, were spent in religious services in the two Presbyterian chapels. These were conducted wholly by the Mexicans, two or more preaching short discourses at each service. An opportunity was thus given of hearing them all. "So far as we could judge," says the report of the Commission, "the Mexican of the middle and higher class seems to be a natural orator. No one of the speakers resorted to manuscripts or written heads of discourse, and no one betrayed any sense of awkwardness in manner or appearance. Generally, stepping one side of the desk, they addressed their hearers directly, with clear and well-modulated voices, and with a freedom and naturalness of gesture which were well-nigh perfect. As a result of the conference, we were greatly encouraged by the manifest character and ability of these men."

The same report urged that particular attention should be given to the subject of schools for girls. It is in this department that our mission work in Mexico is most deficient. We have a good corps of native preachers, and other young men are in training for the work of preaching and teaching. We are establishing little Protestant communities in various parts of the Republic, amid surroundings which are not only ecclesiastically but socially hostile to the truth. Woman everywhere represents the stronger element in the religious faith of the community, whether that faith be true or false. If our preachers and teachers are to marry Roman Catholic wives, they will be shorn of half their influence. If our Protestant families are to hand their daughters over to be trained in Roman Catholic schools, they will thus surrender the very key to the social life of the churches, and in the end lose the

ground that has been gained.

We can not accomplish a sound and permanent work of evangelization in Mexico without giving due attention to higher female education. We must prepare not only wives for our educated men, but female teachers for our village day-schools. We should establish a female seminary in the capital with a day department for those who reside in the city, and a boarding department for the daughters of our

own people who live elsewhere. The latter should be restricted perhaps to those who give the best promise, and all should be called upon

to contribute as they are able to their self-support.

The Board has taken steps to meet this great need by appropriating the sum of \$15,000 for the purchase of suitable buildings for a girls' school in the capital, it being understood that the money will be raised by the Woman's Foreign Missionary Society of Philadelphia.

The Board has purchased during the year the building occupied by the Boys' Training-School, and has received the title of the Chapel *El Divino Salvador*, the generous gift of Mr. and Mrs. Hutchinson, valued at not less than \$15,000. The church organizations embraced in this field are:

1. That of the church *El Divino Salvador* above named, with a branch congregation worshiping in a chapel known as *San Pedro y San Pablo*. The total membership is 520. Rev. Arcadio Morales, Pastor.

2. Toluca. This is situated about forty miles south-west of Mexico City, in the center of a promising field of labor. The church, with a membership of 100, is under the care of Rev. Manuel Zavaleta.

3. Jungapeo. The church membership numbers 300; the Sabbathschool, 60. This congregation, which is under the care of Rev. Enrique Bianchi, has raised about \$400 toward the building of a church edifice. Around it are other small congregations in villages at varying distances, situated in the State of Michoacan.

4. Tlalpan. This church is situated in the Valley of Mexico, and is under the care of Mr. Alvino del Arco, a licentiate. The membership is 75. Vigorous efforts are being made to secure a church

edifice.

5. Tisapan. This is in the midst of a manufacturing community mostly employed in a cotton factory. The nominal Protestants of the place number about 500; the membership of the church, 250. The day-school has 36 pupils. Contributions for all purposes, including the care of the poor, amount to about \$500. This little congregation has suffered heavily from persecution, five of its number having been murdered by fanatical mobs since its organization, seven years ago.

6. The church at *Ozumba*. This is an imperfectly organized body as yet, with an average attendance of about 100. At two little hamlets adjacent are worshiping assemblies of about 30 each. The Sabbathschool numbers 50. A day-school is also sustained with 137 children. A similar school at *Chimal* numbers 26. This work, church and school, is under the care of Mr. Francisco Escobar, assisted by his ex-

cellent wife.

7. Jalapa. This is situated on the eastern slope of the Cordilleras, and is considered one of the most delightful places with respect to climate, vegetable productions, and romantic scenery to be found in the world. There is a church, with 160 members, under the care of Rev. Benjamin Pascal. Attendance at Sabbath-school, 60; day-school, 20. Accommodations for public worship are granted gratuitously through the influence of a female member, the sister of a former official of the Government.

8. Vera Cruz. This church membership numbers 350. The services are held in a hall connected with the American Consulate, where important assistance is rendered, especially in church music, by the family of the Consul, Dr. Trowbridge. The pastor, Rev. Hipolito Quesada, is a man of great fidelity and singleness of aim, a friend of the poor and the suffering, a man commending the Gospel by his daily life.

In addition to the number of ordained preachers, of whom there were at the beginning of the year ten, though one, Senor Moya, has since died, seven licentiates are employed in various portions of the field, besides six teachers in the day-schools. A training-class of six or seven youths is maintained in the boys' boarding-school connected with the San Pedro y San Pablo Chapel. Six of these are preparing for the ministry, and have been for the last year under the training of Rev. Messrs. Phillips and Keil.

A printing-press has been started on a small scale, sustained principally by the native preachers and teachers, under the direction of Rev. Mr. Diaz, who also has executive charge of the Boys' Boarding-school.

An interesting work has been carried on in the State of Hidalgo, by Rev. Heziquio Forcada. His field is on the frontier, and embraces several Indian villages, some of which have remained surprisingly free from Roman Catholic influence. The readiness with which the truth has been received from his lips has been most cheering; and with a little more time, and more perfect organization, it is believed that some flourishing churches will be established on that field. At Pisaflores, in August last, services were held with very great promise of results. Accommodations were readily granted by men of influence in their own houses, and the multitude eagerly listened to the truth.

In one of his letters, Mr. Forcada says: "How shall I describe the sensations that I experienced in contemplating a people whom, by reason of the isolated and mountainous condition of the country, not even the civilization of our century has been able to reach, but who, in a very humble hut on the banks of a brook in the bosom of the Sierras. I found listening with immovable gaze, with fixed countenance, and the breath suspended, not wishing to lose even an iota of the preached Word? How shall I express what I feel when, from mountain to mountain, from village to village, I am teaching the rudimental truths of Christianity to persons who had never heard of God? will only say, by way of resume, that after one year of active work in the State of Hidalgo, about 3,000 persons have heard the Word of God. More than 200 copies of the Scriptures have been sold; multitudes of tracts and other Christian publications have been distributed." Reports from the State of Guerrero not having been received, we give the number last reported at 679.

Northern Mexico.

During the past year, Rev. I. H. Polhemus and his wife have been removed from Zacatecas to the City of Mexico. Rev. D. J. Stewart has been stationed at Jerez, and Mrs. A. C. Thomson has returned to this country on account of ill health. Notwithstanding the diminution of force, the Zacatecas station has prospered, and gratifying accessions were made to the church toward the close of the year. Religious services have been regularly maintained in the city, though the need of better accommodations for religious worship has been seriously felt.

The tabular statement of the Zacatecas Station, now under the care of Rev. T. F. Wallace, gives a total membership of 787, embraced in thirteen different churches and congregations. It is noticeable here, as elsewhere, that in the membership of the churches the males greatly preponderate, being in this instance nearly five to one. Four native helpers are employed. Amount of contributions, \$283. Total average

attendance, 359. Baptisms: infants, 39; adults, 21.

The station has been greatly indebted to the efficient co-operation of Dr. and Mrs. Prevost, who have again taken up their residence there after an absence of several years. One of the most interesting portions of the work connected with this station was that of itinerations made by Messrs. Wallace, Polhemus, and Stewart, in the remoter districts, sometimes extending their labors to the distance of two or three hundred miles to the north and north-west. In various towns they carefully studied the spontaneous work which had been progressing for many months through the efforts of Christian laymen. Earnest artisans, who had found opportunity to study the Bible, had been blessed with great usefulness among their neighbors.

A visit made by Mr. Wallace to San Miguel de Mesquetal is described in his reports as having been one of great interest. A zealous blacksmith, Don Demas Zateray, having built up in this place a thriving little church, still continues to instruct his congregation in two religious services on each Sabbath. After the baptism of two new members in this congregation, Mr. Zateray accompanied Mr. Wallace on a missionary tour extending through several days. Many incidents were related by the way, connected with the localities through which they passed, showing the bitter spirit of former days, and the blind, fanatical zeal which he himself had shared, undergoing the severest penance as a means of making merit.

At San Juan Guadaloupe, Mr. Wallace visited another church which had been established by a layman. It now numbers about 60 members, some of whom ford the chilling current of a river at the time of each church service. A little chapel is greatly needed by

this worthy congregation.

Near the close of the year, a tour was made by Mr. Stewart, accom-

panied by a native helper, in which they baptized eleven adults at one time at *Rancho de Dios*. Their success brought upon them some threatenings of persecution, though all danger was happily averted.

In Zacatecas there has been a good deal of excitement late in the year, occasioned by the arrival of the remains of Gen. Ortega, an old hero of the Republican cause. The highest honors were paid to his remains by the populace. The horses were taken from the hearse, and the enthusiastic crowd drew the vehicle with their own hands. This demonstration called forth a violent article in a clerical newspaper, in which the Government officials were severely denounced. The secret of their bitterness lay in the fact that Gen. Ortega had done more for religious liberty and the defense of the Protestant Christians than almost any other man in the Republic.

As a result of this abuse from the clerical party, public meetings were held and speeches made by leading citizens; and the day after the funeral services a decree of the Governor was posted through the city, and ordered to be posted in all the cities and towns of the State, setting forth that "as the Government, for the sake of peace, had for some time permitted the laws of reform to remain a dead letter, and as this had been misinterpreted as a sign of weakness on the part of the Government, the authorities were now required throughout the State to exercise all vigilance to have these laws executed, and especially to see that religious toleration be secured to all."

The results of this decree are already manifest. The priests no longer dare, in violation of law, to sport their long sacerdotal robes in the street; the ceremony of "carrying the host" in triumph through the streets is again abolished, and religious liberty is once more de-

fended against Roman Catholic violence.

The station at San Luis Potosi, which is regarded as of great importance to the future development of the mission, has been occupied only by a native helper, Rev. D. J. Stewart having removed to Jerez. Strong appeals are made by the mission for an increase of the missionary force, and it is to be hoped that during the coming year all the stations may be strengthened.

Monterey.

The tabular summary of Monterey shows a total membership of 386. Infants baptized during the year, 42. The number of churches in which members are reported is 15, that of Monterey numbering 85. Ten different native helpers of all kinds are reported. The boarding-school in Monterey, under the care of the Misses Cochran, numbers 23 scholars. During five months of the year a theological class of six has been maintained. Three additional churches are ready to be organized. In one or two churches elders have been elected, with a view to more permanent organization. In still others, persons are in training for the eldership.

Mr. Thomson has pursued his mission work steadily through the year, with the exception of a few weeks occupied in attending his wife on her return to this country. The oversight of numerous

churches has been exercised by him in various tours of visitation, and at the same time instruction has been given during stated periods

to a class of young men preparing for the ministry.

Nothing specially important has occurred in the mission; though the death of Rev. Mr. Westrop, for a long time engaged as a Baptist missionary in Northern Mexico, has given evidence that the turbulence and fanatical cruelty of the Indian tribes, especially when instigated by the priesthood, has not wholly passed away. The shocking murder of Mr. Westrop by Indians should enlist a prayer of sympathy on the part of the whole Church for those who, amid such perils,

are extending the truth in Mexico.

The school under the care of the Misses Cochran has progressed favorably, though under some discouraging circumstances. The school is yet in its infancy; and in a community no further advanced than that of Monterey, many discomforts must still be endured in the prosecution of such a work. These young ladies, however, are sustained by the sympathy of Christian women at home with whom they are in correspondence. All the considerations which have been urged for female education in Southern Mexico, apply with equal force to the Northern Mission. The raising up of those of the female sex who, as wives of preachers and teachers, and as instructors in primary schools, shall sustain and promote a general Christian in-

fluence, is too apparent to require argument.

The Monterey Mission is well organized and wisely conducted. In this field, as in Southern Mexico, measures are being taken toward the organization of a Presbytery at no distant day. The necessity of organizing a church on a thoroughly self-governing and self-supporting basis, is deeply felt. Mr. Thomson, in speaking of the difficulties which will be encountered in this work, says: "We have before us an immense task—the regulating of sessions and Presbyteries as deliberative bodies; for, as far as I am yet able to observe, the people are more given to act on impulse than on deliberation. And when a subject arises that would give rise to difference of opinion, instead of giving reasons, they express their desire that the case should be decided in a certain way, and that otherwise, they will take their hats and leave. It is a revolutionary people, more used to making a break-up than to obedience or respect to law. The same type is to be found in the churches as in the State."

MISSIONS IN SOUTH AMERICA.

Mission in the United States of Colombia.

Bogota: the capital of the country; population, 45,000; occupied as a mission station, 1856; missionary laborers—Rev. M. E. Caldwell and his wife; Miss Kate McFarren and Miss Margaret Ramsay; one native teacher.

This mission was, for most of the year, in the hands of Miss McFarren, who sought to do what she could in maintaining the school and in keeping up some of the religious services of the church. In October Rev. M. E. Caldwell and his wife and Miss Margaret Ramsay arrived in Bogota to take charge of the work committed to them. No report has been received of the operations of the year.

The girls' school was closed in November and reopened January 17th. Mr. Caldwell writes of it: "Our school is very encouraging. We now have enrolled in the two departments about fifty, and this number will, no doubt, be increased. More and more we feel the need of more help. We need a boys' school very much, and also more help to do the missionary work, which seems to be opening so

encouragingly before us."

In November the Lord's Supper was administered, when two persons made a public profession of religion. Both had been under deep conviction, and their apprehension of divine truth was clear and satisfactory. One of these had been a devoted Romanist, but years ago she became disgusted with the errors and practices of her Church, and has since been attending Protestant service. The attendance on public services is increasing, and the prospects of greater interest on the part of many in the truth are cheering. A

Sabbath-school has been opened, with good attendance.

Mr. Caldwell makes an earnest plea for more laborers. He needs an associate. The work is abundant and the field is large. He says: "So far as I know, I am the only Protestant minister for all Northwestern South America. A special responsibility, therefore, we might naturally infer, rests upon our Church to carry forward the work so long since undertaken by it, and left to its care. The location of Bogota mission is such as to give it a wide field of influence, and to afford good opportunities for enlarging the work. Bogota itself is not only a city of considerable importance, containing, perhaps, about 50,000 inhabitants, but it has also, within easy march, many thousands of inhabitants located in the villages and towns surrounding this centre of influence—the capital of the country. It is true there have been, and are still, some discouraging features in the work here, but, on the other hand, there are many things which should encourage our hearts and give us renewed faith. There is also a spirit of inquiry among many of the poor, and a general good feeling toward us by the rich and even spiritually indifferent, that, with God's blessing, there will certainly be brighter and happier days for this wicked city."

The membership of the church is 25; additions, 2, on profession

of faith. Girls' Boarding and Day-school, 50.

MISSIONS IN BRAZIL.

Bahla: 750 miles N.N.E. of Rio de Janeiro; missionary laborers—Rev. A. L. Blackford and his wife; one colporteur. Outstation, Cachoeira.

Campos: about 150 miles N.W. of Rio Janeiro. Rev. M. P. Carvalhosa.

RIO DE JANEIRO: the capital of the country; population variously stated up to 400,000; occupied as a mission station in 1860; missionary laborers—Rev. George A. Landes and his wife; Rev. A. B. Trajano; one colporteur and one teacher.

Lorena: 190 miles S.W. of Rio de Janeiro-one licentiate preacher.

SAO PAULO: 220 miles W.S.W. of Rio de Janeiro; chief town in the province of the same name; population 22,000; occupied as a mission station in 1863; missionary laborers—Rev. Messrs, Geo. W. Chamberlain and J. Beatty Howell, and their wives; Miss Ella Kuhl and Miss Mary P. Dascomb; two teachers and one colporteur.

Sorocaba: 60 miles W. of Sao Paulo. Rev. A. P. de Cerqueira Leite.

RIO CLARO: over 300 miles S. of West of Rio Janeiro; occupied as a mission station in 1863; missionary laborers—Rev. Robert Lenington and his wife; two native teachers, and one colporteur.

Brotas: 160 miles N.W. of Sao Paulo; occupied as a mission station in 1868; missionary laborers — one licentiate preacher, four native teachers, and one colporteur.

Caldas: 140 miles N. of Sao Paulo-Rev. Miguel Torres.

In this country: Miss Phebe A. Thomas, Rev. John F. Dagama and his wife, Miss Eva Dagama.

Miss Mary P. Dascomb, after some years at home, sailed for Sao Paulo September 5, to assist in the girls' boarding-school. Rev. George A. Landes and his wife left for Rio Janeiro October 5. Rev. A. L. Blackford, after acting for some time as agent of the American Bible Society, was reappointed by the Board near the close of the year. Rev. J. F. Houston was obliged to return to the United States in December on account of the impaired health of his wife. Instead of rallying, as it was hoped, she gradually sank, and died in March. She was a valued and faithful missionary. Miss Ella Kuhl, who has been at home for several months recruiting her health, is preparing to return. Miss Thomas, who has generously defrayed her own expenses in the field, is also at home on account of impaired health.

Bahia.

This northern station is now occupied by Rev. A. L. Blackford, Mr. Lenington having been transferred to Rio Claro. His services were given to Cachoeira, which has been without a laborer for some time, as well as to Bahia. Services for worship were held regularly in both places on the Sabbath, and on Wednesdays of each week; conducted either by the missionary or by members of the churches. Colportage was carried on at both stations. There is no report of the number of books and tracts sold and put into circulation. Another missionary is greatly needed, as it is impossible for a single laborer to attend to two organizations so far apart, and do the work necessary in so important a centre as Bahia. Discipline had to be exercised in both churches. Two members were suspended. The membership in each church is 20; adult baptisms, 2; children baptized, 6.

Rio Janeiro.

Preaching has ever been the chief work at this station. This was conducted at different points by Messrs. Houston and Trajano, the native minister. Religious services were held in the church twice each Lord's day; at San Domingos, on the bay opposite Rio Janeiro. on Sabbath and Friday evenings, in a rented hall, and on Tuesday evenings at the house of the missionary; at Lagoinhas and in another part of the city on Sabbath morning and Wednesday evenings. At these places much truth was proclaimed, and many listened to it with growing interest. The Fereira movement, noticed last year, continues; some few returned, but upwards of thirty members remained with him, and their names have been stricken from the roll. The attendance upon the church services has increased. and especially among those who have not been in the habit of frequenting the sanctuary; thirteen were received on profession of faith, and were baptized. Mrs. Houston organized a number of the ladies of the congregation into a society, with the great aim of benefiting others through their personal efforts. These ladies distribute tracts, visit the sick, help the poor, and seek in other ways to do good. The church is in a healthy condition to go forward and accomplish greater things than any yet attempted for the salvation of others. The work in outlying districts has not been neglected, though but little comparatively could be done by the missionary owing to the demands upon him at the capital. Early in the year the town of Ubatuba was visited by Mr. Houston. This is a place of some 5.000 inhabitants, about 100 miles south of Rio Janeiro, and near the coast. He was greatly encouraged by the earnestness of those who had previously heard the truth, and by their desire for a church organization; nine persons were baptized. In June Mr. Trajano preached to them, and four more were received on profession of their faith, and in November these were organized into a separate church.

Lorena and Cruzeiro were without a minister most of the year, but were visited occasionally by the missionaries of Rio Janeiro and Sao Paulo. From the lack of supervision and the stated ministry for so long a time, both of these organizations have somewhat decreased in membership. Lorena church has sixteen communicants, and Cruzeiro ten. Senhor E. C. Pereira, one of the licentiates, has recently gone into this region, and will preach regularly at these

and other points.

The church at Petropolis has been also without the stated means of grace. Mr. Blackford was able to preach five times during the year, and administer the sacraments. There were no additions to the membership. Contributions for congregational purposes, \$51.

The church at Campos has enjoyed the services of Rev. M. P. B. de Carvalhosa, who is held in high esteem by the people. The contributions of the church were \$150, and were given for his support. Additions to the church, 3; membership, 16.

The churches of Caldos, Machado, and Bordo da Matta have been

under the care of Rev. M. G. Torres, who was greatly encouraged in his labors. To the first of these churches nine were added during the year, and it has forty-four communicants; the second has twenty-three members—one was received on profession of faith; the third has forty-five members, which was strengthened by the admission of five to its communion roll. Mr. Torres is not only striving to advance the cause through the pulpit, but also by means of the press. He has published a work entitled "The Roman Church at the Bar of the Gospel," in which he exposes the errors of Rome, as set forth in a Catechism prepared by the Bishop of Para. He is also preparing a History of the Life of Christ, which will greatly aid in advancing the cause of truth.

Sao Paulo.

The statistics of the Sao Paulo church show an addition by profession of faith of three persons-total, ninety. Two infants were baptized. Contributions amounted to \$452. Whilst there was no marked interest in divine things, or increase of spirituality during the year, the regular attendance at all the services was large, so that it was often difficult to find a seat. "The audience," says Mr. Howell, "is largely composed of young men, law students, and those who are preparing for the academic examinations, clerks in stores, etc. The seating accommodation of the present preaching hall is so inadequate that we are talking seriously of taking steps toward putting up a regular church building. At the beginning of the year the Ladies' Sewing Society held a fair, the proceeds of which, amounting to over \$400, have been set aside for this purpose." The Sabbath-school numbers about ninety. Nearly all the best of the Moody and Sankey hymns have been translated into Portuguese, and are sung to the same tunes by the children.

The day-school suffered severely owing to the opening of similar schools by Mr. Morton, formerly of Campinas, and on a somewhat less religious basis, which the people prefer. The success of these Protestant schools has aroused, however, the ire of the priests, and in one, where over 200 pupils are found as boarders, they call it "that accursed school." The presence and influence of the institutions referred to have forced the missionaries to recognize the importance of concentrating their strength upon the preparation of young men and women as Gospel workers, and of having their schools chiefly for them. This will give the mission a class of teachers educated on right principles, who will be suited to take charge of the work at different points. During the year seventy-two boys and thirty-seven girls were enrolled, and thirteen boys and

thirteen girls in the kindergarten—in all, 135.

The girls' boarding-school has had ten boarders, and has been under the charge of Mr. and Mrs. Howell. Ten young men, students for the ministry, have been under the special training of Mr. Chamberlain. Mr. Howell has also rendered aid in their education. Two have been licensed to preach the Gospel, and are ministering

to churches that have no pastors; the others, whilst preparing for the ministry, are all engaged in some employment whereby the expenses connected with their preparatory course are diminished, and at the same time the idea of independence and self-support is inculcated. These students are taught English, Greek, mental and moral philosophy, theology, etc., and are well drilled in the Catechism. In addition to the proofs cited they are required to search the Scriptures for others, so as to be able to give a reason of their faith, and to teach others also.

The Imprensa Evangelica continues to be issued from Sao Paulo. The missionaries have been greatly aided in their editorial labors by some of the young men in the institution. It is an important

agency for good.

Mr. Chamberlain was able to make two long journeys into regions where the Gospel had previously been proclaimed. Of the second trip he writes: "In October I started again for a last visit to the extreme western communities of believers, taking a different route, and visiting some places I had never before reached. Passing by Sorocaba, where the native church is prospering, under the native pastor, A. P. C. Leite, I left him on the eve of a long journey south. and bore almost due west through Ypanema, Tatuhy, Samambaia, Rio Feio, Botucato, to Lencoes. I preached in each of these places, delaying several days in Botucato, where there is no little interest in the Gospel. One old gentleman offered to build a house for worship if we would maintain a preacher there, and contribute, with others, to his support. Upon my return a few weeks later, I found he had purchased an unfinished house, and was employing men to work upon it, making no secret of its destination. In Lencoes, and the district of the same name, I preached some days to many eager listeners. Fifteen adults professed their faith, and were baptized with their children. These, with fourteen who united in July, and some members of the Brotas church resident in that district, were organized into a church—thirty-nine in all—and proceeded to elect three of their number as elders and three as deacons. A subscription was started to build a room for worship. This flock in the wilderness is surrounded by devouring wolves, and no shepherd within range of them."

There has been some advance in the Brotas field, though the church has had no pastor. Regular services were conducted by the members themselves at six different points in the district, embracing the churches of Brotas and Dois Corregos. To that of Brotas 20

were added.

Rio Claro.

Mr. Dagama, with impaired health, has been able to do much service in this place, and in regions beyond. Regular services were maintained throughout the year by him or the Rev. J. J. Zink. The meetings were well attended. The Sabbath-school had an average attendance of over forty, and the orphan boarding-school, under the care of Miss Dagama, has had thirty-one. This school has been

frequented by some of the children of believers, and is preparing a class of laborers who may be greatly useful in this portion of the empire. The membership of the church is fifty. Baptisms, four

adults and six children. Contributions, \$175.

The outstations have been visited at different times by the missionary. The church at Sao Carlos do Pinhal has been under the care of the Bible-reader and the teacher, who conduct the services on the Sabbath. The day-school has twenty children. To the church five were added on profession of their faith, and four by certificate. Four adults were baptized, and five children. Communicants, thirty.

The Araquara church has now thirty-three on its roll; two were received by baptism; eight children were baptized; Sabbath-school attendance ranged from twelve to twenty; the services in the church

were kept up by the Bible-reader and his brother.

Regular preaching once a month was kept up at Pirassununga and Araras, and at Limeira twice a month. The services at other times were conducted at Limeira by the Bible-reader. The day-school was attended by twenty-five pupils.

These are encouraging indications that the Gospel is affecting the different strata of society, and that its circle of influence is steadily widening. Some of the best families are represented in the schools, and the hearts of several have experienced the power of Divine truth.

Three political events of great importance to Protestantism, says

Mr. Howell, took place during the year-

(1). A change of the law in regard to cemeteries, obliging each city and town to provide a public cemetery for the burial of those who were not Catholics, and where the burial services can be conducted according to the faith of the deceased. This takes out of the hands of the priests a powerful means of coercion, which in

past years they have freely used.

(2). A decree of the Secretary of State recognizing the existence of the (Protestant) church of Dr. Kalley in Rio as a corporate body, with a right to hold, purchase, and sell property, without previously obtaining the consent of the Government as heretofore. This change of policy relieves the churches here of a great burden, as up to this time it has been impossible for individual churches to hold property, all the church properties in connection with our work having been held in the name of the Presbytery, which is incorporated and recognized by the Government; but even for it to acquire any property, an exact description of its size, locality, value, etc., must first be sent to the Government, which could at any time refuse to allow us to acquire more property than it saw fit.

(3). The passage of a clause in the great electoral reform, giving to Protestants equal political rights with Catholics, and making them eligible to all offices, and excusing them from the oath to support the religion of the State, which has heretofore been required upon assuming office. This, if not a virtual separation of Church and State, as many consider it to be, is at least a long step in that direction. This clause did not pass without a great deal of opposition, but the victory of its supporters will probably encourage them to attempt still more radical reforms in the next Parliament.

MISSIONS IN CHILI.

Valparaiso, the chief seaport of Chili, latitude 33 deg. south: Population, 160,-000; laborers—Rev. Messrs. David Trumbull, D.D., and A. M. Merwin and their wives.

Santiago, the capital city of Chili, 120 miles inland from Valparaiso, with which it has railroad connection: Population, 125,000; laborers—Rev. S. J. Christen and his wife.

Talca, 120 miles south of Santiago, connected with the same by railway: Population, 20,000; not occupied.

CONCEPCION, on the eoast, about 300 miles south of Valparaiso: Population, 15,000; laborers—Rev. Messrs. Robert and Eneas McLean, S. W. Curtiss, and their wives.

The mission work in Valparaiso has from the first been steady but healthy in its advancement. Fifteen adults have been received during the year to the Church under the care of Mr. Merwin, which now numbers 60, and has an average Sabbath attendance of 120. About 210 are numbered as adherents of the Protestant cause. Weekly prayer-meetings are maintained in the church and in two suburban districts. Three Sabbath-schools are reported, with an aggregate of 89 scholars. The day-school in the city numbers

96, with a boarding department of five. Printing has been done to some extent. The English and Spanish papers have been issued as usual, besides a thousand copies of various translations. The station report speaks of fidelity among members, and zeal for Christian

work among a few.

Interesting meetings were held during the Week of Prayer. Mr. Merwin speaks of the generous aid of Messrs. Williamson, Balfour & Co., by whom a school building, two stories high, and having seven large rooms, with spacious play-grounds, has been turned over to the mission for permanent use, though the property stands in the name of the above firm.

The friends of the cause in Valparaiso have been cheered by the return of Dr. and Mrs. Trumbull, after a protracted absence on ac-

count of ill health.

Santiago.

The Santiago station, occupied by Rev. S. J. Christen, has suffered some depressing influences resulting from the war between Chili and the united forces of Peru and Bolivia. Fortunately this conflict is now at an end; but it has left certain influences which will abide for some time to come.

The report urges the importance of increasing the work of the press as a missionary agency, inasmuch as Santiago is the centre of intellectual and political life in the country. The influence of a single missionary there, with scarcely any help of the printed page, is altogether inadequate to the demands of the position. The Chilian public is a reading public; and the press is the power which moves society. Many people who would not enter a Protestant church will read Protestant literature, especially if published in the current newspapers. The press and the school are thought by some of the most intelligent friends of Protestantism to be the chief hope of gaining

access to the people.

Mr. Christen is now assisted in his work at the capital by a young man, a member of one of the Evangelical Churches in Madrid, Spain. Though a native Spaniard, he was educated in Switzerland. He has been assigned to the care of the schools. Mention is made of the encouraging fact that the Colegio Internationale has been placed entirely under the care of the mission. The fundamental principles of Christianity are therein taught to all. Among the boarders, family worship is held daily. The new prospectus of the school sets forth plainly the Christian aims of the institution. A prominent senator, now minister to the United States, has interested himself greatly in the development of the school, and through his influence the project of Mr. Christen for a more thorough course of instruction under Government inspection, was presented to the Board of Instruction, and commented upon most favorably by leading papers of the capital. This is one of the few private schools in the city to which the Government sends examiners. Their recent report has been highly satis-

Communicants, 23; added, 2.

Concepcion.

This is the most recent of the mission stations in Chili, the church having been organized in January, 1880. The membership is now 39. The missionaries now in Concepcion are Rev. Messrs. Robert McLean and S. W. Curtiss—Mr. Eneas McLean, on account of ill-health, having retired to Valdivia. Services are regularly conducted in the church on the Sabbath and during the week. Seventeen have been added.

The average attendance upon Sabbath evening services is 80.

Sabbath-school numbering 55 is in a flourishing condition.

Three young men are in course of instruction for the ministry. A Young Men's Christian Association has been formed in connection with the church, and now numbers nine members. A day-school has been established with ten pupils.

A hymn-book, a religious paper, a small work on the Evidences of Christianity, and a weekly exposition of Sabbath-school lessons, have been printed during the year. Two hundred and seventy-five copies

of the Spanish Bible have been sold.

At the outstation, Caromel, three services each week have been attended. Puchoco has also been added as an outstation. The work at Concepcion is still in its infancy; but it is an encouraging fact that it has fully doubled in volume during the year.

Total: missionaries, 6; churches, 4; communicants, 122.

MISSIONS IN WESTERN AFRICA.

Liberia Mission.

Monrovia: Rev. Robert A. M. Deputie.

Station, on the Marfar River, fifteen miles inland from Cape Mount, among the Veys: Mrs. Emma A. Diggs, teacher.

CLAY ASHLAND: Mr. Albert King, teacher. MARSHALL: Rev. Zachariah R. Kennedy.

NEAR MARSHALL: Mrs. John M. Deputie, teacher.

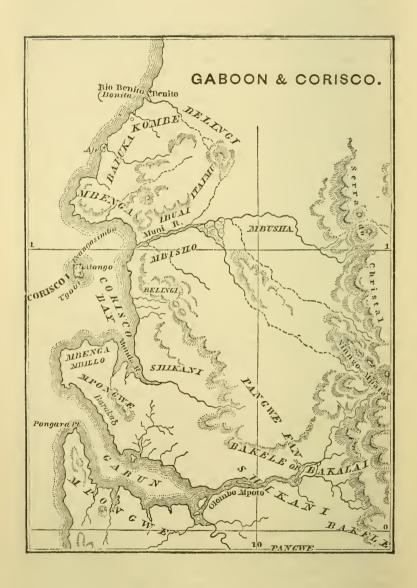

SINGE: Rev. James Priest; Mrs. James R. Priest, teacher.
PLEASANTVILLE, on the Farmington River: Mrs. Sophie E. Waters, teacher.

Sampsonville: Mrs. Martha Jones, teacher. Near Carysburgh: Mrs. Julius David, teacher.

The laborers are all of the Americo-African race. None of the aboriginal inhabitants are yet on the staff of missionaries; and but few of them, it is understood, are members of the churches. This brief statement should receive the consideration of the ministers and churches in Liberia. The death of Mr. James R. Priest, a teacher, son of the aged minister at Sinoe, is reported. Much good was expected from his talents and superior education. The death of Mr. Warner, formerly President of the Republic, a man of extensive and very useful influence in all the walks of life, and an exemplary member and elder of our church in Monrovia, is a great loss, and one greatly lamented by all classes of people in Liberia.

No new men have been sent to this country during the last year, though the Board was ready to send out more qualified laborers. One was under appointment, but was induced to defer the time of his going out, and it is not now considered likely that he will go. It is much to be regretted that the Presbytery now consists of but four ministerial members, one of whom is well up in well-spent years. It is noteworthy that several female teachers have been appointed, of whom two were commissioned last year. They are widowed women, receiving salaries as recommended by the Presbytery, which are not very large in amount. Their schools contain but few scholars, and are to be regarded as somewhat experimental; but it is hoped that they are doing good. It is the desire of these teachers that the religious instruction imparted in them may be as seed sown which shall bear fruit in due season. Scholars reported on the 31st of December: six girls and three boys at the station on Marfar River, among the Veys; ten boys and girls at Sampsonville; fifteen boys and girls at Pleasantville; fourteen boys and two girls near Marshall; report from Sinou not received. Mr. Kennedy reports fourteen boys at Marshall, December 31st; and Mr. King, twenty boys at Clay Ashland, September 30th. The scholars in the schools at Marshall and Clay Ashland are further advanced in years and in education than in the other schools In the Clay Ashland school the study of Latin, geography, arithmetic, and other English lessons, is pursued. Tuition fees are required, which, though small in amount, yet make a beginning towards defraying expenses for books. None of the schools, with this exception, receive any support from the friends of the scholars—which is to be regretted mainly on account of the parents, as showing the little value they set on the education of their children. Most of them, however, are very poor.

From the churches no reports have been received, excepting from Monrovia and Schieffelinville. Some deaths occurred among the members of the former, and some new communicants were received, making the number, December 31st, sixty-four. In the latter, twenty members are reported, two new members having been admitted. From the other churches, former reports enumerate, at Marshall, twenty-five; Sinou, eighty-one; Buchanan, ten; Brewerville, nine; Clay Ashland, thirty-one; Carysburgh, thirteen; Sampsonville, six; Harrisburgh, twenty-one; King Tom's Town, near Marshall, eleven. is feared that but few new members were received last year by most of these churches. No accounts have been furnished as to self-support by any excepting that of Monrovia, which for several years has paid \$100 a year towards its pastor's salary. It is a discouraging feature, both of the schools and the churches, that such a disposition exists to rely on foreign support in these vital matters. Neither ministers nor teachers, with slight exceptions, as noted above, receive any part of their support from their own people. Such facts, if not remediable, cloud the hopes of the friends of Liberia. It is hardly less discouraging to find little progress made towards giving the blessings of education and religion to the purely native inhabitants of the country, who largely outnumber the Americo-Liberians; while as to

the large tribes beyond the borders of Liberia, no further measures appear to have been adopted for extending to them the benefits of Christian civilization.

During the year the college at Monrovia, under trustees appointed by the State, but supported almost entirely by funds held in this country, in Boston and New York, has received as its new president the Rev. Dr. Blyden, who, as a member of the General Assembly at Madison, was regarded with much interest. His education was largely obtained in a school in Monrovia supported by the Board. Other persons of ability and distinction were also educated in the same school. It is hoped that Dr. Blyden's accession to the college may impart new life to it. It is also hoped that great good will be secured by a girls' school of high grade, which is to be conducted by Mrs. Barboza, a daughter of the Rev. Henry H. Garnet, D.D., a member of the Presbytery of New York. Mrs. Barboza and her family went to Liberia for this purpose during the last year, with the respect and sympathy of the Board, though not under its commission. She was aided by liberal gifts of friends in New York, through the Ladies' Board of Missions. It is confidently expected that her school will be the means of educating many pupils to a degree not otherwise within their reach, while its influence will be that which flows from Christian instruction and example,

The Board ends its report of its work in Liberia by expressing the hope that new life and energy may soon be infused into all its interests, industrial and commercial, as well as educational and religious. Its geographical position, its relation to interior regions, its access to aborigines within and beyond its territorial limits, no less than the connection of its churches with friends in this country, whose sympathies and liberal gifts have been extended to it for many years, all concurto call forth true concern for the best welfare of its people.

Caboon and Corisco Mission.

Gaboon: at Baraka, on the Gaboon River, near the equator, ten miles from the sea; occupied as a mission station, 1842; transferred to the Board, 1870; missionary laborers—Rev. William Walker, Rev. Graham C. Campbell and his wife, Mrs. Albert Bushnell, Miss Lydia Jones, and Miss Lydia B. Walker, teachers; eight native assistants. Outstations—at Rembwe, on the Gaboon River; Rev. Natha Truman; one native assistant. At Nomba, two miles from Baraka—supplied from Baraka.

NENGENENGE: on an island seventy miles up the Gaboon River, an outstation for several years; occupied as a station, 1881; missionary laborers—Rev. Arthur W. Marling and his wife; one native teacher.

Corisco: fifty-five miles north of the equator, and from fifteen to twenty miles from the mainland. Alongo: occupied as a station, 1850; missionary laborers—Rev. Ibia J'Ikenje; one native assistant. Outstations—at Mbiko, on the mainland, opposite Corisco, and other places; two native assistants.

Benita: on the mainland, fifty-three miles north of Corisco; occupied as a mission station, 1864; missionary laborers—Rev. Cornelius De Heer and his wife; Mrs. Louise Reutlinger; Mr. Peter Menkel and his wife; one native licentiate preacher; five other native assistants. Outstations—Hanje, Batanga, etc.; one native licentiate preacher; three native assistants.

KANGWE: on the Ogovi River, one hundred and sixty-five miles from the sea by the river, or ninety miles direct; occupied as a mission station, 1876; missionary laborers—Henry M. Bacheler, M.D., and his wife; Mr. Joseph H. Reading and his

wife; Mrs. Jennie M. Smith and Miss Susie Dewsnap, teachers; one native licentiate preacher; three other native assistants. Sub-Stations at Belambila, Igenje, on the same river; two native assistants.

In this country: Rev. Robert H. Nassau, M.D., Miss Isabella A. Nassau.

The Rev. Messrs. De Heer and Marling, Mrs. De Heer and Mrs. Reutlinger arrived in Africa early in the summer, followed in a few months by the Rev. Graham C. Campbell and his wife, new missionaries, and Mr. Joseph H. Reading and his wife under re-appointment. The Rev. Arthur Marling and Miss Jannet B. Cameron were married. Mrs. J. M. Smith, after faithful service in teaching at Kangwe, was compelled, by the failure of her health, to visit Madeira, in the

hope of soon being able to return to her work.

The station at Benita has been reoccupied by laborers of experience, and that of Kangwe reinforced, while Nengenenge has become a full station; the names of the missionaries at these places are enumerated above. The station at Baraka has enjoyed the invaluable services of Mr. Walker and Mrs. Bushnell, who possess large experience in African missionary life. The good work of the teachers, and the good promise of the new laborers, are also to be regarded as promising features of this station. The outlook at Alongo, on the contrary, is one of discouragement. Mr. Ibia speaks of the Corisco people as falling away from their former interest in religion, and many of them as worse in morals than they were some years ago. At Benita, and especially at Batanga, the furthest station north on the coast, Mr. De Heer reports a pleasing degree of interest in religion among the people. This was shown at Batanga by their building a chapel and a dwelling-house for the native licentrate preacher, with little aid from outside sources. At the other or southern part of this extended field, Kangwe, on the Ogovi River, maintains its fine promise of useful influence in its immediate neighborhood, and of far-extending connection with interior tribes, to be referred to further on in this report.

The statistical returns of churches and schools have not been fully received, but the following accounts are taken from reports and letters dated to the 22d of February. At Baraka it was deemed needful to reform the church, and "after a careful, thorough, and sympathizing examination, the session voted to excommunicate about twenty members. This action left the church smaller and stronger." Particular statements, showing the need of this severe discipline, are made, and then Mr. Walker adds: "But unless Paul has misrepresented the Corinthian church members, precedents may be quoted for almost anything we have here. On the whole, there is hope." One person was admitted to this church on profession of his faith. Though not specified, the number of communicants at Baraka may be stated at about eighty. At Alongo, as already mentioned, a reduced number is reported. Mr. Ibia reports two adults baptized, but of the church members he says: "Two died, six suspended, and ten excommunicated." This seems to leave less than eighty members on the roll. Mr. Ibia says: "Religion does not go in silver slippers in Corisco, but walks barefooted and in rags." Mr. De Heer writes in much more hopeful strain of the church at Benita, which includes communicants

at outstations; but the exact returns have not yet been received. Last year one hundred and thirty-three names were on the church register. From Kangwe, Dr. Bacheler reports a visit of Mr. Walker, when the communion was administered. One member was excommunicated, and six new members were received, making 15 in all.

The usual work has been kept up in the schools of the mission, of which the following details are given: At Baraka, under Miss Jones' charge, boys on the roll, 49, with an average attendance of 35, of whom 17 are day scholars; girls, under Miss Walker's charge, average attendance, 45. At the close of the year, December 24th, Miss Walker reported 40 boarding scholars and 9 day scholars in this girls' school. In both these schools much faithful labor was expended. The same remark may be made of the schools at Benita: "Between 30 and 40 boys and girls are on our list," Mr. De Heer reports; "as many as we think it possible to care well for." Of these Mrs. Reutlinger reports the year as closing with 16 girls, of several different tribes. An effort to form a day-school did not succeed. The school at Alongo, under Mr. Ibia's charge, has given little encouragement. Hardly any scholars are now in attendance. At Kangwe Dr. Bacheler referred in May to 48 scholars who were doing well. Later, he wrote of 10 or 12 scholars [young men, probably], who said they were desirous of learning; "but it proved to be a bad investment, for they are inveterate thieves and liars, and all of them running away, stole whatever they could lay their hands on." Mrs. Smith reported, "17 different girls in my school. Some of these remained only a short time, but I have tried to retain those most promising." An attempt was made by the ladies to organize day-schools in villages near the station, which it is hoped may be successful.

Nothing of special note is reported of the native ministers and licentiate preachers. No additions were made to their number. Their labors continued much the same as in former years. The Board deems it important to ask the question, whether it may not be practicable, and if so, expedient, that the training of these native laborers in most cases should be conducted in the vernacular languages—the

Benga or the Mpongwe-rather than in English.

The schooner, still under the charge of Captain Menkel, and maintained at an expense of \$1,000 a year, including the captain's salary, has rendered useful service in visits for freight and passage to stations on the coast. It is not adapted to the navigation of the Ogovi River, and indeed is too slow a vessel for its regular coasting service, besides being now so old as to incur much expense for repairs. The expediency of purchasing, or preferably chartering, a small steamer for the use of the mission, is now under the consideration of the Board.

The Board feels great pleasure in reporting a growing interest among the churches in behalf of this African missionary field. It is a pleasing evidence of this that several approved young men have received commissions from the Board to the Gaboon and Corisco field, who may be ready to go forth in a few months. The stations on the coast have always been regarded as closely connected in various ways with advanced work in the interior. The time for the latter seems to have

come. The station at Kangwe, and the prospect of soon occupying other stations on that river or its tributaries, awaken the hope of access to large native tribes; while recent explorations, which started from Kangwe, point to regions still further inland, on the upper waters of the Ogovi River and on affluents of the Congo River, which may prove to possess a climate favorable to health, and at the same time present fields of missionary labor greater in extent and promise than have heretofore been accessible. These African tribes in the interior, however, as on the coast, seem to occupy a low place as to intelligence and morals-indeed, to be marked with all the traits of ignorant heathenism. One of them, the Pangwes, already brought into close contact with two of our stations, are found to be addicted to cannibalism. But however degraded any of them are, they are not beyond the reach of the grace of God in the Gospel of his Son. And the Church may hope that through this mission a bright and blessed work is now to be done for our Lord. It has been prosecuted for many years, and persevered in through many discouragements, and it has been consecrated not only by the labors, but also by the lives of some of our best men and women, whose faith did not fail, though the fruit of their labors, was not then apparent. No work of the Church heretofore has been maintained by nobler missionaries, hardly any has been marked by greater trials; but these labors could not have been in vain. The Board trusts that the days of trial and darkness are now to be followed by the fulfillment of the promise, that "Ethiopia shall soon stretch out her hands unto God."

MISSIONS IN SYRIA.

The Missionaries and their Stations.

Beirut: Rev. Messrs. C. V. A. Van Dyck, D.D., M.D., H. H. Jessup, D.D., Wm. W. Eddy, D.D., and James S. Dennis, D.D., and their wives; Miss Eliza D. Everett, Miss E. Jackson, and Miss A. Thomson; Mr. Samuel Hallock, Supt. of the Press.

ABEHL: Rev. Messrs. Wm. Bird and Theodore S. Pond and Mrs. Pond; Mrs. Emily S. Calhoun, Miss Emily S. Bird, and Miss Susic H. Calhoun.

Sidon: Rev. Messrs. Wm. K. Eddy, George A. Ford, and Miss H. M. Eddy.

TRIPOLI: Rev. Messrs. Samuel Jessup and Oscar J. Hardin, and their wives; Rev. C. W. Calhoun, M.D.; Miss Harriet La Grange and Miss Fannie Cundall.

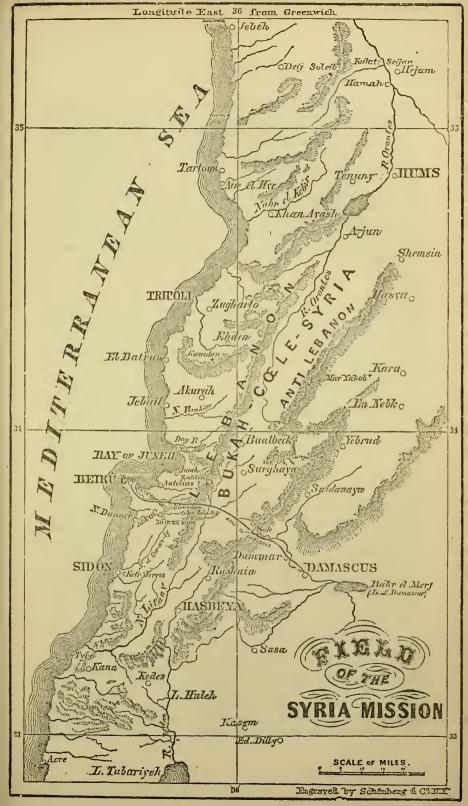

ZAHLEH: Rev. Messrs. Gerald F. Dale and Rev. Frederick W. March, and their wives.

In this country: Rev. Wm. M. Thomson, D.D., and Mrs. Bird.

Faculty of the Syrian Protestant College.

Rev. Daniel Bliss, D.D., President; Rev. C. V. A. Van Dyck, M.D., D.D.; Rev. Geo. E. Post, M.D.; Rev. D. Stuart Dodge, M.A.; Rev. John Wortabet, M.D.; Rev. Edwin R. Lewis, M.D.; Harvey Porter, B.A.; W. F. Stoutenburgh, B.A.; Walter S. Lewis, B.A.; with a corps of native tutors.

The personnel of the Syria mission has undergone but few changes during the year. Mrs. F. W. March was added to the mission, and Rev. William S. Johnston and wife returned home in the autumn and

are no longer connected with the mission. Miss Mary M. Lyons also returned, having suffered for some time from impaired health. On the 8th of January, 1881, Mrs. Emily Danforth, after a brief, acute illness, was removed to another world. She had suffered greatly from ill-health for some months, but had been supposed to be somewhat improved. Mrs. Danforth was the oldest daughter of the late Rev. Simeon H. Calhoun, and was born on the mission field. With the exception of two or three years spent in this country, she had passed her whole life in Syria. Her husband had died five years before of cholera at the Tripoli Station, leaving her with two young children. Fortunately in the providence of God she had for the last three years enjoyed the assistance and tender care of her widowed mother, by whom her burdens and infirmities were greatly relieved.

Beirut Station.

In Beirut, regular preaching has been maintained in the Central Church, at the East Chapel, at the College, in the Prussian Hospital, and at the Mezraa, by missionaries, college professors, and the native Bible-classes, teachers' meetings, catechetical lessons, prayer-meetings, and special lectures in two female seminaries, have

been kept up.

During the year a call was made to the native preacher, Mr. Rizzoul el Berbari, to become pastor of the First church of Beirut; but he felt constrained to decline the call. Sixteen have been added to the church, and 13 infants have been baptized. The total membership is 181, of whom nearly 50 are absent in different parts of Syria. The contributions of the church have amounted to about \$700. The Sabbath-school has contributed \$190, a part of which was sent as a foreign missionary contribution to Japan.

A Sabbath-school hall or chapel was completed during the year through the liberality of Mr. and Mrs. Henry Dale, of New York, as a memorial of their son who died in 1879, aged four years. The hall was dedicated December 19, about 800 Sabbath-school children, representing eight different schools, being present. A testimonial of their gratitude was forwarded through a committee to Mr. and Mrs. Dale.

Two interesting schools have been established at Ras Beirut, one for girls, with 40 pupils; another, with 35 boys. These are supported from sources independent of the Board. Active Christian effort is put forth by the families connected with the mission and the college in be-

half of the families of pupils.

The Theological Seminary graduated eight students and received eight more for a new class. The graduation exercises were held in the church before a large audience, and able addresses were given by the Dr. Dennis, the Theological Professor, has prepared a valuable work on Scriptural Interpretation, which has been published by the Press, and is finding sale throughout Syria and in Egypt.

The Girls' Boarding-School in Beirut numbers 31 boarders and higher day scholars, though 69 have been enrolled during the year. The primary day department has enrolled a hundred names, though

with an average attendance of 60. All boarding pupils pay something toward their tuition, and the six higher day scholars pay in full. The

pupils represent all the sects of Syria except the Moslems.

The Protestant College has pursued its course with increasing interest and efficiency. The total number of students in all departments has been 122. The graduates of the year were 4 in the literary department, 2 in the medical. The total number of graduates from the beginning is 64 in the literary department, 47 in the medical, and 8

in the pharmaceutical, making an aggregate of 112.

The benevolent work performed by professors of the College in St. John's Hospital has greatly increased during the year. There have been 619 indoor patients, and 13,872 clinical cases. Among those received into the hospital are Moslems, Druses, and Oriental Christians, together with a large number of Europeans. Preaching has been maintained on each Sabbath by Dr. Post. This institution, through the co-operation of the Medical College, has taken rank among the very first medical charities of the Turkish Empire. The influence of the educational and medical work of the mission, as well as of the direct preaching of the Gospel, and the widespread issues of the Mission Press, is illustrated in the fact that a so-called Society for Benevolent Intentions has been formed by the Moslems, whose report was recently issued under the name of "The True Dawn."

This publication sets forth the marked contrast between the advancement and general amelioration introduced by foreigners, on the one hand, and the apathy and ignorance of Mohammedan society, on the other. Quickened by this contrast, the Society has raised over \$5,000, besides opening several schools for the young of both sexes.

Abeih Station.

The work of the Abeih field has been carried forward by Messrs. Bird and Pond. Mrs. Calhoun and Miss Susie Calhoun have also labored with success among the women in and about Schweifat. One thing which is noticeable in the reports received, is the good fruit which is being borne by the graduates of the Theological Seminary, and by the undergraduates who spend their summer vacations in laboring in the mountain villages. At Kefr Shima, two persons admitted to the church are both engaged in a course of education, one in the Protestant College, and the other in the Theological Seminary.

At Suk el Ghurb, a member of the last theological class has been very successful in Christian work during the summer. Three students from this village have commenced the study of theology. The general need of religious books adapted to the masses of the people is urged with much earnestness in the report of Mr. Bird. In Shemlan and Abeih, the work has shown a healthy progress. The Druses of Beisoon have been found unusually accessible, not objecting to the most thorough Biblical instruction in the school. At the old station, B' Hamdun, there has not been the usual thrift. The fact that the Russian Consul-General has contributed liberally to the maintenance of a Greek school has produced a diversion from the schools of the Protestants.

The girls' school at Schweifat has been enlarged and advanced in interest by the presence and labors of Miss Susie Calhoun. In the southern part of the Abeih field some new ground has been broken, and has revealed the fact that where Protestant influence has not hitherto been brought to bear, the moral degradation is most marked. At Maallacat the sheikh, becoming disgusted with the Papal clergy, applied to the mission for a school. The accusations of the people against their former teachers are astonishing—one charging a priest with having danced for joy at hearing the bell tolled for a funeral, which would bring him another fee. Another priest had stolen the boards of a coffin wherewith to heat the public oven, in which he was a shareholder. Another still advised a man to bury his poor old mother without a coffin, and expend the money thus saved in purchasing masses for the repose of her soul. The truth in Maallacat will be "light in a dark place."

The people on the sides of Lebanon have enjoyed an abundant olive crop, and the suffering which they have so often been called to meet, and which has been a spiritual hindrance, is greatly relieved.

Sidon Station.

The work of the Sidon field has suffered a diminution, owing to the return home of Mr. and Mrs. Johnston, and the failure of health, and consequent return, of Miss Lyons, who had been connected with the Girls' School. For a large part of the year the field work has been left under the sole supervision of Rev. Wm. K. Eddy, while Miss Hattie M. Eddy has borne the heavy responsibilities of the School.

The reports, however, bear testimony to the faithful services of some thirty-five native helpers laboring in different capacities. Fourteen of these are female teachers. The number of churches in the Sidon field is four, into which 258 persons have been received since the beginning. During the year 26 were admitted, and 30 infants were baptized. There are 20 outstations, three new ones having been occupied during the year.

In two different villages large numbers announced several months since, their adoption of Protestantism. This was understood to be the result of disaffection toward their former church relationships, and not altogether a spiritual change. The result has been, however, a continued interest, and the breaking down of old prejudices; so that what began on a much lower grade, bids fair to be blest to the entrance of the true light. "The people generally," say the reports, "and especially in the region east of Sidon, seem very ready to welcome evangelistic work."

The Female Seminary has numbered 43 boarders, gathered from all parts of Syria, though all from Protestant families. Eighteen different graduates of this noble institution are now teachers in the different stations of the Syria mission. The day-school has numbered from 80 to 100, of whom a majority are Moslems and Jews. One girl comes an hour and a half distance daily, and a large number are from homes in the "gardens," extending for two or three miles outside of the city.

Miss Eddy reports certain improvements made in the Girls' Schoolbuilding, through the liberality of two ladies, one of Cleveland, O., and the other of East Orange, N. J. A balcony thrown out to the sunlight, a new pavement in the court, and a pump in the kitchen, are among the simple but useful things which the charity of Christian women from across the ocean has given to the daughters of Syria.

The day-schools in the outstations number 1,050 pupils, 172 of whom are Protestant children, and 230 of non-Christian parentage. The number studying the Scriptures is 380, and 334 the catechism or other religious books from the Mission Press. These children have paid 1,200 piasters toward books and instruction. The eagerness with which the youth of Syria sometimes seek education is touching. Seven boys are reported as having left their country homes and come to Sidon, where they all sleep at night in a room of their own scanty furnishing, that they may attend the day-school. As their parents furnish food and other matters of expense, they are without charge to the Four others are boarded at the house of one of the teachers.

Mr. Eddy's report speaks of Jedaide as the point where 200 pupils are under Christian influence, and where a boarding-school might be established with little expense and with far-reaching influence for good. As an example of the readiness with which the truth lodged in young minds springs up into eternal life, mention is made of a little boy of seven years, who, upon his dying couch, rejected all priestly ceremonies, and eagerly sought to know more of the simple way of life through Jesus Christ. He comforted his parents with calm assurances of his good estate, and at the last requested to be raised up in his bed while prayer was offered, at the close of which he quietly breathed his last.

The poverty and distress of some of the mountain districts is shown by the fact that in Khirjam 257 persons, made ill by trichinosis, resulting from having eaten the flesh of a wild boar, were found to be wholly without medical aid. In this fearful distress generous contributions were made by the Beirut Christian church, while Drs. Wortabet and Selim Mussally gave their gratuitous medical assistance. This practical exhibition of Christ's spirit is among the influences which are constantly

telling upon the native minds of Syria.

The Sidon station, as the year closed, was cheered by the arrival of Rev. Geo. A. Ford, who is to share in the field work, and by the reported appointment of another female teacher for the Girls' School.

Tripoli Station.

The report from Tripoli states that fewer have been received to the church during the year than usual, owing to various reasons, but that the general interest of the work has been highly cheering. Thirty-nine native helpers have taken part in the work, 14 of whom are teachers and preachers. There were 11 female teachers and 1 Bible-woman. Regular services have been conducted in 15 different places, with an average attendance of 800. Twenty-one common-schools have been maintained, with 827 pupils, though 1,200 different ones have been in attendance. There are 15 Sunday-schools, with 515 pupils.

The general thrift of the Tripoli station has so aroused the opposi-

tion of the Greek clergy, that they were at one time on the point of pronouncing the "great curse" against all Protestants; but being informed by leading Greek families that the time had passed for that kind of tactics, since now not men, but only children would heed it, they desisted.

The high-school for boys has been popular, 50 pupils having been in regular attendance. The principal sheikh has been greatly disturbed by the fact that the boys in the school sit at desks and refuse to go back to the old cross-legged posture and to mats on the chilly floor. He considers this a sign of degeneracy from the good old Mos-

lem ways.

The Female Seminary has had 80 day pupils and 3 boarders. The new seminary building was nearly completed by December 31st, and is considered a model of convenience. The prosperity of this institution has led the Moslems to set apart an old Government building for a similar use, while the Greek Church has appropriated its leading convent for a school to match that of the Protestants. Thus even by emulation, as well as by direct effort, this noble enterprise is promoting the welfare of the daughters of Syria.

An evidence of general thrift in Northern Syria is seen in the fact that the street railroad of Tripoli has proved so profitable that its stock bears a premium of 30 per cent. An omnibus line also is to be established between Tripoli and Hums, similar to that now in operation

between Beirut and Damascus.

In the medical work under Dr. Calhoun, 2,257 medical and 393 surgical patients have been treated in clinics, and 182 surgical operations have been performed, only one death resulting from an operation. These patients have come from all parts of Syria; and one finds it difficult to estimate the moral influence of such a work, to say nothing of the physical suffering and disability that have thus been relieved. Many of the patients while remaining in Tripoli for treatment have attended worship on the Sabbath regularly, and thus have borne back

to their homes the good seed of the truth.

At Maharda and Hums cheering progress is reported. At Lukbi the sheikh of a large branch of the Nusyreeye has welcomed missionary influence, and especially schools, with great earnestness. He is said to be a man of great energy and of a progressive spirit. At first his response to the fears of some of his subordinates as to the influence of schools and Protestantism was a little summary, in one instance extending even to the use of the cudgel, and threatening to beat the whole community if they did not send their boys to school. Finally, however, he concluded to rely upon the influence of his example in sending his own sons, which proved more efficacious. These Nusyreeye boys all use the Testament as a reading-book, kissing it and placing it on their heads always before beginning to read, thus showing a truly oriental reverence for the Word of God.

Zahleh Station.

Zahleh has been reinforced during the year by the accession of Mrs. March, so that two families are now settled on the eastern side of

Lebanon, in charge of the wide, outspread field, stretching up and down the valley of the Litany, and dotted with villages. In nearly all of these there are churches or schools, or both, viz.: Maalaka, Ferzul, Tolya, Shalifa, Jeditha, Ain Berday, Baalbec, Kefrzed, Khirby, Talabaya, Cob Elias, Ain Zibdy, Sughbin, Aiteneeth, Meshgara, and Carain. All of these are centres of missionary work in some form, and five or six other places are soon to be added to the list. Systematic benevolence has been made a prominent aim in all the stations; and, although the people are very poor, they are responding

creditably to the suggestions of self-reliance.

The British Syrian School Committee has co-operated vigorously with our missionaries in the education of women and girls, having sustained two English ladies, seven native female teachers, and five Bible women. Two girls' schools in Zahleh are under its care, the teachers and pupils attending, meanwhile, the religious services connected with the mission. The American Bible Society pays one half the salary of a preacher and colporteur, who labors in connection with the mission, as well as one-half the expense of the Zahleh bookstore. The Bible has been distributed in some thirty-five villages where it had not been received before, the receipts for the same averaging two-thirds of their value. The native colporteur accommodated the condition of the people by receiving barley, cheese, eggs, bread, meal, or a night's lodging, instead of money, for his books. The people at Deir Al Ghuzel, on the slopes of Lebanon, have contributed about \$46 toward the erection of a stone school-house; and Christians in other portions of the field have assisted them, giving an equal amount to their good work. A Sunday-school in Wilkesbarre, Pa., has supplied the amount needed to complete the building. chapels and school-buildings have been erected on this field within eight years.

The general growth of the Syria mission is seen in these facts. There are but two more American laborers than there were five years ago; but there are 48 more native laborers. The outstations have increased in that time from 56 to 81. The addition to the church membership has been 379, or an average of 75 each year. But in these additions there appears one remarkable fact. In 1875 there were 319 male and 179 female members. In 1880 there were 401 male and 476 female members. There were 82 men and 297 women and girls added to the churches of the mission, an average of 16 men and 59 women each year, or almost four times as many women as men. This, in a country where woman has stood so low, is a very striking fact, and will have its

influence in the future.

The regular preaching places have increased from 52 to 73, and the

average congregations have risen from 2,466 to 2,764.

In 1875 there were 32 Sabbath-schools, and now there are 70. There were 1,370 Sunday-school scholars, now there are 2,885. Then there were in all the common-schools, 1,707 boys and 472 girls. Now, there are 2,689 boys, and 1,081 girls—a total of 3,770. Then, the grand total of all pupils was 2,608; now, it is 4,371, an increase of 1,763.

MISSION IN PERSIA.

Oroomiah (near Lake Oroomiah); occupied as a mission station of the American Board, 1834; transferred to this Board, 1871; missionary laborer—Rev. Messrs. B. Labaree, Jc., John H. Shedd, D.D., and J. M. Oldfather; Joseph P. Cochran, M.D., and their wives; Miss N. Jennie Dean, Miss Mary K. Van Duzee; Miss Agnes Cary.

Seir: Mrs. D. P. Cochran.

TEHERAN: Rev. Joseph L. Potter and his wife; Rev. James Hawkes; Miss Sarah J. Bassett; Miss Anna Schenek.

TABRIZ; Rev. S. L. Ward and his wife; Rev. John N. Wright; Rev. Samuel G. Wilson; Miss Mary Jewett; Mrs. Loretta C. Van Hook, and Miss Mary A. Clark.

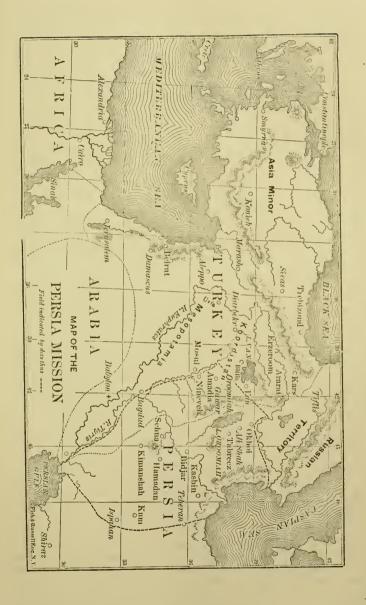

In this country: Rev. James Bassett and his wife.

In the early part of the year famine raged with fearful and devastating power, and in the latter part war with all its horrors, carried on by lawless and ruthless hordes, was experienced, and its evils felt in the Oroomiah field. The terrible ills associated with these judgments are referred to in the report, together with many special displays of divine favor and interposition. Amidst their heavy trials, labors, anxieties, and dangers, the lives of the missionaries were spared, and many rich and precious blessings enjoyed by them and the churches under their care.

The Rev. W. R. Stocking, unable to return to his work, resigned his connection with the Board, in the hope of resuming it at some future time. The relation of Miss Poage was also dissolved on account of impaired health. These laborers carry with them the confidence of the Board, and the best wishes of their associates in the field. On September 9th, Rev. James Hawkes, Rev. Samuel G. Wilson, Miss Mary A. Clark, and Miss Agnes Cary, sailed as a reinforcement. Mr. Hawkes has gone to Teheran; Mr. Wilson and Miss Clark to Tabriz, and Miss Cary to Oroomiah. They were accompanied by Miss Mary Jewett on her return to Tabriz.

Oroomiah Station.

Churches.—The following statistics are of interest as showing the value and progress of the work of evangelization. In 1850 there were

converts, but they were in connection with the old Nestorian Church. In 1860 the number reported was 385, and the nuclei of churches were formed in several villages. In 1870 the report gave the number received from the beginning at 974 communicants, and at that time on the roll 763. In the next decade the number received in all was 1,055. The present roll of communicants is 1,398. The additions on profession of their faith were 254 during the year, the largest number ever received in the same period, and more evenly distributed over the villages; seventy church members have died, several of them from violence in the Kurdish war. The gain in stated attendance on religious worship was from 4,072 in 1879, to 4,800 in 1880. The congregations have now four well-defined objects in view in their contributions—the support of their own churches, schools, the poor, and direct missionary work. The contributions for the year are as follows: Mission work. \$112; schools, \$240; the poor, \$544; houses of worship, \$582; and to pastors and preachers, \$948. This is a healthy growth, and several of the reports do not embrace sums given for education and the poor. The gain over 1879 is fifty per cent., and 63 per cent. over 1878.

In the twenty-eight parishes of the Oroomiah district, nineteen have ordained pastors and organized churches, nine are supplied by licensed preachers. Outside of the Oroomiah district there are twelve parishes with only one organized church, and four ordained ministers. A cheering sign is the aggressive character of several of the churches in evangelistic work, showing the power of divine truth, and how it is lifting this long degraded and oppressed people to a higher plane of true, earnest Christianity. The famine and then the war interfered greatly with missionary work. The city of Senna, 200 miles to the south-east of Oroomiah, was the only new station occupied. One of the native pastors was sent to Vladikafkas beyond the Caucasus, in European Russia, where there is a colony of Nestorians, and among whom he finds much encouragement and

success.

Education.—There has been a commendable advance in this department. In the college are fifty-three students; fifty-one girls in the boarding-school; in the intermediate schools established in sixtythree villages, 1,777; total, 1,944. In this number are found six Moslem students connected with the college, twenty Moslem girls in the female seminary, and a school for Moslem boys in Oroomiah. The college buildings were so far completed as to be occupied at the beginning of the year. The students in attendance were five in the theological class, three in the medical, fifteen in the highest academical, sixteen in the entering class, five Armenian, and five in the Turkish class—49. Of these, thirty-five were communicants, and fourteen non-communicants. "The fall term," says the report, "was sadly broken in upon by the war, which for a month turned our grounds into a fortress of refuge, if not of defence, and made the students stand guard in turn. They gave up their rooms to the girls of Miss Dean's school and to crowds of women, and they in turn took quarters in the unfinished basement of the hospital building."

The Press.—The operations of the press were seriously interrupted by the war. The issues were 1,500 copies of Dr. Schaff's Catechism, 250 copies of the "Rules of the Cnooshya," 800 Sabbathschool Lessons, 400 copies of a Syrian tract, 600 of a Turkish tract, and 400 copies semi-monthly of the Rays of Light. Rev. B. Labaree in his report of the press says: "We added a font of Turkish type to our establishment, and began to print the Gospels in the Azerbaijan Turkish. The work of translation was prosecuted subject to many interruptions. The latter half of Luke was translated, and the former translation of John's Gospel subjected to a thorough revision. The greater part of the Psalms have been translated and are now being revised. The absence of any literary standard in this dialect of the Turkish, whether as to style or orthography, has made this work thus far peculiarly slow."

An Open Door.—"In every Nestorian village and hamlet in Persia, except a very few where Papal influence is paramount, the people gladly accept our schools and teachings, and in several of the parishes the old church services have ceased. In Kurdistan the acceptance of our work is general in Gawar, Jeloo, Baz, Berwer, and Bootan, half at least of the mountain Nestorians. The steady growth in the past, and the present attitude of friendliness, lead us to believe that whatever convulsions may occur our work is safe."

Famine and War.

Dr. Shedd gives the following picture of these judgments: "Of the 5,000 Christian families in this community fully half received relief in the three months preceding harvest. Still, near 500 died of starvation in this Christian community, and many more in districts more remote, where we could render but little help. The mortality among the Moslems was so great that the Christians were like the land of Goshen amid the plagues of Egypt. The conduct of our church members in helping each other in the distribution of Christian alms to thousands of Moslems made a deep impression. The Gospel of Christ was acknowledged as the only source of help to the starving. The harvest following the famine was abundant, and the people were like ants, as busy as they could be in providing for the winter.

"Just as their products of field and vineyard were fully gathered, the Kurdish hordes came upon them as suddenly as a mountain storm. Here again the missionary work was honored in saving this district from complete pillage and massacre. In the region south of us the besom of destruction swept clean. In several hundred villages and in one large town, every living thing that did not flee was put to the sword or carried off. The Koordish sheikh Obeidullah was personally here at Oroomiah. The providence that called Dr. Cochran to administer to him in sickness last spring and his desire to stand well with Christian powers led him to treat the missionaries with respect, and to try and save the Christians, and to carry on war in a civilized way. Still, war is a dreadful scourge in the hands of the cruel and vindictive religionists, inflamed by religious hate.

About fifty Christians were killed, and over 800 families are now in utter destitution, stripped of good clothes and bedding, except such as they were sometimes permitted to carry on their backs in flight. Nine of our congregations were broken up, some of them we fear permanently. The misery of the Moslems is so much greater, that again the Gospel is seen by the thoughtful to be a refuge in distress, and God's hand is recognized as favoring the Christians. This war Las been a heavy shock to the Persian Government, and is a heavy draft upon its scanty resources. The effect upon our Christian community is to dishearten. The future is so uncertain that many would gladly flee the country if they could. The fear that as spring opens the Koords will renew the invasion, fills the air with forebodings. We can only trust in God, and commit to Him ourselves and our work."

Tabriz Station.

The famine which was so severe in the Oroomiah district, touched portions of the Tabriz field, and occupied much of the time of Mr. Wright, and that of others who acted as distributors of the funds that were sent to the city. The effects of the famine upon the spiritual interests of the people are thus sketched in the report: "Before the famine began, we were in the midst of a special gracious work. Our rooms were full of earnest inquirers, and our time occupied with spiritual conversation of a most promising nature; but when the distribution of funds began our time was almost wholly occupied with 'serving of tables,' and the needs of the soul were unavoidably neglected. We see no gracious effects resulting from it, but on the contrary the impression has gone abroad that we give money to those who come to us, and that we buy converts with cash. This slander we fear may do us much harm, both by prejudicing against us the high-minded (if such there are), and by sending to us those who would hope to receive benefit, supposing such to be our method of work."

No marked changes occurred in the religious condition of the people. The Mussulmans, who form the bulk of the population in the city, are not so religious in their fashion, nor so bigoted as the Tartar Turks. The Mollahs do not now wield the influence they once did over the people, who are more tolerant of hostile opinions than the Sunees of Turkey. The work among them during the year was most encouraging, and not a few of them became obedient to

the faith.

The Armenians, who number about 6,000 in the city, possess considerable wealth, and they make a great display of it before the Moslems. As a class, they are far from being susceptible to the truth. The same gross and lifeless ritualism prevails as in the past, and they have neither the form nor the power of godliness. Many of them are rapidly conforming to European customs and modes of dress and life, and they are paying considerable attention to education. The archbishop regards himself as something of a reformer, but he has no love for a pure Gospel, and the evangelistic services held for the good of his people. The attendance at the special Armenian service more than doubled during the year. "From both Armenians and Mussulmans," says the report, "we have had very encouraging additions. At the beginning of the year the statistics of our communicants were: Armenians, five; Mussulmans, four; Nestorians, eight; total, seventeen. Added, Armenians, six; Mussulmans, fourteen; Nestorians, two; Jews, one; total membership, 40. Of this number, twelve are women, eleven other persons are in hopeful probation, and one who died during the year was prevented by ill health

from coming to the communion."

Preaching services were held in the Turkish language on Friday and Sabbath mornings, and in Armenian on Sabbath afternoons. The average attendance at the former was about eighty, and at the latter twenty-five. Meetings were also held throughout the city in various places. The Sabbath-school is divided into classes according to the language best understood by each one, and side by side may be heard Turkish, Persian, Armenian, and Syriac; attendance, eighty. The church is endeavoring, in addition to the partial support of a native pastor, to take charge of its own poor. Discipline has had to be exercised, and with good effect. The congregation is now worshiping in its own building, which has a seating capacity

of about 300, and cost about \$1,000.

Owing to the absence of Miss Jewett, the girls' boarding-school at Lalawa and much other work fell wholly into the hands of Mrs. Van Hook. She was able to overcome the bitter opposition of the Armenians to a Protestant school, and in time received into it both Armenians and Mohammedans, who associated together as if their religion was the same. Three of the older girls professed to have found peace in Christ. The religious services held for the women by Mrs. Van Hook were well attended, and her visits to their homes were always appreciated. Four of these women were received into the church, and others seemed to be interested in the Gospel. A building for the school and the accommodation of the missionary ladies is greatly needed. Without it, the work will be retarded. A boys' school was organized in February, and numbers thirty-five. It is in a prosperous state. The training class numbers ten, and gives promise of furnishing well-qualified helpers and preachers.

Outstations.

Maragha.—"The work at Maragha is encouraging, though the disturbances caused by the war caused for a time a total interruption, and will retard its advance for the immediate future. Our helper, Shamesha Mashe, was compelled to flee for his life, with the loss of his own property, though he saved that of the Board. While absent from his station he was ordained as Kashe by the native Cnooshya of Oroomiah. One was baptized there during the year, making a total of five whom we may before long organize into a church. The boys' school has been under the charge of Rabi Yaw, with an attendance of twenty-two, and a girls' school has also been organized, with a membership of eighteen.

Ardebil.—"We have here stationed a preacher and a colporteur. Some interest is reported, and inquiry from Jews and others. Three have been baptized. Opposition has been manifested, especially by the Armenians, who endeavored to prevent our helper from renting a house in the city.

Khoi.—" A member of the training class taught a school of thirty boys during the summer with satisfaction. When the field was visited by Mr. Wright he found it open, and they requested to have a preacher sent, and Kashe Shimoon has been stationed there.

"Ilkachee is a village of the Alli-Allahee, a heretical Moslem sect.

Here we have a school of twenty boys.

"The Caucasus still continues under our care, though our connection with the work there has been little more than nominal. Some Protestant communities are scattered here and there through its borders. One of these has requested that a preacher be sent to it, and it seems not improbable that Baron Kieher, our Armenian helper, will be sent there."

Teheran Station.

The following condensed report of the work of this station is prepared by Rev. J. L. Potter.

Churches.—There are two organized churches under the care

of this station.

1. Teheran. — We regret to say that divisions and a want of brotherly feeling among the members of this church became painfully apparent early in the year, which has exerted a chilling influence. Only two members have been received the past year, making the present number on the roll thirty-one. Contributions, exclusive of the subscriptions of missionaries, have amounted to \$95, of which the sum of \$54 was expended in part support of a native helper at Teheran, and \$10 was sent to Oroomiah for the relief of the famine sufferers.

During the winter and early spring an unusual interest and spirit of inquiry appeared among Mussulmans, and the number of callers for religious conversation was remarkably large. A sudden check, however, was put to all this by the Government officially forbidding the giving of religious instruction to Moslems. [For the text of this order, see Foreign Missionary, July, '80]. The effect was very evident. The callers ceased coming, and the attendance at the public services suddenly diminished.

2. Hamadan.—The Nestorian pastor has continued his services with acceptance; four have been received into the church, and one has died, leaving the number of members thirty-five. The contributions have amounted to \$88, of which \$45 was for famine relief at Oroomiah, and \$22 toward the support of the native pastor.

The Jewish movement at Hamadan seems to be growing in importance, demanding some forward movement on the part of the mission. Repeated efforts for the protection of the persecuted converts seem at length to have been crowned with complete success.

An order from the Persian Minister for Foreign Affairs to the Governor of Hamadan has at last brought peace to the oppressed. The leader in this awakening among the Jews has been called to his reward.

OUTSTATIONS.—Work in the Karaghan district was given up in the summer because of a very disturbed state of affairs, resulting from the disputed ownership of the village, which caused many of the Armenians to desert the place in great fear. A new outstation has been opened about twenty-five miles from Teheran, and an attempt made to establish a Protestant Christian village, under the auspices of the elders of the Teheran church. A tentative occupation was begun in the spring, and it is hoped this place will prove a refuge for Christian converts, where they may enjoy the quiet exercise of their religion, and be secure in their rights as tenants.

SCRIPTURE DISTRIBUTION.—Interest in the Scriptures has increased, and our sacred book has been placed in the hands of a number of Persians of high rank, who expressed a desire to examine it. Sales during the year, 430 volumes, amounting to \$117. A stock of the Turkish Matthew, translated by Mr. Bassett, has been received from the British and Foreign Bible Society, and a supply sent to Meshed; from whence some have been forwarded to Merv, Bokhara,

and to two other points in the interior of Turkistan.

Schools.—The girls' boarding-school at Teheran has had a prosperous year, reaching the full number of twenty pupils. Owing to the high prices which have prevailed, and which still continue, it has been a very difficult problem to carry on the school with the

amount allowed in the estimate.

It seems impossible to sustain a good boys' school at Teheran without a large expenditure for instruction, more especially as it has not been practicable for the missionaries to teach in the school for several years. At present one teacher is engaged, having twelve pupils. The school at Hamadan, including both boys and girls, reports thirty-one in attendance.

Wylie; native Christian assistants—four teachers, one catechist, and two female teachers. Outstation at Muzaffarnagur, Rev. Kanwar Sain.

Dehra: 47 miles east of Saharanpur; mission station commenced, 1853; missionary laborers—Rev. John H. Morrison, D.D., and his wife; Rev. David Herron, Miss Margaret A. Creig, Miss Mary Pratt, and Miss Annie Herron; Rev. G. McMaster; native Christian assistants—six male and six female teachers, and one Bible-woman. Outstation at Rajpore, six miles from Dehra—one native catechist. Woodstock—Mrs. James L. Scott, Miss Annie E. Scott, Miss Mary Fullerton, and Miss Irene Griffiths.

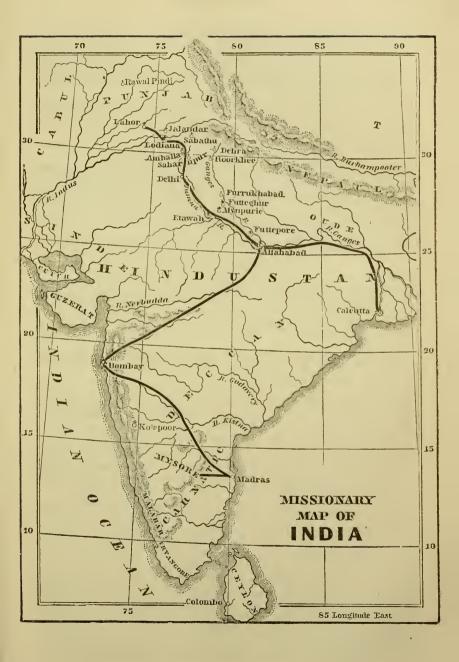

ROORNHEE: 20 miles south-east of Saharanpur; mission station commenced, 1855; native Christian assistants—two helpers.

In this country: Rev. A. P. Kelso, and his wife; Mrs. Carleton. In England: Rev. John Newton, and his wife.

Furrukhabad Mission.

FUTTEHGURH: on the Ganges, 723 miles north-west of Calcutta; mission station commenced, 1838; missionary laborers—Rev. John S. Woodside and his wife; Miss Jennie Woodside; native Christian assistants—one catechist, six Scripture-readers, and three teachers. Outstation, Chabramow—one catechist, one Scripture-reader, one colporteur, and one Bible-woman. Qaim-gunj, one catechist, one helper, and one Bible-woman.

Furrukhabad: near to Futtchgurh; mission station commenced, 1844; missionary laborers—Rev. Messrs. George A. Seeley, Rev. J. C. Ewing, and their wives; Miss Elizabeth J. Seeley; native Christian assistants—two catechists, four Bible-

vomen and zenana visitors; five Scripture-readers and colporteurs, and one teacher. Employed by the mission—Mrs. Brown and Miss Blunt.

Mynpurif: 40 miles west of Futteligurh; mission station commenced, 1843; missionary laborers—Rev. James M. Alexander and his wife; Miss Lizzie Walsh, Miss Frances Perley, and Miss Sarah S. Hutchinson; native Christian assistants—two teachers, five catechists and Scripture-readers, two zenana visitors and Bible-women, three teachers, and two colporteurs. Etah, outstation.

ETAWAH: on the Jumna, 50 miles south-west of Mynpurie; mission station commenced, 1863; missionary laborers—Miss C. Belz, teacher and zenana visitor; Rev. Nabibaksh; native Christian assistants—five Scripture readers, two colporteurs, one candidate, one Bible-woman, and one female teacher. Two sub-stations.

Futtenpore: 587 miles north-west of Calentia; mission station commenced, 1853; native missionary laborers—one catechist, one Scripture-reader.

Allahabad: at the junction of the Ganges and the Jumna, 566 miles north-west of Calcutta; mission station commenced, 1836; missionary laborers—Rev. William F. Johnson and his wife: Rev. F. Heyl; Miss S. C. Seward, M.D.; Rev. J. J. Caleb; native Christian assistants—five teachers, four catechists, five Scripture readers, one colporteur, and four Bible-women.

GWALIOR: mission station commenced, 1873; Mrs. Joseph Warren, Miss Jennie M. Butler, and Rev. Mohan Lal; two native assistants.

In this country: Rev. Messrs. Thomas Tracy, James F. Holcomb, and James J. Lucas and their wives. In England: Rev. Julius F. Ullmann and his wife.

Kolapoor Mission.

Kolapoor: 200 miles south-east of Bombay; mission station commenced, 1853; taken under care of the Board, 1870; missionary laborers—Rev. Messrs. Joseph M. Gohcen and L. B. Tedford, and their wives; Miss Esther E. Patton; native Christian assistants—one licentiate preacher and nine teachers and helpers.

RATNAGIRI: 70 miles north-west of Kolapoor; mission station commenced in 1873; missionary laborers—Rev. Joseph P. Graham and his wife, and two native teachers.

Panalla: 14 miles north of Kolapoor; mission station commenced, 1877; missionary laborers—Rev. George H. Ferris and his wife; one native helper.

In this country: Rev. Galen W. Seiler.

The Rev. J. Newton, Jr., M.D., died at Sabathu July 29, in the forty-second year of his age. His fine endowments, thorough knowledge of the language, great devotion to his work, and especially to the afflicted inmates of the Leper Asylum, make his removal a severe loss to the missionary cause. The death of Rev. James J. Hull, of the Kolapore mission, in March, during his sojourn at home for the benefit of his health, is greatly felt by his associates. His labors in India were only for a few years; but he left his impress upon the work.

Rev. C. W. Forman returned to India in September, after a brief sojourn at home. He was accompanied by Rev. Lyman B. Tedford and his wife. In November Miss S. C. Seward, M.D., returned to her labors at Allahabad. Miss Jennie M. Butler and Miss Esther E. Patton sailed with her for their respective stations. They were followed soon afterward by Miss Pratt and Rev. George S. Bergen and family, on their return. Mrs. Mary R. Janvier, who had been in this country for some years, was preparing to return to India at her own expense, but just before sailing, she was stricken with paralysis. The Board regrets to lose her valuable services as a missionary.

The Furrukhabad mission is weakened by the absence of Rev. J. F. Ullmann and Rev. J. J. Lucas; and the Lodiana mission by that of Rev. J. Newton and his wife, and Rev. A. P. Kelso and his wife.

Rev. J. S. Woodside, after making satisfactory explanation of his course in regard to the property in his name, was re-appointed by the Board.

The deaths and removals from active service of a number of laborers are felt by the missionaries, who make an earnest appeal for reinforcements. With the present force it is difficult to man the stations or to make any advance into new regions.

The Churches.

These continue the same as in the previous year. No new organizations have been formed. The additions to several churches have been encouraging, and nearly all have been privileged to receive new converts to the faith. After referring to the evident growth in knowledge and in grace of the members of the Lodiana church, the report says: "The number baptized during the year was 26, of whom 16 were adults. Some of these are heads of families, and a few have been called upon to suffer bitter persecution for Christ's sake. Thus far all have remained steadfast in the faith, in spite of trial and suffering, except one woman, who is said to have reverted to the faith of an unbelieving husband." Mr. Lucas speaks as follows of the Futtehgurh church: "The attendance has been encouraging, and especially on Communion Sabbaths. It is a pleasant sight to see the well-filled church and the large number of communicants. During the past vear, ten-five male, and five female-have been added to the church on their confession of faith in Christ." Other reports speak of the good feeling that has existed in the churches, and of increased attendance upon services; some mention coldness and indifference as prevailing, and one adds that strifes and dissensions are injuring the body.

Those who have been received into the fellowship of the church have come from all classes. This is seen in Mr. Seeley's report of the additions to the church at Furrukhabad: "Of the six received on profession of their faith, two were sons of a man baptized two years ago; one is a high-caste Sanyasi Brahman, who for many years lived as a genuine fakeer, was met last year at the Singarampur mela, and found in the Gospel that for which he was seeking. He at once received the truth as it is in Jesus with all the simplicity of a child; was baptized in February last; gives credible evidence of being a truly converted man, and promises to become an effective and valued laborer. Two others were of the Sweeper caste, and are man and wife; both are pronounced in their new belief, and have sacrificed much, both in friends and property, in becoming Christians." The Lodiana report says: "As to the classes to which the persons baptized belonged, one was a Brahman; one a Kayath Hindu, who had professed Islam; two were Mohammedans; eight were Sikhs; three were Chamars, and one a Sweeper." Among those received into the church at Allahabad was "a well-educated Hindu gentleman in official life." Of the eleven baptized at Sabathu, nine were from the leper asylum, "all of whom gave good evidence of a real change of heart, and of real love to the Saviour." To the poor the Gospel was preached by the native laborer and the foreign missionary, in the

chapel and bazar—in town and hamlet, to the few and the many; but it was also proclaimed to the rich and the noble—to all who would listen to it. The native minister of Ambala, in his itinerations, stopped at Nahan, where he had an interview with the Rajah, "who asked him to explain the truths of the Gospel to him, and listened with

great attention."

Besides the direct preaching of the Word and the regular maintenance of the ordinances, the Gospel has been proclaimed in various ways and places. How this is done is thus set forth in the Lodiana report: "Bazar preaching, whilst still kept up by our native assistants, has been in a measure supplanted by our chapel services, which have been held four nights each week during nearly the whole year. After three years' experience, we have no hesitation in saying that these services are in every way more profitable than discourses delivered to the jostling and often excited crowds in the street. Here men come in, night after night, often in large numbers, and listen quietly and patiently to the teaching of the evangelist. It is said that the music attracts. Well, perhaps it does. But what of that? With the successful career of many singing evangelists before us, and remembering that this mode of preaching is entirely in accord with the practice of Hindu teachers in all ages, we have no reason to be troubled by the suspicion that many hearers are attracted by the sound of the musical instrument, or the singing of native airs. We have had inquirers come to us and testify that their serious impressions had been received during the preaching and singing of a service in the chapel. Villagers from distant regions have testified that the only knowledge of the Gospel they have ever received was obtained at these same services. The influence is therefore by no means limited to the city, but extends to all parts of the district. Scarcely a service is held without our having among our auditors representatives of the surrounding villages and towns, and often of native territories rarely visited by the evangelist."

At Lahore, five preaching places for non-Christians have been kept up throughout the year. "When preaching," says the report, "in any of our chapels or school-houses, discussion is generally discouraged. Usually two or three preachers go together, and spend an hour or two in singing and preaching, and are usually able to secure good audiences. Besides this indoor preaching, we preach sometimes at the doors of our chapels and school-houses to good audiences, and in the morning, during a part of the year, an hour or two is spent in religious conversation. These conversations afforded opportunities of clearing away difficulties and giving definite instruction on the various points of Christianity brought forward." Rev. Mohan Lal, of Gwalior, reports that "every Tuesday evening, in the principal bazar, we sing upon an open veranda of one of the catechist's houses usually for more than an hour. The children of Hindu and Mohammedan families join in the singing, and many passers-by stop and listen to the Christian hymns, which are first read in a loud voice, so that all the

crowd may understand their meaning."

Another mode of reaching the people with the truth is described by Mr. C. B. Newton: "On this trip, I used the stereopticon, an im-

proved magic lantern, with excellent effect, having a large collection of Scripture views. At Sharakpore we had crowds of the best men in the place, who sat two hours at a time listening attentively, while we explained the pictures, and told them of the Gospel truth they were intended to illustrate. At Faizpore, a very hot-bed of fanatical Mohammedanism, and a place where we have experienced rather rough treatment sometimes, the effect was the same; as also in other places."

Rev. J. M. Alexander describes similar scenes in his missionary tours among ninety towns and villages: "I found the sciopticon very useful. On several occasions I exhibited Scripture views in villages near to our camping places. The pictures were explained, and the Gospel was preached clearly to large crowds collected from many of the surrounding villages. In this way I am satisfied the Gospel truth was brought before the people more clearly than would have been possible without the pictures, and at the same time larger crowds were collected than would otherwise have come together. As usual, many Scripture portions and tracts were sold, the purchasers in many cases expressing

themselves as being anxious to know more about Christ."

The effect of the Gospel is stated by Rev. K. C. Chatterjee: "There is a widely opened door in the villages visited, and they are being permeated with Gospel truths. In most of them are inquirers—men interested in Christian truths, and possessing a certain amount of regard for the Saviour. These are always pleased to see a Christian preacher, and give him a warm welcome; all that is wanted is constant and faithful working in their midst, and the quickening of the Spirit to rouse their consciences and give them no rest until they have laid their burdens on the Saviour." The fakir movement described in former reports continues. Another eminent fakir in the Hoshvarpore field has been baptized. Several of these men travel far and wide, preaching Christ. Others remain in their own district, and are diligent in declaring the Christian faith. "Many of the disciples of one of these have come under Christian influence and teaching. are being prepared for baptism." Slowly, yet surely, are the doctrines of the cross leavening the native mind. Their elevating, transforming power, gradually welding all classes into one religious body, is more and more felt.

Discipline had to be exercised in some few cases; and in one, with its results, an important principle was established. Mr. Lucas, of Futtehgurh, thus describes it: "The session of the church has had to perform the painful duty of excommunicating, on account of a gross crime, the oldest son of one of the elders of the church. The village Panchayat (Arbitration Committee), selected by all the native Christian residents at Rakha, had previously found the young man guilty, and inflicted on him a fine of rs. 700. As chairman of the Panch and as moderator of the session, it devolved on me to carry out their decision. The day after I read the action of the session before the congregation, the young man entered a suit against me for libel, putting his damages at rs. 3,000. The minutes of the session and the Panch, book, as well as a copy of our book of discipline, were

submitted as evidence and examined by the sub-judge, Mr. Banerjea, before whom the case was tried. After a long and patient investigation, he justified the action of the Panch, and of the session in every particular, and dismissed the case, all the costs, with interest, to be paid by the plaintiff. This was a happy issue of the case, which tested the question whether the courts of India will recognize the discipline by an ecclesiastical court of one of its members as privileged. This decision upholds a church court in disciplining any one who may be subject to it. While it was a new and painful experience to be forced to defend myself before a Brahman judge, still I do not now regret it either for myself or for the cause of the Master. I can trace His guiding and helping hand all through the trial, so that I can truly say, 'It is good for me that I have been afflicted, that I might learn thy statutes.' I learned much of Him during the trying days and weeks while the case was pending and being tried. I am glad to be able to bear witness to the deep sympathy shown by the native Christian community throughout the whole trial, and to their hearty rejoicing, even with tears, at the happy result."

The following table shows the numerical condition of the churches in the three missions, as far as reports have been received. There was an error in three of the statistical reports of last year; the membership included baptized children. This will account for the seeming

decrease.

Zenanas.

It is yet a sowing time in this department of labor; fruit is, however, beginning to appear. At Dehra, this work is carried on efficiently by a Bible-woman. Mrs. Calderwood, of Saharanpur, has managed the education of about 100 women and girls found in 20 zenanas. Six new zenanas have opened in Lodiana. Among the 90 women and girls found in them, some are beginning to take an interest in spiritual things. A number are open to missionary effort in Lahore, and have been attended to by the ladies connected with the station. Miss Belz, of Etawah, has been steady in her labors to reach the women in the town and the surrounding country. She has sought throughout the year to bring all whom she could reach under the power of divine truth. "She spoke 82 times in Etawah, 16 times at different melas, 450 times in the villages, and visited 87 zenanas. She has in her zenana schools 151 girls and women." No reports have been received of what has been done at other stations.

Schools.

These are conducted on strictly Christian principles. Religious instruction is daily given, and the aim and effort is to bring it into contact with the minds and hearts of the children so as to lead them to Him who is "the way, the truth, and the life." Whilst neutrality in matters of religion is the governing principle in the Government schools and colleges, it is nowhere recognized in mission schools. "We try to make our schools thoroughly Christian," says the Lahore report: "and this by spending much time in teaching Christianity and in conducting the affairs of the school in a Christian spirit." Rev. J. Heyl, speaking of the great improvement in the high-school in Allahabad, refers to the introduction of new text-books prepared by Dr. Murdoch, whose intimate acquaintance with the needs of Indian youth has fitted him for this work. They are all compiled with a view of giving sound religious instruction. These schools are both day and boarding—the common or bazar school and the high or collegiate institution, in which the pupils are prepared for admission to the University. The influence of these institutions has often been mentioned, even where direct conversion to the truth has not been experienced; but sooner or later the training tells on not a few. The following signal illustration of this is given in the Lodiana report: "A young man, a Kyath Hindu, having been a student in St. John's College, Agra, after undergoing serious conviction of sin, and being intellectually persuaded of the truths of Christianity, became a Mussulman. Though he was kept under strong Muslim influences, and a student in a Muslim school, yet the lessons learned in the mission school were never forgotten, and the truth thus acquired served to convince him more and more entirely of the errors of Islam, until he was obliged to seek peace of conscience in a profession of Christianity by baptism."

Besides these educational institutions, which are chiefly for the Hindus and the Mohammedans, others are springing up for the children of Christians. The boarding-school at Dehra is of this charac-

ter, and the number in attendance reached at one time 146. In the school at Futtehgurh, 45 Christian boys and 62 Christian girls were enrolled. These, and Christian children in other places, will soon become an important element in the native church, and it is of moment that they should at this stage be kept wholly under the moulding influence of divine truth. Orphanages are still maintained at Futtehgurh, where there are 40 girls and 10 boys, and at Saharanpur there are 41 boys:

The Press.

The most important work accomplished at the Lodiana Press was the issue of a small Bible in Persian Urdu, in one volume. A great want of the Christian church has been met by it. There was also published a small pocket Testament in the Persian language. The funds for these were furnished by the American Bible Society. "Many in India, especially the Afghans resident in Lodiana, Amritsar, Lahore, and throughout the Peshawar district, prefer the Persian to the Urdu language. Besides, it was hoped the occupation of Kandahar and Quetta would open up the way for the Gospel, not only in Afghanistan and Beluchistan, but also to the northern parts of Persia. These hopes hardly seem likely to be realized, but we are confident that the Persian Testament will yet perform a good work.

"The Nur Afshan has been published weekly as heretofore. Its circulation is now about 550 copies weekly, and it is steadily growing in favor, notwithstanding its Christian character. Very important matters have been discussed during the year by Messrs. Chatterjee, Thakur Das, Dina Nath, and other contributors; e. g., the Life, Death

and Resurrection of Christ, the Doctrine of Christ, the Nature and Person of Christ, the Quran not needed, Discussions on Moral Philos-

ophy, etc.

"This is the only periodical in the Urdu language that pretends to deal with the antagonistic teachings of Muslim publications issued in Delhi and Bangalore. No little stir has been created by the publication of Rev. Thakur Das's Quran ki-adam-i-zururat, a work in which he shows by a fair and impartial comparison of the Quran and the Bible, that the former contains nothing good and true which is not found as clearly or better expressed in the latter, while the latter contains much that is wholly wanting in the former. He then compares the teachings of the two as to Doctrine, History, Morality, and Salvation, starting with the claim of the Quran that it attests the former Scriptures, and shows how it not only fails to fulfill its own claim, but contradicts the book it professes to attest! The controversy is conducted in a good and earnest spirit."

Rev. W. F. Johnson, of Allahabad, speaks in his report of having completed a commentary on the prophets of the restoration—Haggai, Zechariah, and Malachi—which has been published in a handsome volume of 390 pages octavo. He is publishing a series of illustrated tracts of four pages each in Hindi, and a similar one in quarto form for children in Hindi and Urdu. He also edits the magazine called Makhzan-i-Masihi. This monthly exerts a wide influence. It is printed in a style which makes it a permanent addition to the libraries of those who take it, and contains solid and substantial articles and works. It needs some pecuniary aid, as it is not quite self-sustaining.

Mr. Johnson also prepared and published the Prem Dohavali or Christian couplets, an interesting and valuable work, which is written in imitation of a common and much-prized class of Hindu books, and

which is full of Gospel truth presented in attractive form.

There is great need of new laborers. The appeal for them is most urgent, especially in the Lodiana and Furrukhabad missions. Slowly, vet surely, Hinduism is weakening as a system; but unless Christianity is more aggressive, other beliefs in antagonism to the truth may be This is shown in the Jalandhar report, which says: "The Hindu society here is undergoing a great change. Their opinions in matters of religion and time-honored customs are no longer the same as they were thirty years ago. Our sardars and men of influence come out boldly to give support against early marriage. They say that so long as our young men are not allowed to choose wives for themselves, without any reference to caste and creed, the social, intellectual, and moral progress of the Hindu community will not make even a commencement. It is no less surprising, however, to find that these men who talk so loudly, repudiating idolatry and the superstition of the country, profess belief and privately practice some of the most expensive rites and ceremonies which their poor and less informed neighbors can not observe. They encourage Dayanand's idea of Vedic worship and Colonel Olcott's and Madame Blavatsky's system of occult phenomena with as much zeal and enthusiasm as they speak against Hindu superstition with apparent sincerity."

MISSION IN SIAM.

Bangkok: on the River Meinam, 25 miles from its month; occupied as a mission station in 1840 to 1844, and from 1847 to the present time; missionary laborers—Rev. Messrs. Noah A. McDonald and Rev. John N. Culbertson, and their wives; Miss Mary E. Hartwell, Miss Hattie II. McDonald, and Miss Laura A. Olmstead, teachers; two native licentiate preachers; two native Christian teachers. Outstation, Ayuthia—two native teachers.

Petchaburi: on the western side of the Gulf of Siam, 85 miles south-west from Bangkok; occupied as a mission station in 1861; missionary laborers—Rev. C. S. McClelland and his wife; E. S. Sturge, M.D.; Miss Sarah Cottman, Miss Mary L. Cort, teachers; one native licentiate preacher; three native helpers. Outstations, Bangkaboon and Paktalay, and other places—three native helpers.

In this country: Rev. Eugene P. Dunlap and his wife, Rev. James W. Van Dyke

and his wife.

Rev. J. N. Culbertson, who had been at home for a short visit, returned in the summer to his work. He was followed in August by Ernest A. Sturge, M.D., who is stationed at Petchaburi, and in October by Rev. C. S. McClelland and his wife, and Miss Laura A. Olmstead. The mission was weakened by the departure of Rev. J. M. McCauley and his wife, and Rev. J. W. Van Dyke and his wife. Mr. and Mrs. McCauley will not return to Siam. They are hoping that the more bracing climate of Japan will restore his health, and

enable them to continue in missionary service.

The past year "has been one of lights and shadows-encouragements and discouragements." The reduction in the active force of the laborers, and the absence of an ordained minister for several months from Petchaburi, were attended with some evil consequences. The station, during this period, was in the charge of the two ladies; but they were unable to look after the churches, and to exercise that supervision which the members needed. A few "became disrespectful." In spite, however, of these drawbacks, the churches in other ways were greatly prospered. Twenty were added on profession of their faith to that of Petchaburi, and three to that of Bangkaboon; total communicants, 96 and 16-112. This latter church suffered a great loss in the death of its elder, Nai Soht, who took great interest in it, and who witnessed to the last a good confession for Christ. The first church at Bangkok has been under the care of Mr. McDonald. The defection of the native elder had its effect upon some in the church, and also upon those who profess to be Christians, but are afraid to make a public profession lest, like him, in the midst of so many temptations they should stumble and fall. Three persons were received by baptism and five on certificate; total, 64. Four were added to the Second church, to which Mr. Van Dyke ministered, on profession of their faith, and 7 on certificate; total communicants, 19.

The schools have been maintained with vigor at both the stations. The boys' boarding-school, under the superintendence of Mr. McDonald, has been taught principally by Miss McDonald. The whole number of pupils in attendance has been 67, of whom 40 were boarders, and the rest day-scholars. Their progress in the elementary English branches, as well as in their own language, is mentioned as commendable. The girls' boarding-school has had 30 on its

roll: 3 of these were day scholars. Miss Hartwell has felt encouraged in their advancement in their studies. Miss Olmstead will be associated with her in the care of the school. The Industrial School at Petchaburi, under the management of Miss Coffman, has had an attendance of 49, viz. 38 women and girls and 11 boys. She has had to attend to most of the instruction, and to meet the increasing demands of the institution. Another helper is greatly needed. The Laos school had to be given up, because there was no one to take charge of it. Two of the pupils united with the church; others seemed to be thoughtful. The Bethany Branch school numbers 14. The schools under Miss Cort's care are called Glendale, Colorado, and Market Street. The first of these is in the mission compound. Nearly all its scholars are children or relatives of church members, and many of them are communicants. The second of these schools is more than a mile from the compound, and has 17 girls and 2 boys on its roll. A regular preaching service is held at this school-house every Wednesday morning. Of the third school Miss Cort writes: "In June we found an empty rice-mill at the head of Market Street that could be rented for 60 cents a month, and, having a suitable teacher, I determined to open a school for the neglected children of the neighborhood. There were only II at first, and all so timid and shy that only one consented to have her name on the roll; now there are 19 girls and 4 boys. Quite a number of these have already learned to read, and they can sing and pray, and all are learning to sew. The children from the outside schools attend morning service at the church, and also the Sabbath-school." Of the 81 in these schools 61 are girls. The total number in all the schools at Petchaburi is 144.

The Press has been under the supervision of Mr. McDonald. It completed during the year 1,000 copies each of Joshua, Judges, Ruth, 1st and 2d Samuel, and 2,500 copies of Matthew; also Elementary Lessons 400 copies, and 600 copies of a tract called "Faith and Practice." One of the native church members wrote and published a tract at his own expense, called "The Religious Balance," a faithful comparison between Christianity and Buddhism, which is very popular. Messrs. McDonald and Van Dyke spent considerable time in the revision of the New Testament; they nearly fin-

ished the first three Gospels.

The outstation of Ayuthia has been under the care of two native assistants, who have been faithful in the distribution of books, and in preaching and talking to the people. One of these laborers has been supported by the churches in Bangkok. Since the close of

the year one man from Ayuthia has been baptized.

Siam greatly needs new laborers. The call is urgent. The whole country is left to our Church, with the single exception of one missionary to the Chinese. "Buddhism," says Mr. McDonald, "is evidently declining. It is losing its power upon the minds of the rising generation. The number of priests is declining. It was formerly estimated that Bangkok *alone* had from ten to twelve thousand priests. The present estimate does not amount to half

that number. Monasteries which formerly had from seventy-five to one hundred priests have not now over twenty. Young men go into the priesthood only to please their parents, and remain in it only the shortest possible time. Formerly three months was the shortest time a man thought of remaining in the priesthood. The king himself only remained in the priesthood a month, and his youngest brother recently entered it for three days. Still they do not appear to be ready to receive anything better than Buddhism. A reign of infidelity or nominal Christianity will probably succeed Buddhism. The priests are becoming alarmed, and are raising money and printing the Buddhist Commentaries for gratuitous distribution. Two printing presses, owned by Siamese, are partially engaged in this work. I have also been told upon good authority that they are raising money to establish a kind of 'Tract Society' for that purpose, and a certain well-known nobleman has been appointed treasurer."

Statistics.—4 churches, with membership 195; added on examination, 29; certificate, 12; adult baptisms, 28; infants, 15; contributions, \$180; scholars, 40 in boys' and 27 in girls' boarding-schools; 58 boys and 116 girls in day schools—total, 211; Sabbath-school scholars, 213; native licentiates, 4.

MISSION AMONG THE LAOS.

CHIENG-MAI: on the River Quee Ping, 500 miles north of Bangkok; occupied as a mission station, 1867; missionary laborers—Rev. Messrs. Daniel McGilvary, D.D., and Jonathan Wilson; Milton A. Cheek, M.D., and his wife; Miss Edna S. Cole; two native assistants; two outstations.

In this country: Mrs. J. Wilson and Mrs. D. McGilvary.

In the early part of February, 1881, after the mission report was sent, Miss Mary M. Campbell, on her way back to Chieng-mai from Bangkok, was drowned while bathing in the river Meinam. Full accounts of this mysterious Providence are found in the Foreign Missionary for May. Her death is a great loss to the work among the Laos. A reinforcement is greatly needed, and a call comes from the mission for both preachers and teachers to meet the demands of an expanding work. There is everywhere an open door. The year has been one of blessing, not only at Chieng-mai, but at other The absence of Mr. McGilvary from Chieng-mai threw the whole spiritual supervision of the church upon Mr. Wilson, together with other duties. The church was greatly blessed and strengthened. Thirty-nine were added to its roll of communicants and seventeen children were baptized. Discipline had to be exercised on four of the members. During the year a number of elders and deacons were elected, ordained, and installed; a weekly prayer-meeting, from house to house, was established, which is conducted by elders and other members. "The leader of each meeting is appointed' the preceding Sabbath. He selects the portion of Scripture he expects to read, and some time during the week he comes to the missionary to talk it over and get explanations of it. In this feature the corps of leaders may be regarded as a Bible-class. They are earnest, and often make remarks on the passage read that leave a good impression." The Sabbath-school under the superintendence of Dr. Cheek is attended by eighty scholars. In this school he is ably assisted by Mrs. Cheek and the other missionaries, who communicate much Bible truth to all who attend. Many adults are

present.

Mr. Wilson sends the following account of the organization of a second church: "In three villages contiguous to each other, and nine miles from Chieng-mai, there occurred, in March and April, an interesting awakening and inquiry after the truth. Nan Inta visited them and taught them on the Sabbath. One young man who had been working on the mission compound for over a month, where, at daily morning worship and on the Sabbath services, he heard much about Christ and the Gospel plan, returned home an interested and, in some measure, an enlightened witness for the truth. He and his wife and six others were baptized. Through him his father, 84 years of age, first heard of Christ, and by degrees he was led to give himself to the Saviour of sinners. The word continued to be blessed, and on May 23d twelve adults—this aged father and his wife among them, with six grand-children and two great-grandchildren—were baptized. On July 4th they, and other members, to the number of seventeen, were dismissed from the parent church, and on July 11th were organized into a church, which was called Bethlehem." Others in this region are interested in divine things.

The work of education is now chiefly in the hands of Miss Cole, who is greatly encouraged with the progress made by the children. She has a class of young women who are under training for teachers. Of the thirty-five pupils twenty-two are boarders, and of the remainder five are boys, who attend until a regular school for them

can be opened. The boarding-school is full.

The medical department is under the care of Dr. Cheek, who has continued to do good service to those who have sought his aid. One of the elders has charge of the daily worship that is maintained in the hospital. On Sabbath a special prayer-meeting is held for the patients. Two who came for healing professed faith in Christ.

Dr. McGilvary was obliged, as mentioned in the last Report, to send his family to this country, and to accompany them to Bangkok. Instead of returning to Chieng-mai, he stopped at Rahang, an important town on the borders of Siam and on the way to Chieng-mai, and labored there for months. This place should be occupied as a station. Its citizens are some of the most substantial traders of Siam. They are traveling merchants. It is the great depot for Chieng-mai and a large extent of country to the north and northeast. As a connecting link between Bangkok and Chieng-mai its importance can not be overestimated. During his stay he was permitted to baptize two persons and to meet several inquirers, four of whom had expressed a desire to be baptized. In this number were

three Chinamen. Besides preaching, Dr. McGilvary spent part of his time in teaching a class of children and instructing a candidate for the ministry. Whilst thus engaged a member of the Chieng-mai church, but living some ninety miles from it, came with an urgent request from a little band whom he had been the means of instructing in the truths of Christianity, that he should visit them, and, when prepared, they should be admitted to church privileges. Five were baptized, and a church organized at Lakouw, which will be re-

ported next year.

In these, and in other ways, God is honoring His own truth and blessing the labors of His servants. "The outlook," says Mr. Wilson, "is one of multiplied and multiplying labor. Besides the medical department and the girls' school, which are faithfully and efficiently managed, are a boys' school (yet to be, but a present and absolute necessity), preaching, pastoral and evangelistic work, enough for three strong men; teaching and training of native assistants; the printing press, to supply the hands of colporteurs that ought even now to be on the field; the building of a Home and a school-room for the young ladies and their school, and the erection of a chapel that has long been a necessity." In view of all this work, besides that of translating, preparing a religious literature, visiting and itinerating, these laborers call urgently for a strong and an immediate reinforcement.

Statistics.

Two churches, 85 communicants, 35 adult baptisms and 17 infants; added, on examination, 41. Contributions, \$40. Girls' Boarding-school, 22; Day-school, 8 girls, 5 boys; Sabbath-school, 80.

MISSIONS IN CHINA.

Canton Mission.

Canton; on the Canton River, 70 miles from the sea; occupied as a mission station in 1845; missionary laborers—Rev. Messrs. Andrew P. Happer, D.D., Henry V. Noyes, B. C. Henry, and Wellington White, and their wives; John G. Kerr, M.D., and his wife; Rev. A. A. Fulton, Miss Hattic Noyes, Miss Mattie Noyes, Miss Mary M. Happer, Miss Alverda Happer; 17 native helpers, 23 teachers, and 7 Bible-women.

Ningpo Mission.

Shanghai: on the Woosing River, 14 miles from the sea; occupied as a mission station, 1850; missionary laborers—Rev. Messis, J. M. W. Farnham, D.D., and W. S. Holt and their wives; Rev. Buo Tsih-dze and Wang Tenlan; 2 native licentiates, 6 teachers and Bible-women.

In this country: Rev. Messrs. J. L. Nevius, D.D., and J. L. Whiting and their wives.

Canton Mission.

This mission was reinforced during the year by Rev. Messrs. A. A. Fulton and Wellington White and Mrs. White. The annual report from the mission denotes the steady progress of a settled and established institution. There is less of romantic incident and striking changes there than in many newer fields, but the two or three churches connected with the mission are, and have been for a series of years, remarkable for their healthy growth. All the ordinances of the Gospel have been steadily observed, including Sabbath preaching, Bible classes, Sabbath schools, weekly prayer and conference meetings, etc. Thirty-three persons have been received into the First church of Canton on profession, making the whole number now on the roll two hundred and sixty two. The contributions of the church have been \$83.

In the Second church, twenty-one have been received on profession and three by letter, leaving the present membership one hundred and twenty-four. The contributions amounted to \$52.60. The congregations in both these churches have been good. The church at San Ui, organized in 1879, and now under the care of Mr. Noyes, has received nine members on profession, the whole number being now thirty-two. The amount contributed was \$29.70. Chapel preaching has been maintained steadily:

1. In Tung Tak Street Chapel, under the care of Dr. Happer. Preaching afternoon and evening of each day, and attendance good.

2. Poon Tong Chapel, Dr. Happer in charge. First opened in 1880, amid much opposition. Preaching daily. A day school has been established in connection with this chapel. The first fruit of this new location is an old man, seventy-one years of age, who has asked to be received to the church.

3. Ninth Street Chapel, under the care of Mr. Noyes. Daily preaching. Audiences good.

4. Sz Pai Lan, under the care of Mr. Noyes. Bible class on Sabbath mornings. Three or four have been received into the church.

- 5. Treasury Street Chapel, under the care of Mr. Henry. Daily preaching, with good attendance. Numerous inquirers, and three persons received to the church. Prayer and inquiry meeting every week.
- 6. Hospital Chapel, under the care of Mr. Henry. Daily morning services for the patients, attended also by the boys from the day school adjoining. Special service twice a week.

The outstations of the Canton Mission are as follows:

- 1. San Ui, eighty miles south-west of Canton. First opened in 1872, under the care of Mr. Noyes. The chapel is open for daily services.
- 2. Kong Mun, seventy-four miles south-west of Canton. Opened in 1880, under the care of Mr. Noyes. Population of the city about 100,000. A fine opportunity is presented for the opening of a Christian school.
- 3. Chik Hom, one hundred and twenty-five miles south-west of Canton. Opened in 1877, under the care of Mr. Noyes. There has been a large attendance on market days, though a smaller number at other times. Two have been received to the church.
- 4. Chung Low, one hundred and forty-five miles south-west of Canton. Opened in 1880, under the care of Mr. Noves. For some time violent opposition was shown by the populace. Stones were thrown upon the roof during services, and the building was deficed. The native preacher was finally attacked by a mob and threatened with death, when a portion of the villagers came to his rescue. Through the American Consul, the viceroy was led to issue a proclamation, preventing further disturbances. A young man who was received into this church lost his situation as teacher, and incurred the great displeasure of his family. Another young man who sought admission to the church was tied and beaten by his father and an uncle until he was unable to walk. Bruised and bleeding, he said "he did not mind being killed, as he was not afraid to die, but it was hard to be so much abused." Finally it was agreed that he might go to the chapel once more, on condition that he should come home to remain. ingly, at the next communion, he set out on foot on his long journey of more than thirty miles. He was taken ill on the way, and had to stop and rest, and thus arrived too late. Otherwise he would have been baptized. He arrived at the chapel sick with fever, and, as soon as he had recovered, went home, where he still remains true to his faith. His relatives have given up beating him, or trying to compel him to engage in idolatrous worship.

5. No Fuh, one hundred and fifty-five miles south-west of Canton. Opened in 1880, under the care of Mr. Noyes. Although a chapel was leased with the clear understanding that it was to be used for preaching the "Jesus doctrine," yet thus far there has been no oppo-

sition.

6. Chuk Lin, thirty miles north of Canton. Opened in 1873, under

the care of Mr. Henry. Services held on Sabbaths and market days. Several inquirers have appeared, but none have been baptized. The

chapel has at last been purchased.

7. Leen Chow, three hundred miles north-west of Canton. Opened in 1880, under the care of Mr. Henry. This is a prefectural city, with about 50,000 inhabitants, and is the center of a fertile and populous plain. The owner of the building there used as a chapel has become so favorably impressed with the work, that he has given a perpetual lease. There have been several inquirers. This is considered a favorable place for the establishment of a full missionary station.

8. Lin Po, seventy miles east of Canton. Opened in 1880, under the care of Mr. Henry. Inhabitants, 15,000, and surrounded by a populous district. People favorably disposed towards the Gospel.

9. Shek Lung, sixty miles east of Canton. Opened in 1880, under the care of Mr. Henry. Population, about 100,000. Formerly the seat of a German mission, though not now thus occupied Several members residing here have urged the occupation of the city, and have offered to pay, at first a part, and ultimately the whole of the There are several inquirers.

10. Kow Kung, thirty-five miles south-west of Canton. Opened in 1879, under the care of Mr. Henry. The work at this station has been at a standstill, owing to the bitter opposition of the people.

11. Sha Ho, three miles from Canton. Under the care of Dr. Happer. Regular preaching has been maintained with good results, though the work has suffered a heavy loss in the departure of the native helper to the Sandwich Islands, together with four of the leading members. It is to be hoped, however, that their labor will bear

It will thus be seen that, in addition to the chapel work in the city of Canton, the mission sends forth radiating influences to the cities of an extended district. So far as the force of missionaries will permit, a profitable and well-directed labor is being put forth. situation should stimulate the Church with hope, and at the same time impress upon it the duty of "praying the Lord of the harvest that he will send forth more laborers."

The boarding school for girls and women, under the care of the Misses Noves, has taken a step in advance during the year in the erection of an ample and commodious building, which was dedicated November 25th. These schools having been greatly blessed in the past, have now risen to a higher vantage ground, from which the future opens with a brighter promise than ever.

During the year fifteen pupils have attended the woman's department, and thirty-one the girls', making forty-six in all. Five women from the school have been received into the church. The object of the instruction given thus to adults is the training up of female

workers.

The training-school for young men, under the care of Dr. Happer, has been continued as usual, though with a smaller number in attendance. The three years' course of study prescribed seems formidable to many who would willingly undertake a shorter course. Two, having graduated, are expecting soon to be received as assistants. Two others are taking a fourth year for special preparation. Three young men from California have entered the school, where they are supported by friends in Oakland and San Francisco. One young man, who had been entirely cut off from support by his family, on account of his profession of Christianity, is doing some Christian work in connection with his studies.

The day schools for girls are as follows: 1. Honan School, 25 pupils; 2. East Gate School, taught by a graduate of the Girls' Boarding-school, 20 pupils; 3. Hok Un Li School, 30 pupils; 4. Thirteenth Street School, 34 pupils; 5. Hoki School, 18 pupils; 6. Poon Tong School, 16 pupils; 7. Yan Ning School, 16 pupils; 8. Sai Lung Li School, 26 pupils.

These schools are in the city, and under the care of Mrs. Happer, Miss Hattie Noyes, and Miss Mary Happer, and are the centres of a Bible work and household visitation, adult women being, from time to

time, gathered in the school-rooms for instruction.

9. Chung Tsun School. This is situated in a suburban village, and is under the care of Miss Mary Happer. It is in the centre of a cluster of villages, and is exerting a good influence. Four women from this village have been received into the church, and the people have consented to rent a place for a chapel in the boys' school.

10. Twelfth Street School, under the care of Miss Alverda Happer, assisted by a Bible-woman, 27 pupils. 11. Wong Sha School, also under the care of Miss Alverda Happer, 23 pupils. 12. Wing Wung Li School, visited by Miss Hattie Noyes and Miss Alverda Happer,

18 pupils.

The day-schools for boys are as follows:

1st. Kuk Fan, 42 pupils.

2d. Nam Li Fou School, 34 pupils.3d. Sz Pai Lan School, 14 pupils.4th. San Ui School, 23 pupils.

5th. Ngan Pin School, 25 pupils. 6th. Ping Fi School, 23 pupils.

7th. Poon Tong School.

The hospital, under the care of Dr. J. G. Kerr, has continued to prosper, having had 16,302 out-patients and 1,084 in-patients, a large proportion of whom were women; 912 surgical operations have been performed.

Instruction has been given regularly to a large class of medical students by Dr. Kerr and his two senior assistants. The Managing

Committee of the Canton Hospital Society report as follows:

"The Committee have the pleasure to report that the Society, both in respect to its operations and its finances, is in a satisfactory state. We tender their thanks for the liberal support which has been given by the Chinese and foreign contributors, but more especially to Dr. Kerr, physician in charge, for the earnestness with which he has devoted his energies, not only to his professional duties as physician in charge, but to the development of the Society's resources and of every matter tending to advance its prosperity and extend its usefulness. The So-

ciety may congratulate itself on its present prosperity and future prospects, whether from a Christian, a philanthropic, or a financial point of view."

The religious work in the hospital has continued under the direction of Mr. Henry, who has made frequent visits among its patients. One assistant and two native colporteurs have given most of their time to the work among the men, assisted a part of the time by two other native preachers. One Bible woman has visited regularly, and others occasionally, the wards occupied by the women. The ladies of the

mission have also frequently engaged in this work.

A daily morning service has been attended by patients who were able to leave their rooms; and on dispensary days there has been preaching to out-patients while waiting to be served. The opportunity given for Christian work among these unfortunate sufferers is very great. Of the 1,084 in-patients, many remain for weeks, and some for months, some of them being accompanied by servants and attendants; so that the number of people resident in the hospital for a shorter or longer period could not have been less than fourteen or fifteen hundred.

Religious books and tracts were supplied to those able to read, 6.250 copies being thus distributed. The personal influence of native Christians living in or near the hospital has been good. Eleven of the patients have professed their faith in Christ and been baptized. Many others have gone away with favorable impressions of the Gospel, some expressing a strong desire to be baptized, though fearing the opposition of their relatives. This has been especially the case among the women.

The reports speak with satisfaction of the fidelity of the 17 native assistants employed in the various departments of the mission. The seven Bible-women have been faithful in their work in the hospital, and from house to house. During the year Dr. Kerr has written and printed a manual on eye diseases, and has other works in course of preparation. He has also begun the publication of a medical journal, which, if it finds adequate support, will prove a most important and useful periodical.

Those who have long resided in China speak of this as a work designed to exert a widespread and altogether invaluable influence.

A Committee of the Mission, consisting of Rev. Messrs. Happer, Noyes, and Henry, have been engaged on the translation of portions of the New Testament into the Canton colloquial. Miss Hattie Noyes and Mrs. Lillie Happer Cunningham have also been engaged in translating books for the use of the schools and for Chinese women.

Itinerating, even outside the regular outstations, has been carried forward on a large scale. Mr. Henry has visited during the year 70 towns and villages, and Mr. Noyes also a large number. The Board feels that a careful study of this report of the Canton mission is well calculated to cheer and strengthen the faith of all Christians.

Ningpo Mission.

Ningpo Station.

The reports received from the Ningpo station contain both encouragement and discouragement. The field is opening a ripe harvest for missionary labor. Thirty-five adults have been added to the church and fifteen children baptized. Contributions were \$828. There is an increased interest in education on the part of the people; and there is a growing tendency to assume a degree of self-support in the churches. A missionary visiting Ningpo recently from a distant field, expressed his astonishment and gratification at seeing a large congregation of Christians, of whom only two or three were in any way employed by the mission; all the rest not only supporting themselves independently, but caring for their pastor and aiding the poor of And yet the mission is threatened with serious embarrassment, owing to the lack of men and lack of accommodations. This mission has been one of the most interesting of any connected with the Board in China, for its well-organized Presbytery, composed of able native ministers, and for the stability of its work in general; but now its force of foreign missionaries is so reduced as almost to cripple the operations of the mission. A letter from Rev. Mr. Butler, speaking of this, says:

"Not only have we failed to advance into new territory, but we have been compelled to close some of our chapels in the country, in order to send the preachers to more needy stations. The reduction of the foreign laborers very soon reacts upon the native staff, and that, too, becomes less. In the past ten or twelve years we have made some progress in opening new stations, planting new churches, and training them to self-support; and we want to go forward and occupy new and promising fields that are inviting us to enter; but we are hindered from so doing for the reason that we have no native laborers to occupy new places, and no foreign laborers to superintend and instruct. In this most important part of our work we have gone backward—that is, we

have fewer outstations than we had two years ago,"

The district occupied by the Ningpo mission affords one of the best fields that could be desired for missionary labor. The territory already covered by the mission has a population of seven or eight millions, but the few stations occupied are only as a few scattered stars in the darkness of the night. Letters received from the field speak most encouragingly of new openings. Three communities have called for mission work. In speaking of two of these, the report says:

"One of them is a place called Ta-Ping, a town of eight or ten thousand inhabitants—which we pass on our journeys to Tong-Yiang. The inn where we usually put up for the night becomes a chapel during our stay. The mother of the inn-keeper seems to be a truly devout woman, and earnest in seeking salvation. From the time she first heard the Gospel, through our preaching, to the present, she has been interested. Several others in the same town seem also to be interested. We have decided to open a chapel there, even though we have no one to place there permanently. The plan is to have the assistant at Leh-Zah-Kio—thirty miles distant—come there occasionally, and spend a few days at a time.

"An invitation has come to our assistant, Lee-Ping-Fung, at Koh-Zah, to go to *Nynoh-Saen*, 'Jade Mountain,' and preach to the people. This is a mountainous and inaccessible region, inhabited by a clan of hardy mountaineers, who often take the law into their own hands, and refuse to pay taxes or to surrender to the authorities any of their people accused of crime. It is also said to be the retreat of robbers, who make periodic visits to the villages on the plains. The invitation

comes from those in authority."

The mission has not been free from persecution. At a market town fifty miles from Ningpo, where there is a native church of forty members, the chapel was broken open several times, and property was destroyed, because the Christians refused to pay assessments for ancestral worship. The district magistrate, however, on being appealed to, made a proclamation which secured our treaty rights to the very letter, and justice was promptly secured, even to the payment of damages for property destroyed.

Subsequently a more serious difficulty of the same kind occurred in another district from the same causes, and a still more satisfactory proclamation was made, stating that the object in preaching the doctrines of Jesus was one of peace; that the advocates were allowed to propagate their faith in the eighteen provinces, and that all believers

were to be exempt from contributions to idolatry.

The work of education has advanced with a good degree of success. There are seven day-schools, with 163 pupils, while the girls' boarding-school numbers twenty-six. In one case the salary of the teacher is wholly paid by the pupils. The girls' boarding-school has been under the care of Mrs. McKee and Miss Warner; four of the pupils have united with the church. The girls are taught the common duties of housekeeping with their other studies, and much attention is paid to religious instruction. The number of applicants is far greater than can be accommodated, and the missionaries are calling for enlarged accommodations.

A Presbyterial Boarding-School for Boys.—Much enthusiasm has been awakened in connection with this new enterprise. Mr. Butler

writes: "Nothing has appeared for years that seems to so fully enlist the interest and cooperation of all the natives. The principal reason for the interest awakened by this school, so far as I am able to learn, is that it is to be under native management. It is not in opposition to or in distrust of foreigners; nothing is farther from their intention than this. It is under the control of the Ningpo Presbytery, and the foreign members of the Presbytery have a voice in its affairs as well as the natives. The donations toward helping to get the institution started have been quite generous. Those who are in more comfortable circumstances have given money; the poorer people have given cotton, articles of furniture, bedding, etc., and some have given their labor. A few of the heathen who are interested in the enterprise have given money to help in getting it started. At the last meeting of Presbytery a committee was appointed to draw up a curriculum of studies, and the Rev. Yiang-lingtsiao was elected to be principal of the new academy. In view of the generous efforts of the native Christians for the support of their pastors, the additional work of wholly supporting a boarding-school is beyond their ability, hence they appeal to the Board of Missions to help them for some time, until they are able to take all the burden upon themselves. Some heathen, hearing that the school is to be of a high character, and under a rigid discipline, have applied for their sons."

By the very last reports, this institution was opened on 1st February with 30 pupils; and already there is a prospect that the accommodations will prove inadequate to supply the demand. Eight families have taken their sons out of heathen schools, and sent them to this Christian institution, paying their tuition in full. The favor with which the establishment of this high-school has been received, is among the most cheering indications that the mission has witnessed for a long

time.

Mr. Butler, in addition to the care of the churches, has translated the Book of Leviticus into the Ningpo dialect, and prepared an epitome of *Moore's Digest* for the native churches. The Chinese regard for venerable authorities is very great; and the value of precedents is important in settling the order of the churches.

Shanghai.

The Shanghai station has experienced few changes, but the work

has progressed favorably.

The two boarding-schools, under the care of Dr. and Mrs. Farnham, have maintained their usual thrift. Twenty of those who have been trained in the boys' school are now helpers in the mission. Eight pupils have been received to the church during the year. It is a proof of the thoroughness of the instruction given, that two graduates have been admitted to the Chinese literary degrees. There is an increased disposition to self-support. Ten day-schools are maintained, with 234 pupils. The two boarding-schools number 52.

The *Child's Paper*, conducted by Dr. Farnham, is still highly appreciated, and an illustrated paper for adults has a circulation of 3,000. Four colporteurs are constantly employed. During the year they

have visited 40,000 families, and sold 3,000 volumes of various books. Dr. Farnham has also been engaged, with others, in the revision of the New Testament.

The Press, under the care of Mr. Holt, continues to be one of the flourishing agencies of the mission. The total amount of work done during the year in volumes is 492.259, or, estimated in pages as heretofore, it is 35,678,142. This compares favorably with other years.

The financial condition of the Press is shown by the fact that although \$1,682 has been written off for depreciation, yet aside from this the books show a net profit of \$3.256.66. Of this amount \$3,000 will be paid into the mission treasury, to aid in the regular work of the mission.

Hangchow.

The work at Hangchow has been retarded by the absence of Mr. and Mrs. Lyon. Mr. and Mrs. Leaman have been at the station a part of the year, and also Mr. and Mrs. Judson. None of these have yet gained command of the dialect spoken at Hangchow. The boys' boarding-school has numbered 23 pupils. The local church numbers 52. Three persons have been added. Contributions during the year, \$122. Two daily preaching stations have been maintained by native preachers. Mrs. Judson has conducted an infant school.

The work at Suchow has been almost entirely suspended, owing to the absence of Mr, and Mrs. Fitch on account of ill health. The

only work done has been that of native helpers.

Nanking can scarcely be said to have been occupied, for want of laborers. The appeals of the mission and the Board have been in vain for recruits for the various stations of the Ningpo mission, though it is hoped that the coming year will bring some reinforcements, and that Nanking will be occupied. Mrs. Whiting, who, with her husband (now deceased), was formerly stationed there, only waits for the pro-

tection of a mission family before resuming her work.

The need of medical mission work as a forerunner of Gospel influence is increasingly felt in Central China. Mr. Holt's report speaks as follows: "Our entire mission has not a single physician. We have asked for them repeatedly, but none has come. As a result, any illness in a mission family makes a trip to Shanghai imperative, and often an extended stay is necessary; while, had a competent physician been on the ground, no time would have been lost and no extra expense would have been incurred. For the sake of the missionaries who reside inland, a competent medical man should be at each station. But in my own mind this reason for sustaining medical work dwindles to nothing in the face of the great benefits to be derived from the effect produced upon the heathen by hospitals and dispensaries. A man is in great bodily suffering; the medical missionary gives him relief. He appreciates that. That is tangible, self-evident. fered; the missionary gave him medicine; the suffering ceased. It is done freely. 'The missionary does not charge me for helping me! How is that? It must be he is my friend.' Is not that man in a better condition to hear the Gospel than the one who has never seen any special kindness, who is accustomed to hear the foreigner called a devil, a robber, an outside barbarian, and all the other epithets which are applied to us? But this matter does not need to be urged upon you. You know it already. You also know that not one of our interior stations has, or ever had, a medical assistant, a dispensary, or a hospital. Yet every year some one is obliged to come to Shanghai for medical aid, involving great loss of time, much expense and trouble, and, worse than this, are deprived of this valuable adjunct."

The Shantung and Peking Mission.

Peking Station.

The Shantung and Peking Mission has had its full share of changes during the year now past. The Peking station has been reinforced by the return of Rev. John Wherry and wife, who for a time had been stationed at Tungchow. Rev. Dr. C. W. Mateer and wife returned to Tungchow from a visit to this country. Early in the year Mrs. J. L. Nevius returned to this country on account of ill-health, and near the close of the year Dr. Nevius also availed himself of a leave of absence which had been previously granted. On the 2d of February last the mission was called to mourn the loss of Rev. Jasper S. McIlvaine, of the Chinanfou station. Mr. McIlvaine had been connected with the mission about eleven years, and had distinguished himself not only by his scholarship, but by his self-denial and consecration to his He had been the pioneer missionary in the interior station of Chinanfon, having gone thither in 1871, attended only by a native helper. When, later, others had joined him in that station, he extended his labors into places still further from the coast, and had succeeded in creating an interest in the truth over an extended district of Central China.

Mr. McIlvaine shared in the personal distribution of funds contributed for the sufferers by famine in the years 1878 and 1879. One of his last acts was to purchase with private funds a chapel in Chinanfou, for the use of the mission, wishing, as he expressed it, "to set up a beacon light for the whole province on the great thoroughfare of the capital."

The report received from the Peking station speaks with sorrow of the death of two faithful native helpers and one candidate for the ministry. The loss of three such men is seriously felt in the infancy of the mission. The present membership of the church in Peking is forty. The additions have been few during the year. The church services are well attended, however, and the Sabbath-school has averaged an attendance of fifty-nine.

The Sabbath is well kept by native members, notwithstanding surrounding discouragements. They are regular in contributing onetenth of all their earnings for religious purposes, the Sabbath offerings being given wholly to the Boards of the General Assembly. The contributions of the little church in Peking aggregate \$396, nearly \$90 having been given by the native Christians themselves.

A good deal of work has been done outside the boundaries of the congregation, both in the city and in the surrounding country. The boys' school has numbered twenty pupils; the girls' school, eighteen. Three of the boys and two of the girls have been received into the church, one of the former having the ministry in view. The medical work, under Dr. Atterbury, has opened encouragingly, though his principal task thus far has been that of acquiring the language. He has secured a suitable place for a dispensary, where his work has already begun in earnest. The work of Miss Douw among native families has been carried forward faithfully. Miss Ban's attention has been given to the girls' school above named.

Chefoo.

In connection with this station, 230 new members have been added to the church on profession of faith. This includes those baptized by Mr. Corbett and Dr. Nevius in their outstations. Mr. Corbett's work in the Chimeh district has frequently been noticed in previous reports; and during the last year these outstations, in spite of the discouragements of the previous year, have continued to advance in numbers and in the graces of the Spirit. Mr. Corbett was permitted to baptize 57 adults and 18 infants upon a single tour. The gain in the total membership of the station is only a fraction less than 40 per cent. for the year.

The reports received speak with gratification of the efforts made by not a few of the native brethren to extend the truth and win their fellow-men to Christ, Sabbath observance and church attendance have been encouraging.

As to self-support, nearly all have done something, and as much as could be expected, considering the poverty of the people. In the Chimeh district three schools have been supported, almost entirely by the native Christians; and in one district a church has been built by the people, with some slight assistance from their native brethren elsewhere, no expense having been incurred by the mission. The report mentions with gratitude the providential diversion of what seemed a great calamity. The prospect of a war with Russia, known in China as a Christian nation, aroused a feeling among the rural populations so bitter, that danger was apprehended to all foreigners and to their adherents.

Persecution has been suffered in some districts, owing to the refusal of Christians to contribute toward heathen rites designed to secure a

nuch-needed supply of rain. The reports speak of the faithful labor of native preachers and colporteurs, a fact which is viewed with great encouragement as an indication of the future. Some facts of interest are noted in connection with the boarding-schools. One young man in the boys' school having been admitted to the church, was instrumental in leading his father to a knowledge of the truth, together with several other members of the family and some of their neighbors. The father has recently been baptized. The home of this family is 160 miles distant from Chefoo; and it is hoped that this handful of corn planted in that distant and isolated field may spring up and grow till its fruit shall "shake like Lebanon."

Bible-women have been engaged in teaching from house to house with great encouragement. Two weekly meetings have been held in the church at Cheloo for women in connection with this work. In Chefoo, instruction has been given during the winter months to a theological class composed of students and helpers from different parts of the field. Dr. Nevius and Mr. Corbett have devoted a good deal of attention to this class from year to year, and the gratifying result is now seen in a pretty clear knowledge of the Word of God, not only as it stands upon the sacred page, but as stated in didactic, doctrinal forms.

A wide field waits for the laborers thus prepared for their work. The report says: "We have found no labor producing richer fruit than the teaching of these learners that they may be qualified to teach others." Mr. Corbett has prepared a treatise for publication on the Ten Commandments, a work of great importance, as setting the higher ethics of the Decalogue over against those of vaunted Confucianism.

On the whole, no previous year has been more fruitful of cheering results than the last. There is, however, a tone of sadness apparent in the reference made to the need of more laborers for the field; and in this connection the members of the mission have presented a special

appeal to the Board.

One of the most interesting features of the work connected with the Chefoo station is the cluster of small churches which have been gathered through the instrumentality of Dr. Nevius within the last three years in an interior portion of the province. Following closely upon his successful work among the famine sufferers in 1878, a deep interest was awakened in the truth. Large accessions have been made to the number of believers in the last three years; but during the last year the number received has been greater than ever before, eighty-five adults having been baptized during a single visit. When it became necessary for Dr. Nevius to withdraw from the field, on account of impaired health, the work seemed only to have begun; and there is every reason to hope not only that it will yield large harvests when he shall be permitted to return, but also that his efficient native helpers will in the interval continue the spread of the truth.

On the occasion of his leaving, a large silk tablet, five or six feet square, was presented to him, beautifully inscribed and decorated, setting forth the history of the work, and signed with the names of 300 church members who had shared in its blessings, and whose heartfelt

gratitude and benediction were thus expressed.

Tungchow.

The work at Tungchow has been carried on prosperously in many departments. The return of Dr. and Mrs. Mateer has given new impulse to the educational work which had so long been under their care. The institution which they have established has now reached a stage at which it seems to demand enlarged plans and more complete equipment. The members of the Shantung mission, therefore, have presented to the Board an earnest appeal that the Tungchow high-school be made a college for the more thorough training of those who shall become preachers and teachers throughout the Shantung province.

The great advantages which are promised in this important literary and influential province of China, are clearly set forth, and the marked encouragements which have attended the work, both of the Presbyterian and other Boards, are adduced as striking arguments in favor of such a step. Mr. Mills has been occupied chiefly in preaching in Tungchow and the outstations.

Woman's work, both in Tungchow and the outstations, has been carried forward with a good deal of efficiency, Mrs. Capp, Mrs. Shaw, and Miss Anderson having made some long and successful tours of visitation, in which they were enabled to instruct the benighted women of scores of villages, where the Word had never been heard, at least by women, before. The medical work of Miss A. D. Kelsey, M.D., has never been more prosperous than during the past year.

Chinanfou.

For four years the brethren at this station have made repeated appeals for some adequate and commodious accommodations for the preaching of the Gospel. A chapel, in which they could at least find shelter from the heat of the sun and the occasional rains to which they were exposed while preaching upon the streets, was deemed indispensable. But till recently, their appeals have been in vain.

During the last year their hope and desire have been realized through the munificence of the lamented missionary, Rev. Jasper S. McIlvaine, whose death has already been referred to. Having been the pioneer of the station; having laid the foundations and instructed the first converts, and finally won to his side several missionary associates; he, last of all, provided a permanent place for the preaching of the Gospel.

Mr. McIlvaine's last letter, written eleven days before his death, speaks as follows of one of the encouraging evidences which had been granted him that his work in the Lord had not been in vain: "A few days since, a young man from the country came to my house at Tsi-Ning, and reminded me that he had been there last year, and that a friend of his, an opium-smoker, had received a book from him. He said that they staid some days thereafter at an inn, and that the opium-smoker read the book aloud during the evenings, being much interested, and even breaking down with weeping at one passage. I inquired what passage it was, when he said it was where they took

Jesus and nailed him to the cross. A strange picture that. The dim burning opium-lamp lighting the sacred page, and the emaciated victim of vice weeping over the sufferings of Jesus! We can not know all that results from the distribution of Christian literature. The fertilization of that scattered seed should be set before the home church

as a topic of prayer."

The medical work of Dr. Hunter has opened auspiciously. Already he had gained free access to the Chinese community, and his work was doing much to conciliate opposers and win favor toward the mission, when the death of Mr. McIlvaine led him to doubt whether he should not lay aside his medical work and enter upon that of preaching, for which his theological education had prepared him. This course, however, can be contemplated only upon the condition that another medical missionary be speedily sent immediately to take up the suspended work.

There is every encouragement for making Chinanfon, which is the capital of the province, the center of a great missionary work of extended influence in North China.

MISSION IN FAPAN.

YOKOHAMA: on the bay, a few miles below Yedo, or Tokio (as this city is now named by the Japanese), mission begun, 1859; missionary laborers—James C. Hepburn, M.D., Rev. George W. Knox, and their wives.

Yedo, or Tokio: the capital of Japan; station occupied 1869; missionary laborers—Rev. Messrs. David Thompson, William Imbrie, Thomas T. Alexander, James M. McCauley, and their wives; John C. Ballagh, teacher, and his wife; Mrs. Maria C. Truc, Miss Kate M. Youngman, Miss Sarah C. Smith, Miss Anne K. Davis, and Miss Carrie T. Alexander, teachers; four native ministers, names not reported; eight licentiate helpers, two licentiate students, four helpers not licensed, six students not licensed. Employed by the mission, Miss Lecte.

Kanazawa: on the Japan Sea, about 180 miles north-west of Yedo; station occupied, 1879; missionary laborers—Rev. Thomas C. Winn, and his wife;—native assistants.

In this country: Rev. Oliver M. Green.

Mr. Green's visit to this country was caused by severe illness, but it is hoped that he may become well enough to return to Japan, where he is regarded, as his brethren say, "as one of our most esteemed and efficient workers." At the latest date Dr. and Mrs. Hepburn were expecting to leave Japan for a time on account of his health. Their absence will be much regretted, and their return equally welcomed. Miss Eldred and Miss Gulick resigned their connection with the Board on their marriage. The health of the Rev. J. M. McCauley, of the mission in Siam, having become seriously impaired, he and his wife were compelled to leave that country. Staying in Japan for a time, his health was measurably restored, and the Board gave its consent to their being transferred to the Japanese mission. Misses Smith, Davis, and Alexander have joined this mission as teachers during the year.

Writing for the mission, the Rev. T. T. Alexander gives the follow-

ing clear review of missionary work in the last year:

"Probably no one year since the opening of mission work in this country has witnessed more marked and substantial progress, in various directions, than that of 1880. Of course, in a letter of this kind, details can not be given at length. We can only indicate what has been done in the principal departments into which the work naturally divides itself.

I .- Translation and Revision.

"Dr. Hepburn has given almost his entire time to this kind of work. Together with the other members of the Revising Committee he revised the whole of the New Testament in Japanese preparatory to publishing the standard edition. He also finished transliterating the

same and published it in the Roman letter.

"He finished the translation of the 'Westminster Confession of Faith' and published it; also, revised a translation of the 'Book of Discipline' (made by a native pastor) and published it; revised translations of the Old Testament Books, Joshua, Jonah, Haggai, and Malachi, and prepared them for publication; and for some time has been engaged in translating the Book of Proverbs. Also, during the year, he assisted in organizing the Japan branch of the American Tract Society, and in revising a number of tracts for publication. Thus during the last year the whole of the New Testament, together with our Church Standards, has been given to the Japanese in their own tongue for the first time.

II.—Schools.

"The Theological School is carried on by our mission in connection with the missions of the Reformed (Dutch) Church of America and of the United Presbyterian Church of Scotland. Until within the last year the school has stood greatly in need of a suitable building, but now a good, substantial house has been built especially for that purpose. Our mission is represented in this school by Rev. Wm. Imbrie, who has the department of New Testament Exegesis, to which he has given much of his time and strength. Our mission has had, during the year, 12 students in attendance. The report of progress in their studies and of their general behavior is good. Most of them have been actively engaged in teaching and preaching so far as their other duties would permit.

"The Boys' School, under the superintendence of Mr. Ballagh, which was formerly in Yokohama, was, in the early part of last year, brought to Tokio, where a large and commodious building had been erected at the expense of the Board. The removal to Tokio has been decidedly helpful to the school in every way. During the year just past there have been more than 100 pupils in attendance, the average being about 75. A regular curriculum has been decided upon and published both in English and Japanese, to which it is proposed to adhere as closely as possible. Very decided, and in many cases very rapid, progress has been made by the pupils in their studies. They are all required to be present every morning and evening at the Bible classes. At the present about 80 are in attendance, 8 of whom have asked for baptism, and others are inquiring concerning the way of life. It is only fair to say that not one of these young men is supported by the mission. They all pay their way, and the current expenses of the school are all defrayed by the money thus obtained. Since the beginning of the Fall Term, September 15th, Rev. J. M. McCauley and Mrs. McCauley have been doing efficient service as teachers in this school, the health of the former having so far improved, since his arrival here from Siam, as to enable him to do almost full work.

"The Girls' School, at No. 42, Tsukiji, Tokio, has undergone some important changes in its management. When the year began, the school was conducted by Misses Eldred, Gulick, and Leete. During the year the two former were married. Mrs. True having returned from her post in the 'interior,' took up her former position in the school, and together with Misses Leete and Smith continues to conduct the work. Speaking of the school, Mrs. True says: 'Some of the older girls have left us, but enough have remained to keep the tone of the school good, so that the new ones who have entered have fallen into line without difficulty. Of our forty pupils, twenty are Christians. The seven who left us during the year are also Christians.' Mrs. True's time has been partly given to another school in a distant part of the city. This school, largely through her influence, is now practically under our control, and will probably be the means of obtaining permission for one or two ladies to live outside the Foreign

Concession and conduct work in the heart of the city.

"The Girls' School in Yokohama continued under the management of Mrs. Hepburn until November. Afterward Miss Davis and Miss Alexander gave some attention to it while learning the language. Miss Youngman has continued her 'poor schools' in Tokio, three or four in number, and the attendance has been good. The children in these schools are taught entirely in their own language, the instruction being both secular and religious. In addition to their school work, both Mrs. True and Miss Youngman have given considerable time to 'outside' work, that is, to women's meetings, visiting the people in their houses, especially the sick, etc. Such a work is always full of interest in its details; though we can not record them here, they are

doubtless recorded on high.

III.—Churches.

"During the year two churches were organized—one on the island of Kiershin, in the town of Yanagawa; the other in the city of Shimonoseki, at the western extremity of this island. The whole number of organized churches is now 14. Total adult membership, 761; baptized children, 55. Number added on confession of their faith, during the year, 150; "infants baptized, 28. Contributions for all purposes: yen, 1,237.25—something like \$800 in American gold. Two pastors have been ordained and installed during the year. The number of

unordained licensed helpers is 6.

"The church in Yokohama has been under the care of Rev. Geo. W. Knox. Through his influence and that of our theological students a plan of systematic giving has been introduced into the church, and kept up with praiseworthy zeal and persistence by the members. Their influence in this line, it is hoped, will be extended to other churches also. Indeed a strong effort is being made to get the churches as near the standard of self-support as possible. churches in Tokio, since Mr. Green left, have been under the general supervision of Rev. D. Thompson; those in distant parts of the country under that of Rev. Mr. Imbrie and others. The state of the church is by no means what we could wish; we think we see dangers ahead: we all feel the need of care, patience, and grace when we come to deal with this strange people; still, on the whole, the outlook is decidedly hopeful. We look to the Head of the Church, the Great Shepherd of the sheep, who has kept His people through the ages, to keep and guide His Church in this land.

IV.—The Work of Evangelists.

"One of the most hopeful signs in connection with the native church is its missionary spirit. When Christianity in any land and among any people ceases to be missionary, it loses its vital principle, and the Church sinks into dead formalism. Now, while it can not be said that a missionary spirit pervades anything like the whole of the Church in this country, and while in some quarters there is a lamentable want of such a spirit, at the same time we can say, and say it truly, that it does exist, and that there are visible and substantial tokens of its existence. The church in Kiriu, to the north-west of Tokio, owes its existence to the labors of native evangelists. The church in the far-away island of Kiershin grew up under the hand of a native helper, not yet licensed, Mr. Watari Shima. More than eighteen months ago two of our native brethren volunteered to go to Shimonoseki and preach the Gospel, and to-day, by the blessing of God, there is a church in Shimoseki, that hot-bed of bigotry, prejudice, and Buddhism. More than a year ago, when Mr. Winn decided to go to the 'interior,' there was no difficulty in finding a native helper ready to go with him. Now, through the labors of Mr. Winn and his native helper, there is in Kanazawa a goodly company of believers waiting to

^{*} Some of these figures cover only nine months of the year.

be organized into a church. Also, a few months ago, a young man, whose health is feeble, and whom the physician advised to leave Tokio, came to the missionaries and offered to go into the 'interior' and preach as long as the Lord would give him strength. He is now located in Yamaguchi, 45 miles from Shimonoseki, and a blessed work is growing up around him. It is enough to make the Christian's pulse beat fast to see churches springing up, through the labors of these native brethren, in these strongholds of Satan, where the people have been bowed down for, lo! these many years, and could in nowise lift up themselves. May God add His blessing to all our work, and may grace, mercy, and peace from God our Father and His Son, Jesus Christ, be upon the churches at home. Amen."

The missionaries have sent to the Board an urgent appeal for four new men. It is inserted in the *Foreign Missionary* of April. In reply to this appeal, the Board adopted the following minute: "That the Board perceives the exigency of the case, and will furnish the two additional laborers (one being already on the ground, and another under appointment) as soon as the men can be found, due regard being had to the many demands which come to us from all parts of its mission

field."

So the case of this important mission stands. Great encouragement has been given to its work. This success itself creates a demand for more laborers, and for these the Church must apply to the Lord of the harvest.

MISSIONS TO THE CHINESE IN THIS COUNTRY.

SAN FRANCISCO: mission begun 1852; missionary laborers—Rev. Augustus W. Loomis, D.D., and his wife; Miss Maggie Culbertson; employed by the Occidental Ladies' Society Mission, Miss Cable and Miss Baskin; three teachers in English; one Chinese evangelist; one other native helper.

Oakland: mission begun 1877; missionary laborers—Rev. Ira M. Condit and his wife; two teachers; one native helper.

SACRAMENTO AND SAN JOSE: two teachers; two native assistants.

NEW YORK: Miss S. U. Goodrich.

San Francisco.

The report given by Rev. Dr. Loomis, of the San Francisco station, states that "the chapel services have been more interesting during the past year than ever before. The congregations are always well attended." Ten persons were received into communion with the church during the year. The whole number received from the beginning, on profession of faith, is 118. An increasing proportion of females is noticed in the chapel services. The restrictions in Chinese sentiment against their attendance upon worship in public are being gradually removed. There are more Chinese families than ever before.

Large numbers of strangers, attracted by the singing or the sermon, are drawn into the chapel while passing on the street. Some of these

remain but a moment, while others linger, and come again and again, until the secure lodgment of the truth is the result. Some have been

affected by the new message even to tears.

The mission presents a good example to all wealthy and prosperous churches of the East in regularly observing the Concert of Prayer, and never omitting the collection. The Sabbath-schools, two in number, are kept up with efficiency. The chief difficulty lies in the lack of suitable teachers.

In the evening Sabbath-school more help is obtained; the missionary in charge expresses his thanks to those who have rendered him assistance. A week-day evening-school has from the first been kept up in connection with this mission. Four teachers in addition to the missionaries, viz., Mr. O. R. Coe, Miss C. T. Phillips, Miss Anna Jordan, and Mrs. Alden, are named as those who have rendered assistance in this work. Some advanced pupils also take part, and Mr. Fong Doon has been specially successful in forming and maintaining a large and interesting class in geography.

The work at San José, in which Mrs. Cary and Miss Lewis have shown great interest, has continued to prosper, though the station has suffered constant loss in the removal of its most advanced scholars to other parts of the world—some to China, some to the Sandwich Islands. The general outcry against the Chinese in the community has also had an injurious effect. The school at San José, however, has enrolled 110 pupils, though not more than 20 have been present

on an average.

There are here, as in other Christian Chinese communities in California, those who would be glad to study for the ministry, were it

not for the dependence of relatives upon their labor.

Twenty have united with the church at San José. At Santa Rosa the number of scholars is 30. The interest of the Chinese community is greatly increased by Mr. Nam Art, an earnest Christian young man, who is studying for the ministry, while at the same time he continues to support himself by his labors. Dr. Loomis says: "His influence over the scholars, and indeed over all the Chinese of the place, is remarkable. They assemble every evening, when the school is not in session, to hear him tell what he knows of the teachings of the Bible. He leads them in singing, conducts their prayer-meetings, and interprets when the pastor, Rev. F. M. Dimmick, or his elders come to address them. Five of the pupils of the school have united with Mr. Dimmick's church." Recently arrangements have been made for assisting Nam Art, in order that he may give more time to study.

Household visitation in San Francisco has been carried on by Mrs. Loomis, though the high upper stories of tenement buildings render

the work too arduous to be pursued to a great extent.

Mention is made of an interesting young man, member of the church, who has returned to China to look after his kindred, but with the avowed purpose of proceeding as soon as possible to Canton, there to prepare himself for the work of the ministry.

Three educated men have recently shown an interest in Christian

books. Two of them come daily to the mission-house with inquiries and for study. The loss of many members by removals to other countries is partly compensated by letters and reports which are received from them. For example, one at San Diego, though a business man, has a regular Sabbath-evening class, attended by 15 or 20 of his countrymen, and also holds a prayer-meeting. Another in Arizona is engaged, as opportunity appears, in tract distribution; and not long since he sent to Dr. Loomis a twenty-dollar bill as his contribution to the mission. There are several representatives of this church now in the Sandwich Islands, some employed as teachers and colporteurs; others are similarly engaged in China.

"This," says the report, "is the way by which the work of evangelization in China is to be carried on, through the influence of the missions here co-operating with missions in China, much more rapidly and efficiently than if those China missions were left to work on without the aid of those who return from America, and who go home to thousands of cities and hamlets which the foreign missionaries would

not be likely to visit for years to come."

In illustration of this, an interesting account is given of a lad named Charley, who appeared before Dr. Loomis, and asked to be baptized and received to the Church. "And how old are you, Charley?" was the first question put. "Well, sir, I am seventeen." "But you seem to be rather a little fellow for seventeen." "Yes, sir; that is so." "And how do you account for it?" "Oh, I think that when I was little I had to work pretty hard, and maybe I did not get very good things to eat." "Well, Charley, I suppose, if you live, you expect to go back to China some day?" "Oh, yes, certainly, I hope to go back to my home and my relatives." "And what will you do when you get home?" "Well, sir, I have an uncle who became a Christian in Australia, and a brother who became a Christian in California; and when we all get home together, the first thing we mean to do is to build a little church, and we will have meetings in it every Sunday. Maybe, at first, only we three will go to it; but I think afterwards others will come. At any rate, that is what we will pray for."

Charley was received into the church, and gives increasing evidence of his knowledge and growth in grace. Many who read this report will pray, possibly with a tearful eye, that his vision of that little

church may yet be realized in China.

The Young People's Christian Association is spoken of as meeting with a good degree of success, in looking after the strangers who come to this country, and throwing around them a cordial and fraternal Christian influence.

Oakland.

The mission work at Oakland has advanced with steady success during the year. Since the organization of the church two and a half years ago, seventy members have been received. Nine have been added during the past year, though the total has been diminished by ten deaths and the suspension of two persons. Four members of this church and one in Sacramento have given themselves to the preaching of the Gospel. Two are now studying at Lane Seminary, Cincinnati. Two others have gone to Canton for further preparation for Christian work, while a fifth is studying in connection with his work at Sacramento. Four weekly services are held at the mission in the Chinese language, two of which are on the Sabbath. The evening-school has numbered fifty pupils, and has remained under the care of Mr. and Mrs. Condit, and the Misses Alger. The Sundayschool is held in Dr. Sprecher's church, under the efficient superintendency of Mr. Hyde. At a jute-mill, in the suburb of Oakland, where 800 Chinamen are at work, Sunday afternoon services have been held, with a varying attendance of from seventy-five to several hundred. The work of Mrs. Condit among the Chinese women, both in Oakland and in San Francisco, has been continued.

At Sacramento the mission work of Mrs. Johns and her daughters has been attended with encouraging results; and Chee Sing, a very earnest Christian, has devoted a part of his time to the school, in connection with his secular avocations. It is his hope ultimately to devote all his time as a Christian helper. About twenty-four Chinese members are now connected with the Presbyterian Church, Rev.

Mr. Rice, pastor.

A call having been extended to Mr. Kwan Loy, of Canton, to take the pastoral care of the Chinese church in Sacramento, he has signified his acceptance of the same, and is soon to sail, with his wife, to his American field of labor.

As an evidence of the earnest spirit of some of these native Christians, the following extract from Kwan Loy's letter of acceptance is

given:

"I consider the office of Pastor to be something serious, and not a light affair. My talents are few, and my qualifications meagre, and I greatly fear I will not be able to meet this responsibility. The Church uses men as a carpenter in building a house uses the large timbers for pillars and the small for rafters; each has its appropriate place, but it is the work of the carpenter to give completeness to the building. Can I, who am but a broken bit, become a pillar? But since you do not despise my unworthiness, and wish me to become your minister, I will not presume to make my lack of talent and qualification a reason for declining. I believe that the Heavenly Father who uses me, has the power to send me and to use me amongst you. Therefore, trusting in the Lord, I, without fear, accept the proposition of your letter. I await your reply to this before starting.

"Canton, Feb. 2, 1881.

Miss Culbertson reports fifteen names in the Mission Home at the beginning of the year. Six additions of permanent inmates have been made. Seven others have been received for short periods. Five have been admitted to the church. Four little girls have been received by the Humane Society. They were slaves, and are rescued from the

evil life for which they had been purchased. Such a work of mercy to body and soul, especially when directed to innocent children, unconscious as yet of their destiny, must of itself prove sufficient to touch the heart of every Christian woman in the land. Many of the children are bright and intelligent, and are already busied with the rudimental studies commonly taught in schools for the young; at the same time, plain and fancy sewing, knitting, washing, ironing, cooking, etc., etc., are taught, so that they may be qualified in future to assume the care of tidy Christian homes.

Chinese Woman's Home.

The work of the Occidental Branch of the Woman's Foreign Missionary Society has been attended with prosperity. It has thirtyone auxiliaries and eleven bands. It has four departments of work for women and children, of which house to house visitation, the Occidental School, and the Home for women and girls are the most important. Visitation has been carried on very faithfully in San Francisco and Oakland. The Chinese women to whom access can be gained, are watched over with great care, especially those who have been rescued from evil through the agency of the Home. The Occidental School reports fifty-six pupils.

The afternoon lessons in the Home afford fine opportunities for sowing the good seed; of which an instance is given in the case of Mrs. Ah Kum, who nine or ten years ago was a pupil in Mrs. Cole's school. For a long time the mission had lost sight of her; but recently one of the ladies connected with the mission was accosted by her with great apparent joy at again seeing one connected with the mission. She had many inquiries to make, and related her own eventful experience, declaring herself not a worshipper of idols, but an

adherent of the Christian Church.

She has since been a regular attendant at the chapel, and has

induced others to enter the school.

The Home has furnished accommodations for fifteen women and girls. Seven others have been admitted as transient boarders. Five have been admitted to the church. Three have been married. Four little slave girls, who had been purchased for evil purposes, were placed in the Home by the Humane Society. These are said to be bright children, and are making great advancement in their studies.

A beginning has been made of mission work among the Chinese in

Oregon.

A school has been opened in Portland, under the anspices of the Board, though under the immediate supervision and co-operation of the First Presbyterian Church—Rev. Dr. Lindsley, pastor. This school under the care of Miss S. F. Gould has averaged twenty-two pupils. Though this work is but a tender plant, it is to be hoped that its branches may yet extend to all Mongolians in that growing State.

Chinese Mission Work in New York.

The work of the "New York Chinese Mission" has progressed favorably during the year, a larger number of Chinamen having been

brought under instruction than ever before.

The school at 119 White Street, held every evening of the week except Saturday, has been full of interest, and the average attendance larger than usual; the largest number on the roll for one month being 45, the smallest number 34, with an average of 38. The new pupils entering the school during the year number 106—4 of these being Japanese. Thirty-six former scholars have returned, some having been absent several years. One had been away nearly seven years, another six, and two others four years. They gave good evidence that the school had not lost its power and influence over them. One who had been absent four years in New Zealand, bore testimony to the lasting benefit which he had received. The mission is becoming widely known among the Chinese who come and go, some from distant parts of the world. One of the pupils had heard of the school while residing in Singapore.

The Sunday-school has shown an increased attendance, both of

pupils and of voluntary teachers.

The prayer-meetings held on alternate Sabbath evenings have been

well attended.

The Chinese element in the city has steadily increased. The late census places the number at about 750. This is supposed to fall considerably below the present number. There are said to be over 400 laundries in New York, scattered in nearly every street and avenue in the central and lower parts of the city.

In order to meet the wants of all the different wards, branch Sunday-schools have been opened at different points. This plan has met with marked success, and is gratefully appreciated by the Chinese,

beside awakening an interest among Christian people.

In May, 1880, the first branch, called Sunday-school No. 2, was opened in the lecture-room of the Fourteenth Street Presbyterian Church, corner of Second Avenue—Rev. F. H. Marling, pastor. The

school has gradually increased in numbers, till it now averages nearly 30. Recently a Monday evening school has been held at the same

place, many of the teachers attending.

November 28th, the second branch, Sunday-school No. 3, was opened in the Spring Street Presbyterian Church—Rev. A. H. Moment, pastor—with four scholars. This has increased till the average of pupils is about 30; teachers about 25.

January 2d, the third branch, Sunday-school No. 4, was opened in the Seventh Presbyterian Church, corner of Broome and Ridge streets.

Altogether there are eighty or more Chinese under instruction every Sabbath afternoon, at the same hour, 2.30 P.M., in these four schools of the mission.

A Chinese Young Men's Christian Association, with officers and

members from the four schools, has been organized.

One young man, hopefully converted in the mission, has been received into one of the churches in the city, and another has requested baptism.

The following list of Chinese Sunday-schools will indicate in some measure the widespread interest that is springing up in regard to these principles:

PAPAL EUROPE.

At the beginning of the fiscal year the Board was in the receipt of a request, signed by certain pastors in the City of New York, that the treasury of the Board should be made the medium for transmitting the contributions of Presbyterian churches for the benefit of the Waldenses and other Protestant bodies in Central and Southern Europe, to which Presbyterian churches had been accustomed to contribute.

The request had been made from a conviction that this method would be found more satisfactory to the churches, than to contribute their funds through voluntary societies or committees appointed in this country for the purpose. Upon the 26th of April, 1880, the Board took the following action: "A letter was read from Rev. Drs. Hall, Crosby, and others, dated April 2, 1880, in reference to collections in aid of the missionary work of the Waldensian Church in

Italy. The Board expressed its consent to receive and transmit funds in aid of this work as heretofore."

And again, at a meeting held on the 14th of June, the following action was taken: "After considering the wants of Papal Europe, the Board agreed to appropriate \$5,000 for work in the same, and through

the agencies hitherto sustained."

This appropriation, while definite in amount and assured as to payment, was made in view of the communication above named, and was based upon the assumption that contributions from the churches were to supply the funds required. The amount received during the year for work in Papal Europe, has been \$820.71. The Fourth Avenue Presbyterian church contributed \$168, and the University Place church, \$100. There has not, however, been any lack of interest in the work of evangelization in Papal Europe; on the other hand, more has been done probably than in any previous year. But the gifts of the churches have been made upon the solicitation of persons directly representing different societies. The work of the Free Church in Italy, that of the general Protestant cause in France, and especially that of the M'All Mission in Paris, have been presented extensively by individual effort.

A special appeal was also made through the Pan-Presbyterian Conference, held in the autumn at Philadelphia, for the Waldenses; and for a brief time Prof. Comba, of that Church, remained among the churches, greatly increasing the interest of Presbyterians in the work of that ancient and time-honored Church. Appeals have been made also through the press; and on the whole, though no exact statistics are at hand, large amounts have doubtless been contributed for evan-

gelical work in Papal Europe.

The appropriations of the Presbyterian Board have been as follows: Waldenses, \$2,423.75; the Christian Missionary Church of Belgium, \$484.75; The Société Evangelique of Geneva, \$968.50; Société Evangelique of France, \$484.75; Société Centrale Protestante of France, \$484.75; M'All Mission, \$218.14. The contributions to

the latter were designated by the donors.

The needs of the Waldenses, and their high character as a Church, have been often noticed. The great indebtedness of European and American Protestantism to that ancient body of Christians, who in the fastnesses of the mountains, amid persecution, bloodshed, and pillage, maintained with heroic constancy the pure faith of the fathers, has been abundantly disclosed in history. A sense of such indebtedness, and a common sympathy in faith and order, may well lead the Presbyterian churches in this country to share in the work now carried on in Italy by the Waldensian Synod.

This Church has now eight Presbyteries—three in the Alpine valleys, and five outside of them in the Italian provinces. In connection with these are 54 churches, 24 missionary stations, 62 places periodically visited, 1 theological hall, with 3 professors and 18 students; 1 college, with 7 professors and 75 scholars; 1 normal school, with 2 professors and 33 scholars; 1 high school for young girls, with several professors and 75 scholars; 1 grammar school, with 2 professors and

32 scholars; 3 hospitals, 1 orphan asylum, 1 industrial school, 253 primary day schools, with 6,462 scholars; 163 Sunday-schools, with 4,369 scholars; 7 emeritus pastors, 50 ordained ministers in active service, 15 evangelists, 30 masters and mistresses of schools, 7 colporteurs, and several religious journals. Voluntary contributions, 82,221 francs, half of which contributed by the new churches of the mission.

The Evangelical Churches of France, which during the past year have shown greater advancement than for some years previous, have entitled themselves to the respect and co-operation of Christians in more privileged countries, not only by their zealous efforts at home, but by the fact that the French Evangelical Church, while in its poverty compelled to receive aid, has most liberally proffered its help to those more needy than itself. One of the most fruitful missions in South Africa is that among the Basutos, carried on by the churches supporting this society. That mission has inspired confidence in the vitality of the French Protestant churches which support it, and it gives assurance that the aid rendered them in their home missionary

efforts has not been spent in vain.

The "Christian Missionary Church of Belgium" is also prominent among the organizations to which the Board has made contributions. Its very name is an indication of its missionary spirit. Its great aim is the evangelization of the dead formalism found in the communion of the Roman Catholic Church. Its greatest fruits have been gathered among those who, though professedly of the clerical party, are said to be as far removed from the Christian faith as are the liberals. M. E. Lanet has recently stated in the Monthly Record of the Scotch Free Church, that the Protestant churches of Belgium connected with this society are formed chiefly of converted Catholics, and cites these specific facts in confirmation: 1. That two-thirds of the elders and deacons of the French-speaking congregation of Brussels were originally Papists, while the Flemish-speaking congregation of the same city contains but one Protestant by birth. 2. That of the two churches of the district of Charleroi, which number at present 1,942 members, including children, only 22 are of Protestant origin, and that one of the pastors was trained in the Romish Church. During the last year 110 were received from the Romish Church. 3. In Lize-Searing, where twenty years ago scarcely a Protestant was to be found, there is now a Protestant church of 742 members, and a Sabbath-school of 162 children. Of all these only one, the pastor's wife, is of Protestant The pastor himself had studied for the priesthood. 4. In a small church at Ardennes all are converts from Romanism, except the pastor's wife. At the same time that it devotes its chief attention to Romanists, it is remarkable for the uncontroversial spirit with which the work is carried on.

At the last Synod of this Church, which was held in the "Temple" at Liege, M. Louis Nicolet was ordained as collegiate missionary in that town. He had been for eighteen years acting as an evangelist in the same place. In stating the reasons which had induced him to desire the ministerial office, M. Nicolet gave the

following incident: "My first deep impression came through a friend of mine in Geneva, who was going to work as an evangelist in France. Before starting, he had an interview with Cæsar Malan, who asked him how he intended to preach. He replied: 'I will preach, first, "God so loved the world, that He gave His only begotten Son, that whosoever believeth in Him should not perish, but have everlasting life"; second, "God so loved the world, that He gave His only begotten Son," etc.; third: "God so loved the world," etc.' 'Go,' answered M. Malan; 'I perceive that you are prepared.' This incident left an impression upon my mind which has never been effaced. Besides this, I had that first of earthly blessings—a pious mother."

The emotion which was apparent throughout his brief address was manifestly shared by the audience. It is in this spirit that the Protestant Church of Belgium is carrying on its work. Surely it need no further commendation to those who would cast in their influence in

this great cause.

The Société Evangelique of Geneva has, during the past year, suffered almost irreparable loss in the death of its President, Dr. La Harpe, followed within a few months by that of its two Vice-Presidents, Messrs. Naville and Necker. Three strong men—it were scarcely invidious to say, the strongest of that body—have thus fallen. The biographical notices of these men give evidence of the thoroughly evangelical and earnest spirit which characterized their lives and labors. Theodore Necker, while upon his death-bed, received tidings of the death of his esteemed brother, Adrian Naville, and was greatly affected thereby. Toward the last he said to his family: "Tell the pastor who officiates at my funeral to speak from the words, 'Christ

est ma vie, et la mort est un gain."

These, then, are the societies or churches which are aided by the Presbyterian Board—the Waldenses, the two Protestant Societies of France, the Missionary Church of Belgium, and the Evangelical Society of Switzerland. As to their character, we need not say more. The fact that they are composed largely of the poorer classes, is sufficient proof of their necessities. It has been the policy of the Board from the first to carry on its mission work in Europe through the existing organizations, as being the more economical method, and as utilizing the services of those who understand the languages and the genius of the people, and who are already prepared for efficient The remaining questions, namely, how far the Board is to be supported by special contributions, or at least increased contributions: and how far the Board can afford to expend funds from its general treasury to this particular work, are questions which should receive attention, either from the General Assembly itself, or from pastors and sessions of churches inclined to contribute.

There is certainly an infelicity in the fact that while the Board furnishes a channel for the most economical, direct, and efficient disbursement of funds in Papal Europe, it should be left unsupported by the churches, while their contributions are bestowed through various

channels upon particular appeals.

Action of the General Assembly.

The Report of the Board of Foreign Missions was presented at Buffalo, New York, on Friday, May 20, to the General Assembly, and referred to the Standing Committee of the following members:

Ministers—Rev. William P. Breed, D.D.; Stephen R. Riggs, D.D.; George C. Noyes, D.D.; C. Solon Armstrong, D.D.; Anson G. Chester, D.D.; T. S. Wynkoop, James F. Riggs, Benjamin F. McDowell.

Elders—Hon, Henry T. Helm, Hon. Seth B. Cole, Wm. Dugdale, James P. Smith, Geo. Wall, Albert Fuller, M.D.; E. Wiseman.

This Committee on Wednesday, May 25, reported:

(1). The work of the year.—This has been faithful, abundant, and to a very encouraging degree successful, and in view of this the General Assembly urges the Board to press forward as rapidly and energetically as possible the work of evangelization among the thousands of Chinese heathen on our Pacific Coast, and also among our American Indians, in view of their present condition and their early prospective promotion to the rank of American citizenship.

The Board is emphatically asking for its contributions to the struggling Protestants in Belgium, France, Geneva, and especially to the Waldenses, who, both doctrinally and ecclesiastically, are bone of our bone and flesh of our flesh, and whose fathers transmitted through ages and scenes of blood and flame a genuine and glorious apostolic succession.

And the General Assembly would request and urge the churches to transmit their contributions for these objects through the treasury of the Board of Foreign Missions, to enable the Board to redeem its annual pledges therefor.

(2). Finances.—The close of the fiscal year finds a balance in the treasury of over \$9,000. At the same time, however, there has been a slight falling off in the regular contributions of the churches.

It appears, further, that of our 5,489 churches, only 3,149 gave anything for this work. The committee therefore recommend the adoption of the following resolutions:

1. Resolved, That, while thanking God that the aggregate of contributions the past year has been so large, the Assembly earnestly appeals to the churches to see to it that there be no falling off, but rather constant increase, in that only sure and steady revenue—the regular contributions of the churches.

- 2. Resolved, That the Assembly most heartily commends the Christian zeal and tireless activity of woman in the work, but at the same time would earnestly exhort the churches to make her zeal and diligence an incitement to larger liberality rather than an excuse for more meagre gifts.
- 3. Resolved, That those 3,149 churches which last year made contributions to this cause are affectionately urged this year to repeat and enlarge their gifts. And the pastors and sessions of that host of 2,340 churches who gave no farthing to this work, to take their places this year in the ranks of contributors.
- 4. Resolved, That the Assembly notices with peculiar pleasure the gifts of the children to our mission fund, and exhorts all who have children under their influence to instruct them in this duty, and lead them, even in very early years, into the habit of giving gifts to Him to whom the children of other days sang Hosannas. And to this end it is recommended that the last Sabbath-school session of each quarter be devoted to missionary exercises, and that a collection be taken up for the cause.
- (3). The Monthly Concert.—Believing that there is a special power in concerted prayer, and that serious damage to the cause has resulted from the breaking up of the old Monday monthly concert, the Assembly would recommend that as far as possible the first Wednesday evening of every month be devoted to special prayer for the conversion of the world, and pastors are urged to do all in their power to make these occasions attractive and profitable.

And as information respecting mission work, its progress, condition, and necessities, is essential to deep interest therein, pastors and sessions are exhorted to take measures to increase the circulation among the people of that able and excellent magazine, the *Forcign Missionary*. Instead of the 17,000 copies now taken the number should be 170,000.

Laborers.—The Assembly would call attention to the present urgent demand for laborers, and to the meagreness of the supply. From every one of our missions comes the call for men. Woman with her warm heart and spirit of sacrifice is ever ready, but where are the men? Missionaries, worn down with labor, cry for help; fields inviting and accessible, harvests going to waste, cry out for men.

The General Assembly therefore affectionately and earnestly appeals to the students in our theological seminaries and to young pastors each one to take home to his conscience and his heart this condition of things, and in the presence of Him whose "visage was marred more than any man's, His form more than the sons of men," ask himself if he can give to that marred and scarred Redeemer a reason good and sufficient why he should not buckle on his armor, and say to the man with the inkhorn at his side, "Set down my name."

The Assembly further calls upon parents to pray at the family altar, pastors in their pulpits, and the people in their prayer-meetings and monthly concerts, to the Lord of the harvest, to send forth laborers into His harvest.

The term of service of the following members of the Board expires with this meeting of the Assembly, and their re-election is recommended, viz.:

Ministers—Charles K. Imbrie, D.D., Robert R. Booth, D.D., James P. Wilson, D.D.

Elders-David Olyphant, Henry Ide.

The committee recommend the approval of the minutes of the Board for the past year.

The report was accepted and adopted.

Abstract of Eleventh Annual Report of the Woman's Foreign Missionary Society of the Presbyterian Church, Philadelphia, Pa.

The last year has been the first of our second decade, and following the special enthusiasm of the decennial year, it was felt to be a sort of index of the degree of progress or continuance which we might anticipate for the future. Had there been a falling back, therefore, in interest or contributions during this year, we should have felt that a steady advance could scarcely be our rule in coming years, whatever exceptional or spasmodic increase there might sometimes be.

But the encouraging fact is, that leaving out of view one large legacy received in 1879-80, and the special "decennial offerings" of that year, the receipts of the twelve months just closed (1880-81) have exceeded by several thousand dollars those of any other year. The whole amount was \$99,420,24, of which \$95,128.01 was paid into the treasury of the Board of Foreign Missions, through Mr. Rankin, the rest being paid directly to missionaries for specific objects, or for missionaries' children in this country; for printing, stationery, etc.; the total amount of running expenses, or what might be called the machinery of the work, being less than 2½ per cent. of the sum raised.

We do not, however, regard the mere money record as all that is encouraging in our outlook. The growing stability and spirituality of the work at home is very manifest to those who watch the pulse of this department, and the impetus given during the year to the interest and zeal of young people in foreign missionary work is to us one of the most hopeful signs of the times.

We have now 99 missionaries, 9 mission teachers, 166 Bible readers and native teachers, 116 day-schools, and 368 scholarships in boardingschools. Only *eleven* of our active representatives in mission lands

are at home for rest, which is surely not a bad showing as regards the

physical condition of our workers.

Those who desire to know of the details of our work, will find the full list of missionaries belonging to this Society, with their station and name of the auxiliary supporting them, at the close of the published Report; also the schools, scholarships, Bible-readers, native teachers, etc, with the names of supporters. There is a form of mission effort which we desire to make very prominent in the coming year, viz: medical missions of women for women. The opportunities for this kind of work are unlimited, and loyalty to our Master would lead us not to fail to do our part in the use of them. The appeal on behalf of this special department of work, and the reasons for regarding it as so peculiarly hopeful and interesting, have been set forth in a paper devoted to this subject.

HOME WORK.

We have now 44 Presbyterial Societies besides the Occidental Branch which covers our work on the Pacific coast, and the Synodical Society of Tennessee which includes three Presbyteries.

We report 70 new auxiliaries during the year, making a total of 1,068, also 85 new bands among young people and children, making 600 in

all.

In looking back over the eleven years of our work, and forward to the full, bright future which God seems to lift before us, we are more than ever satisfied with the unity and singleness of our object, as quite sufficient in itself to fill our hands. While heartily wishing all success and blessing to every other cause of our beloved Church, we yet, as a Society, hold distinctively and solely to the one in aid of which we were organized and to which we belong.

The Woman's Board of Missions of the Northwest.

In closing our first decade it is impossible to give in figures the exact amount of work accomplished, for there is ever a reflex influence which can not be estimated. This decennial year was set apart for special gifts, praise, and thanksgiving. As a result we find our reports speaking of increasing consecration and spirituality among the women of the Northwest, and great advance in contributions. This year we have received \$54,643.85, making a total for ten years of \$254,769.05. We have 1,200 auxiliaries, and have had 57 missionaries at different times.

In Japan we find evidences of improvement in our school in Tokio, with a considerable degree of religious interest. One hundred and eighty miles to the north-west of the city of Tokio, is the town of Kanazawa, where our missionary, Mrs. Winn, and her husband, are engaged in a pioneer missionary work, with tokens of a blessing upon their labors. The importance of a good school at this point can not be overestimated.

In China, where "forty years ago no foreigner could go more than half a day's journey from the coast, the whole empire is now traversed by foreigners, and churches are organized in more than half its provinces." The simple faith of the women found in some parts of the interior is remarkable. In Shanghai we find our ladies kindly received on their visits among the women, and remark with pleasure the hearty spirit with which our native Christians do all they can to bring others to the knowledge of the Gospel. This city is a great centre for the distribution of Christian literature. At Suchow we also have two schools, and another at Ningpo, in which we have eight scholarships. Here we also find a self-supporting church, and native women who strive to emulate their sisters in Christian lands by personal work for the Master.

At Canton we have the support of one of the twelve day schools, with twelve scholarships in the training school. We have two medical ladies in this field.

In Siam we mourn the sudden death of one of our young ladies, while the work is opening and the need of workers is increasing.

In India we find all our missionary ladies at work. Here are laid the foundations of a new church building; here several schools for Mohammedan girls; and here, again, our Bible women are welcomed as they go on their visits from house to house.

In Persia we find a new chapel opened at Tabriz, for which the native women presented a pulpit Bible, where, and at the first communion service, a Mohammedan woman, the first in Persia so to do, received baptism.

The village schools were necessarily closed during the winter because of the unsettled condition of the country.

In Syria we note the progress to completion of the new school

building at Tripoli, which has interested us so deeply.

In Africa we have over thirty scholarships in the schools at Benita and Baraka; while at Kangwe, which four years ago was an unbroken wilderness, we find a large church, a bamboo house, and a boys' and girls' school, in which we have scholarships.

In Brazil, and Mexico, and nearer home, among our own Indians,

the work is spreading and deepening.

The next generation will be what the boys and girls of to-day make it.

Ladies' Board of Missions of New York.

In presenting our eleventh report we note an advance in the number of our auxiliaries and Mission bands, and in their earnest work and cheerful contributions. There seems to be an increasing appreciation of woman's opportunity and power to work for Christ.

In Syria we note but few changes in our work. The Beirut Seminary has always a report of interest, and this year has enrolled 69 pupils on its list, the Primary Department having 100, with a daily attendance of 60. A new departure was taken in exacting full pay-

ment from all boarders, hoping to bring about, in time, the self-sup-

port which shows an appreciation of the education received.

The school at Tripoli, notwithstanding many discouragements, has, on the whole, been blessed. They are looking forward to the completion of the new building, which will afford them better accommodations. We have added three to the six village schools supported last year, with an increase in the number of our teachers.

In Persia, the year has been one of progress, notwithstanding many trials and discouragements. Mrs. Cochran has carried on the work in the schools in Mt. Seir and in the villages under her care. There are now 1,000 children under instruction among the villages in the

plains of Oroomiah.

In China we are hoping soon to resume the suspended work in Nanking, and also to extend that in Peking. We would mention the importance of female physicians among the women of the East. In no other way is the door so effectually open for the Gospel as through the labors of our lady physicians among those who can never be reached by the medical man, but who gladly welcome the relief that comes from one of their own sex. There are but 17 women physicians of all denominations to minister to the needs of the 200,000,000 of these heathen women.

In Japan our work is going quietly on, with much to cheer. Miss Leete has been appointed to the charge of the Graham Seminary at Tokio, with three ladies as teachers.

In India and Siam our work is advancing.

In Africa, we have undertaken a new work in sending out Mrs. Barboza, daughter of Rev. Mr. Garnet, of this city, to establish a boarding school at Brewerville, in Monrovia. Mrs. B. has had experience and success in teaching, and has prospect of a flourishing school.

Our missionaries in Gaboon are pursuing their work with faithfulness. At Kangwe is a school of 17 girls, who are progressing favorably. This, and also the boys' school, are, to some extent, supported by the parents or by the pupils themselves; very little besides food is now given to the boys. Thirteen villages in the neighborhood are visited as opportunity offers, with good results.

In Mexico is a wide-spread and earnest desire to hear the Gospel and partake of its benefits. At Toluca we are about to erect a church costing \$4,000, and at Ozumba we hope to put up a building for a

church and school.

We have also assumed the support of a station of the McAll Mission in Paris, in one of the most degraded quarters of the city. Services are held on the Sabbath and several times during the week.

We acknowledge the receipt of legacies from several friends, one of which will enable us to enter a new field at Hamadan, in Southern Persia, where there is a wide opening for work among the Jews.

We hope to enter upon new work in Siam. From Mexico comes a call for more houses of worship, to which we also hope to respond.

Our total receipts during the year have been \$30,878.88.

Woman's Presbyterian Board of the Synod of Albany.

At Home.

New societies, 7; bands, 2; total number societies and bands, 114; new life members, 57.

The letter published by the Board, circulated each month throughout all the churches; about 2,000 Annual Reports printed—200 sent to the General Assembly meeting; 1,500 copies Children's Work distributed throughout the Synod; more than 700 subscribers secured; leaflets and printed letters from missionaries circulated. Meetings held each month, which have grown in numbers and in interest; enthusiasm and interest shown by the bands; large gifts from some of them; systematic study of mission fields pursued; visits from Dr. and Miss Nassau, of Africa; Mrs. Harding, of India; Mrs. Crossette, of China, and Mrs. House, of Waterford.

Abroad.

Missionaries, 6; native teachers and Bible-readers, 14; scholarships,

39; native preachers, 1.

An organ has been sent to the First Presbyterian Church, Bangkok, Siam; funds provided for the printing of vocabulary in the Fang-we language under Dr. Nassau's supervision; boxes and packages for Persia, India, and the American Indians; travelling expenses of missionaries in Siam defrayed; contributions to general work in schools at Chefoo and Gaboon; schools in Syria; work under Mr. Dale's care in Syria, and also under the care of Mr. Bird; room rent in Shanghai. Encouraging news from various portions of the foreign field, particularly from Siam.

The Woman's Missionary Society of the Synod of Long Island

Is now in the ninth year of its existence. Most of the churches in Brooklyn are represented by two or more managers. We have seven auxiliary societies on the Island. We have received for disbursement during the past year the sum of \$3,595.79, and have expended for native teachers in Tripoli \$300; for scholarships in Tripoli, \$200; for scholarships in Beirut, \$100; for building at Tripoli, \$75; and donations, \$63.47. For the Gaboon Mission in Africa, \$100; for school in Persia, \$400; for school in San Paulo, Brazil, \$50; for famine sufferers in Persia, \$138.15; alary of student of medicine, \$50; for Miss Ward's school, Persia, \$57. Deducting current expenses, we have a balance in treasury of \$468.77.

We are about to devote \$600 to the support of a teacher in a girls' school in Siam, and also are negotiating for two colored female teach-

ers to assist in the Gaboon Mission.

ACTION OF THE GENERAL ASSEMBLY,

OF MAY, 1881,

ON THE BOARD OF PUBLICATION.

The General Assembly, at its sessions in Buffalo, N. Y., appointed the following Standing Committee on the Board of Publication, viz.:—

Ministers.—George C. Heckman, D.D., James T. Leftwich, D.D., Frederick E. Shearer, J. Elliott Wright, Rufus S. Green, Heman H. Allen, Elizur N. Manley, James C. Burt.

Elders.—Robert Carter, Waitstill Hastings, Charles W. Kirkpatrick, Charles F. Blood, Sylvanus Cadwalader, Gideon Noel, Philander Sprague.

On Thursday, May 26, this Committee presented its report to the General Assembly.

The Rev. William E. Schenck, D.D., Corresponding Secretary of the Board, then addressed the Assembly.

The Report, after discussion, was, on the next day, adopted, and is as follows:—

The Standing Committee on Publication would respectfully submit the following Report:

The committee very carnestly desire to impress upon the Church the great value and importance of this agency of labor and love for Christ and man, its almost absolute necessity to the work of evangelization in our country, and the general adaptedness of this organization to accomplish the duty and desire of the Church. We also congratulate the

General Assembly upon the sincere and expressed desire of the Board to do more and better work from year to year. It is with the hope to assist this resolute endeavor that this report is submitted.

The Forty-third Annual Report of the Board exhibits, as in the past, a sound financial condition. Including the balance of \$25,015 35 carried over from the previous year, the receipts of the year just closed, from various sources, amount to \$232,651 35, an increase of \$13,752 79. The aggregate of sales has been \$161,324 53, an increase of \$9747 25.

There has been a gratifying advance and improvement in the periodical literature of the Board, which literature it gives us pleasure to commend as unsurpassed, if indeed equalled, by any similar publications in the world. "The Westminster Teacher" and "Westminster Question Book" have a literary and biblical value which commends them to the study of the best minds of the Church, and are of undoubted value to ministers and officers, parents and teachers, throughout the Church. "The Westminster Quarterly," "The Westminster Lesson Leaf," and "The Westminster Primary Leaf," all are worthy the historic name they bear, and recommend themselves to Presbyterian families and schools, for their unsurpassed elegance, their cheapness, and their adaptation to their ends. The long-familiar "Sabbathschool Visitor" and "Sunbeam," with increasing attractions, successfully appeal to the affection of the home and the school. "The German Lesson Leaf" is valuable, not only for Sabbath-school use but also for distribution as a tract among our German-speaking population. These publications reflect honor upon the Church and her Board, from whose press they are scattered abroad.

The same characterization must be given of the other standard publications of the Board. In all essential points they can bear exhaustive comparison with the publications of similar enterprises; and the publications of the year now reported sustain the creditable past of the Board. We feel convinced that an intelligent survey of the issues of the Board will elicit general approval and satisfaction, and Presbyterians may, without fear, place their literature by the side of that of any sister Church.

What has been accomplished in these forty-three years of labor, however, by no means compasses the possibilities of the Board, nor meets the intent and expectations of the founders and patrons. Without flattering the fidelity of the ministers and laymen, who for nearly half a century have served the Church in this not too popular scheme,

by saying they have made no mistakes, but have filled the boundaries of their obligation, we would point to deficiency and failure in another direction.

The increased efficiency of the Board, whether as a publishing house of scriptural truth or particularly as an organization for a vast and needed evangelization, depends as much upon the minister and elder of the church on the one hand as upon the Board itself on the other. As ministers and elders we may humbly ask ourselves whether we have conscientiously and faithfully discharged that important share of this work which the Church assumed forty-three years ago. One of the ever-repeated cries is for cheaper publications, made by brethren who, while they know that cheapness is largely a matter of the extent of circulation, do little or nothing to circulate and thus cheapen the publications of the Board. The Board has ever appealed and still appeals to the Christian zeal and denominational fidelity of the ministers and officers of the Presbyterian Church. Have we no other answer than cold silence or unfriendly criticism?

The General Assembly has charged the Board of Publication with three separate but correlated duties: 1. The printing of a Church literature. 2. Sabbath-school work. 3. Domestic missionary work. Of the first of these we have sufficiently spoken. We pass to the others.

The Sabbath-school Work of the Board during the past year may be regarded by the Church with great satisfaction and thankfulness. By his successful efforts to define the relation of the Sabbath-school to the Church and the family, to elevate the standard of biblical instruction in the school, to bring our Sabbath-schools into closer relations with each other, to bring them under Presbyterian agencies that they may be the more effective in accomplishing Presbyterian obligation, and finally by aiming to broaden and deepen the spiritual life and objects of our Sabbath-schools, the Secretary of Sabbath-school Work has approved the wisdom of the Church in establishing this agency, and commended himself to the approbation and sympathy of our communion.

THE MISSIONARY WORK of the Board. This we conceive to be that part of the work of the Board which at present most deserves attention. It presents the only means of performing a large responsibility which God has laid upon our Church, viz., the vast field spread over our country, but which lies beyond the reach of regular ministerial and parochial labor, the uncounted thousands of our coun-

trymen that can receive the "Bread of Life" only from the hands of the colporteur.

This work, early begun by the Church, has never grown out of the undue proportion between the running expenses of the office and the actual work done upon the field. Thus the amount contributed to it by the churches during the past year was \$29,853 94, of which amount over \$19,000 has been expended on officers and official expenses, leaving about \$10,853 for the employment of colporteurs and their work. The number of missionaries has fallen from sixty-five, the previous year, to fifty-three for the year reported, and this reduction of twelve has all been in colporteurs. Further taking from the number of missionaries, so called, the five district superintendents, we have forty-eight left. The actual time during which these were employed is searcely equivalent to the labor of twenty-two missionaries for the whole year. This expresses the effort of the wealthy Presbyterian Church to reach the vast destitute population of the country that receives the gospel from our Church in no other way.

Thus the work actually accomplished annually, bears no proper proportion to the demands of the country and the duty of the Church. The office which appears to devolve on your committee points a two-fold recommendation, viz., to lessen the drafts upon the missionary fund for the salaries of officers and running expenses, and the adoption of means to enlarge the information of the Church as to the importance of the work, and in it to stimulate her liberality and zeal.

The Standing Committee recommend to the General Assembly for adoption the following resolutions:

- 1. That the salaries of the Secretary of Sabbath-school Work and of the district superintendents be paid in the proportion of one-half from the Business Department of the Board, and that hereafter one thousand dollars only of the salary of the Corresponding Secretary be charged to the Missionary Department and the remainder of his salary to the Business Department.
- 2. That it be recommended to the Board to consider the propriety of transferring to the Business Department the incidental expenses of the district superintendents, such as rent of office and depositories, insurance, clerk-hire, etc.; and further, to consider whether a reduction of the number of the District Superintendents might not be made without impairing the efficiency of the Missionary Department of the Board.

- 3. That the Board be directed to furnish to future Assemblies a full itemized statement of the receipts and expenditures of its different departments.
- 4. That the General Assembly renew the earnest recommendations of former Assemblies as to sessional control of Sabbath-schools, the holding of Sabbath-school institutes and conventions, the general organization of normal classes, the collection of Sabbath-school statistics, and the use of the periodical Sabbath-school literature of the Board in the family as well as in the school.
- 5. That the Board be directed to appoint from their own number a standing committee of seven to advise and consult with the Secretary of Sabbath-school Work.
- 6. That the Board be urged to reduce all its publications, especially Sabbath-school papers, to the lowest price consistent with financial prudence.
- 7. That the churches and Presbyteries under the care of the General Assembly be expected to give a larger study and affection to the missionary work of the Board; to attempt to raise for this work for the coming year at least seventy-five thousand dollars; and that Sabbath-schools be requested to aid the Board by the purchase of its books, by the use of its periodicals, and by contributions to its missionary fund.
- 8. That the General Assembly appreciates the labor and difficulty of the work committed to the Board, pledges its aid in every wise enlargement of its work, and commends it to the gracious help and guidance of the Holy Ghost.

The term of office of the following members of the Board expires in May, 1881:

Ministers.—Rev. Geo. F. Wiswell, D.D., Rev. J. W. Dulles, D.D., Rev. Wm. E. Jones, D.D., Rev. H. Augustus Smith, D.D., Rev. Willard M. Rice, D.D., Rev. J. Addison Henry, D.D., Rev. Geo. W. Musgrave, D.D., LL.D., Rev. Matthew Newkirk, D.D.

Laymen.—E. A. Rollins, Joseph Allison, LL.D., Henry N. Paul, John H. Watt, William S. Mactier, John D. McCord, Samuel A. Coyle, Gustavus S. Benson.

Your committee recommend that they be re-elected as members of the Board for the next three years,

Also, to fill the vacancy caused by the death of the Rev. J. G. Ralston, D.D., we recommend the election of the Rev. Rufus S. Green, of the Presbytery of Morris and Orange; and to fill the

vacancy caused by the resignation of Mr. Wm. E. Tenbrook, we recommend the election of the Hon. John Hill, of New Jersey.

The following resolution was, by leave of the Assembly, added by the Standing Committee on the next day, Friday morning, and was adopted as a part of its report:

9. Resolved, That a committee, consisting of seven members—four ministers and three elders—be appointed to consider and report to the next Assembly what changes and measures, if any, are needed in order to increase the work and efficiency of the Missionary Department of the Board of Publication.

The following gentlemen were appointed as members of this committee:

Rev. Henry A. Nelson, D.D., Rev. Samuel J. Niccolls, D.D., Rev. J. McCluskey Blayney, D.D., Rev. Arthur Mitchell, D.D., Hon. J. K. Moorhead, Jacob S. Farrand, Esq., and Daniel W. Ingersoll, Esq.

FORTY-THIRD ANNUAL REPORT

OF THE

PRESBYTERIAN BOARD OF PUBLICATION.

1881.

Another year of its history having closed with the last day of March, the Board of Publication respectfully submits to the General Assembly this its Forty-third Annual Report, and gratefully records its sense of the goodness of God, who has carried it with so large a measure of success and usefulness through another year of labor.

The Board deeply feels the responsibility of being placed by the Church in charge of an agency like this, in a day when the influence of the press is so immeasurable and tremendous upon the beliefs and the conduct of men in this world, and upon the eternal issues of the world to come. It rejoices that it has been enabled, by the blessing of God, to accomplish what has been done during the year past, and now addresses itself resolutely and hopefully to the endeavor to do more and better work in the year before it.

Since the date of the last Report, a valuable addition of books and tracts has been made to the Board's catalogue. The various periodicals issued have found increasing favor in the eyes of those for whom they were prepared, and the subscription lists have been largely increased. Arrangements are being made in various cities and in different parts of the country by which it is hoped that the sales of books may be enlarged. The Board's missionary work has received larger contributions than in the year preceding, and has carried inestimable blessings to every part of our country, and even to distant parts of

the earth. The Sabbath-school department grows in popularity and usefulness; and we fully believe that larger numbers of Presbyterians, in all parts of our Church, are coming to a better understanding of the value of the Board's work, and to a heartier readiness to give it their co-operation.

The last Assembly enjoined the Board-

To exercise continued caution and unceasing vigilance, lest at any time its press should send forth publications casting the slightest doubt upon the divine authority and plenary inspiration of the Bible, or upon the divinity and atoning death of our Lord Jesus Christ, or upon the fact of man's utter ruin by sin and his absolute need of redemption through the blood shed upon the cross. If the truth must be taught in the form of fiction, at least it must be truth; and in the judgment of your committee no book professing to contain religious truth should be published by the Board unless it also contains enough of the gospel to show a child how to be saved. (Minutes, p. 28.)

The Board assures the Assembly that it may rely upon its earnest and vigilant efforts in the future, as they have always been put forth in the past, to avoid the errors against which it is here cautioned. No work is ever sent to the press until, in addition to the most careful scrutiny of the Editorial Secretary, it has been submitted to and approved by the Board's Publishing Committee, consisting of eleven members-nine ministers and two ruling elders. Nor is a vote ever taken until each member of the committee has had a full opportunity previously to examine all matter proposed for publication. The Board also assures the Assembly of its earnest and zealous endeavors to limit the use of fiction within legitimate bounds, and to infuse into every work containing it a saving amount of religious truth. We trust these endeavors have hitherto been successful, as, amidst all the diversified criticisms upon its issues, it has heard from no quarter of any charge of a failure therein.

The offer of the valuable Index to Names of Ministers in the Assembly's Minutes, by Prof. Willis J. Beecher, D.D., of Auburn Seminary, referred to this Board by the last General Assembly, "with the direction to print the List, as suggested, if on full investigation it be deemed advisable" (Minutes, p. 28), was carefully considered. It was believed that some additions

to the Index would still further increase its value. Prof. Beecher has agreed to make these additions, and as soon as they are completed the work will be published by the Board.

THE FISCAL YEAR.

The year now reported extends from April 1, 1880, to April 1, 1881. The work of the year is presented under the usual heads.

NEW PUBLICATIONS.

Catalogue Number.

BOUND VOLUMES.

No. 1215. THE HOUSE THAT JACK BUILT. By Kate W. Hamilton, author of "We Three," etc. With illustrations. 16mo. Price, \$1 25.

A temperance tale, every way excellent. It tells of a family of orphans, with a sister at its head, who added to the business of her country store the sale of intoxicating liquors. The business was profitable in money, but at the cost of sore trouble to the family and community. While it introduces none of the grotesque or revolting features of drunkenness, it quietly and very effectually shows the mischief wrought by a "bar."

No. 1216. ELIJAH, THE FAVORED MAN. A Life and its Lessons for To-day. By the Rev. Robert M. Patterson, D.D., author of "Paradise," "Visions of Heaven," etc. 16mo. Price, \$1.

This book gives a clear and connected biography of the prophet, and then draws from his life and character important practical lessons applicable to the present day. It is written in a clear and vigorous style, and the treatment of the subject is marked throughout by thoughtfulness, freshness, and suggestiveness. It is both attractive and instructive—a book for to-day, not for the past.

No. 1217. FIVE WOMEN OF ENGLAND. By Meade Middleton. With illustrations. 16mo. Price, \$1.

The lives of five noble women who should be known to the young people of the present generation—Ann and Jane Taylor, Mrs. Sherwood, Hannah More, and Mrs. Elizabeth Fry—are brought out in a lively, conversational way that cannot fail to attract young readers. It shows how love to the Lord Jesus influenced their characters, leading them away from paths of mere earthly enjoyment and ambition and constraining them to lives of remarkable usefulness. Such women can never be forgotten. Their place in history and literature is an assured one. But as they lived long ago, time has thrown a veil over their memory. The aim of this book is to bring the young into nearer companionship with them and to stimulate them to imitate these noble examples. Quotations are given from their writings, and, in connection with Mrs. Sherwood, many incidents concerning Henry Martyn are woven into the story, which add greatly to its attractiveness.

No. 1218. FOUR FRIENDS AND THEIR FORTUNES. By the author of "Oriel," etc. With illustrations. 16mo. Price, \$1 25.

The story of four school-girls, the life chosen by each, with the results of their choice. The folly of choosing the world and the wisdom of choosing the service of Christ are well brought out.

No. 1219. From Exile to Overthrow: A History of the Jews from the Babylonian Captivity to the Destruction of the Second Temple. By the Rev. John W. Mears, D.D., author of "Heroes of Bohemia," "Story of Madagascar," etc. 16mo. Price, \$1 40.

A much-needed and valuable work, bringing within the compass of a moderately-sized volume the results of scholarly research. We know of no other book that so attractively and satisfactorily covers the ground. Our ministers, as well as our Sabbath-schools, will find it richly worth a place in their libraries. It belongs to a class of books that the Board is specially desirous of adding to its catalogue of publications for the young.

No. 1220. THOSE DARK DAYS; or, The Diaries of Two Netherland Girls. By Helen C. Chapman, author of "Paul Brewster and Son," "His Honor the Mayor," etc. 16mo. Price, \$1.

A story of the times of Prince William of Orange, depicting the terrible sufferings of the Protestants from the bitter and unrelenting persecutions of the Spaniards under Alva. The story is given in the form of the diaries of two girls, yet is based upon historic facts, and forms a wholesome contribution to our literature for the young.

No. 1221. The Westminster Normal Class Outlines.

Middle Course. By the Rev. James A. Worden, Secretary of Sabbath-school Work of the Presbyterian Board of Publication. 12mo. Price, \$1.

Those who have used Mr. Worden's "Junior Course" of "Outlines" will be glad to have this new volume. The first part takes up the lives of the apostles, as they are told in the Acts and Epistles. The second part treats of practical Sabbath-school methods. There are single chapters that are worth the whole price of the book to teachers. Its publication will undoubtedly give new impetus to the efforts for the proper training of Sabbath-school workers, to which the attention of our Church is now so thoughtfully turned. It is a book to be studied and used by pastors, as well as the immediate workers in the Sabbath-school.

No. 1222. THE RIDE THROUGH PALESTINE. Illustrated by one hundred and eighty-four Maps and Engravings. By the Rev. John W. Dulles, D.D. 12mo. Price, \$2.

A book for popular reading, especially for the young, in which the narrative of a personal tour through Palestine is made to throw light

upon the Bible and to give reality to its history and teachings. It aims to make the Scriptures more interesting and intelligible, and so to have a stronger influence over the lives of its readers. The very abundant illustration of the text by maps and engravings adds materially to its value. It is intended to be especially a book for the Sabbath-school teacher and scholar.

THE WESTMINSTER QUESTION BOOK FOR 1881. 18mo. Price, 15 cents.

This book has been prepared with very great care, and with the earnest desire to meet the wants of our Sabbath-school workers and scholars. It has had a very cordial reception, as has been shown by its large circulation in the face of increased competition. It gives, for the trifling sum of fifteen cents, the lessons for the entire year, helps for study, including a condensed yet full and critical exposition of the lesson, texts, maps, illustrations, lesson-plans, selections for home-readings, etc., all in the compass of 192 closely-compacted pages. Besides giving a question of the Shorter Catechism in order in each lesson, other questions are woven into the exposition of every lesson. This is a feature that should commend it to all our Presbyterian schools, in which the distinctive doctrines of our church should be clearly inculcated. An edition of sixty-five thousand copies has been published.

THE DESCRIPTIVE CATALOGUE of the Board's publications has also been issued in a new and revised edition. This Catalogue, in addition to a brief description of all the publications of the Board, contains also a topical arrangement of the books and tracts, which buyers will find useful. It makes a 12mo volume of about 500 pages. The Board will cheerfully send a copy, gratuitously, to any one who will forward twelve cents to pay the postage.

THE WESTMINSTER BIBLE DICTIONARY, which was announced in the last Annual Report, has been given to the public during the past year, and has been most favorably received. Treating, as it does, with entire freedom, of words which must be cautiously handled by "union" dictionaries, and by those which would avoid giving offence to any denomination of Christians, it has been criticised by those who do not hold to what is believed by Presbyterians to be the Bible teaching on such words as "baptism," "bishop," "elder," and the like. This was expected and is no surprise. But the verdict of impartial

critics is, that it is remarkable for compactness of statement. for accuracy, and for being more fully abreast of the biblical knowledge of the day than any existing dictionary. The excellence of its getting up and its cheapness are admitted by all. By pastors, but especially by Sabbath-school teachers and scholars, it will be found a most valuable helper in Bible study.

TRACTS.

18mo Series.

No. 200. How to be Saved. By E. P. M. Pp. 12.

A plain scriptural answer to the most important question ever asked. It holds up Christ as an all-sufficient and willing Saviour, and encourages the inquirer to trust his all in his hands.

No. 201. PRESBYTERIAN FAITH AND PRACTICE. By the Rev. John Moore, D.D. Price, 5 cents.

This tract answers the question, "What do Presbyterians believe?" It gives much-needed information as to what Presbyterians believe and the way in which Presbyterianism works, to which many have no means of access. Its circulation will tend to dispel widely-prevalent prejudices and illusions in regard to our belief, and will show on how firm a foundation we rest our faith and practice. Let it go into every pew and house.

No. 202. Christ's Testimony to His own Deity. By the Rev. T. S. Childs, D.D. Price, 3 cents.

A clear and conclusive argument for the Deity of Christ, drawn from his own testimony concerning himself. It argues that Christ, as a good man and a messenger from God, would make no claims for himself that were not absolutely true, and then shows that he did claim equality and oneness with the Father.

32mo Series.

No. 46. VETERAN TOM AND THE SURGEON. By Mary L. Demarest. 8 pp.

Telling in sprightly verse that the service of God pays. A good little tract to use as a leaflet.

No. 47. TEN GREAT FACTS. By the Rev. William S. Plumer, D.D. 8 pp.

The last work given to the press by the venerated writer. Great gospel truths admirably put, and fitted to awaken and direct the sinner. Pastors should keep a supply of it in hand.

No. 48. Come unto Me. By the Rev. Henry A. Boardman, D.D. 32 pp. Price, 5 cents.

A discourse preached by the honored and revered author only a few weeks before he entered upon the fullness of his rest. It has already been fruitful in bringing souls to Christ.

MISCELLANEOUS.

To What do Presbyterians Give? 24 pp.

By the General Assembly of 1871 it was resolved "That the Board of Publication be instructed to prepare, and publish for gratuitous distribution, a condensed statement of the various Boards, committees and trusts connected with the Assembly, their names, organization, and special work." In accordance with this action a 24 page tract was prepared, under the title, "To What do Presbyterians Give?" and distributed gratuitously on the request of pastors. It was found useful, and the edition then printed was exhausted. As it is still called for, it has been revised and will again be granted to those who apply for it. The cost of the publication is divided among the Boards of the Church. Its distribution will increase the intelligence and the liberality of Presbyterian givers.

YEAR BOOK FOR TEXTS OF SERMONS. Price, 6 cents.

Intended for the use of Sabbath-school scholars. It contains a blank for every Sabbath of the year, in which the scholar may note his attendance at church and record the text.

Home Calendar of the Westminster Series of Sabbathschool Lessons. \$1 per hundred.

Intended to carry the Sabbath-school lesson into the home and to have it studied there through all the week. It ought to be in every household.

STATISTICAL BLANKS.

The order of the last Assembly, that the Board prepare blanks for the statistical reports, including the number of elders and deacons in the churches severally, has been complied with.

PERIODICALS.

It continues to be a pleasant duty to report to the Assembly prosperity and advance in the Periodical department of the work of the Board. With the incoming of the year 1881, two new papers were added to the list of those prepared by the Board for the assistance of our Sabbath-school teachers and

scholars: "The Westminster Primary Leaf" and "The German Lesson Leaf." With these, our aids to Bible study in the Sabbath-school are as follows:

THE WESTMINSTER TEACHER.

The Westminster Teacher is designed to aid officers and teachers, and also those parents who are willing to be co-workers at home with the teacher in the school in training their own children in the knowledge and acceptance of God's word. It enjoys the fruits of the study and skill of able writers as well as of editorial labor, and aims to take a front rank in journals of its class. It is gratifying to find that those qualified to judge assign it no second place. That it might have space for more of illustration, exposition, and especially of suggestion as to how to teach the lessons, eight pages were added to the Teacher (each month), with January, 1881, with no increase of cost to the subscribers. At 60 cents a year to single subscribers, or 50 cents where six or more copies are addressed to one person, it is a marvel of cheapness. An increasing circulation shows that its value is appreciated.

WESTMINSTER QUESTION BOOK.

The Westminster Question Book is mentioned under the head of "Bound Volumes," but is a part of the series of publications for use in Bible study by Sabbath-schools. It has been popular in the past, but has been made still more worthy of approval. The kindly criticisms of friends have been heeded, so that the Question Book for 1881 can fairly be pronounced the best yet. Though called a "Question Book," it is a complete manual for the study of the International Bible Lessons of the year. The Shorter Catechism is given systematically in it, one question for each Sabbath, as in the other periodicals of the Board. It is intended for use in Bible-classes and the senior classes of the school. Price, \$15 per hundred, net.

WESTMINSTER QUARTERLY FOR SCHOLARS.

The Westminster Quarterly had, in its first year, a remarkably warm greeting, leaping at once to a circulation of 70,000,

in the face of very sharp competition. In 1881 it aims, whilst keeping up the attractiveness of its appearance, to do better in its matter. One appropriate hymn accompanies each lesson, so that each quarterly number contains eleven hymns adapted to use in the school. The Quarterly is designed to meet the wants of the medium and more intelligent classes of the school. The increase in its circulation is the best evidence of its approval by our churches. Single subscription, 20 cents; school subscriptions, to one address, 15 cents each per annum.

THE WESTMINSTER LESSON LEAF

fills the place of an "intermediate leaf." It is issued monthly, and only asks comparison with any other lesson leaf published. Its low price meets the means of a vast number of schools. It is furnished to schools at the rate of seven and a half cents a year for each scholar. As in the other papers, the Shorter Catechism forms a regular part of each week's lesson.

WESTMINSTER PRIMARY LEAF.

The Westminster Primary Leaf commenced with January, 1881. It fills a place in our list of helps as an aid in the youngest classes and in primary departments. It enjoys the services of a skilled pen, that of Mrs. G. R. Alden ("Pansy"), and is furnished, monthly, at the same rate as the Lesson Leaf.

GERMAN LESSON LEAF.

A German Lesson Leaf is also published in the same style and at the same price as the Westminster Lesson Leaf. Its excellence and adaptation to use in German churches are assured by the services of the Rev. Henry Weber and the Rev. John Richelson.

SABBATH-SCHOOL VISITOR.

The Sabbath-school Visitor continues to be published every week, with the privilege of subscription for one, two, or three papers a month, or weekly, as may be preferred. Whilst the style, pictorial illustration, and attractiveness of the Visitor are kept up, and its corps of popular contributors retained, the

element of systematic instruction by editorial writing has been increased. The paper is furnished at the following rates per year, postage paid:

SINGLE SUBSCRIPTION.	SCHOOL SUBSCRIPTION.
Once a month 25 cents	
Twice a month 40 cents	. \$12 per 100 copies once a month.
Thrice a month 55 cents	
Weekly	. 36 " " thrice "
*	50 " " weekly, 52 Nos.

THE SUNBEAM.

The Sunbeam continues to smile on its host of young admirers. It is a weekly illustrated paper, with easy reading, in short words and big type, adapted to the very little ones of the home and school. It also carries help on the International Lessons for the primary classes and the little ones at home. Single subscription, 30 cents; school subscriptions at the rate of \$25 per hundred, a year.

When we add that, in all cases, postage is paid by the Board, and that any of these papers may be taken for nine, or six, or three months, as well as by the year, it will be admitted that the Board has made good provision for the wants of the churches and their schools.

THE PRESBYTERIAN MONTHLY RECORD.

This organ of the Assembly's Boards and Committees continues to be published, in octavo pamphlet form, by the Board of Publication, but only as the publisher for the Assembly's Boards and Committees, the control of its pages resting entirely with the several organizations represented. The monthly circulation of the magazine has been between nine and ten thousand, including the copies sent gratuitously to each of the ministers of the Church. The loss incurred by its publication and distribution is shared by the Assembly's Boards in the ratio of the space occupied by each.

NEEDED ASSISTANCE.

The last General Assembly, after speaking with approval of the labors of the Board and of the fidelity of its members, said: In the review of their counsels and plans we find much to commend and nothing to condemn. It is obvious, however, that the increase which calls forth our gratitude to God has brought with it large increase of labor for the editor of our periodicals, and as this labor is becoming heavy for him to bear alone, your committee recommend that the Board be instructed to provide a suitable assistant to share with him the duties he has so well discharged, and the responsibilities he has faithfully met.

In accordance with these instructions, and after diligent inquiry for the man best fitted to fill this important position, the Board made choice of the Rev. J. R. Miller, pastor of the Broadway Presbyterian Church of Rock Island, Ill., and appointed him Assistant to the Editorial Secretary. This position was accepted by Mr. Miller, who entered upon its duties in July last. The Board and the public unite in the judgment that Mr. Miller possesses uncommon adaptation to the work in which he is engaged, and that his labors add largely to the value and usefulness of the publications of the Board, especially in its Periodical department.

II. DISTRIBUTION.

1. THE BOOKSTORE OF THE BOARD.

The publications of the Board now number over 2500, of which about 1500 are volumes; the remainder are tracts and pamphlets. They contain a wide and valuable variety of works on the doctrine and polity of the Church, on religious experience and Christian duty, on church history, missions, and every other religious topic. They are adapted to help the unconverted soul, the Christian believer, and the minister of the gospel. They are suitable for the Sabbath-school or the church library, or for family use. In addition to its own publications, the Board offers in its bookstore a large variety of the issues of other publishing houses. And an order for any book, if not in the store, will be filled, if possible, by procuring it from other sources for the customer.

Sabbath-school libraries may here be selected with every assurance that nothing objectionable will be included in them.

Should any book be purchased which, on closer examination, is found objectionable, it may be returned with a written statement of the objections, and either its price or another volume of the same price will be sent to the purchaser.

Sabbath-school workers may find in the bookstore a great variety of maps, charts, blackboards, minutes, records, class-books, librarian's books, and all other facilities needed for the proper and convenient working of a Sabbath-school.

An excellent assortment of Bibles and Testaments, commentaries and theological books, may always be found here, and if any particular kind is not on hand, it will be promptly procured from the publisher or elsewhere, and furnished at the lowest practicable price.

We sometimes hear the assertion, even from Presbyterians, that the Board's books are not sold as cheap as those of other publishing houses. Careful comparisons made between its prices and those of many other houses have satisfied the Board that on a fair comparison its books are sold as low as those of most publishing houses, and cheaper than those of many of them. Within the last two or three years the prices of a large proportion of the books on its catalogue have been greatly reduced. The entire list of 18mo and 32mo publications, covering about 450 volumes, has been reduced in price fully 30 per cent., no book of this class now costing more than 60 cents, retail price; or to Sabbath-schools, 45 cents. Many of these publications have as much reading matter in them as the ordinary \$1 and \$1 25 volumes, and if made in the other size would readily sell at those prices.

The Board has been steadily extending and making more liberal its arrangements with booksellers in the larger cities, by which they are to keep on hand and actively engage in the sale of the Board's publications, thus bringing them into easier reach in every portion of the Church. We hope soon to see the effect of these arrangements in an increase of sales.

But the Board also feels that it has the right to appeal not only to the Christian zeal but to the denominational sympathies of every minister and church member throughout the Presbyterian Church for aid in promoting the circulation of its publications in their several vicinities. They would thus be effectively disseminating the pure and blessed truth of the gospel, and doing good to the souls of men. Why should not every true Presbyterian feel that he is a joint owner in our publishing house, and that it is both a duty and a pleasure to do all in his power, as such, towards increasing the sale and circulation of its publications? We will quote upon this point from a report some years ago unanimously adopted by the General Assembly:

We desire to see a greater degree of working interest secured among the ministers and members of the Church generally, to promote the circulation of the Board's volumes. There is an indisposition among our ministers to promote actively the sales of books, which cannot be justified, since the press should be auxiliary to the pulpit. Every good book placed in one of the families of a congregation is a quiet, untiring worker in the same direction with the labors of a faithful pastor. Sometimes this pastoral co-operation with the Board—and many a private member should afford the same—should take the form of a commendatory notice, in the public prints, of some valuable volume: interest would thus be added to the columns of our papers, and the impulse given to the sale of the Board's publications would be but one of many advantages secured. Personal recommendation of the Board's volumes, pains taken to procure any book for those who may wish it, and diligent efforts to scatter them through his congregation and Presbytery, should be thought useful labors on the part of any pastor.

If such a generous co-operation were generally extended to the Board's efforts, on the part of the ministers and members of our churches, what an immense increase of circulation and usefulness might soon be effected! What wide popularity and power for good would soon accompany many a volume which now, although full of interesting and saving truth, exerts comparatively a narrow and feeble influence!

2. MISSIONARY WORK.

The demands for missionary work, both in the employment of book, tract, and Sabbath-school missionaries and in making grants of books, tracts, and Sabbath-school papers, have never been larger or more earnest than during the past year. But the Board began the year with a considerable balance against its Missionary Fund, and the incoming contributions have not enabled it to expand this most valuable and important part of its work as it would otherwise have been glad to do. Notwithstanding all the appeals and facts presented to them, a large part of our churches have given nothing; many others have given very small amounts; while some pastors, who profess an interest in the work, encourage their people to think that only four or five per cent. of their contributions is a fair proportion to be given to the Missionary Fund. It is no wonder, therefore. that the means for carrying on this work are meagre and wholly disproportioned to its magnitude and vital importance. The Board has tried to do the very best it could with the contributions placed at its disposal, and to make them go as far as possible. In many cases one missionary has of necessity extended his labors over two, or even three, contiguous Presbyteries. Applicants for grants of the Board's publications have been incited to raise all they could in the way of self-help before the Board would extend any aid. But, after all, there is so vast a work to be done, and there have been means so limited wherewith to do it, that very much has been left undone. Would the churches place in our hands the necessary means, this work might most usefully be enlarged five-fold within the coming year.

The whole number of missionaries in the field for the whole or portions of the past year has been 53, who have labored in 33 Synods and 72 Presbyteries, one being in Canada. These have distributed within the year by sale 71,396 volumes, while 25,057 volumes and 4,652,774 pages of tracts have been gratuitously distributed by them and by the Missionary Committee acting through large numbers of unpaid and voluntary distributors. The commissioned missionaries have also visited 72,106 families, with much the larger part of which they held religious conversations and prayer, accompanied in many places with the reading of the Holy Scriptures. They have also held large numbers of neighborhood prayer-meetings and other religious services as they had opportunity.

OUR MISSIONARIES AND SABBATH-SCHOOLS.

That part of the work of our missionaries which consists in visiting and aiding Sabbath-schools and in gathering and organizing new Sabbath-schools in neglected and destitute localities grows every year in interest and value. Their instructions require them to do all they can in this way on their several fields, giving encouragement and help where they find it to be needed, and supplying, so far as they are able, such as are poor and feeble with the library books, catechisms, lessons, and papers furnished by the Board.

They have reported 1466 schools visited and encouraged during the last year, and 88 new schools organized in destitute localities. Between two and three thousand children have thus been brought to engage in the study of Bible truth and have begun to feel the benign influence of the Lord's day and of the Sabbath-school. And this is only one branch of the missionary's work.

The Sabbath-school part of the Board's missionary work was begun about six years ago. Since that time its book, tract and Sabbath-school missionaries have visited and aided 9671 Sabbath-schools, and have organized 562 new schools in places before entirely destitute. Through their efforts between eighteen and twenty thousand children, before uncared for, have begun to receive instruction in the word of God and guidance in the way to eternal life.

GRANTS OF THE YEAR.

During the year the Board has, to the extent of the means placed at its command for this use, continued to make grants of its publications to every part of the Church, some of them going even to foreign lands—as to China, Japan, Liberia, Brazil, and Mexico. These grants have been of books, tracts, catechisms, and Sabbath-school papers. They have been made to Sabbath-schools, to pastors, to missionaries, and to other Christian workers needing such assistance in their various fields.

It is impossible to present to our Sabbath-schools any cause which appeals more appropriately to them than this missionary

work of our Board of Publication. If the children of our Sabbath-schools will not help the Board to establish other Sabbath-schools for neglected and untaught children, who can be expected to do it? If they, abundantly supplied themselves with libraries, papers, and all other needed facilities for Sabbath instruction, will not help to furnish the same to other children who are poor and needy, the case of the latter seems wellnigh desperate. And yet, although our Presbyterian Sabbath-schools annually raise in the aggregate a very large amount of money, only here and there a school sends an offering to help the Board.

THE SABBATH-SCHOOL WORK.

By the action of the last General Assembly the Rev. James A. Worden was appointed Secretary of Sabbath-school Work. In this position he has, during the past year, devoted himself to the duties assigned him with fidelity and energy. He has secured an enlarged co-operation in his efforts from pastors, superintendents, and Presbyteries, and has put in operation a train of influences tending to elevate and improve the teaching in the Sabbath-schools, and to promote system, thoroughness, and liberality in the exercise of their functions.

Mr. Worden presents the following report of his labors and plans:

I. The Secretary of Sabbath-school Work of the Board of Publication has aimed more closely to identify the Sabbath-school with the Church. The persons composing the school and the Church should be the same. So should they be the same in government, doctrine, effort, and spirit. To make this identity practical and real, he has labored with the co-operation of the entire Church in all his public addresses, as well as in all instruction given to workers through our books, lesson-helps, and periodicals. To-day, as never before, it is universally acknowledged that the Sabbath-school is not an institution separate from the Church, much less in rivalry with the Church, but a department of Church work; in fact, the Church itself, assembled to teach and to learn the word of God. In three-fourths of our churches the sessions are taking careful oversight and authoritative charge of their Sabbath-school work. In perhaps three-fourths of our Presbyteries and Synods, by means of the labors of committees and of special meetings, Presbyterian Sabbath-school work is being carefully super-

vised by Presbyterian authority. Generally our admirable form of sound words—the Shorter Catechism—is taught in our schools, and our workers are not unfaithful in drilling our youth in Presbyterian doctrine.

II. He has aimed practically to elevate the standard of Bible teaching. The Secretary has gone forward upon the principle that the workers ought to be apt to teach, and should study to approve themselves unto God workmen that need not be ashamed, rightly dividing the word of truth.

To do God's work we must prepare ourselves, so giving him our best. He has recognized that one of our needs is better teachers. He has persistently endeavored to point out and reach toward methods for the supply of this need. This is why he has urged, in consonance with the General Assembly (see Minutes of 1880, p. 27), synodical and presbyterial conventions and institutes. Such meetings in the interests of improved teaching and management of our Sabbath-schools have been held in connection with a large majority of our Synods and Presbyteries. Circulars and personal letters in behalf of such presbyterial Sabbathschool meetings have been sent out to all our Presbyteries. It is hoped that this work of training teachers will, within a few years, become thoroughly systematized. For this purpose, with the approval of the General Assembly of 1879, another volume of "Westminster Normal Outlines," a text-book for teacher-training, has been prepared and issued by the Board. Normal classes are becoming encouragingly common, and although educational progress is, in the nature of things, a slow one, vet signs are not wanting of a more thorough preparation for their work on the part of multitudes of our Sabbath-school teachers.

The Normal Class at Baltimore deserves special mention. It was held alternately in two of the largest churches in the city, and these edifices were filled with studions, earnest men and women, not only listening, but answering and asking questions. The whole body of our pastors and churches in Baltimore heartily co-operated with the efficient Sabbath-School Committee in making this class both an educational and spiritual blessing. A similar class, with like success, has been sustained in Wilmington, Del., and others in many other places. As his varied duties would permit, the Secretary has, on invitation, held institutes in the Synods of Columbus at Delaware, and of Cincinnati at Chillicothe, Ohio; also at Syracuse, N. Y.; at Harrisburg, East Liberty (Pittsburgh), and Easton, Pa.; at Salisbury, Md.; West Philadelphia, Pa.; Cranford, Bridgeton, Woodbridge, Hammonton, Rahway, N. J., etc., etc.

With the advice of pastors in the several neighborhoods, in arranging the programmes, speakers, and exercises, he has conducted—

- 1. The Cumberland Valley Sabbath-school Assembly.
- 2. The Round Lake Sabbath-school Assembly.
- 3. He attended and labored at the Chautauqua Sabbath-school Assembly.

4. He performed similar service at the Island Park Assembly.

Under the auspices and at the request of the Synod of New Jersey, made through its Sabbath-school Committee, a Presbyterian Sabbath-school assembly is already arranged to meet at Asbury Park, N. J., Aug. 2–12, 1881. It is hoped that this assembly, by God's blessing, may gather in conference Presbyterian Sabbath-school workers from all parts of the land. A cordial invitation has been extended to all, and an attractive programme is offered.

III. It has also been his aim to secure thorough reports from all our Sabbath-schools. By the efficient assistance of Sabbath-school committees of Presbyteries, two thousand two hundred statistical reports were received, and three thousand two hundred names and post-office addresses of superintendents obtained. He has still further systematized this work, and is making efforts to secure still more complete statistics for the year now beginning.

IV. He has aimed to prevent the Sabbath-school from becoming a substitute for parental training. In almost every address at every convention, institute, and normal class he has given prominence to the superiority and prior claim of the Christian home as a school of Christ and of his word. He has endeavored to make the Sabbath-school a stimulus and an aid to parental instruction by placing our Westminster series of Bible and Catechism lessons in every home of our Church. Thus will home training be provided with an admirable system, and if parents will use it, their children will be taught the Sabbath-school lessons by their fathers and mothers, and the Sabbath-school exercise will become a recitation and review by the Sabbath-school teacher of what the scholar has learned of the Bible and the Catechism at home.

V. So also has he aimed to prevent the Sabbath-school from becoming a substitute to its scholars for the church services. All his efforts have it steadily in view to bring into the worship of the sanctuary every scholar in our schools. Every school is requested to report the precise number of its pupils who attend the preaching services. Every convention has urged this duty. Many pastors are aiming at giving each Sabbath a "children's portion" in the public worship. The "Sermon Text-Book" for Sabbath-school scholars is now issued by our Board, intended to be used each Sabbath by each child. This and other like expedients have proved helpful. It is believed that there has been, in multitudes of our churches, an increased attendance of children and youth at the preaching services.

VI. He has aimed to bring all our schools to the position that Presbyterian mission work is best performed by Presbyterian agencies, and that such agencies, in preference to others, should be supported by the money of Presbyterian Sabbath-schools. He has therefore endeavored to turn the contributions of all our Sabbath-schools into the treasuries of our General Assembly's Boards, and especially into the Sabbath-school missionary fund of our own Board. He ventures to affirm that in no department of all our church work are there more flagrant abuses than in the methods of giving in vogue in our Sabbath-schools. Nowhere is there greater need of thorough reform. In accord with the Rev. Dr. Ellinwood, Secretary of our Foreign Board, the Secretary of Sabbath-school Work estimates that the benevolent contributions of our 5400 Sabbath-schools amount to \$250,000 per annum. The published reports prove that less than \$50,000 of this money is given to all the Boards of the Presbyterian Church. Not one-fifth of Presbyterian Sabbath-school money goes to recognized Presbyterian work through Presbyterian channels! Before the Synods of Geneva, Erie, Michigan, Columbus, Toledo, Cincinnati, and Indiana North he has appealed by personal address, and to all our schools by circular he has presented this most important subject.

In all our aggressive work we must be true to denominational self-respect, or the work will pass from our hands into those of churches which, without false liberality, stand by and support their own agencies and convictions. The following is from the report of the Church Extension Committee of the Presbytery of New York, and defines our true position with point and power. It is signed by the Revs. Marvin R. Vincent, D.D., chairman, Robert Russell Booth, D.D., Llewellyn D. Bevan, D.D., William M. Paxton, D.D., John Hall, D.D., Nathaniel W. Conkling, D.D., Erskine N. White, D.D., Thomas S. Hastings, D.D., James D. Wilson, D.D., Stealy D. Rossiter, Edward L. Clark, Charles H. Parkhurst, D.D.; and Ruling Elders George W. Lane, Jacob D. Vermilye, Walter Edwards, Theron G. Strong, John Taylor Johnston. They say:

"We want the Church at our back in our efforts to exercise a wise foresight in the timely securing of ground up town, and planting the germs of churches and Sabbath-schools to meet and gather in our share of the up-coming population. It may be said 'This is pleading for denominational work.' It is, and why not? Whatever our ideals of Christian unity, denominationalism is a fact, and a deeply-rooted fact. Practically, for all purposes of work and worship, the Church exists in its denominations. Our sister churches accept the fact and act upon it by vigorously pressing their denominational interests. No man of sense expects that the regenerated world will be all Episcopalian, Baptist, or Presbyterian, but these are matured modes of organization, and apart from all the deeper considerations which may determine our denominational preferences, are entitled to the respect and co-operation of those who have voluntarily identified themselves with them.

"On the side of friendship we may ignore our sectarian differences; on the side of organization and aggression we shall do more for the

great cause by keeping in line. No campaign was ever won by the various regiments bowing and shaking hands. Churches which are to be worth anything must have a definite shape. They must have backbone; they must have a constituency, an ecclesiastical relation with its mutual helps and responsibilities. There are those who seem to think that to break out from ecclesiastical order is to promote Christian unity.

"Results do not justify this theory. The alternative of denominationalism is not Christian unity, but individualism—an individualism the fruits of which generally die with it.

"We Presbyterians, who have in certain quarters the reputation of excessive narrowness and bigotry, as a fact take better care of everything else than ourselves.

"It is to the glory of this great Church's great heart that her hand and her wealth are in almost every form of Christian work in this city; but it is not to her wisdom that she has let her own distinctive interests suffer."

These words are worthy of the earnest consideration of the General Assembly, and of every minister and member of our Church. The same principles hold good in our Sabbath-school mission work. If the missionary department of the Board of Publication could receive \$50,000 of the \$200,000 now given by our Sabbath-schools to outside agencies, tenfold more work would be performed for Presbyterian Sabbath-school missions than is now done by that money.

VII. Finally, he has aimed to subordinate all machinery, methods, and expedients to the spiritual life and work of our Sabbath-schools. The Sabbath-school work is as truly religious work as is that of the pulpit or prayer-meeting. While the Sabbath-school teacher need not possess as high educational and intellectual qualifications as the ordained minister, he needs precisely as high a moral and religious character. His work is dependent on the supernatural presence and power of the Holy Spirit. His work is instrumentally to convert and sanctify souls by the teaching of the word.

We have endeavored to insist prominently that this can be done "not by might, nor by power," but by the Spirit of the Lord of Hosts.

These have been the principles and aims which have guided the work of this department this year. The Sccretary has pleaded for more thorough church control, for more thorough Presbyterian indoctrination in all our Sabbath-schools. He has stood for greater loyalty to our convictions as to church polity and church work. He has wrought as best he could for a higher quality of teachers and of teaching,—in a word, he has tried to elevate, develop, and systematize our Sabbath-school work, so that it may bring forth more fruit for Christ and for his Church.

FROM THE NORTHWEST.

Dr. C. O. Waters is the Board's District Superintendent for the Northwest, with headquarters at 69 Dearborn Street, Chicago. He has under his supervision the Board's missionary work in the Synods of Illinois Central, Illinois North, Wisconsin, Minnesota, Iowa North, Iowa South, and Nebraska. Of the work and wants of his field he writes as follows:

The seren missionaries commissioned for this field during the past year have, so far as is known, proved to be efficient and satisfactory laborers in the Master's vineyard. They have circulated 4255 volumes and 195,000 pages of tracts; have visited 11,974 families; have had religious conversation or prayers with more than three-fourths of those families; have organized 11 Sabbath-schools, and have addressed 135 religious meetings. Additionally I would say that, from the headquarters of this Superintendency, more than 14,000 volumes have been circulated, and more than 550,000 pages of tracts have been furnished to ministers and other uncommissioned persons for gratuitous distribution. To an unusually large extent the books and tracts circulated by our missionaries on this field, and directly or indirectly by the writer, have gone into the hands of careless and impenitent persons, and to the poor, whom the Saviour left to the tender and watchful care of his visible Church.

The work of the year, limited as it has necessarily been, has not been without manifest tokens of the Master's approval and blessing. A prominent pastor in northern Wisconsin wrote as follows of the labors of one of our missionaries within the bounds of his congregations: "We very much enjoyed the visit of Brother ——, the indefatigable missionary of our Board of Publication. He visited almost every family on my field, both in town and at my two out-stations, and his name is frequently on the lips of my people. The simple and yet earnest and pungent way in which he presented the blessed truths of redemption could not and did not fail to touch the hearts of the people. Many became deeply interested in religious matters, and were led by him, I believe, to the Saviour. The reports of his work in B--- Co. are equally encouraging, and I expect quite an ingathering from the points where he did the most work, as soon as I can get to them. There are few men so cordially welcomed by all classes of our people, and who can say so much for Christ in the few minutes available as he passes from house to house." The Board would doubtless rejoice in placing just such a missionary in every Presbytery on this and other fields if sufficiently liberal contributions were made by the churches to its missionary fund.

The first church of white and English-speaking members in Dakota territory was organized a few years ago, as the direct result of the

labors and explorations of a missionary of the Board of Publication. If it did not discover that Territory, it certainly was the first to invade it and to try to possess it for Christ and the Presbyterian Church. It should have credit for that. All the more readily, therefore, and in compliance with the earnest request of two or three of its ministers at the last Assembly, the Board, last summer, commissioned a missionary for Red River Presbytery. He labored in the valleys of the Red River and its tributaries from Pembina southward. He worked assiduously in that Presbytery for three months, in which time he travelled over sixteen hundred miles, carrying his "daily bread" in a box, traversing swamps, fording rivers, and sleeping where night overtook him. In addition to faithful visitation from house to house, in each of which he frequently left all the religious reading the family had, he organized three Sabbathschools in four days on fields which no missionary had visited. It is helieved that he prepared the way for the organization of one or two churches on destitute fields. Certainly, many Presbyterians, destitute of church and gospel privileges, and almost disheartened, were found and encouraged to hold on and wait till a minister could be sent to them. Our Church needed this work in that section; it was worth doing; it was done, and well done. The fruits of it will appear in God's own

Space permitting, I could extend this kind of encouraging talk by speaking of the faithful and efficient labors of other missionaries. But from two learn four or five more. Earnestly asking if such a work is not worthy of a more general and liberal support by our churches, I close with two or three remarks upon the general subject.

1. This missionary work of the Board is certainly a very cheap and efficient method of preaching the gospel to the destitute. Take an illustration selected at random from the recorded statistics of the last year's missionaries upon this field. One of them labors 82 days in what is called "a missionary" Presbytery. He circulates 207 bound volumes; distributes 27,200 pages of tracts; visits 1346 families, and leaves religious reading in each. At an average of only four persons to a family, in 82 days he directly or indirectly preaches the gospel to five thousand three hundred and eighty-four persons-different persons, mind you. The cost of this work of 82 days, in salary, expenses, freight, donations, and discounts, was less than two hundred dollars. Did any one of the ministers in that Presbytcry—and they are all faithful and self-denying men-preach, in the same time and at the same cost, to half as many different persons? If any one has a better plan than the missionary work of the Board of Publication for preaching the gospel to the destitute, and for the organization of Sabbath-schools among them, he has not made it public.

2. The missionary work of the Board of Publication secures the pur-

chase and reading of thousands of our books, and tens of thousands of our tracts, by taking them to the homes of destitute people, who would otherwise neither see nor read them. It is to the work of publication what the windlass and bucket are to the well; it brings the precious water of life within the reach of thousands who, otherwise, would never taste it and live. Certainly, this has been true of this field. But, of course, in this work much depends upon the efficiency of the Presbyterial Committees which supervise the work within their bounds.

3. The great increase in the use of our Sabbath-school periodicals upon this field, during the past year, is very gratifying. Presbyterians in this section are beginning to think that cheap papers for their Sabbath-schools are worse than cheap school-teachers, or cheap and adulterated food, for their children.

FROM THE OHIO AND MISSISSIPPI VALLEYS.

This district is under the supervision of the Rev. Edward Cooper, D.D. His headquarters are at Cincinnati. His field embraces the Synods of Columbus, Cincinnati, Indiana South, Kentucky and Tennessee, and extends over the wide region from the centre of Ohio and Indiana to the Gulf of Mexico. How good a work has been done the past year upon this field will be seen from the following report of Dr. Cooper:

In each of the Synods comprising this district, "detailed reports of the work done within its bounds," by the Missionary and Sabbath-school departments of the Board of Publication, were made at their meetings last fall, which after careful consideration were unanimously approved. A higher appreciation of its missionary work among the destitute was manifested, and a more thorough distribution of its literature urged upon the congregations represented in those bodies, especially in sections of the country remote from the centres of trade.

The first requisite for an army is the commissary department, with necessary supplies for its officers and men. A similar provision was made by the General Assembly in establishing its Board of Publication, to supply a recognized necessity of the Church. The analogy suggests its importance and claims to adequate support. Its issues are adapted to every stage of life from childhood to maturity, furnishing the family, the Sabbath-school and the Church with a standard Christian literature that instructs, admonishes and encourages all who read, to purity of life and consecration to the service of Christ. Surely the officers and members of the Church, like the rank and file of an army, should look carefully for the quantity and quality of these supplies for the march and the great conflict with the enemies of their Lord and King.

The number of grants by the superintendent the past year, though much restricted by the condition of the Missionary Fund, were 54, consisting of 776 bound volumes and 136,100 pages of tracts. The missionaries have personally given 506 volumes and 92,286 pages of tracts, making a total of 1382 volumes and 234,386 pages of tracts, all of which must exert an influence against the tide of error and immorality.

In all portions of this district remote from the centres of trade and the great lines of travel, the destitution of sound and evangelical religious instruction becomes more apparent by the efforts to reach the people and teach them the way of life. The colport ur missionary, as he goes from house to house, repeating the invitations of the gospel, realizes that his work enlarges by the discharge of duty. The desire for books and tracts by those eager to read, and without means to buy them, is much greater than his ability to supply, and he often feels depressed in view of the neglect to furnish the Board with the means to meet this demand, often made with the tearful entreaty of the entire family. He must give them something, and the smallest tract is received with thankful avidity. This scriptural method of preparing the soil and sowing the seed is done in the privacy of the domestic circle and the individual heart, and therefore less observed than the organized efforts of the larger missionary enterprises, and consequently efficiency and results do not secure a proportionate share of the contributions of Christians.

Multitudes, inaccessible by other agencies, are reached by the humble and self-denying men who endure the hardships of the summer's heat and winter's cold, and are led to Christian penitence and faith. The work is searcely less important among the congregations supplied with the ministry and Sabbath-school instruction, in reaching the apostasy that weakens and disturbs the Church in every community. A missionary, laboring in two large Presbyteries, reports 203 backsliders restored by his visits to their neglected churches the past year. His efforts in this direction, in the six years of his service, reach nearly 1000 persons brought back to the evangelical churches in his fields of labor. The personal interview, the prayer and the well-chosen tract are means of overcoming the reticence that would conceal the spiritual declension. They open the heart and awaken desire for a more fruitful and joyous Christian life. This canvassing for Christ is of more than priceless value to every church, and if understood would not be neglected, until every family in the bounds of the congregation were supplied with needed Christian literature. The demoralizing issues of the press will find access where the religious and health-giving are not supplied, and thus thousands are ruined by the indifference of Christians.

The missionaries are cordially received, especially among the families previously visited and furnished with books and tracts. In the prayer-

meeting and the Sabbath-school they have improved opportunities for creating new interest in Christian work. In one instance a church practically disbanded for several years and its house of worship used by a Thespian club was rallied by the missionary, who spent six weeks in the neighborhood going from house to house to plead for a return to the sanctuary. Old schisms are unmentioned, the Sabbath-school is supplied with Presbyterian helps, and the ministry of the word and ordinances attest the blessing of God upon his labors. Surely it pays to keep this work in vigorous activity, even where the destitution is not so apparent as in the isolated sections of the country.

A missionary, in his trip over the Cumberland range of mountains across the Tennessee line into North Carolina, found books in use that he had left with families some years ago, still fulfilling their mission. The whole region is a field of sin, with but few Christian people, and without schools. The preaching places are many miles apart, and are used but three or four times a year. Only four persons were found in a meeting of seventy who were not profane, yet all received him kindly, and desired "something for the children to read to them." This destitution finds no parallel in the most lawless frontier settlements, and has claims equal to those of heathen lands.

The blessing of God continues upon the work began four years ago in Rock-Castle, Clay, and Knox counties, in Kentucky. The Sabbathschools are in part supplying themselves with the periodicals of the Board, and make a second use of them for aggressive work in aiding other newly-organized schools. To one of the churches, grown out of this pioncer mission work, an addition of eighteen persons was made this spring. In the eastern portion of the Kentucky mountains a missionary has spent five months of successful labor, which he regards as the most fruitful and interesting of his ministry. The people are poor in everything but in the products of the soil. They are kind and hospitable and anxious to improve their condition. He writes, "There is not a Presbyterian church in the twenty counties," to which he was directed by the Presbytery of Ebenezer. "I have travelled over three of these counties, visited four hundred families, preached ninety times, attended meetings for prayer, and given books and tracts in all the neighborhoods through which I passed. The people are glad to welcome any one who comes with a desire to do them good. There is a great want of personal piety among those who profess to be Christians. Scarcely any have family worship, and there is no religious reading except the Bible. Most of the preachers are illiterate men, capable of giving but little instruction, and without spiritual influence. Meetings were held in private dwellings, because the school-houses in which they are generally held were too open for occupancy this winter. The want of means and the inability to teach prevent the organization of Sabbathschools, and hence whatever is done to improve the condition of the people in this region must be done for them. Twenty intelligent men, with good supplies of books and tracts, could be well employed in this field. I have seen Christians revived and brought to clearer views of Christ and the requirements of his gospel; and frequently have I grasped the hands of those who gave evidence of sorrow for sin and hopes of pardon. In one family four children gave their hearts to the Saviour, and there was weeping in many households as I took my departure by commending them to God and the word of his grace. This ground, now so ripe for the harvest, should not be forsaken."

With such statements of facts in regard to these moral waste places, and the pressing necessity for seeking and supplying this destitution, there should be a quick response to the call for help.

FROM THE WEST AND SOUTHWEST.

The Rev. J. W. Allen, D.D., in September last succeeded the Rev. Robert Irwin, D.D., who had resigned as Superintendent of the Board's missionary work in the Synods of Illinois South, Missouri, Kansas and Colorado,—a vast region extending from Indiana to the Rocky Mountains, and from Nebraska to the Gulf of Mexico. His office is at Locust and Sixth Streets, St. Louis. He writes:

It is but seven months since I was called to the superintendency of this department, but the time has been long enough to show something of the magnitude of the work. It was my misfortune to enter it at a time of great contraction in the number of missionaries, and of limited powers for helping the needy in the way of donations because of our empty Missionary Fund. It has been my privilege to see much of the territory of the West and Southwest during the past eight or ten years, and to know something of the demands of the field by personal observation. The necessities of Texas alone are appalling, when we consider how inadequate are the means at our command for supplying its wants. Our Church is only beginning its work in that Empire State, which has a territory nearly five times as large as the great State of Missouri. Population is flowing into it so rapidly that large towns are built almost in a day. Great as has been the growth of population and the development of resources in the past, the indications are every way favorable for a more rapid increase in the future. Nearly one thousand miles of railroad have been completed within the past year, and about two thousand miles are under contract to be completed in the near future. This will of necessity attract immigration, open up a rich and undeveloped

agricultural region, and build towns by the score, which will be centres of population. Those who have not been upon the ground cannot appreciate the situation, but think the brethren are extravagant in their calls for help. It is sad to think that in all that Synod we have but one man to disseminate the literature of our Board, and to supply the scattered families of our Church with sound reading matter, especially when so many of them are deprived of the regular ordinances of the gospel, a work so helpful to the home missionary, one which serves as an anchorage for the family, and is so admirably adapted to prepare the way for the organization of churches. To say that our working force should be quadrupled in that Synod falls far below the proper estimate.

The Synod of Kansas is one of the most hopeful fields on the continent, and vet lack of means has sadly limited our work in that rapidlydeveloping region. The Indian Territory, which is included in this Synod, is a peculiar field, and needs men adapted to its necessities. Many, nay most, of these Indians are far removed from the condition of wild savages, such as we usually have in mind when the dusky children of the forest and the plain are mentioned. Many of them have been trained under Presbyterian influence, and have great confidence in the Church which told them of a Saviour in the homes whence they came. Large numbers of them can read the publications of our Board, and greatly prize them. The eagerness with which they gather around the missionary and listen to his story, and purchase his books to the extent of their limited means, shows that they have a claim upon our attentions. From exhibitions which I have seen among them, especially the young, I am fully persuaded that they are not void of affection for, and interest in, their teachers. This to my mind is a hopeful feature of their character. Many of the people are giving up their superstitions, and are rejoicing in the light which our missionaries bring them. While ministers can only here and there successfully organize churches among these scattered people, the faithful itinerant of our Board can visit their homes (such as they are), and talk and pray, and leave the printed page for them to read or have read to them when he is gone.

But as we go westward the darkness and destitution increase. A brief visit in New Mexico last summer confirmed much of what I had heard of the deep moral degradation of the people in that country, which has as much the appearance of a foreign land as the reality itself, and most of the people are as benighted as many of those to whom we send the gospel across the sea. Although nominally Christians, and under the tutelage of the Church of Rome for centuries past, they are as veritably heathen, and are as deeply imbedded in their superstition, as though they had never heard of a Saviour. In many localities they are beginning to awaken to a sense of their degradation, and welcome the living,

loving missionary, whose warm sympathies and earnest work are bringing to them the light for which they have been longing.

I cannot now speak of the readiness with which they receive the printed page. The entrance of new railroads and the consequent influx of population are increasing the anxiety of the people for light, not only among those who have been blinded by generations of popery and heathenism, but among the deluded Mormons of Utah, especially among the young, who so gladly receive our periodicals and carry them home, and thus awaken an interest in the minds of their parents, who feel and sometimes express the thought that those who bring such wise and elevating teaching cannot mean any harm. Surely we should send all the help in our power to those self-denying toilers who already begin to sing—

"The morning light is breaking."

I have said but little of the growing importance of pressing the claims of our literature upon the attention of people in the older portion of the territory embraced in this department. Our ministers are feeling more and more the importance of it. The secular press is wellnigh ubiquitous, and is very frequently pouring into the minds of the young those theories which are unsettling their religious opinions. This must awaken more zeal on the part of the Church. The only way to guard against their pernicious influence is to supply the families with something better.

FROM THE LAKE REGION.

This district, comprising the Synods of Erie, Cleveland, Toledo, Indiana North and Michigan, is under the superintendence of the Rev. John A. Seymour, whose headquarters are at Cleveland, Ohio. He writes:

An exceedingly laborious year draws to its close. As the Board could employ but few missionaries, there was left a vast field for me to reach as best I could, for the Board has an unspeakably important work to do where Christians are to be edified and souls saved. I tried to employ such means as could be found on the field. Tracts were given to pastors, Sabbath-school superintendents and teachers, and Christian workers. Experience has shown that this needs to be done with great prudence. Every reading, thinking man values printed truth. All are willing to receive a gift. But many would lay a package of the choicest tracts ever printed on a lower shelf to lie there until, dusty and dingy, they are thrown into the waste-basket. It would be easy to waste thousands of dollars in this way. Some will take a package and give all away on a single occasion by putting a handful into the care of any one who would promise to make some use of the gift. What costs nothing and

seems abundant is not likely to be either prized or much used. Others will call around them their workers, and tell them of the opportunities they can find or create to do good, and what aid printed truth may be to them. Thus a wise pastor warms up the hearts of his chosen ones, and fills their hands and sends them forth to scatter the truth and gather souls. A good beginning; but this is often all. The effort dies at its birth. Here and there one starts well and runs with patience and wins living results. It is a joy to encourage and aid such as these. It is a good mission to seek out, counsel and aid Christian workers.

But what about books? That has been a matter of study and experience. Where the Board had not the funds to support first-class missionaries, I have attempted to find gratuitous workers to distribute the choicest books of the Board—by sale (to save the Missionary Fund) when possible, or by donation to the poor and hungry. It seemed in theory very easy to find one or more persons suitable and responsible in every parish to put interesting, instructive books, which God has often blessed to the readers, into the hands of friends and neighbors; but, practically, it has been almost a failure.

Then I adopted another plan, viz., to secure the services or co-operation of the pastors of our smaller churches by offering to supply them with such books as they preferred, allow them a discount on their sales, with permission to return all unsold, if not injured. Many were pleased with the offer, but, on further reflection, declined. A few tried the experiment, and found that the people were annoyed to have their pastor turn book-peddler and bring a pressure upon them to buy. Then they would say, "Of course you are not going to speculate out of your own people, and, besides that, the books belong to our Presbyterian Board of Publication, and now you must let us have these books at half price." If he refused, he alienated a parishioner; if he consented, it was a loss at the expense of the Missionary Fund. The result has been in almost every case a speedy return of the books. The account and the condition of the stock returned were such as to cause grievous disappointment.

The same experiment, in a modified form, has been tried by various publishing societies and abandoned, thus furnishing an example our Board cannot afford to imitate. The fact is, what is gratuitous is not generally well done. Yet there is a Christian worker here and there who can afford and is willing to work for the good of others with little or no compensation. It is my joy to find such and send out a blessing through them to many who need and will read the truth when recommended to them by the life and words of a good man. My conclusion is that to carry forward the missionary work of the Board most effectively and most usefully it must have well-qualified men in its own employ, under its own direction, and devoting their whole time and their steady efforts

to this work. The largest results will thus be accomplished, and in the most economical manner.

It would be my delight to add many pages of facts and incidents gathered from the correspondence of the noble men who are visiting the homes of the people who seldom or never hear a sermon; but want of time and limited space forbid.

FROM THE NORTHEAST.

The Rev. James A. Skinner has the superintendence of the Board's work in the Synods of Albany, Central New York, Geneva, Western New York and New York. His headquarters are at Syracuse, N. Y. He writes:

The good accomplished is so beneficent in operation, so wide-reaching in influence, so lasting in results, that he may count himself blessed of God who is called by him to sow the seed or garner the sheaves in the Missionary and Sabbath-school departments of the Board of Publication.

While, almost without exception, the pastors of our churches are interested in the work of the Board, many officers of the Church and Sabbath-school have yet to learn how well adapted for our own Presbyterian people are the helps for the scholars and families prepared by the Board of Publication. It is therefore a matter for rejoicing when those in some way prejudiced in favor of other organizations say, frankly, "We never understood the work of the Board in its spirit and aim. Hereafter, you can rely upon our cordial co-operation." This expresses the change of sentiment in the minds of many. The only obstacle apparently in the way of complete and hearty union in work for the Board, on the part of all our elders, superintendents, and teachers, is, "not understanding its spirit and aim." Each year shows improvement in this regard. Each year brings new helpers; and before long, there will be few, if any, of our Presbyterian churches and schools which do not use and approve the publications of the Board.

As one superintendent said, "You may be sure our school will be glad to do its part for the Board, and buy our own library books, and subscribe for our own lesson helps and periodicals." Another, in speaking of the Westminster Teacher, said, "I do not want any better help than that gives me. It improves every month." Speaking of the new Primary Lesson Leaf, another superintendent said, "It is just what we want. You may take our subscription at once." After using it, he said, "It more than meets our expectations." A veteran elder, who has used the Quarterly from its first number, declared, "There is nothing published equal to it for our scholars." Meanwhile, the Visitor, Sunbeam, Lesson Leaf, and Question Book have continued to enlarge their place in the

regard of the people, in proof of which we need point only to the schools of other denominations who are enthusiastic in their approval of the helps furnished them by the Board of Publication. The new Westminster Bible Dictionary comes in for its full share of praise, and fully meets the want of teachers and scholars for an exact, convenient, reliable, and cheap volume, adapted to the times and the necessities of the people.

While the missionary department has been greatly restricted by lack of contributions, from putting into the field as many missionaries as are needed, it has had abundant proof of its usefulness. There has not been an instance reported when the missionary has not been welcomed by the pastors of churches, nor where success, to a greater or less degree, has not crowned his labors. Not always has the result of work performed been seen immediately, either in sale of books or tracts, or organization of Sabbath-schools, or conversion of the impenitent; but there has not been a field visited where good has not been done in the name of the Master. More Sabbath-schools have been organized the past year than in any previous year; more services held, in proportion to the number of missionaries employed; more personal work with the number verted.

One faithful missionary, who brought the superintendent of one of the schools he organized from another township, six miles distant, wrote, "You can form no idea of the spiritual destitution of this region. They do not know what the gospel is. There is everything to be done by the missionary. Securing a place to hold the Sabbath-school, the children to attend, the teachers and superintendent to take charge; personal solicitation with parents and children; entreating teachers to attend. Sometimes it seemed as if nothing could be done; but I would not believe there was such a word as failure when engaged in work like this."

Another missionary writes, "I have been attending a series of revival meetings, where the Lord was present with his saving power, and much good was done in the name of the Lord Jesus. I have had many opportunities to point men to the Saviour, and I trust some of those with whom I prayed found Christ precious to their souls."

Another one says, "The people are glad to see me, and not only listen when I am speaking on the subject of religion, but are interested in our books, and buy willingly. The only place in the Presbytery where I did not freely sell our books was where the minister neglected to commend the Board and my missionary work from the pulpit. It makes a wonderful difference whether the minister commends the missionary and his work or neglects so to do."

One missionary says, "The whole story of my work is one of patient, plodding labor, among people who have very little knowledge of this world or of the heavenly world. I tried, wherever it was possible, to

leave some abiding influence behind me. 'Pilgrim's Progress' would stay and point the road to heaven, in its simple and effective way, to old and young, long after my brief visit and few words had been forgotten. A Sabbath-school, planted in some neglected region, would quietly and steadily preach its effective expository sermon to many who, from choice or necessity, were not within the reach of a regular minister. I believe there is no grander missionary work in our land than the planting of Sabbath-schools in the sparsely-settled districts." Speaking of one place where he organized a school, he said, "The Sabbath was the regular time for hunting, fishing, visiting, and doing old jobs around the place. Lying and stealing were no great disgrace, if well done; while, in the ordinary speech of men and women, profanity was as common as bad grammar. The children prattled in oaths as naturally as they laughed. A more God-forsaken place is seldom found. Only one church member lived in the neighborhood, and she had become very careless." Surely, work in such places is caring for the lost whom Christ came to save.

But the missionary cannot always know what good he is doing. Recently, one of our pastors, speaking of a man who united with his church, said, "This man came to us from the Baptist denomination, and told me his attention was called to this subject by a young man—a missionary—who sold him a little book called the Bible Baptist. 'That book led me to study the subject as I never did before, and to determine to unite with the Presbyterian Church.'" This occurred nearly two years after the visit of the missionary there.

This is only one of many instances which can be given to show the good resulting from missionary labor. In one place, a timely grant from this office led to the organization of a large Sabbath-school, where, after a few months, a blessed revival resulted in the conversion of a number of scholars and several heads of families. The good wrought to-day cannot always be seen to-day. He who does the work may never know the result here. But the earnest exhortation, the reading of the word of God, the heartfelt prayer of a faithful missionary in a family where religion is not known, is work never lost for the Master. A little tract or book given in the name of Christ, with the desire to honor him, will not be useless service. He who bade his disciples gather up the fragments that nothing be lost surely teaches that the humblest work of the humblest missionary shall not go unnoticed by him. He bids us do the work; he will take care of the results.

It is with the profound conviction that the missionary department of the Presbyterian Board of Publication is doing a work upon which the great Head of the Church has set his approval that our pastors and people are asked freely to give to extend and enlarge it. Money and time and prayers given for this cause are wisely given. The seed is sown where it will do the most good, and is sure to result in bountiful harvests. It is for our own Church primarily that the work is done, but we cannot strengthen and beautify our Presbyterian Church without blessing others also. Quicken the missionary spirit and power of one Church, and all others feel a new inspiration. Enlarged contributions mean increase of prayer and work for the Master, and so hasten the fulfillment of his prayer, "Thy kingdom come."

III. SUSTENTATION.

The receipts into the treasury during the year from all sources, including the balance of \$25,015 35 from last year, were \$232,651 35.

The entire expenditures of the year have been \$193,144 40. The balance in the treasury at the end of the year, March 31, 1881, is \$39,506 95.

The aggregate of sales has been \$161,324 53. This aggregate does not agree with the Treasurer's account, because it includes credit sales, while that account exhibits only cash received.

THE MISSIONARY FUND.

The publishing and bookselling department of the Board sustains itself wholly by its sales. All contributions to the Missionary Fund are used exclusively to carry forward the Board's missionary and Sabbath-school work in supporting the book, tract and Sabbath-school missionaries, in paying for the books and tracts given away, and such other expenses as belong legitimately to this benevolent branch of the Board's work.

STATEMENT.

THE ANNUAL COLLECTION.

The First Sabbath in May has often been designated by former General Assemblies as the most suitable time for the churches to take an annual collection for the Board's Missionary Fund. Except where some other preferred arrangement has been made for this cause, every pastor and stated supply is earnestly requested on that day to present this important object to his congregation and solicit their liberal aid.

All money given to the Board's Missionary Fund, whether by churches or individuals, or received from legacies, is wholly

and carefully expended in carrying forward the Board's missionary or benevolent work.

The number of churches which contributed to the Missionary Fund during the year now under review is 2121, against 2033 in the previous year. We rejoice in the co-operation of these two thousand one hundred and twenty-one churches. Would that their number might be very greatly increased in the year to come! There is much land to be possessed.

HONORARY AND LIFE MEMBERS.

Honorary Membership in the Board of Publication is granted to any donor paying one hundred dollars at one time as a contribution to the Missionary Fund of the Board, or to any one named by such donor. Honorary members have no right to take any part in the proceedings of the Board, but receive a handsome certificate of membership, with the privilege of drawing annually, without charge, three dollars' worth of the Board's publications for life.

LIFE MEMBERSHIP is granted to persons paying thirty dollars at one time to the Missionary Fund, or to any one named by such donor. Life members have no right to take any part in the proceedings of the Board, but receive a handsomely engraved certificate of membership, with the privilege of drawing annually one dollar's worth of the Board's publications for life.

Both honorary and life members must apply for and draw their dues within the limits of each calendar year, otherwise those dues are forfeited for that year. No arrearages of dues are to be expected for back years.

All applications for dues should be addressed to the Rev. W. E. Schenck, D.D., Corresponding Secretary of the Board, No. 1334 Chestnut Street, Philadelphia, and signed by the life or honorary member himself.

GRANTS OF BIBLES.

The Board would gratefully acknowledge generous grants of Bibles and Testaments, in various languages, from the

American Bible Society and from the Female Bible Society of Philadelphia.

VACANCIES TO BE FILLED.

The term of office of the following members expires in May, 1881, viz.:

MINISTERS.

Rev. George F. Wiswell, D.D.
Rev. John W. Dulles, D.D.
Rev. William E. Jones, D.D.
Rev. H. Augustus Smith, D.D.
Rev. Willard M. Rice, D.D.
Rev. J. Addison Henry, D.D.

Rev. George W. Musgrave, D.D., LL.D.

Rev. Matthew Newkirk, D.D.

LAYMEN.

E. A. Rollins.

Joseph Allison, LL.D.

Henry N. Paul.

John H. Watt.

William L. Mactier.

John D. McCord.

Samuel A. Coyle.

Gustavus S. Benson.

Much to the regret of the Board, to which he has rendered long and valuable service, Mr. William E. Tenbrook has offered his resignation as a member. His term would have expired regularly in May, 1882. The Rev. J. G. Ralston, D.D., long a useful and honored member of the Board, died Nov. 10, 1880. His term would have expired regularly in May, 1883.

ONE YEARS WORK 176 CHURCHES.

THE ESTEY ORGANS!

THE ESTEY ORGAN.

STEY & CO. employ only the most skillful workmen in every department, use only the best and most carefully selected material, and perform with the unfailing precision of intricate machinery much of the work which is elsewhere done by hand. Accomplished inventors are continually on the lookout for any possible addition to or improvement in the machinery, and new devices are being constantly tried and accepted. No expense or labor is spared to obtain the acme of mechanical ingenuity. In view of these facts, when it is considered that it takes six weeks to perfect a reed, that sixty trained men and women are constantly employed as tuners, in separate apartments, and that the same care is bestowed upon every part before it is sent out as completed, it is not difficult to appreciate the manifest superiority of the ESTEY ORGAN. Furthermore, it must be conceded that the leading improvements in Reed Organs of other manufacture have been, with few exceptions, originated, perfected and introduced by Messrs. ESTEY & Co. Their instruments are simply unrivaled in America or Europe. Scientific men, inventors and manufacturers from all parts of the world have visited their establishment, and unanimously pronounce it unsurpassed for comprehensiveness and perfection of separate detail and general system. To this judgment is added the highest testimony from every part of this country and Europe to the exalted merits of the ESTEY ORGAN. Such testimony, coming from all quarters is a test of value and approval which cannot be gainsaid. It is the voice of culture and refinement bearing proud witness to that truism, as old as human endeavor and human fruition, that only true merit achieves true success.

BRATTLEBORO, VT.

IMPROVEMENTS CONTAINED IN THE ESTEY ORGAN.

Messra. Estry & Co. assert, without fear of contradiction, that they have Mesers. EMPT & C.O. suserl, without baset of contradiction, that they have invested and solder douser absolub improvement in Rec Distraments than any other manufacturer in the words. Are yood proof with many to found any other manufacturer in the words. Are you good proof with many to found depreciate these improvements, have reserted to the across of the manufacturer of depreciate these improvements, have reserted to the across of manufacturer and depreciate these improvements. This is only additional evidence that the credit for originality and superior excellences belongs pre-emmently to the Extra Osca. Turchasers should therefore guard against dealers who offer them inferior instruments which can be the blumiations.

THE PUBLIC MAY RELY UPON THE FACT, THAT AS FAST AS REAL IMPROVEMENTS CAN BE PERFECTED, THEY WILL BE INTRODUCED IN THE ESTEY ORGAN.

Among the many important improvements already adopted in these celebrated instruments, particular attention is directed to the following:

The Patent Vox Humana. This wonderful investigation as perfected and bread to the Berry Rock in 1862. It is such as a perfected and bread to the Berry Rock in 1862. It is such as a perfected and bread to the received and the second and the IS UNDENIABLY THE FIRST AND ONLY MECHANICAL REPRODUCTION OF THE RUMAN VOICE EVER GIVEN TO THE WORLD

The Patent Vox Juhilante. The character of the tone of this register is marked and surprisingly effective. Competent judges promptly pronounce it an unqualified success, and it has certainly done much to popularize Reed Organ Music. On the ESTEY ORGAN it enables the performer to produce grand and thrilling effects

The Patent Violetta. This is a Solo Stop of great beauty, indispensable when an unusually soft and sweet tone is required to give proper expression to the music.

The Patent Harmonique Coupler. This is an Octave Coupler used on a single manual, which doubles the power of the instrument without necessitating an increase in the number of reeds.

The Patent Manual Sub-Bass. The manner in which these reeds are placed on the air-chamber increases the volume of tone at least one-third.

The Patent Knee Swell.

This Swell gives the player complete control of the instrument, and pro-duces a perfect crescendo or diminuendo. The Patent Organ Bellows.

This tovention greatly enhances the power and quality of the tone, with-out increasing the size of the justrument. The Patent Reed-Beard.

This Reed-Board gives the Estey Organ a vastly improved tone, making it much more like a pipe organ than any other in the market. It is su improvement of inestimable importance, and is covered by four patents The Patent Reeds.

The number of very great improvements in Reeds have been perfected by Messars. ESSEY & Co., which are readily discernible in the power, variety and beauty of tone characterizing their organs.

Improved Tone. It is pre-eminently the QUALITY OF TONE that places the ESTEY ORDAN in advance of all others. It is a Reed Organ possessing the invaluable detideratum of a pipe-like [me, which is round, full and powerful, and yet capable of the most delicate articulation and shades of feeling. There is the same difference between the Reeds of the ESTEY ORGAN and those of other makers, that there is between a cultivated and an uncultivated baman voice.

To the Pastor, Supply or Elders of this Church.

Dear Brother:

The information contained in this report is designed as much for the MEMBERS of the Church as for its OFFICERS. If too much to read the whole from your pulpit, will you not read at least, the following:

1. The gross receipts for the last year are = \$113,869

Cash balance from last year, = = = 9,395

Working Capital for the year, = = = 123,264

- 2. The number of Churches erected during the year by aid of the Board, 176, located in 34 States and Territories, and under the care of 88 Presbyteries.
 - 3. Average amount of aid to each Church, nearly \$530.
- 4. We have about 500 Churches without a house of worship. All of these are dependent upon the Board of Home Missions. Give us the means to assist them in securing Sanctuaries, and they will soon become self-supporting and contributing.
- 5. To enable the Board to do its full work for the current year, \$150,000 is required. How much of this will your Church give?
- 6. Any Church or individual sending us \$500 can have the satisfaction of knowing that they have secured the completion of at least one Sanctuary, in which hundreds may worship every Sabbath for years to come.
- 7. Every Church that we assist in securing a house of worship, is pledged to send us an annual contribution, and is placed in a condition to contribute to all the Boards of the Church.
- 8. During the year THREE THOUSAND ONE HUNDRED AND EIGHTEEN CHURCHES sent nothing to this Board. Was your Church one of them?
- 9. No acknowledgment can be made unless the MONEY BE ACTUALLY SENT TO OUR TREASURER. Do not send BANK NOTES; it is not safe.
- 10. Let the Churches that have been aided remember their engagements to send a collection to this Board ANNUALLY.

ELEVENTH ANNUAL REPORT

OF

THE BOARD OF CHURCH ERECTION.

In taking a review of their last year's work, your Board of Church Erection feel constrained to say, "Goodness and mercy have followed us" in every step that we have taken. While death has removed so many of the ministers and elders of our beloved church during the year, not one of the members of this Board has been called by the Master to lay down his work. The meetings have been regularly and faithfully attended; even in hot months, when so many leave the city, we have not failed to have a goodly number present. For all this mercy we desire to be thankful.

The unusually severe and long-protracted winter has hindered the work and diminished the number of buildings. Many that were commenced in the fall, in expectation of their being completed before winter, were caught by the early frost and are still in an unfinished state, and thus the grants made by the Board have not as yet been called for. The money promised is in readiness and shall be paid so soon as called for.

The work done during the year has been of very great benefit to the Church at large, as well as to the communities within whose bounds these buildings are located. In several instances church buildings sold for debt have been redeemed, and in many other cases our timely aid has prevented the entire loss of property that would otherwise have been inevitable, thus preventing much sorrow and disgrace, and filling many hearts with gladness and praise. The credit of a weak congregation in a new settlement, composed largely of irreligious people, is of incalculable importance to secure growth and usefulness. But if the contracts with workmen are not faithfully kept-if promises of payment are not promptly fulfilled—the integrity of that church must suffer, and the burden of reproach will fall chiefly upon the minister, and greatly damage his usefulness. The prompt payments by this Board have in very many instances saved the reputation of the church and the good name of the minister, thus securing the usefulness of both and the joy of all. The testimony of a good brother on this point may not be out of place here. "Your letter, with check, came just in time. On the faith of getting it our promise had been given to the contractor that he should have his money on Saturday. His doubts and fears had been excited by some malicious neighbors and he had resolved not to give us the key until he was paid. On Friday your letter came. When I showed him the check from New York he smiled and said, 'Mr. B., I will build you another church on the simple promise of that Board of Church Erection.'"

It is certainly matter for hearty congratulation that this Board has never been obliged to spend one cent in the payment of interest for borrowed money, because we have not been under the humiliating necessity of borrowing. It has been an unspeakable comfort and relief to those who look to the Board for help to be told in answer to their anxious inquiries, "Send on your papers, and if they are found to be correct, your appropriations shall be paid immediately." And thus we hope it shall ever be.

RECEIPTS.

Our gross receipts during the year, together with the balance from last year, amount to \$123,264, which constitutes our working capital; of this, however, \$16,326 was special—that is, designated by the donors. The aggregate of church collections from 2,433 churches is \$49,198. This is an advance upon the preceding year of forty-nine contributing churches and \$8,423 in amount, but there is a larger falling off in individual contributions.

It is a painful and discouraging fact, to which we must call the attention of the Assembly, that over *three thousand* of our churches have given nothing to this Board. Some of these are among our largest and most wealthy churches, and many others of the non-contributing churches have in years past been generously aided from this fund.

The amount received by legacies during the year is \$37,459.52, more than in any former year and almost equal in amount to the church collections. Nor is it strange that Christian men and women, in view of the approaching account of their stewardship, should wish to invest a goodly portion of that which God has given them in this permanent form, so that long after they have ceased from the toils of this life hundreds of others may worship God in these sanctuaries which they have built, and thus through the ordinances of His house be prepared to give Him nobler praise in that house not made with hands, eternal in the heavens. In this way, though dead, they are still preaching the

blessed Gospel of the Son of God, and so the work goes on for many, many years. Ministers may die, but the Church shall stand, a birth-place for souls and a monument of God's mercy.

These legacies, together with the collections of some of our most liberal churches, coming in just at the close of the year, leave us with a much larger balance than usual at the end of the year.

APPLICATIONS.

During the year we have received two hundred and forty-six applications, formal and informal, calling for \$220,500, a larger demand than has ever been made upon us before. As on former occasions, many of these calls are so unreasonable, both in the amount asked for and the cost of the proposed buildings, as to put them beyond our reach. The greater portion of the applications, however, come from very weak churches, asking for small donations, on an average of \$400 or \$500, to secure buildings by no means extravagant. To such we have responded most cheerfully, and to the extent of our rules and means.

On this subject of applying to the Board for aid there is frequently misapprehension. Some suppose that a letter from a minister, an elder or a trustee of the church stating the amount wanted is all that is necessary, and wonder why the money is not immediately sent. To all such we would kindly say we act in strict conformity with the rules and directions laid down by the General Assembly for our guidance, and through the Presbyteries. No letter is considered an application that has not the endorsement of the Presbytery under whose care the church is. To those needing aid from the Board a blank will be sent, to be filled up and signed by the trustees, certified by attorney (as to title of the lot), and endorsed by Presbytery or Committee of Presbytery on Church Erection. When such papers are received, they shall be laid before the Board at its first meeting thereafter, and the result made known to the applicants. Attention to these directions will save much needless correspondence and prevent disappointment to the applicants.

APPROPRIATIONS.

During the year appropriations have been made to one hundred and seventy-six churches and missions amounting to \$93,190. If to these we add the fifty-three churches on hand but not completed at the commencement of this year, it will be seen that the Board had under its consideration during the last twelve months the wants of two hundred

and twenty-nine churches, amounting in the aggregate to \$119,310. The average of appropriation to each church is a little over \$500. The names and location of these churches will be readily seen in the appendix and on the outline map. They are widely extended over thirty-four States and Territories and under the care of eighty-eight different Presbyteries. Fifteen of them are for the benefit of freedmen and eight for the Indians of our country. These poor and much-abused people show not only capacity for improvement, but also a commendable desire to have for themselves and their children the blessings of civilization and Christianity. It is our earnest hope that our government may adopt the most advantageous system possible to elevate and secure the best interests of these aborigines of our country.

In Utah, that stronghold of Mormonism, with the aid of the Women's Missionary Society, not less than twelve churches and chapels have been built or purchased and fitted up for worship during the year, and are serving as so many fountains to cleanse and purify that polluted land. Here "a great door and effectual has been opened unto us and there are many adversaries." Shall we fail to enter in and redeem this land from the filth and curse of polygamy? If Christian men and women are willing to go there and labor in the face of all these "adversaries" that oppose them, will not the liberality of our Church sustain them in their efforts to establish the Kingdom of Jesus Christ?

Appropriations made to fourteen churches, amounting to \$7,300, have been cut off in consequence of their failure to fulfill the conditions within the specified time. To some of these new grants have been made upon receipt of fresh applications. Appropriations have been paid to one hundred and sixty-five churches, amounting to \$84,195, and now that the spring has opened and work been resumed, we shall soon be called upon for the fulfillment of our promises to many more. The gladness of heart caused by the payment of these grants (which remove all debts) can only be fully appreciated by those who receive them. If our space permitted we should like to make quotations from some of the many letters we receive. We can only say to our friends and co-workers in this cause: Brethren, for your contributions you have the thanks and prayers of many whom you have never seen, and may never see until we all meet in our Father's house above.

INSURANCE.

With the exception of a few small buildings among the freedmen, where the risk was small and the difficulty of getting a policy great, all

the money paid out has been fully insured in the very best of companies. The number of policies now held by this Board is 887, and the amount covered by these policies is \$667,218.

Amount of loss for want of insurance...... \$21,500

This ought to be a warning to those who have neglected to insure. We are sorry to say that quite a number of churches that received aid from this Board on condition (stated in the mortgage) that they would keep insured the amount of the Board's appropriation, when the first policy expires refuse, when notified, to renew this insurance. There are now a number of such church buildings entirely unprotected and the same number of broken contracts.

For the satisfaction of all concerned, we are glad to be able to report that since the adoption of this plan of insurance, in no instance in which fire has occurred have we failed to secure from the company the full amount of insurance, the benefit of which has been given to the churches. This shows the character of the companies through which we insure. None of doubtful character are employed.

DESIGNS AND PLANS.

In 1875, with the generous aid of Mr. Samuel Sloan, an able architect of Philadelphia, we prepared and published several designs for church buildings that were much admired. This practice has been kept up from year to year, for the sole benefit of our own churches at a distance, and too poor to afford the expense of employing an architect. We find, however, that other churches not of this class, nor of our own denomination, are disposed to avail themselves of this opportunity of practicing economy. With the exception of Nos. 1 and 2, all our designs this year are new and intended for cheap or uncostly buildings. To correspond with Nos. 1 and 2 we have sets of mechanic's plans, with specifications, either of which we can send by mail on the receipt of \$5. For plans to correspond with any of the other designs we must refer the applicants to the architects whose names they bear, but who cannot be expected to draw plans for less than \$10 or \$15, and perhaps \$20 for

some of the most costly buildings. We are thus explicit to avoid needless correspondence, for which we have not time.

THE KIND OF BUILDINGS NEEDED.

The great evil of church debt has been so sorely felt for some time, that strenuous efforts to remove the evil have been made in various parts of the Church during the last two or three years. Most of these debts have been the result of over-ambition to excel others in the elegance and attractiveness of their building. Had these people their work to do over, they would doubtless begin on a more moderate scale and profit by their own experience. But, unfortunately, their experience will not serve for others. The prevailing tendency still is to the erection of costly buildings. This desire comes more from those outside of the church than from its members. Property owners in new towns and settlements offer large subscriptions on condition that a building of certain dimensions and style be erected. The desire to secure these liberal offers and the future support of these donors often induce those in charge of these buildings to go far beyond what their own better sense would have dictated. These "generous subscribers" often fail to pay, and thus the disappointed church is left in its poverty to shoulder an unexpected debt that offtimes prevents the completion of the building and also prevents the payment of the Board's grant, so that if the house can be used at all, it is in an unfinished and uninviting condition, while the knowledge of this pending debt exerts a repelling influence upon new comers, and drives them into other churches or to the entire neglect of public worship; whereas a smaller and less pretentious building, plainly but comfortably finished and paid for, is far more attractive to strangers and those seeking a sanctuary home.

The assumption of debt by individuals in a congregation so as to be able to say there is no encumbrance upon the church property is unwise and hazardous. However honest the intention may be, the circumstances of these individuals may be suddenly and unexpectedly changed. They may be cut down by death, or called to another place of residence, or fail in business; in either of which events the effect may be serious if not disastrous to the interests of the church, and make it a reproach to the cause which it was designed to promote and honor. In this matter of building we should aim at supplying present necessities rather than providing for future possible wants. It is best in most cases to adapt the building to future enlargement when it may be required, and when the enlarged congregation may be able to meet the expense.

OUTLOOK FOR THE COMING YEAR.

The depressed and discouraging state of things in Europe, together with the revival of business in this country, is bringing an immense immigration to our shores, that is fast filling up our waste places in the These call for a large increase of missionaries, and these missionaries, to be useful, must have shelter from the storm, not only for themselves, but for the people they would fain bring to Christ. leave these vast multitudes, with their low standard of morals, their mistaken ideas of religion, and their contempt for the sanctity of the Lord's day, to lay the foundations of society, would be to imperil the best interests of our country. We must, in self-defense, as well as for their good, plant among them Christian churches and hold forth to them the light of divine truth. To do this extensively and effectively we must have sanctuaries into which to gather the people, that they may hear the word of life. This duty is imperative, and we must not try to shirk it by impiously saying, "The time is not come—the time that the Lord's house should be built." In this important and blessed work let all our churches take their part "according as God hath prospered them."

It only remains for us to remind the Assembly that the term of office of the following members of the Board expires at this time, viz.:

Ministers.

BENJAMIN F. DUNNING.

It will devolve upon this Assembly to fill these vacancies.

By order of the Board.

CHURCH ERECTION.

The Committee to whom was referred the Minutes and the Annual Report of the Board of Church Erection, report to the Assembly that their investigations have disclosed much to disapprove and much to commend. The thing to be disapproved is the lack of appreciation and support, as shown by the entire failure of more than one-half of the churches to contribute anything to its treasury. The fault lies with the Church, and not with the Board.

The minutes of the Board have been examined, and their approval is recommended, as showing that the meetings of the Board have been well attended; that its business has been transacted with care, and in strict accordance with the rules laid down by the Assembly; and that the trusts committed to the Board have been guarded with fidelity.

The treasury has received from all sources, including last year's balance, \$123,264. Of this amount, \$49,198 (or a little over one-third) was contributed by the churches. The remainder (nearly two-thirds) comes from legacies and special contributions of individuals. This brings to view the humiliating fact that over three thousand churches—some of them the largest and wealthiest, and some, too, who are indebted to this Board of Church Erection for the very roof that shelters them—have contributed nothing whatever to its treasury.

The treasurer's statement shows a balance in the treasury of over \$40,000. This large balance does not indicate an excess of resources above demands. The report shows that applications are now pending which reach an amount far in advance of the highest receipts of the Board. The payment of legacies and the large contributions of some of the wealthier churches just at the close of the fiscal year cause this balance to appear in the annual statement, whereas more than this amount is already promised, and may be called for at any time.

It is with sincere gratification that we report the treasury of this Board in a condition to redeem all its outstanding pledges. The summer months are upon us, wherein these appropriations are most likely to be called for, because this is the season most favorable for building. But it is also the season of greatest scarcity in the receipts of the Board. Instead, therefore, of deprecating the balance in the treasury, it should be to the Church a cause of thanksgiving.

The work of the Board for the year is summed up in the completion of 229 church buildings erected by its aid. The average amount paid to each church is a little over \$500, showing that the Board has held strictly to its legitimate work, viz., that of enabling feeble congregations in destitute places to secure for themselves houses of worship without too great a burden of cost and without debt. Think of two hundred and twenty-nine Presbyterian churches, extended over thirty-four States and Territories, and under the care of eighty-eight different Presbyteries! Bring these edifices together in one locality, and they constitute a city of churches. The work is then seen to be great. Not less great is it when it is contemplated as the work of a central agency, reaching out over all the land, giving permanency and power to the Church of God, securing the blessing of a spiritual home and a stated worship to the scattered families of our Presbyterian Israel. And all this has been accomplished at an expense of less than five per cent. as the cost of administration.

We call attention also to the plan of insurance employed by the Board, as being of great benefit to the churches in remote districts. Through the agency of this Board churches so situated can receive the best insurance at the least expense.

The attention given to the matter of architecture is worthy of special commendation. A full explanation of what has been done in this regard, and how its advantages can be made available to the churches, will be found in the printed report of the Board.

A memorial from the Synod of Atlantic (though not properly authenticated as such) has been referred to this Committee, soliciting special concessions from the Board of Church Erection to the Freedmen, on account of their peculiar condition and necessities. Your Committee do not consider it wise for the General Assembly to order a suspension of, or an exception to, the rules of the Board in behalf of any class or race of people in the Church. It would be establishing a precedent in the line of "class legislation" which might cause trouble in the future. But we do most earnestly commend the wants of the colored congregations of the South to the consideration of this Board, with the request that special aid be granted them in view of their deep poverty, so far as this may be done without transgressing the wise regulations of the Board.

Consultation with the chairmen of Synodical Committees has disclosed a difficulty in obtaining full and accurate information of the Board's

work for use in Presbyteries and Synods. The contributions to the Board and the sources from which they come—all this can be learned from the annual report of the Board. But the amount expended by the Board within the bounds of any particular Presbytery or Synod, can only be learned by correspondence with the office in New York. It seems to your Committee that much useful information might be given and much labor saved, both to Committees and to the Secretaries, if the Board would publish in the Monthly Record for September of each year a statement of the amount received from each Presbytery, and also what was expended in the bounds of each, during the year preceding.

We recommend:

1. That the Assembly record its grateful recognition of the faithful services of the members and officers of the Board, and that the following persons be elected to fill vacancies, viz.:

MINISTERS.

ELDERS.

Rev. John Hall, D.D.,

STEPHEN H. THAYER, Esq., Benj. F. Dunning, Esq.,

" Saml. D. Alexander, D.D.,

" Erskine W. White, D.D.,

WM. N. CRANE, Esq.

" ELDRIDGE MIX, D.D.

2. That Synods, Presbyteries and Sessions be urged to adopt such measures as will increase the number of contributing Churches, so that the reproach of delinquency and neglect may be removed from the Church, and the efficiency of this right arm of the Home Mission work may be increased.

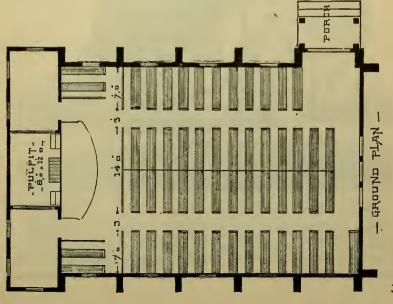

- 3. That the Board of Church Erection be directed to publish in the September number of the Monthly Record, a statement of its receipts from each Presbytery, and its expenditures within each Presbytery's bounds.
- 4. That the Board be requesed to print its rules governing appropriations, in its Annual Report to the General Assembly.
 - 5. That the Minutes of the Board be approved.

D. C. MARQUIS,

Chairman.

_ Side ELEVATION

DESIGN NO. 1.—DESCRIPTION.

(Plans, detailed drawings, specifications on large sheets ready for the builder, to be sent by mail on receipt of \$5.00.)

This is really two plans combined—one with a belfry and the entrance at the corner, the other without belfry and entrance at the end, through a porch; there are two rooms in the rear so arranged with glass partitions that they can be made available in connection with the audience room, enabling it to seat 300 people; the building 38x58. The side walls are 14 feet high, and the ceiling rises to 20 feet in the centre. The buttresses on the side, which serve as braces to the building, are carried up to the eaves. The exterior is weather-boarded horizontally. The windows are of stained glass, at 50 cents per foot.

The cost of this building, with tower and slate roof, will be \$2,500.

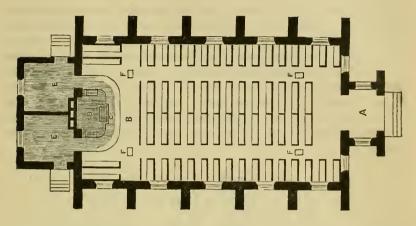

DESIGN No. 2.

DESIGN NO. 2.—GROUND PLAN AND DESCRIPTION.

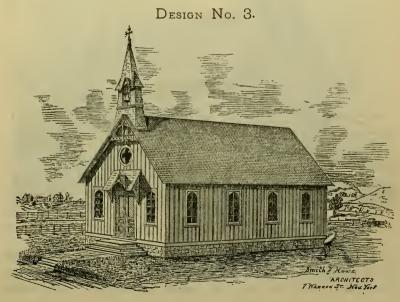

(Plans, detailed drawings, specifications and form of contract all complete, ready to be sent by mail on receipt of \$5.00.)

The dimensions of this building are $30\frac{1}{2}x48\frac{1}{2}$ feet, with a recess for pulpit 6x13 feet and a porch in front $3\frac{1}{2}x12$ feet, outside measurement;

DESIGN No. 2 (Continued).

the vestibule, including porch, is 7x11 feet. The auditorium will seat comfortably 250 persons. The ceiling is to be finished in oiled wood, and the whole built in the most substantial manner. The height of the building to the apex of the roof 32 feet, and to the top of the belfry 52 feet. The whole will cost here (if built of brick) not more than \$3,000, and less where material and labor are cheaper, and even this may be still further reduced by reducing the size of some of the framing timbers, if built of wood or covered with shingles instead of slate, as in the plan.

DESIGN NO. 3.—DESCRIPTION.

Many of our smaller Western churches having expressed a desire to build at an expenditure of less than \$1,000, the accompanying neat design was obtained from Messrs. Smith & Howe, No. 7 Warren Street, New York, to meet this want. A building according to this design can be erected at a cost above the foundation of \$700. This sum includes interior furnishing—the pulpit, pews, etc.—but may, of course, vary slightly, according to distance from a railroad. The foundation may be of stone, or can be of brick piers or wooden posts. The size of building is 23x37, and will accommodate 140 persons comfortably seated.

Design No. 4.

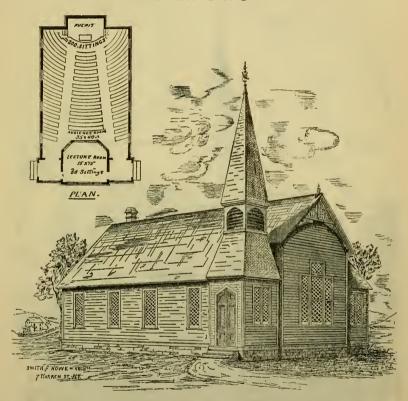

DESIGN NO. 4.—DESCRIPTION.

This building, for the First Church of Luverne, Minn., is, at the time of publication of this report, in process of erection. Its seating capacity is 172, and will cost about \$1,500. There are two aisles, and

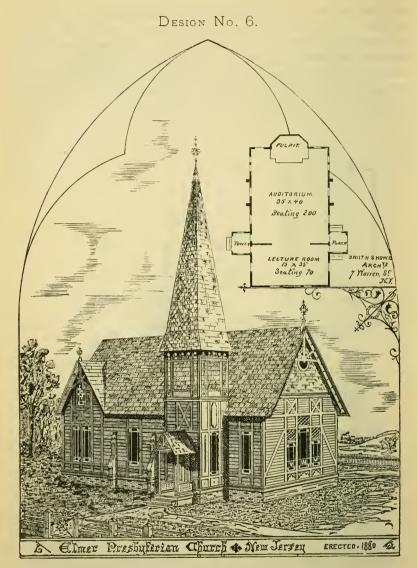

the pulpit stands in a recess, the platform being raised two feet from the floor. There are two windows in this recess, making the interior effect (as well as exterior) very pleasing. The walls are plastered and the ceiling boarded. There is no cellar to the building, the heating being by a stove at either end of the auditorium. Should it be desired to heat such building by a furnace, a sufficient cellar space for such purpose could be excavated at slight additional cost.

Design No. 5

DESIGN NO. 5.—DESCRIPTION.

The accompanying design for church to cost \$1,800 will be found to adapt itself to the wants of many congregations. It will accommodate 200 persons. In addition to the main room, for the regular church services, it has, as will be seen by reference to the plan, a lecture room for prayer meetings, ladies' society meetings, etc., capable of seating 30 persons. This room is arranged to be thrown open to the main room easily and noiselessly, and so, on special occasions, when greater seating capacity is desired, form part of the main room.

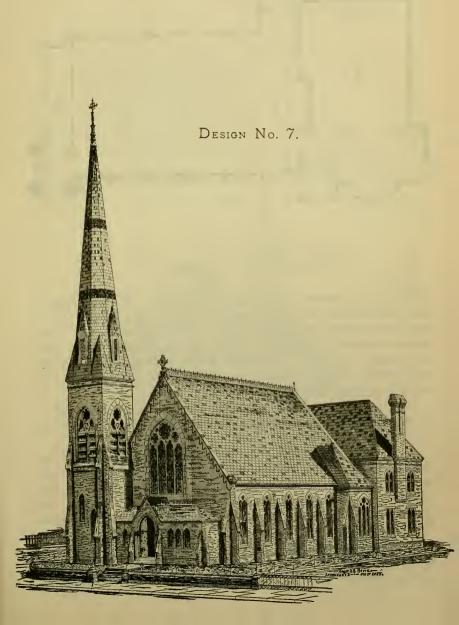

DESIGN NO. 6.—DESCRIPTION.

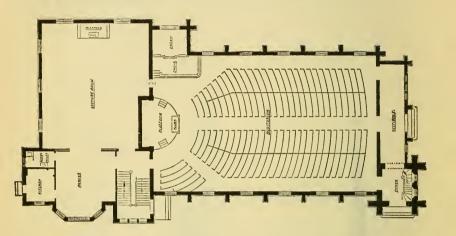

The design here given was, with some slight modifications as to detail, carried out during the past year in a church erected at Elmer, New. Jersey. It will seat 200 persons, exclusive of the lecture room. It has two entrances, one especially designed as a carriage porch, and is, in its interior arrangements, very complete. The pulpit stands on a platform raised two feet from the floor, and back of it is an arched recess for the pulpit furniture. The lecture room can, if occasion require, be thrown

open to form part of the auditorium. The walls of the church are plastered, the roof being what is known as "open timber". The cost of the church is \$3,500. Additional particulars in relation to any of these designs can be obtained from the Architects,

Messes. Smith & Howe, No. 7 Warren St., New York.

DESIGN No. 7 (Continued).

DESIGN NO. 7.—DESCRIPTION.

This design, intended for a large congregation, has much about it that will commend it to many churches. The church will seat 750 persons, the pews being on a bowled floor, and arranged as shown. There are two entrances, one directly in front, and one in side of tower, while at the end of each aisle a door opens into the vestibule. At the opposite end of the church and on each side of the pulpit a door leads into the lecture room and staircase hall.

The organ and choir are placed in front of church at the left of pulpit platform, being raised above the floor to a level with platform. Stained glass will be in all windows of both church and chapel.

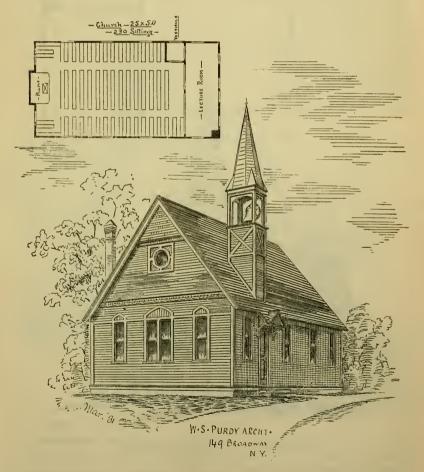

The chapel at rear of church is very complete. A two-story building containing on first floor the lecture room, ladies' parlor and kitchen; and on second floor the Sunday school rooms, which include the main school room, Bible class rooms, infant class room and library. The buildings are of brick with stone trimmings, slate roof and slated spire. The interior of church is finished in black walnut, with open-timber roof. The chapel is finished in ash, giving, by this means, a light and cheerful appearance to the smaller rooms. The cost will be \$27,000. If it be desired to build the church alone, it can be done for \$18,000.

The church can be built of stone, and, if necessary, sundry modifications made to adapt the building to the special wants of a congregation, without sacrificing anything in general appearance.

Any information, in addition, that may be desired concerning this church, will be given by the Architects,

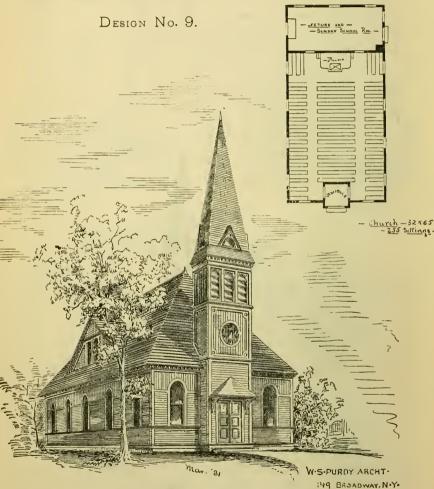

Messrs. Smith & Howe, No. 7 Warren St., New York.

Design No. 8.

DESIGN NO. 8.—DESCRIPTION.

Frame building of size and seating capacity shown on drawings. A lecture room is furnished, which can be used in connection with the main room if extra space is required at any time. To be heated by a furnace placed in the cellar, which is to be merely large enough to accommodate it and leave space for storage of fuel. This building to cost from \$1,200 to \$1,500, according to quality of finish.

DESIGN NO. 9.—DESCRIPTION.

House to cost \$2,500 to \$3,000, according to finish. Seating capacity and size of building is given on sketch plan above. Room that may be used for lectures, prayer meetings, or as Sunday school room, is provided at the rear.

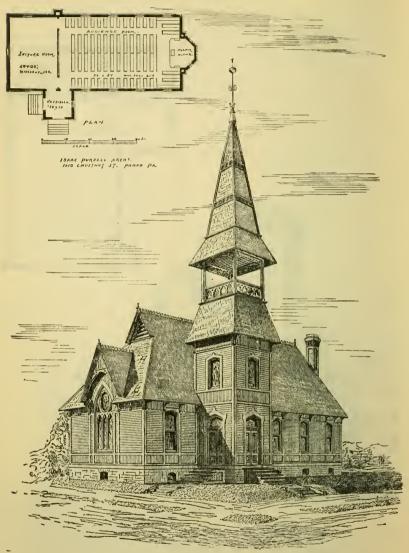

DESIGN No. 10.

DESIGN NO. 10.—DESCRIPTION.

Sketch for a church to cost \$5,200, and to seat 360; to be of brick, and having, in addition to the main room, a lecture room and church parlor, which are connected by means of folding-doors and can be used together; also a study for the pastor. A carriage porch is placed at the side of the building, with means of access both to the main room and to the lecture room.

DESIGN No. 11.

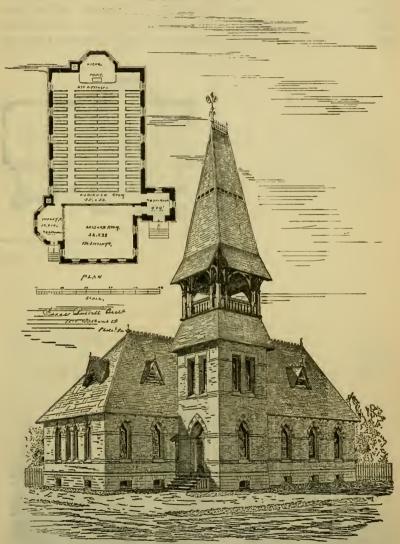

DESIGN NO. 11.—DESCRIPTION.

This design is for a frame church with an audience room 30x51 feet, which will seat comfortably 250 persons. There is a niche at the rear. The ceiling plastered to tie-beam, showing half of the rafters. The lecture room is front 20x30 feet, seating 140 persons, and is divided from audience room by a glass partition. The ceiling is finished like the above. The rooms are entered through a vestibule in tower, having entrances from two sides. The building will cost from \$2,500 to \$4,000,

according to finish. The design can be adapted to brick or stone, and seats arranged in circular form.

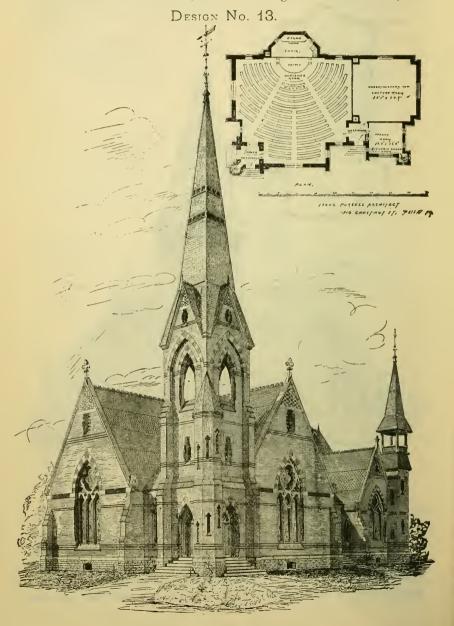

DESIGN No. 12.

DESIGN NO. 12.—DESCRIPTION.

Designed for a brick church. The audience room is 35x53 feet, and has comfortable sittings for 270 persons; adjoining it is a lecture room, 22x28 feet, separated by a glass partition. Adjoining the lecture room is an infant room 10x14 feet, which will seat 40 children, also divided from it by a glass partition. There is a vestibule in tower

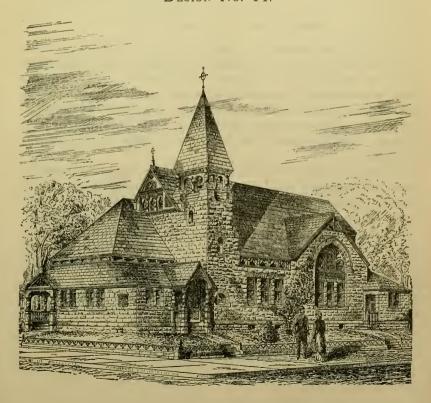

opening into the church and lecture room, and an outside entrance to infant room. The church is carefully planned for heating and ventilating. The ceiling is intended to be open-timbered, showing timbers to the peak, but it can be plastered half way. The cost will be from \$3,500 to \$5,000, according to finish. This design also can be accommodated to either stone or frame, the seats arranged in circular form, etc.

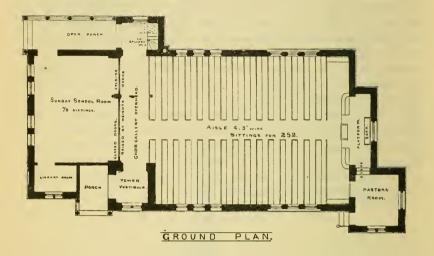

DESIGN NO. 13.—DESCRIPTION.

Is designed for a brick church. The audience room is 61½x55½ feet, and will seat comfortably 500 persons. The ceiling is open-timbered half way up. The floor is bowled toward the pulpit, and the pews are arranged in semicircles. The organ gallery is back of the pulpit. The lecture room, at one side of audience room, 34x34½ feet, will seat 325 persons; it also has half open timber roof, and is divided from church and infant room by a glass partition; the infant room is 16x18 feet, and will seat 100 children. There is a kitchen to be used for festivals, etc., under infant room, provided with dumb-waiter, etc. There are two vestibules—one in tower, and one between church and infant room. The church and chapel are well lighted through windows to be glazed with stained glass. Ample provision is also made for heating and ventilating. This church will cost from \$10,000 to \$15,000, according to finish. This building is also adapted to stone.

DESIGN No. 14.

DESIGN No. 14 (Continued).

DESIGN NO. 14.—DESCRIPTION.

This design was prepared for a small church with the view of securing a compact and inexpensive, yet attractive building, to afford accommodation for about 350. The auditorium is divided into two parts; the larger division seats 252 persons; the smaller, which, if desired, can be shut off for a Sunday school room, will seat about 60. The choir gallery gives seating capacity for 20 choristers. The large doors, which separate the two divisions of the church, are designed to lift by means of weights.

The exterior is designed to be built of rock or rough-faced stone for walls and bell-tower, with roof of slate. The exterior dimensions of the entire building are 75 feet long, 32½ feet wide, not including pastor's room. The total estimated cost, exclusive of pews and desk, was \$4,600.

This design could also be executed, with slight modification in frame, with a roof of shingles, for 10 or 15 per cent. less. The expense, naturally, depends very largely upon the convenience of securing the necessary materials. If it should be deemed advisable, a reduction in cost can be secured, to the extent of \$300, by omitting the choir gallery, and a further reduction of \$100, by also omitting the separating doors.

The committee appointed to audit the Treasurer's accounts for the year ending April 1st, 1881, met at the rooms of the Board, and the other member of the committee being unwell retired, and the undersigned carefully examined the accounts and compared the items in the balance sheet with the books, and finds them correct. The cash was counted, the United States securities, certificates of deposit and other securities were examined, the bank balance was verified. The securities and balances are as represented in the balance sheet. The books are kept, and the Treasurer's business is conducted, with care and accuracy. All which is respectfully submitted this 18th day of April, 1881.

REPORT.

The Presbyterian Board of Relief for Disabled Ministers and the Widows and Orphans of deceased Ministers respectfully presents to the General Assembly this, its Twenty-sixth Annual Report.

The Board desires, first of all, to express its devout thanks to God for the measure of success which has crowned the labors of the year.

Two years ago, in consequence of the increase of applicants and the great financial crisis in this country, the appropriations of the Board were in arrears fifteen thousand dollars. In the last Annual Report, it was stated that thirteen thousand of that sum had been provided for, leaving the Board still in arrears two thousand dollars. In order to meet this deficiency, and at the same time to carry forward the regular work of the year, it was found necessary to continue to reduce the appropriations twenty-five per cent. agreeably to the resolution of the Board, passed October 29th, 1879. That plan has proved effectual; for it has secured the object at which the Board aimed.

At the stated meeting, in March, 1881 (the last meeting held within the financial year), it was announced that the appropriations then made brought up all the arrears with the exception only of those whose recommendations had not been sent in by the Presbyteries, and that there was a sufficient balance in the Treasury to meet this demand whenever it should be made.

Not only have the old cases on the roll been paid, but all the new applicants have been served, although they were more numerous than in any former year; and they have been paid at the same rate with those previously standing on the roll; namely, at the uniform reduction of one fourth. At the first distribution to the new applicants, the sums were of necessity small, because of the inadequate supply of funds; but as contributions from the Churches and from friends of the Cause came in more liberally, payments were centinued until every case was reached. Thus the Board has endeavored to do the best possible for those who were under its care, and to administer the trust committed to it with justice, wisdom, and impartiality, but not without deep regret that larger amounts were not placed at their disposal.

During the last year, 1880–81, there have been on the roll of the Board, and sharing in the Relief Fund, four hundred and seventy families, consisting probably of more than two thousand persons. Of these, there were one hundred and eighty-nine ministers, two-hundred and fifty-three widows, and twenty-eight orphans. The new applicants placed on the roll, number seventy-one, of which eighteen were widows, one a family of orphans, and fifty-two (a large majority) were ministers disabled either by disease or advanced age. This does not include those widows who, after the recent death of their husbands, were put upon the roll on the recommendation of the Presbytery to which they naturally belong.

Between April 1st, 1880, and April 1st, 1881, twenty-two have been removed by death, nearly all at an advanced age; five of them were widows, and seventeen ministers. This year, eight ministers of the Gospel have returned to their chosen work of preaching. They ascribe their restoration and their ability to resume pulpit-labor to the timely relief furnished by this Fund. It will richly repay the Church to give even more generously of her substance, if she can help her faithful ministers to prolong the period of active, successful ministerial labor, as in the case of these worthy servants of Christ.

Two widows have obtained situations which yield an adequate support; three widows have married; one widow has sailed again to Africa to teach the people for whom her husband sacrificed his life; five orphans have reached an age which enabled them to supply their own wants independently of the Relief Board; in the case of five families, the adult children

have undertaken the entire care of the widowed mother; and there are three pastors and two widows whose wants are fully met by the churches to which they are attached.

The entire operations for the year may be represented by the following statement in three particulars:—

There has been no falling off in the number of churches contributing; the collections in many particular instances have been increased; and in eleven and a half months, there have been gathered in for current use more than three thousand dollars above the amount received for the same purpose during the year 1879–80. The additions to the Permanent Fund, principally through legacies, have been greater by five thousand three hundred and twenty-eight dollars; and the Ladies' Associations of the churches have given liberally of their time, labor, and means to provide boxes of clothing—articles much needed and gratefully received.

The children of the Sabbath-school, in many instances, continue to remember the Relief Fund. There is one school where for a dozen years systematic collections have been made for all the Boards; and this Board has uniformly received its share.

The Treasurer received from an American lady sojourning in Milan, a generous remittance, asking that the receipt be sent in care of the United States Consul at Milan. It is gratifying to find that our Christian friends, when traveling abroad, do not forget the benevolent work at home.

The Rev. D. C. McCoy, a missionary of the Presbyterian Board of Foreign Missions at Pekin, China, writes: "Please find enclosed a check of fifty-six dollars, a donation from our little church in this city to the Board of Ministerial Relief. Your Board is doing a blessed work; and I have taken great pleasure in trying to interest our people in it. Please accept their gift."

T. M. Sinelair, Esq., of Cedar Rapids, Iowa, made an earnest plea in behalf of the objects of this Board at the late General Assembly in Madison, Wisconsin; and within a few

weeks afterward, he forwarded to our Treasurer a gift of three hundred dollars. It is with no ordinary feelings that we record the sudden departure of this eminently useful Ruling Elder from the service of the Church on earth.

The Board desires to make a grateful acknowledgment of the valuable services of the Standing Committees on Relief of the several Presbyteries. In guarding this sacred fund from abuse, and carefully investigating the cases of those who have a just claim to aid, and especially in the efforts in stirring up the churches to make the requisite contributions, their work cannot well be dispensed with. These Committees, kind, but firm, discriminating, wise, just, and energetic, are most heartily welcomed as helpers in this blessed Cause; and they not only have the benedictions of those who are more immediately interested, but they deserve the thanks of the whole Church.

For nearly two years, as has been already stated, the amounts distributed in accordance with the rules of the Board have been one fourth less than the several sums recommended by the Presbyteries. The enrolled applicants are presumed to be entitled to receive all that is asked for their benefit, and yet it is obvious that this cutting down, painful as it was, could not be omitted without making the Board hopelessly bankrupt. The sufferers have borne their privation with a fortitude, patience, and heroism which are worthy of the highest Have they not had their full share of the burden? Does not the question now press itself with force on the attention of the whole Church, whether this sacred obligation shall be fully met, whether the ascertained necessities of these faithful, heroic men who have been in the forefront of the battle and their godly widows and needy orphans, shall be duly supplied, with a cheerful recognition of their claims?

The message delivered by the angel of God to Cornelius, the centurion, was: "Thy prayers and thine alms are come up for a memorial before God." With this instructive fact in view, might not this Presbyterian Church look for a more effectual working of the Gospel of Salvation, and a mightier out-pouring of the Holy Spirit, if she would add to her fervent prayer a more

emphatic testimonial of the high regard for the sacred ministry, and her love unfeigned towards those who are near to the heart of the Son of God, by a more general, thorough, and liberal giving to "the Board of Relief for Disabled Ministers and the Widows and Orphans of Deceased Ministers." God's appeal to His ancient Church comes with equal pertinence now: "Bring ye all the tithes into the store-house, that there may be meat in mine house, and prove me now herewith, whether I will not open the windows of Heaven, and pour out a blessing that there shall not be room enough to receive it."

The terms of service of the following members of this Board will expire with this Assembly:—

Rev. Villeroy D. Reed, D.D., and Rev. Thomas Shepherd, D.D., Ministers. John C. Farr, Esq., and B. B. Comegys, Esq., in the place of Wm. G. Crowell, Esq., (Dec'd) Elders. Respectfully submitted in behalf of the Board.

GEORGE HALE,

Secretary.

Note.—The Permanent Fund for Disabled Ministers is held in trust by three distinct corporations, two of which were created before the Presbyterian Board of Relief was erected by the General Assembly, and in October, 1877, chartered by the State of Pennsylvania.

In the so-called New School branch of the Church, the funds invested for Ministerial Relief were held by "the Trustees of the Presbyterian House;" and in the so-called Old School branch, like funds were held by "The Trustees of the General Assembly. Legacies for the Cause of Relief are liable to come in at any time to either of these older corporations.

All efforts thus far to merge these corporations into one have failed, nor is their consolidation now deemed essential, as the corporations consist of substantially the same persons elected always by the General Assembly; and the income is always duly placed at the disposal of the Presbyterian Board of Relief.

The total Permanent Funds now are:—
Held by the Trustees of the General Assembly, \$158,244 30
""" "Presbyterian House, 38,250 00
""" "Presbyterian Board of Relief, 71,594 23

Total, 268,088 53

This fund is derived mainly from legacies, is invested always in such securities as are by law deemed safe trust funds, and in the name of the corporation.

REPORT of the GENERAL ASSEMBLY'S STANDING COMMITTEE

ON THE

RELIEF FUND,

Adopted May 21, 1881, at Buffalo, New York.

COMMITTEE.

MINISTERS.—C. P. Wing, D.D., Robert Conover, H. P. Smith, Jonathan Copeland, Lewis Lampman, George Slater, T. A. Leggett, C. L. Richards.

ELDERS.—J. H. Strong, J. G. Matthews, J. E. Alexander, I. T. Vanarsdale, Rufus Eggleston, D. R. Hall, Addison Muzzy.

Your Standing Committee on the "Board of Relief for Disabled Ministers and the Widows and Orphans of Deceased Ministers," having carefully examined the Twenty-sixth Annual Report to this Assembly, would respectfully submit the following:—

I.—As to the work done:—

1. Two years ago, in consequence of an extraordinary increase of applications and the great depression of business throughout our country, this Board was in arrears \$15,000. They now have the great pleasure to announce that this entire amount has been made up; that all old cases on the roll have been responded to, and that no new applicants have been declined for want of funds, although the demands were greater than in any previous year since the organization of the Board.

2. During the period extending from April 15, 1880, to April 1st, 1881, no less than 470 families, consisting probably of more than 2,000 persons, have been aided. Of these, 189 were ministers, 253 widows, and 28 orphans.

The number of new applicants during the year is 71, 52 of whom were ministers disabled by disease or advanced age; 18 widows, and one family of orphans.

3. The entire amount of money expended in the accomplishment of the above work was \$74,695.06, which is the sum total of the contributions of our churches to the cause

up to April 1st, 1881.

II.—It is also very gratifying to your Committee to call special attention to some features of peculiar interest in the present aspects of the work of this important Board. Among these we mention that the permanent fund has been increased to the extent of \$30,182.90, so that it now amounts to a total of \$268,088.53. The Presbyteries have invariably been careful and judicious in their recommendations. ness of the beneficiaries is shown in a marked manner by the fact that numbers of those who were generally under the care of this Board have, as soon as they could of their own accord, relinquished its assistance. During the past year, 8 ministers have been able to resume their chosen and longedfor work of preaching the blessed Gospel of the Son of God, and they ascribed their recovery to the timely relief afforded by this fund. In many parts of the church there is a growing and deepening interest in supplying relief for our disabled ministers and the widows and orphans of our deceased clergy. It is pleasant to notice that there is no falling off of the number of churches contributing, and that even our Sabbath-schools are beginning to manifest their interest. One school is particularly named as having contributed for twelve consecutive years.

III.—Your Committee therefore feels that this noble cause stands in such a position before the Church as to warrant the following resolutions:—

1. This General Assembly expresses its entire satisfaction with the encouragement of the Board of Relief and the skill

and fidelity of its officers.

2. That we heartily urge this cause upon the prayers and sympathies of our people, and recommend that a vigorous effort be made to augment the contributions for the ensuing year to a sufficient degree to enable the Board to discontinue its present rule of the reduction of the application of Presbyteries by one-fourth.

3. That, in order to secure entire harmony between the Presbyteries and the Board, this Assembly directs that when the Board sees proper to decline an application for aid, the reasons for such actions shall be transmitted to the Presbytery presenting the petition.

4. That the following members of the Board of Trustees, whose terms expire at this time, be reappointed for the ensu-

ing term :--

Rev. Villeroy D. Reed, D.D., and Rev. Thomas Shepherd, D.D., ministers, and John C. Farr, Esq., and that B. B. Comegys, Esq., be appointed in the place of Wm. G. Crowell, deceased, elder.

C. P. WING, Chairman.

Rev. C. P. Wing, D.D., the Chairman of the Committee, spoke substantially as follows:—

Mr. Moderator—I am not desirous of speaking on this subject (and do so now because the Committee have enjoined it upon me), because I feel that the reasons for supporting the cause heartily are recognized everywhere throughout the Church, and that in general it actually appeals to the feelings of the Church. Yet there must be some reason why there is so often hesitation or delicacy on the part of ministers in presenting this cause to their congregations. Perhaps it is sometimes a kind of fear that indirectly they are presenting their own cause; but I have always found a unanimity of feeling in congregations in support of it. Therefore I think that the reason why the contributions to this Board are so small lies in the general supposition that not much money is needed by it. But the fact is, on the other hand, that there is a constant lack of funds. For several years the Board has been obliged to cut down the appropriations to about one-half of the applications. And the Presbyteries have learned to guage their applications to the lowest amounts. After that the Board would be obliged to cut down twenty-five per cent. The largest appropriations are no more than \$500, and the average is about \$150. This does not indicate exorbitance on the part of Presbyteries nor recipients. On the part of the latter there is extreme delicacy. Now, we would urge most carnestly upon the Commissioners to arouse the Presbyteries, that they may more nearly reach by their contributions the amounts of their own applications. There is no class more needy. It is something ungenerous to show reluetance to sustain such men, who have sacrificed everything for this Gospel of Christ. The retired army officer is not so treated.

The Committee also found that some complaints and grievances had been presented by Presbyteries against the Board. All the Boards labor under great difficulties, but particularly this Board. But we have commended it as eminently judicious and wise in the use of funds and in its general work. We press upon the attention of the Presbyteries this thought—be careful not to put upon the Board such work as plainly transcends its rules and powers.

MEMORIAL.

The following memorial from the Board was read to the Assembly May 21, 1881:—

To the Honorable the General Assembly:—

Your Board of Ministerial Relief, having adopted the regular Annual Report, are moved to send with it a special communication. We are the more encouraged to do so because of the growing favor with which this work has always been received by the Assembly and the Church. It is no small matter that, in presenting a report, which is only our twenty-sixth, we should be able to speak of more than \$1,373,000 as already given for this cause, and that nearly \$112,000 of it was contributed during the last twelve months, with every token of sympathy and interest. There is steady approach toward the point at which every rightful claim upon this fund can be met; and the very fact that such a point is, in the nature of the case, really attainable is itself full of stimulus.

Yet these contributions, though larger than ever before, represent not more than twenty cents from each of our communicants, even including those gifts of which only the interest is available; and the funds given for current use yield an average allowance of only \$150 to each of the families on our roll. For the roll is now very large; it numbers 470 families, which include more than 2000 persons. There are no cases but those of actual need comprised in this list; for the contributions are not large enough to permit our helping any other class. It is, of course, still more impossible for us to give anything like the full support which they need. Each case is carefully investigated by the Presbytery, and, wherever that is advisable, by the Board also, both bodies acting in the most delicate and judicious manner attainable. The recipients themselves exercise the utmost self-restraint in their requests,

each of them doing what he can to leave the fund free to relieve others. The result is, that in each case a certain sum is adjudged by all parties as the very least which ought to be given. Yet, for still another year, we have been obliged systematically to cut down even this minimum, because we cannot distribute more than the churches give us for the purpose.

The contributions of last year needed to be one and onethird times as much as they actually were, in order to have reached even this extremely lowest point of desirable help to the suffering; and a still larger increase is necessary for a really fair amount of relief in the future.

Experience shows that, among all the benevolent works of our Church, there is none which more surely reaches the heart and conscience of the people than does this one, wherever its facts and principles are fairly presented to them. Our special appeal, therefore, is to the pastors themselves, through whom alone this information can effectively reach the people. There is great importance in the very form of announcing the collection, as being not "for the Board," but for the relief of disabled ministers and the widows and orphans of deceased ministers. The very words carry weight with them to every Christian heart, and this is still more true whenever the principles which they involve are understood.

1. The chief appeal is to the principle of loyalty to Jesus Christ Himself as the King of His Church. It is expressly declared in Scripture that the Lord has ordained that New Testament preachers of the Gospel shall get their living from the Gospel "EVEN so" as Old Testament priests got their food from the things of the temple (See 1 Cor. ix. 13, 14).

We are taught that ministers shall give themselves, not to self-support, but to the Gospel; and public opinion in the modern Church enforces this requirement. But it is no less plainly taught that the people shall enable them to do this by supporting ministers and their families during active service and after it; and the churches do not enforce this part of the requirement quite so rigidly.

Yet there is no doubt, even from this one passage of Scrip-

ture, that the Old Testament enforced both of these requirements alike, or that the Lord Jesus Christ has expressly ordained that the New Testament Church shall act on the same principle. Surely, though the Church fail to support its members adequately when they are in active service, the least it can do is to obey that part of Christ's law which requires that they shall not be left to suffer when disabled. Our chief appeal is to Christian conscience and the principle of loyal obedience to Jesus Christ, as we ask for practical regard to His own express ordinances, this one of which is as plain as that of the Christian Sabbath.

- 2. Our appeal is also to the sense of justice in the Church toward men who have served her faithfully, with all they had and all they were, until strength gave way. To give at least some adequate help toward the support of such men is not mere charity, but plain justice. This fact is recognized as as such by the world around us, which declares that we wrong them if we leave them to suffer unhelped.
- 3. We are certainly not forbidden to enlist, in addition to these principles, that of compassion for the actual sufferings and privations of these men and their families. They deserve honorable support as ambassadors of Christ; they deserve it as faithful servants of the Church; they deserve it as suffering Christians, our own brethren in the Lord. Many of the facts in this connection are simply apalling—such as painful sickness, the lack of food to a degree close upon actual starvation, and the torture of seeing a helpless, dependent family suffering keenly for the very necessities of life. Such cases are not by any means few in number, and the men who endure such things are commonly those who have toiled from twenty to fifty years on our hardest fields. This relief fund can prevent or dispel an untold mass of misery in these hundreds of homes if the churches will only make the reasonable effort which is now asked. Practical effort toward that end is sought from every church member or pastor to whom these words may come. If such a response is actually rendered, this end can be insured immediately; there need be no desti-

tution among any of these families, but instead of that a bodily relief only exceeded by the joy of heart which they express when able to realize that the heart of the Church does give them sympathy and recognition. "Inasmuch as ye have done it unto one of the least of these my brethren, ye have done it unto me." May that benediction rest upon each of us in the membership of Christ's Church.

ELEVENTH ANNUAL REPORT

OF THE

Presbyterian Committee of Missions for Freedmen

TO THE

GENERAL ASSEMBLY OF THE PRESBYTERIAN CHURCH,

From March 1st, 1880, to April 1st, 1881.

The Presenterian Committee of Missions for Freedmen respectfully presents to the General Assembly its Eleventh Annual Report, and in doing so would record its gratitude to God that the

past year has been one of encouraging success.

The Standing Committee on Freedmen of the last General Assembly recommended the following, which was unanimously adopted, in regard to the election of a secretary to take the place of the late Rev. A. C. McClelland: "No other office to-day in the gift of the Church presents greater opportunities for usefulness, or devolves a heavier responsibility upon its occupant, than that which has just been vacated. We recommend that the Assembly instruct their Committee to feel no hesitation in calling to that post the ablest and best qualified man, (whether minister or layman,) whoever he may be, and wherever he may be found." After careful inquiry and the most delicate consideration, the Committee in June elected as its secretary Rev. R. H. Allen, D. D., pastor of the Pine Street Presbyterian Church, Philadelphia, whose knowledge of the colored people and sympathy in their behalf are well known; and information received from all quarters convinced the Committee that in making this selection it expressed the sentiment of the Church. Dr. Allen accepted the appointment, but owing to the claims of the church he had served so acceptably for fourteen years, he was not able to enter upon his new duties until September. Since that time he has been engaged for the most part in presenting the claims of the Freedmen to churches in the East, which have been cordially opened, and in making arrangements for extension of the work in the future.

The contributions to this cause, while they have not been as large as we hoped, have still been encouraging. Though for most of the year there was no secretary in the field to stimulate the churches, the entire receipts from churches and individuals have increased over those of last year \$5,074.80, with an increase of ninety-one contributing churches. We confidently hope that next year will show a decided increase in both these regards. When it was understood that

the last payment of this year would be the largest ever made by your Committee, no little concern was felt in regard to meeting their liabilities; but the contributions during March relieved your Committee of any apprehension on this point, and enabled them to make all the payments promptly, and left in the treasury a balance of \$6,038.58. This gratifying result, we trust, is the promise of a forward movement, and an enlargement of the work of your Committee during the coming year.

not contributing are in much the same condition.

The moneys credited to Freedmen's churches include only the amounts reported to the Committee as given in support of our missionaries among them, and for the various other objects which pertain to church work in this field. The Freedmen have done much in the erection and repair of churches and school houses, of the money value of which no estimate has been formed. We may also say that the churches composed of the Freedmen are encouraged to contribute to all the Boards of our Church; and we believe that not a few of them have done so, although the sum in each case may have been small.

BEQUESTS.

The proceeds of some small bequests have been received during the year, and the Committee has been informed that several bequests, some of them quite large, will be paid as soon as the settlement of the estates can be effected. It has also come to the knowledge of the Committee that a number of persons during the year have taken measures whereby this cause will receive no inconsiderable amounts upon their death. It is earnestly hoped that the friends of the poorest and most despised people in this land will continue to provide help for them in the final disposition of the property or money entrusted to their keeping.

MISSIONARIES.

These are preachers, catechists, and teachers; and in the work under care of the Committee the present year—including assistants in schools—the number is as follows:

Ordained ministers, of whom Licentiates.	51	are colored,	72
Catechists,	20,	all "	20
*Teachers, males, of whom females, of whom		are "	70
•	127	. · · · · · · · · · · · · · · · · · · ·	62

Most of these ministers have large fields to care for, including, in some cases, four, six, and seven churches. The catechists are very useful assistant missionaries, and have done a large amount of valuable church and Sabbath school work. The teachers are commissioned, not as mere educators, but as Christian missionaries.

As a rule, your Committee employs as teachers only members of the Presbyterian Church; and, in general, they seem to realize that their mission is not educational merely, but *religious* as well, making prayer, praise, Scripture lessons, and catechetical instruction a constant accompaniment to the daily routine of school exercises.

In this missionary spirit of our teachers, as we think, lies one grand power of our work. With daily access to the minds and hearts of thousands, at a period when the memory is most retentive, and the heart most susceptible, their opportunities for doing good can not well

^{*}Besides these, 21 others of our ministers and licentiates, and 3 catechists, have also been engaged in teaching, making, in all, 94 engaged in teaching.

be overestimated; and hence means sufficient to supply every church under care of your Committee is greatly to be desired. Indeed, our ministerial missionaries feel that parochial schools are essential to the best success in their labors.

Our schools continue to be strictly parochial; and statistical reports from the field show that, besides the large amount of "good seed" sown in the hearts of the young by our missionary teachers, their work still tells encouragingly in the way of TRAINING INSTRUCTORS FOR THEIR OWN RACE. These schools may be grouped as follows:

I. CHARTERED INSTITUTIONS.

Biddle University, Charlotte, N. C. Wallingford Academy, Charleston, S. C. Scotia Seminary, Concord, N. C.

II. NORMAL SCHOOLS.

Brainerd Institute, Chester, S. C. Fairfield Institute, Winnsboro', S. C.

III. GRADED SCHOOLS.

IV. COMMON PAROCHIAL.

Your Committee would call the attention of the Assembly to the following items of interest:

INCREASE OF THE COLORED POPULATION.

Many have supposed that the colored population of the South, after their emancipation, would diminish and perhaps die out ultimately, owing to the fact that they knew nothing about providing and caring for themselves and their families, as this had been done heretofore by their owners; but the late census shows a totally different state of things. The increase of the colored people in the slave states from 1850 to 1860 was about nineteen per cent. Their total population in 1860 was 4,018,389; in 1870 they had increased 223,614, making a total of 4,242,003—an increase at the rate of almost five and a half per cent. In 1880 they had increased to 6,037,872, or at a rate of about thirty-four per cent., while the white population in the same original slave states shows an increase of not quite twenty-eight per cent. It must be remembered, too, that this increase of the colored people is entirely by native birth. More colored people left these states during every one of these decades than came to them.

It will be noticed also that the rate of growth by birth in a state of freedom has been much more rapid than in a state of slavery; thirtyfour per cent. being the rate since they were emancipated, while twenty-two per cent, was the average of increase during the last two decades in a state of slavery. These facts clearly indicate that the physical condition of the colored people has been greatly improved since they became free men, and no longer merchantable chattels to be bought and sold. The total colored population of our country to-day is 6,577,151. In South Carolina three fifths of the whole population are colored; in Louisiana and Mississippi from one half to three fifths are colored; in Alabama, District of Columbia, Florida, Georgia, North Carolina, and Virginia, from one third to one half of the whole are colored; in Arkansas and Tennessee one fourth to one third are colored; nearly one eighth of the whole population of the United States consists of colored people, so that every eighth person in the land is a colored person.

It is very evident from these facts that the colored race is not to die In the mere matter of numbers it has become an important factor in our country, and is destined to exercise a tremendous power for good or evil in the land. This race has fastened itself upon our soil as well as upon the institutions of the land. It is not to be separated from the white race, but is to advance and develop as it advances and develops. We can not get clear of this race. God's providence has cast their lot in with ours, and our civilization can advance only as we take them with us. It has been well said that "This is not, and is not to be, the white man's government or the black man's government; but is, and is to be, the government of both races. Neither will nor can supersede the other. Both are to live together, and share together in the good or ill of a common country. The Constitution of the United States gives to both a common citizenship, without any distinction 'on account of race, color, or previous condition of servitude.' "

THE IMPORTANCE OF THE WORK.

From the above facts you may readily infer the great importance of the work which your Committee is doing, and must still do among the Freedmen. In the very heart of our country we have nearly seven millions of people, who, as a race, are ignorant and degraded; and yet we have laid upon them the responsibility of American citizenship; we have put into their hands the inestimable privilege of the ballot; we hold them responsible for the influence they shall have on the institutions of our land: and now we must give them the means of meeting this responsibility, and help them bear the burdens we have laid upon them. The Freedmen want to do right, and will do right if they meet with a generous encouragement. Said President Garfield in his inaugural address:

"The emancipated race have already made remarkable progress. With unquestioning devotion to the Union, with a patience and gentleness not born of fear, they have 'followed the light as God gave them to see the light.' They are rapidly laying the material foundations of self support, widening the circle of intelligence, and beginning to enjoy the blessings that gather around the homes of the industrious poor. They deserve the generous encouragement of all good men.

"So far as my authority can lawfully extend, they shall enjoy the full and

equal protection of the Constitution and the laws."

Speaking of the danger of ignorance among those who are to exercise the ballot, the President continues, in the same address:

"The census has already sounded the alarm in the appalling figures which mark how dangerously high the tide of illiteracy has risen among our voters and their children. To the South this question is of supreme importance; but the responsibility for the existence of slavery did not rest upon the South alone.

^aThe nation itself is responsible for the extension of the suffrage, and is under special obligations to aid in removing the illiteracy which it has added to the voting population. For the North and South alike there is but one remedy. All the constitutional power of the nation and of the states, and all the volunteer forces of the people, should be summoned to meet this danger by the saving influence of universal education.

"It is the high privilege and sacred duty of those now living to educate their successors, and fit them by intelligence and virtue for the inheritance which awaits them. In this beneficent work sections and races should be forgotton, and

partisanship should be unknown."

President Garfield is not the only man who feels the importance of the education and enlightenment of the colored people. This feeling is prevailing among the best circles of Southern people. Some of the governors and senators from the Southern States have given utterance to high and noble sentiments on this subject, and pledged themselves to know neither white nor black in the rights of citizenship, but to recognize all equally before the law. The Governor of South Carolina, in his inaugural address, says:

"It is true that never before in all their history have free institutions been subjected to such a strain as the reconstruction acts of the National Government placed upon them here; but the political equality of all men in South Carolina is now as fixed a feature in her policy as is the Blue Ridge in her geography. It can never be suppressed nor evaded. The solution of the problem requires the wisest thought, the gravest counsel. It seems to me that I see it in firmness, moderation, justice. Let these characterize every act of legislation. It is my

duty as Governor to take care that the laws are faithfully executed in mercy. I repeat the pledge made before my election, that in the discharge of this high trust I shall know neither white man nor colored man, but only citizens of South Carolina, alike amenable to her laws and entitled to their protection."

LABORERS IN THE FIELD.

The field which your Committee specially occupies lies largely in the Carolinas, Georgia, and Tennessee, with a few missions in Virginia, Kentucky, and Florida. A great and inviting field spreads out all around us, into which we have made no entrance whatever—Alabama, with her 600,249 of colored people; Louisiana, with 485,794; Mississippi, with 650,337; Texas, with 394,001; and others of the original slave states have not been touched by your Committee. There are earnest appeals coming to us from these states, and if we had the men and the money we would enter them at once. Sister Protestant denominations have taken up the work among the Freedmen with earnestness and zeal, and we certainly bid them Godspecd. The Methodist Episcopal Church has 6 chartered institutions, 3 theological schools, 1 medical college, and 10 other schools, in 11 of the most populous Southern States. In these schools they have 80 teachers and 2,400 pupils. They expended last year for their work among Freedmen \$90,287.33, and have appropriated for this year \$125,000. The Baptists have 8 seminaries and institutes located in 8 states, with 38 teachers and 1,191 pupils, together with 15 Sunday school missionaries laboring especially among the Freedmen. They expended last year for their work \$23,397.42. The American Missionary Association has flourishing colleges and schools in Virginia, North and South Carolina, Georgia, Alabama, and Florida, with 73 churches and 4,961 communicants. This Association expended last year for church and educational work \$130,929.82. The Episcopal Church has missions among the Freedmen in 11 different states, with 13 white and 11 colored clergymen, 4 lay readers, and 18 teachers. They report The Friends \$10,417.90 as expended for their mission work last year. also are doing a limited but efficient work in some of the Southern States and Kansas. While we rejoice to have so many evangelical churches entering with us on this great and good work, we feel no little concern at the inroads made among the Freedmen by the Romish Church, that archenemy of the true Gospel. She is greatly adding to her efforts to win these poor people over to her false ideas of religion. Additional priests have been sent among them and new schools opened. She has to-day 100 choice young colored men in Rome, whom she is preparing and qualifying for the priesthood, to be sent among the Freedmen.

ENLARGEMENT OF THE WORK.

In considering the foregoing facts, your Committee feels most deeply and solemnly the importance of enlarging and pushing forward the work among Freedmen. The Church to-day has no more important mission placed in her hands, nor one in which are centred so many interests vital to the Church and government. Judge Albion W. Tourgee, the author of "Bricks Without Straw," a man who has

thoroughly studied this question, in a letter to the secretary, says of the work of educating and Christianizing the Freedmen: "'Tis the grandest mission ever yet laid on the heart and brain of a Christian nation. You are altogether right, and allow me to say that you have a divinely appointed work, and I congratulate you on your happy preparation for it, and thank God for having called you to it." consider the momentous interests involved in this question—when we already are beginning to feel the mighty influence which the colored race is having and must have in the future on the institutions of our land—we may well be amazed at the indifference with which the Church has heretofore regarded this important mission, involving as it does the elevation and enlightening of nearly seven millions of ignorant and degraded people, upon whom have been suddenly thrust the burdens and responsibilities of citizenship. It is neither wise nor right nor Christian to permit these people to remain in the ignorance to which slavery reduced them and in which freedom found them. We should enter at once those great states, with their teeming thousands of colored people, which we have not yet touched, and who are earnestly asking for help. We should have two hundred thousand dollars instead of sixty-eight thousand, to enlarge the work and push it forward into these new and inviting fields. Our educational efforts are of the highest importance, and must receive liberal gifts, in both money and well qualified instructors; for we are fully persuaded that the most effective way of giving the Gospel to the colored people of the South as speedily as possible, is to enlarge and cherish our Christian and educational work there at once.

The Committee feels deeply the obligations which are laid upon the Church to give the colored people of the South the Gospel. For two hundred years they were held in bondage by the laws of the land. These laws which enslaved and kept them in slavery were recognized North and South, both by the Church and the State. After two hundred weary years they are emancipated. They were turned out to take care of themselves-free, 'tis true, but utterly penniless, friendless, and homeless. Heretofore they had been cared for by their owners; their food, clothes, and cabins were furnished them by their masters: but their emancipation swept all these away from them, and left them absolutely nothing save their freedom, and hardly that, so helpless and poor were they. Their moral condition, too, was appalling. Their ideas of honesty, truth, virtue, and the solemnity of the marriage tie, were very low indeed; but this low and degraded moral condition was the legitimate result of the slavery in which they were so long held by our laws. Now they are free-made the possessors of all the rights and privileges of citizens. They want to meet the responsibility laid upon them; but how can they, unaided and alone? We can not expect from them "bricks without straw" On whom rests the obligation to help these people? Who are they who should be the first to grasp their outstretched hands and lift them up from their low condition, and start them out on their new career with a true and hearty Godspeed? Surely it requires no second thought to see and feel that this obligation rests most solemnly on the Christian people of this land, and if neglected it will be at the shame—yea, and at the peril—of the Church and the country.

ADVANTAGES OF LOCATION.

Standing upon an elevated plat of twenty-four acres, in the suburbs of Charlotte, North Carolina, its location is healthful as well as beautiful. Established for the special purpose of training colored preachers, catechists, and teachers for their own race, its location has special advantages for this purpose. It is in their midst, among the best of their class, and at the terminus of six railroads. Hence it is easy of access, attracts the most desirable students, keeps them surrounded by their own people, among whom they find abundant opportunity for doing good during term time, and in vacation an open field near at hand for missionary work greatly needed. Another advantage is, that thus surrounded, they will retain, in a large measure, the simple and inexpensive habits of their own people; and, moreover, having been gathered from and thus constantly kept in contact with those among whom, for the most part, they are preparing to labor, they will necessarily retain a oneness of feeling with and an adaptation for laboring among them, which may scarcely be hoped for in those who have not been so gathered and so trained.

BUILDINGS.

The buildings comprise the president's house and three houses for professors, one of which was built during the past year, at a cost of \$3,500; the University, 50x54 feet, and three stories high; a boarding hall, and two small dormitories. The estimated value of the grounds and buildings is \$26,000.

COURSE OF STUDY.

For a time after its organization a regular Classical Course was not attempted; but now, besides a *Preparatory* English Course of two grades, Higher and Lower, and an *English Normal Department* covering a four years course, it has also a *Classical Department* requiring the same time, and a *Theological Department* requiring a three years course.

PURPOSE AND WORK.

Of the 202 students reported for the past year, 131 are professors of religion, 50 studying for the Gospel ministry, and 15 serve as catechists; 68 have taught part of the year, enrolling over 3,894 pupils; and 45 of these, while teaching, have superintended Sabbath schools enrolling over 2,581.

ITS IMPORTANCE.

This institution, established for the special purpose of training colored preachers, catechists, and teachers, as instructors of their own race, holds a place of the first importance in the work of our Church among the Freedmen. It is the only one of its kind under care of our Church in all the Southern States, and stands as her future college and theological seminary for all the Atlantic States south of Virginia. This institution is worthy the entire strength of the best men the Church can furnish, and is second to none in its claims upon the sympathy, prayers, and gifts of our people.

Besides its general it has a special local importance in the fact that the president and professors, aided by the catechists of the University, have gathered and constantly care for quite a number of churches

located in its vicinity.

NEEDED.

1st.—Scholarships of \$100 each, for a single year, for a number of years in succession, or until the close of a student's course of study. 2d.—A General Aid Fund, to assist students who can support themselves for but part of a single year. 3d.—Clothing.—Boxes of substantial clothing, for distribution among needy students, are always in demand, and can always find grateful wearers. Bed clothing of all kinds is also needed. 4th.—Endowment.—As yet the institution has but \$6,000 endowment fund, and, save the proceeds of this, the members of the faculty have to be supported just as other missionaries are, from the treasury of your Committee. Hence, permanent endowment funds for the adequate support of its professors are an imperative want of the University. 5th.—Buildings.—With comfortable accommodations for 65 students while 175 are on the ground, and but four houses for five professors, more room is a pressing necessity. The growth attained by Biddle University requires a large college building, that it may be able to do what is expected of it. Both in the building used at present for teaching purposes, and in the sleeping apartments for the young men, they are crowded to excess. A large new building has become an imperative necessity. The American Missionary Association, the Baptists, and Methodists have erected buildings for their institutions which are a credit to themselves and the cause. The Presbyterian Church needs to do likewise. Biddle University is our only chartered institution with a Theological Department in the South, where we can educate colored students on the field. This is a very important fact, for it is well known that the preachers and teachers who are most successful among the colored people are those who have been born, reared, and educated in their midst. This institution is our only hope of educating native preachers and teachers, and if it does this as it should, then large and better accommodations must be had. We must arise and build at once. Any longer delay will seriously impair the future usefulness of the institution. The Committee has been furnished plans of just such a building as in their judgment they think should be put up. It is complete in every department, and would amply meet all the present wants of the institution, and those which may arise for some years to come. This new building will cost something, but it is absolutely necessary for the success of the college, and the Committee expects to make strenuous efforts to put it up at once, and to accomplish this will make heavy and earnest demands upon the benevolence of the Church and the friends of the colored race. The present building is wholly inadequate for the purposes contemplated, and in no way is it a credit to the great Presbyterian Church and the cause to which it is devoted. It is greatly needed, however, for the accommodation of the students with a refectory, and more rooms for study and sleeping, and with comparatively little expense can be removed to a suitable location on the college grounds and used for these purposes.

Biddle University, even in its present cramped circumstances and limited facilities, has sent out many of our best and most successful preachers and teachers now laboring among the Freedmen. Already it begins to supply that great want of the people, i. e., preachers and teachers reared and educated on the ground; and, if encouraged and supported as it should be, will in a few years more astonish the Church by the number and character of the ministers and instructors which it will send into this great field. The Committee especially calls the attention of the Assembly and the whole Church to the pros-

pects and needs of Biddle University.

SCOTIA SEMINARY.

REV. LUKE DORLAND, Superintendent.

MRS. J. E. DORLAND,

MISS JESSIE HARPER, MISS MAY WEAGLEY,

Miss S. Ida Allen,

MISS N. E. LATHAM,

MISS MARY C. CHAPMAN,

Teachers.

Scotia Seminary is located at Concord, Cabarrus County, N. C. Its design, as expressed in its charter, is "to educate colored girls in religion, and in the arts and sciences usually taught in seminaries of a high order; and in those domestic duties which belong to the highest type of wife, mother, and teacher." In it "Religion is first. The Bible and Catechism are constantly taught, both week days and Sabbaths; while at the same time the pupils are thoroughly trained in all the arts and sciences usually taught in seminaries of a high order, and in all kinds of domestic duties."

The Seminary now reports 181 pupils, of whom 110 are professors

of religion; 31 have taught part of the year.

Concord, North Carolina, is a point on the route from New York through Richmond to Columbia, S. C., and Atlanta, Ga., and is easily accessible from all parts of the South. The location is healthful.

BUILDINGS.

Some four years ago a neat and very convenient, but plain main building, in the form of a T, was designed. The funds on hand, however, allowed of only the front part (head of the T) being erected. It is of brick, 75 by 42 feet, three stories above the basement, and cost about \$12,000. The old Seminary building, the Home, the Library, and store room are small but useful buildings. The entire property of the Seminary, including the grounds and about \$1,500 endowment fund, is estimated at \$16,500.

WANTS.

1st.—Scholarships of \$45 each, and partial scholarships. The demand for these is constantly increasing with the increase of the number of pupils. As a rule, orphans and pupils from large families must be aided, or an education must be denied to some of the most promising and enterprising of their race. Tuition is free, and \$45 will furnish boarding, fuel, and light for one pupil for the entire term (year) of eight months. "Patrons," says the superintendent, "have been a double blessing to their wards by their correspondence. Some of the most promising girls have been thus led to the Saviour." 2d.—Clothing.—Boxes of good second hand wearing apparel are always in demand, to be worn as sent, or cut and fitted by the pupils themselves.

3d.—\$10,000 to erect and complete the remaining part of the main building, the stem of the T. The building is now insufficient, the number of pupils increases annually, and more room is greatly needed. 4th.—Endowment.—This institution should be permanently endowed. At present it has but \$1,500 for this purpose. Would not the completion, furnishing, and endowing of this institution—established for the special purpose of lifting the daughters of this lowly people to their proper place and influence among their own race, by means of a good Christian education—be an appropriate undertaking for the ladies of our Church, to be accomplished both by individual gifts and organized effort?

WALLINGFORD ACADEMY.

REV. THOS. A. GROVE, Principal.

MISS BLANCHE PATTERSON,
MISS JENNIE MCGINTIE,
MRS. ROSA H. HAMILTON,
ROBERT W. HOLMAN,
WM. F. MIDDLETON,

This institution is located in Charleston, South Carolina. It reports as enrolled during the past year 548 pupils—115 more than were reported for the preceding year. Paid by pupils for tuition, \$482.60.

GROUND AND BUILDINGS.

The ground upon which the Academy stands is a city lot, about 60 feet wide by about 200 feet long, extending entirely through from Meeting Street to Nassau Street. The main building fronts on Meeting Street, one of the principal thoroughfares of the city, and is seventy feet in length by forty in breadth, with a porch in front, and an addition in the rear for a recitation room. The upper part is used for church purposes; the first floor, divided into four rooms, is occupied by the school. On the other end of the lot, fronting on Nassau Street, is the Teachers' Home, a house of moderate size, but conveniently arranged for its purpose. These buildings are comparatively new, and were erected at a cost of about thirteen thousand dollars, of which about seven thousand eight hundred was paid by the Freedmen's Bureau. There is no debt upon the property.

DESIGN.

Under the present supervision the design is to render this a thoroughly Christian school. Not only are the Scriptures read and its practical precepts explained and enforced, in connection with the morning worship of the whole school, but a portion of the Catechism

is memorized as one of the daily exercises. This is selected, not for any mere sectarian purpose, but to the end that their youthful minds and hearts may be early impressed with the great doctrines of the Gospel. It is also intended to secure the most thorough mental culture possible.

WANTS.

In order to make this school more efficient, apparatus, maps, charts, globes, and the means of illustrating the more common facts and principles of natural science would be of great advantage.

BRAINERD INSTITUTE,

NORMAL AND INDUSTRIAL.

REV. S. LOOMIS, *Principal*.

MRS. M. R. LOOMIS,

L. M. LOOMIS,

Teachers.

LOCATION AND FIELD.

Brainerd Institute is located in Chester, an important and growing railroad centre in upper South Carolina, a town of about two thousand inhabitants; the whole county embracing twenty-five thousand, of whom sixteen thousand are colored. In this and the three adjacent counties—York, Lancaster, and Union—their numbers reach nearly forty thousand, and this is the only school within these boundaries above the grade of primary. Around the Institute are clustered the nine churches that have constituted Brainerd Mission, and on every hand public and Sabbath schools, instructed by Brainerd scholars.

DEPARTMENTS OF THE INSTITUTE.

Since the public school authorities of Chester united with the Committee in sustaining some branches of the work, the Institute has been reorganized, and a graded course of study adopted in three departments—Primary, Grammar, and High School—all so arranged as to give a very thorough, symmetrical, and complete English and scientific education. Scholars from the mission churches and surrounding country, as well as those from the town, enjoy the advantages of this graded course. Liberal provision has been made of the various appliances so essential to successful study, such as blackboards, maps, charts, and material and apparatus for illustration in the natural sciences.

NORMAL DEPARTMENT.

This department of the Institute, continued in different forms now for a number of years, which has supplied this region of country with day and Sabbath school teachers, and done much to raise the standard of education in the county, will be continued with still better facilities, and receive greater attention in the years to come. The prosperity of the people—material, social, moral, and religious—is so largely an outgrowth of what the public school teachers are and do, we can scarcely give too great prominence to this branch of our work.

INDUSTRIAL AND AGRICULTURAL DEPARTMENT.

But the most important measure of the past year making progress in the right direction, has been the inauguration of an Industrial Department of the Institute, and to some extent the formation of plans for its successful operation. The design is to enable students to aid themselves in obtaining an education; to develop the strength and hardihood that come from self help; to maintain and promote habits of industry; to counteract the danger of sickness and disease so often the result of sedentary occupation; to provide more wholesome living from orchard, farm, and garden; and to impart a practical acquaintance with improved systems of agriculture, now the all important need of this Southern country.

As a beginning of the Industrial Department, one hundred acres of land have been obtained by the Institute, at convenient distance from the town, with about thirty acres wood land, well situated for cultivation, improvement, and instruction. It needs but a small outlay, and the foundation is successfully laid for the practical education of multitudes of colored youths through generations to come.

For this small outlay assistance is earnestly solicited from all inter-

ested in this branch of the work.

BUILDINGS AND GROUNDS:

The Institute buildings are beautifully situated on nearly two acres of ground, not far from the centre of the town, and near the three railroad depots. These comprise the chapel, Institute building, and two cottages containing dining room and kitchen, with rooms for students. A new house for boarding purposes has been built during the last year, at a cost of \$600. Two other school buildings, at a little distance, are provided by the public school authorities. And the last year the opportunity occurred of leasing, at small expense to the Committee, a large two story mausion, 50 by 80 feet, with extended piazzas, airy, well finished rooms, and ample accommodations for a large number of students.

BIBLE STUDY.

In conclusion it may be added that Bible study in the future, as in the past, will be interwoven with all the instruction of the Institute, and be given the chief place in the educational work.

FAIRFIELD INSTITUTE,

Winnsboro', S. C.

REV. WILLARD RICHARDSON, Principal.
MRS. H. A. RICHARDSON,
MISS CLARA RICHARDSON,
MISS JULIA FRIPP,

Teachers.

This school reports 354 pupils enrolled—78 of them professors of religion, of whom 25 are studying for the Gospel ministry. Twenty-four have taught part of the year.

SPECIALTIES.

While the principal has also the oversight of five churches, in whose welfare he is deeply interested, seeing the great want of properly qualified colored *teachers* for the schools of the state, he makes the

training of such a specialty in his Institute.

Another specialty of this school is to train workers for Africa. The supplies for missions to Africa must come mainly from this country, and the good can not be overestimated that can be done by selecting out the brains, as well the piety, that are required to test what the negro may do for his native land. The wisdom of the Committee in selecting teachers, as well as preachers, for the work South, is vindicated by the thousands of Sunday school scholars taught by those educated under these teachers, and will be still more vindicated by those who will do a far greater work in Africa.

For those who are preparing for Africa—young men, young women, and families—there is needed a varied education, as the character of its Christianity will depend very much upon the direction given to it by its founders. The church, the school house, the workshop—in fact, all the industries and economies of society must go hand in hand with

Christian ethics to form a worthy religion for any people.

GROUND AND BUILDINGS.

The ground is a town lot in Winnsboro', of over one acre. On the front is a "Home," a neat two story frame, containing six rooms. On the rear stands the church and school building, frame, 60x33 feet, divided into three rooms, one 33x42 feet, the others about 18x15 feet each. A new house for boarding purposes has been erected during the last year, at a cost of \$500. There is a farm also connected with the Institute, carried on by the students. Besides these there is a small dilapidated frame, and a "barn," worth about \$75 each. The entire property is valued at \$3,900.

ADVANCE.

In later letters received from the principal, he says:

"The Bible is gaining a far more controlling influence than it has ever had before, and we all feel much better satisfied with the religious results of our work. Those who are preparing for teachers are toned up to a higher level, and are realizing their responsibilities. Their compositions each week show a marked increase of moral education, as their prayers do of spiritual power."

WANTS.

In view of the number of pupils in attendance, and the buildings described, it will readily be perceived that the great and pressing want of this institution is more room. A few girls can be accommodated in the small frame—old "negro quarters;" and for want of better, as many as twenty boys have been occupying such quarters as could be improvised for them in the "barn." The principal says: "I am sorry you could not furnish funds to buy the desired lot"—a very suitable one at low price—"and, as I had to take it or give it up, I have become responsible for it. My hands and head are now full of teaching, day and night school, and meetings, but I hope ere long to have leisure to make an effort for buildings." The special want in this regard is two very plain frame buildings, costing about \$600 each. We need hardly add that aid for the erection of these buildings would be well bestowed and gratefully appreciated.

STATISTICS FROM THESE.

The five institutions just referred to have each sent up statements for the past year, which combined give the following:

Whole number of students enrolled,	27
Number of these professors of religion,	
Number of these in the Presbyterian Church,	8
Whole number studying for the Gospel ministry	9
	8
Number who have acted as catechists,	24
Taught school part of the year, 14	5
Whole number of months taught by all, this year, over 38	32
Whole number of pupils in all their schools, about 7,11	2
Amount of pay received, in cash and board, by all, about \$6,90	5
Number who superintended Sabbath schools while teaching, 8	5
Whole number of scholars in these Sabbath schools, 4,88	31

In considering the figures of these tables, it should be remembered that those pertaining to students for the Gospel ministry, catechists, and superintendents of Sabbath schools, came from but four of the five institutions named, as Scotia Seminary is for girls only.

CONCLUSION.

Your Committee feels that the importance of the field it occupies and the work it is doing can not be overestimated. To seek the elevation and evangelization of nearly seven millions of poor people who have just emerged from the darkness of two centuries of slavery, and taken their place among the free citizens of a great republic; to plant schools and colleges and churches among them, that the rising generation of colored people may rightly understand the nature and spirit of the institutions of the land, in the future weal or woe of which they must become, in the very necessity of the case, important actors, is a work that should commend itself to the patriotic and Christian sympathy of the Church and nation. In looking over this report it will be seen that the work of your Committee is enlarging and expanding. Our educational enterprises are especially encouraging, and some of our institutions have attained such growth that they need to be enlarged. Feeling the responsibility of the work committed to its hands, and knowing the heavy demands that will be made upon it this year, your Committee most respectfully and earnestly asks the General Assembly to commend this cause to the churches and to the help of all who wish to aid in the great work now in progress among the Freedmen.

Your Committee concludes this report in the language of one of our

colored missionaries:

"I wish some one could draw a pen picture of our condition, with illustrations as clear as those in the BIBLE LOOKING GLASS, and put them into the hands of every friend to the cause of Christ and the suffering poor in our country. Without fear of being charged with exaggeration, I say unhesitatingly that there is no department of benevolent work in connection with the great Presbyterian Church that demands more sympathy than this work among the Freedmen. Six millions of human beings—born in a day—emancipated from slavery, with all the ignorance, superstition, corruption, and poverty that had accumulated in two hundred and fifty years—are a part of the American citizenship. They are free men, who must help to govern the nation, and whose influence, either for good or evil, upon the present and future generations of this country, is by no means small.

"If our people are educated in the head and in the heart, they will be a power for good in the State and in the Church; but if they are neglected, if they fail to receive proper religious training, they will be a power for evil everywhere. They will remain as stumbling mudsills in society, and will die as poor in body and soul as the heathen, and go away into everlasting punishment. Will the Church allow this to be

the case? It will not; it can not."

Submitted to the General Assembly at Buffalo, New York, by order of the Presbyterian Committee of Missions for Freedmen, April 25th, 1881.

ELLIOT E. SWIFT,

R. H. ALLEN,

Chairman.

Secretary.

Action of the General Assembly.

BUFFALO, NEW YORK, MAY, 1881.

Rev. J. H. Nixon, D. D., presented the report of the Standing Committee on Freedmen, and submitted the following resolutions:

We respectfully submit the following resolutions for the action of the Assembly:

First. The report and the labors of the Assembly's Committee on Missions to the Freedmen are hereby approved; and we note with gratitude the fidelity, the economy, and the efficiency with which this work has been prosecuted the past year.

Second. In view of the gracious blessing of God upon past labors, and the ever widening door for future work, the Assembly renews its former earnest recommendations of this cause, and asks the serious attention of all pastors and sessions who have failed to make collections for it in the past, to the grave responsibility they incur by neglecting to give their churches an opportunity to secure the blessings of them that are ready to perish, and the favor of Him who is pleased when we remember the poor.

Third. The Assembly would especially recommend the whole educational work of this Committee to those large hearted members of our communion to whom our Lord has entrusted the stewardship of wealth, as affording a most precious opportunity of serving their own generation by the will of God, and of blessing future generations by their beneficence; and we would specially sanction the plans for the enlargement of Biddle University, as meeting in part an imperative demand for more laborers in this field.

Fourth. The Assembly would also endorse the effort to secure the erection of a building at Franklinton, North Carolina, for the use of the State Normal School, provided the means for that purpose can be expended under the direction of the Committee, and the title to the property secured be vested in the Trustees of the Assembly.

Fifth. That records of the Assembly's Committee are approved, and the Committee as at present constituted is hereby reëlected for the ensuing year.
